Mg 2.4
BNP 18800
Lactate 9.7
INR 1.5

Imaging: Upright CXR shows what appears to be free air under the diaphragm on the right and possibly also on the left. No chest abnormalities. KUB shows multiple dilated loops of small bowel concerning for obstructive process

Assessment:
1. Pneumoperitoneum, likely perforated viscus
2. GIB
3. Sepsis
4. Hyperglycemia
5. AKI
6. Profound hyponatremia

Plan:
1. Pt has physical exam findings consistent with peritonitis and severely deranged laboratory values. At this point the patient needs to proceed to the operating room emergently for an exploratory laparotomy. Operative intervention was discussed with the patient and his wife at the bedside. The critical nature of the patient was conveyed to both the patient and his wife. Risks including death were discussed. It was also related to patient that there is a good chance he may die he does not go to the operating room. They have both agreed to proceed and his wife will sign the consent form on his behalf
2. Pt is in critical condition. At this point he desires to be full code
3. To SICU post op

Seen and examined with Dr. Elena M. Paulus, chief

      AUTHOR: MOORE,ROGENA S       EXP COSIGNER:
     URGENCY:                            STATUS: COMPLETED

  Depression Screening:
    PHQ-2
      A PHQ-2 screen was performed. The score was 0 which is a negative
          screen for depression.

          1. Little interest or pleasure in doing things
          Not at all

          2. Feeling down, depressed, or hopeless
          Not at all
  Alcohol Screening:
    AUDC (Mental Health Instrument)
      An alcohol screening test (AUDIT-C) was negative (score=0).

      1. How often did you have a drink containing alcohol in the past
      year?
      Never

      2. How many drinks containing alcohol did you have on a typical day
      when you were drinking in the past year?
      Response not required due to responses to other questions.

      3. How often did you have six or more drinks on one occasion in the
      past year?
      Response not required due to responses to other questions.
  Influenza Immunization:
    Patient refused the influenza vaccine.  Patient was advised of risks
    and benefits of influenza vaccine.
  PNEUMOCOCCAL VACCINE-NURSE:
    Patient declines Pneumococcal Vaccine.
  Tetanus Reminder:
    Patient refused Tetanus immunization.
  Tobacco Use Screen:
      Patient states they are a former tobacco user but has quit more than
      12 months ago.
    Meds offered, patient declined further treatment.
  ELEVATED BP >140/90:
    Blood Pressure taken at this visit.
      B/P: 140/85
    Patient is not on blood pressure medication.
    Patient does not have a blood pressure cuff at home.
    Patient can demonstrate/voice appropriate placement of cuff.
  MINI-COGNITIVE IMPAIRMENT SCREENING:
    Give 1 point for each recalled word after the CDT distracter.

    Score=3 (0-3 for recall).

    Give 2 points for a normal CDT, and 0 points for an abnormal CDT.  The
    CDT is considered normal if all numbers are depicted, once each, in
    the correct sequence and position, and the hands readably display the
    requested time.

    Score=2 (0 or 2 for CDT).

    Total Score=5 (Add the word recall and CDT scores together to get the
    Mini-Cog Score).
    Patient tested negative in the screen for cognitive impairment.

==========================================================================

 --- Original Document ---

07/14/15 CLINICAL REMINDER NOTE:
  Pneumococcal PCV13 (Prevnar13):
    The patient declines to receive the recommended dose of pneumococcal
    conjugate vaccine PCV13 (Prevnar 13).
      Comment: "I don't take any medicines or shots"
  HEALTHY LIVING/COPING SKILLS:
    Exercise Screening:

        Yes--Are you physically active, exercise 3 times a week
        20-30 min.
    Patient received education regarding exercise.
    Weight/Nutrition Screening:

        Yes Does your diet contain more fruit, grain, and vegetables
        than meats?
        No Have you had your stool checked for blood in the last
        year?
    Weight/Nutrition Education was provided to patient.
    Miscellaneous:

         No 1. Have you had a flex sig by an outside provider
    or at the Amarillo VA within the last 5 years?
         No 2. Have you had a colonoscopy by an outside provider
    or at the Amarillo VA within the last 10 years?
         No 4.  Do you take an aspirin daily?
  Depression Screening:
    PHQ-2
      A PHQ-2 screen was performed. The score was 4 which is a positive
          screen for depression.

          1. Little interest or pleasure in doing things
          More than half the days

          2. Feeling down, depressed, or hopeless
          More than half the days
  Alcohol Screening:
    AUDC (Mental Health Instrument)
      An alcohol screening test (AUDIT-C) was negative (score=0).
```

1. How often did you have a drink containing alcohol in the past year?
Never

2. How many drinks containing alcohol did you have on a typical day when you were drinking in the past year?
Response not required due to responses to other questions.

3. How often did you have six or more drinks on one occasion in the past year?
Response not required due to responses to other questions.

Tetanus Reminder:
Patient refused Tetanus immunization.

ELEVATED BP >140/90:
Blood Pressure taken at this visit.
B/P: 146/92
Patient is not on blood pressure medication.

Tobacco Use Screen:
Patient states they are a former tobacco user but has quit more than 12 months ago.

MINI-COGNITIVE IMPAIRMENT SCREENING:
Give 1 point for each recalled word after the CDT distracter.

Score=3 (0-3 for recall).

Give 2 points for a normal CDT, and 0 points for an abnormal CDT. The CDT is considered normal if all numbers are depicted, once each, in the correct sequence and position, and the hands readably display the requested time.

Score=2 (0 or 2 for CDT).

Total Score=5 (Add the word recall and CDT scores together to get the Mini-Cog Score).
Patient tested negative in the screen for cognitive impairment.

My HealtheVet Education:
The patient does not have access and does not use the internet.

Homelessness Screening:
In the past 2 months, have you been living in stable housing that you own, rent, or stay in as part of a household? Yes - Living in stable housing.
Are you worried or concerned that in the next 2 months you may NOT have stable housing that you own, rent, or stay in as part of a household?
No - Not worried about housing near future

PRIMARY CARE PRESSURE ULCER RISK:
1. Is the Veteran bed-confined or a wheelchair-user (wheelchair-user defined as being wheelchair bound for >50% of wake hours)?
No

2. Does the Veteran require assistance to transfer/change positions?
No

3. Does the Veteran report any current pressure ulcers, a history of pressure ulcers, or a wound from a medical device, such as artificial limb, braces, spling, implanted pump, automatic implanted cardioverter-defibrillator, oxygen tubing, Foley or condom catheter, tracheostomy, feeding tube, or other medical device?
No

The patient is NEGATIVE for pressure ulcer risk.

==========

Plan/Assessment:
1. Obstructive uropathy 2/2 to elarged prostate (BPH vs malignancy). PSA is 1.0. We will keep him on foley cather and he will see urologist on an outpatient basis next week.

2. Loss of balance: He has been complaining of loss of balance since after hernia surgery 10 days ago. However he is better today and was able to walk without problems. He was evaluated by PT and he is cleared for discharge.

2. UTI VS bactriuria in presence of obstructive uropathy which necessiate Abx treatment. No evidence of urine infection from urinalysis reports obtained from kansas. will continue Rocephin
3. Uncontrolled DM II: We have d/c'ed his sliding scale and put him on lantus and glipizide.
4. AKI. resolved.
5. VTE. declined anticoagulations. kept on SCDs.
6. Moderate protein cal malnutrition.
[ ] Medication reconciliation was completed with the patient/caregiver.

Indwelling catheter assessment of continuing need:
Catheter present.

Central venous line assessment of continuing need:
No Central Venous Line present.

AUTHOR: RICE,ERIC T EXP COSIGNER:
URGENCY: STATUS: COMPLETED

*** UROLOGY-OUTPATIENT (C) Has ADDENDA ***

PATIENT NAME: HOPKINS, MARSHALL

DATE: 09/01/2015

HISTORY OF PRESENT ILLNESS: 72-year-old gentleman presents in consultation regarding postoperative urinary retention. Patient underwent hernia repair last month and developed postoperative urinary retention. He initially presented to the hospital in Liberal, Kansas. CT at that time reported bilateral hydroureteronephrosis and bladder distention (films are not available for my review). Foley catheter was placed and patient was transferred to this facility for continued care.

Hospital course was uneventful and patient was discharged with indwelling catheter. No previous history of urinary retention or bothersome lower urinary tract symptoms prior to surgery. He currently denies fever, chills, dysuria, or gross hematuria.

LABORATORY DATA: PSA 1.04 and serum creatinine 0.77 a few weeks ago.

PHYSICAL EXAMINATION: EXTERNAL GENITALIA: Indwelling Foley catheter with clear urine output. DIGITAL RECTAL EXAMINATION: Prostate estimated be 40 cc in volume with a boggy consistency. No suspicious induration or nodularity appreciated.

ASSESSMENT/PLAN: Postoperative urinary retention, as above. Foley catheter is removed for voiding trial. Patient will continue tamsulosin as prescribed. Will issue an empiric course of antibiotics and repeat computed tomography (CT) abdomen and pelvis today. Return to clinic later this month for a postvoid residual. Routine urinary retention warnings were given. Schedule routine urology follow up in 3 months for re-evaluation.

/es/ ERIC T. RICE, PA-C
PHYSICIAN ASSISTANT
Signed: 09/03/2015 10:44

09/03/2015 ADDENDUM STATUS: COMPLETED
CT revealed bilateral renal cysts without nephrolithiasis. No clinically significant hydroureteronephrosis appreciated. Nonspecific bladder wall thickening without obvious mass. Will likely need to consider cystoscopy in the future.

/es/ ERIC T. RICE, PA-C
PHYSICIAN ASSISTANT
Signed: 09/03/2015 10:53

09/03/2015 ADDENDUM STATUS: COMPLETED
Pt presented to the Emergency Department 09-03-15 due to inability to void. PVR was > 999 mL. Foley catheter was replaced and left indwelling. Have scheduled diagnostic cystoscopy 09-10-15. Pt was called and message left regarding upcoming appointment. He was encouraged to call this clinic if any questions.

Visited day 2 patient for spiritual assessment per Chaplaincy protocol. Mr.
Hopkins appeared alert, oriented, and in fair spirit. Veteran's spiritual
request was for religious literature. Provided pastoral support, listening,
blessing, and literature. Advised patient of Chaplain services and left Service
information literature. Follow-up as requested or per Chaplaincy protocol.

     URGENCY:                            STATUS: COMPLETED

Pt observed the Watch PAT-100 training DVD.  After DVD, operation of the
equipment was demonstrated by me.  Pt did not have any questions at this
time. Pt issued equipment #21019, return postage and instructed to mail
it back tomorrow.  Pt reminded that there is an instruction card inside
the carrying case. Pt advised to refrain from driving and operating heavy
machinery while going through the testing phases for sleep apnea and at
least until pt receives therapy if needed.

Pt's resting room air spo2 = 92%.  Pt states he quit smoking in 1972, but
smoked 1.5 pks a day for 22 years. Pt fitted for a large full face mask #61203
in case he qualifies for CPAP therapy.

Pt Signed Authorization to Release Medical Information for sleep study
Equipment and it will be sent to be scanned into CPRS.

intervention to lower his blood sugar."

Follow-up issues: Spoke with pt via phone this am. States he was discharged from ED on 6/26/15 and spent the weekend at his residence at Hooker, OK. This am traveling to his home in Missouri. States he is feeling fine. Denies dizziness, confusion, n/v, or blurred vision. Blood sugar by EMS on 6/26/15 was 355 and at hospital lab 408. Pt does not admit that he has diabetes and states "I am working on some things regarding my pancreas." Nurse strongly encouraged pt to follow-up with provider at KC VA due to high blood sugars. States he would.

Will forward Southwest Medical Center ED notes to provider for review.

HOSPITAL DISCHARGE FOLLOWUP

Contact: Spouse patient present
Discharge Date: 08-27-15
Discharge Diagnosis: Urinary Incontinence, Diabetes, Inguinal Hernia
Patients comments regarding current treatment plan:
    "he is doing fine.  He has an appointment tomorrow".

Evaluation & assessment of current treatment plan:
    Mr. Hopkins acknowledge understanding of the current D/C POC.

Patient education:
    I instructed Mrs. Hopkins the clinic has been cancelled for Team Patriot for
    this Friday.  I also instructed her each patient is be rescheduled.  I ask
Mrs.
    Hopkins if they had a preference and she states no.  "Just send the new
appt., when available".

Any changes in your condition since discharge? No

Date of follow up appointment:
                      09/01/2015 11:00 AMA-GEN SURG NEW YELLOW
                      09/01/2015 13:45 AMA-UROLOGY/PA
                      09/04/2015 10:00 AMA-PACT PATRIOT (cancelled)

Anything specific you want to talk to your PCP about? Yes
    See HR Education note

The patient/family was asked the following:
1. Were you provided a copy of your updated medication list upon discharge
from this facility? Yes

2. Do you know where to call to get more information? Yes
Pain
Patient currently has no pain. "he said he does not have pain".

Time Spent:  11-20 minutes
Nursing Comments: Including HR education.

RTC: 1 year

Labs ordered to obtain during next visit:

Fasting Chemistry Metabolic panel, CBC, lipid profile, PSA, Hgb A1c, Urine microalbumin, T4.

Long discussion about the risks of untreated Diabetes mellitus, hyperlipidemia and RIH. Several questions were answered. He appears to understand but ABSOLUTELY REFUSES ANY MEDICATION. He understands this will likely result in premature DEATH. He prefers to follow a low fat / ADA diet and exercise only. He understands to call anytime should he agree to start medication.

Pt instructed to call or RTC if ever needed prior to next scheduled appointment.

PATIENT NAME:  HOPKINS, MARSHALL

DATE:  09/10/2015

HISTORY OF PRESENT ILLNESS:  72-year-old gentleman with a history of
postoperative urinary retention.  He has failed multiple voiding trials, most
recently following his encounter with me earlier this month.  No history of
significant voiding problems prior to surgery.  He currently complains of penile
discomfort since catheter was replaced in the Emergency Department on September
3, 2015.  No associated fever or chills.  Patient comes in today for diagnostic
cystoscopy.

PROCEDURE:  Informed consent was obtained.  External examination revealed
inguinal and scrotal candidiasis.  Area was copiously cleaned with betadine
solution and patient draped in the usual fashion.  Cystoscopy was performed
revealing prostatic hyperplasia without significant obstruction.  Bladder
appeared to be irritated but visualization was limited due to snow effect
consistent with candiduria.  Procedure was well tolerated.  Postprocedure void
residual was 470 mL.

ASSESSMENT/PLAN:  Urinary retention, without significant outlet obstruction.  I
suspect patient has detrusor incompetence aggraviated by poorly controlled
diabetes.  He also has inguinal candidiasis and suspected candiduria.  Start
Diflucan 200 milligrams daily for 14 days.  Patient will finish out previously
issued Cipro as directed.  We elected to defer replacing indwelling catheter.
Patient was educated on self-catheterization which he performed in clinic
without difficulty.  Issued Betadine scrub solution to clean groin and scrotal
area twice daily as directed.  Return to clinic in 1 month for re-evaluation,
sooner if any problems develop.

                             RN, BSN

05/17/2011 ADDENDUM   STATUS: COMPLETED
Per PCP request, contacted pt to discuss hyperlipidemia and diabetes. Pt states
that he normally follows a very healthy diet but "fell off the wagon" the last
few weeks. He does not believe he has diabetes and states that he and his wife
do not believe in taking medications; they are into natural foods and herbals.
Discussed that A1c is a 90 day average of blood glucose. Pt would like to
repeat lab work in 3 months. Also, mentioned glucometer; pt indicated that his
wife may have a meter that he can use (was given to them by someone who was a
diabetic and was able to discontinue medication). Pt also states that he usually
has blood in his urine during most of his physicals. Transferred pt to TA to
make appt in 3 months.

STANDARD TITLE: DISCHARGE SUMMARY
DICT DATE: AUG 27, 2015@15:32 ENTRY DATE: AUG 27, 2015@15:33:02
DICTATED BY: MIRZA,ASADULLAH B ATTENDING: WAN,BANG
URGENCY: routine STATUS: COMPLETED

ADMISSION DIAGNOSIS:
Diabetes
Urinary incontenance
Obstructive uropathy
Inguinal herna s/p surgical repair

DISCHARGE DIAGNOSIS:
Diabetes
Urinary incontenance, has indwelling urinary catheter.
Inguinal herna s/p surgical repair

CONSULTS: Urology

PROCEDURES: None

CHIEF COMPLAINT AND HISTORY OF PRESENT ILLNESS:

72 year old veteran male from Kansas. PMH of DMII not on meds. Has been transfered to VA amarillo for obstructive uropathy. patient underwent surgery for hernia repair a week ago here in the VA and was discharged the next day. stated that On his way to Kansas he some urinary incontinence accident for the first time. He states that he has no urge to urinate and does not feel when he passes urine. No pain, burning or uregency. No prior history of prostatism or diagnosis of BPH. He aslo had a
few episodes of hiccups and what he describes as unsteady gait. He called VA amarillo and was told to seek a medical advice close to his residence. He was admitted to southwest medical center in Kansas after his CT scan showed bilateral hydronephrosis and hydroureters with periureteric and perinephric stranding, prominent prostate and distended bladder. Placement of indweling foley catheter retrieved considerable amount of urine. He was also found to have some kidney injury with creatinine of 1.5 that came back to normal after 24 hours of obstruction relief.
He was also not on any antidiabetic meds with HbA1c of 10.8. patient has an unshakable believes in not taking meds, he would prefer taking herbs to treat his medical problems.

COURSE IN HOSPITAL:
Patient came from Kansas where he was found to have obstructive uropathy. Catheter was placed and produced large amounts of urine. At Va amarillo he was evaluated for his unsteady gait an is able to walk fine today. He was evaluated by PT/OT and they cleared him as he was able to walk without problems. He was seen by urology inpatient and was advised to follow up with the urology outpatient clinic next week. He was started on flowmax he is in stable condition has no acute distress and we will discharge him home today with indwelling catheter. His blood sugars have been around 200 and he does not take any medication, and his last HbA1c was 10.2. We have started him on glipized and will give him glucometer to follow his sugar closely. We will also provide him with diabetes education.

Resident received education regarding MRSA screening, transmission and prevention measures.
MRSA swab collected and sent to lab.

LOCAL TITLE: OPERATION REPORT
STANDARD TITLE: OPERATIVE REPORT
DATE OF NOTE: AUG 19, 2015@07:55 ENTRY DATE: AUG 19, 2015@10:10:34
SURGEON: AHMED,SYED H ATTENDING: AHMED,SYED H
URGENCY: routine STATUS: COMPLETED
SUBJECT: Case #: 65578

PATIENT NAME: HOPKINS,MARSHALL

DATE: 08/19/2015

PREOPERATIVE DIAGNOSIS: Right inguinal hernia.

POSTOPERATIVE DIAGNOSIS: Right inguinal hernia.

PROCEDURE: Repair of right inguinal hernia with Bard mesh plug.

SURGEON: Syed Ahmed, MD

ASSISTANT: Jaime Tindall

ANESTHESIA: General with endotracheal intubation.

JUSTIFICATION FOR THE PROCEDURE: The patient was seen in the Surgical Clinic with very large right inguinal scrotal swelling. The patient had it for several years. According to him he had repair of a right inguinal hernia done twice in the 1970s. On examination, there was a very large inguinal scrotal hernia. Patient was able to reduce it but with difficulty. Diagnosis of right inguinal hernia was discussed with the patient. Repair with mesh was offered as a treatment. The procedure was explained in detail. Risks and benefits of the operation were discussed. These included, but were not limited to, bleeding, infection, nonhealing of the wound, testicular swelling, hematoma formation and possible recurrence of the hernia. The patient had opportunity to ask questions. These were answered to his satisfaction. The patient agreed to proceed with the operation.

DESCRIPTION OF PROCEDURE: After general anesthesia was administered, the skin of the lower abdomen and genitalia was prepared with ChloraPrep and draped. Incision was made in the right groin 2.5 cm above and parallel to the inguinal ligament. The incision was deepened. Subcutaneous fat and the Scarpa fascia was divided and

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

external oblique aponeurosis was identified. External ring was visualized and a very large inguinal scrotal hernia was seen coming out of the external ring and going to the scrotum. The external ring was divided. Superior and inferior flaps were raised in the external oblique aponeurosis to reveal the deep ring. The hernia sac was then mobilized at the level of the pubic tubercle and a Penrose drain was passed around it. The hernia sac was then gradually dissected removing it's coverings. The sac was entered. The sac was then completely separated from the contents of the inguinal canal. The sac was held at the fundus with 2 hemostats and opened with Metzenbaum scissors. The sac was opened up to the level of the deep ring. At that level it was divided and excised. The opening in the sac was then closed with a running suture of 0 Vicryl. The defect was then repaired by placement of a Marlex mesh plug in the deep ring. Sutured in place with interrupted 2-0 Prolene. Adequate tension-free repair was obtained. The spermatic cord, vas deferens and vessels were protected throughout the course of the operation. The wound was irrigated thoroughly with normal saline containing antibiotic solution Ancef. External oblique was closed with a running suture of 0 Vicryl. Subcutaneous fat was approximated with interrupted 3-0 Vicryl. Then, 30 mL of 0.5% Marcaine was infiltrated in the skin edges. The skin was approximated with staples.

Patient tolerated procedure well, was extubated, and transferred to recovery in a stable condition.

ESTIMATED BLOOD LOSS: 25 mL.

SPECIMEN: Hernia sac.

Nursing Care Comments:
0754 - Received report from C Rivera RN and assumed care of pt. 0755 - Pt transferred from DSU2 to OR3 via stretcher with side rails up x 2 by A Blackwell RN. Pt moved onto OR table with minimal assistance into supine position. Monitors applied at HOB by Dr Warren. General anesthesia induced without incident. Pillow placed underneath head, arms abducted to 90 degrees and supinated on padded armboards with eggcrate foam padding and secured with pillow cases and tape. Safety strap placed across pt thorax. Pt head/thorax/sacrum on megadyne gel bovie pad. Upper body bair hugger applied and turned on. Remaining hair clipped from right groin/scrotum with clippers by A Blackwell RN. Pt RLQ/right groin/scrotum prepped with Chloraprep solution by A Blackwell RN. No pooling of prep solution noted and pt draped by T Bryant CFA. 0824 - Time out performed with all personnel in agreement. 0825 - Procedure begun. 1gm Ancef powder verified and placed on backtable for use as irrigation to soak mesh. Procedure tol well - concluded at 0950. Medium jock strap applied to apply pressure dressing with fluffed kerlix. Pt emerged from anesthesia easily and transferred back onto stretcher via OR personnel with assistance of roller board. Pt transferred to PACU via stretcher with side rails up x 2. 1004 - arrived in PACU, report given to J Gerald RN who assumes care of pt. Monitors placed, VSS, blood glucose checked with result of 258, pt resting comfortably.

06/29/15 WI-PRIMARY CARE FOLLOW-UP:
Primary Care Follow-Up

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Patient recently treated in:
Non-VA Emergency Room
Southwest Medical Center Liberal, KS

Diagnoses were: Hyperglycemia, dizziness

Medications added, stopped or changed:
None- SWMC ED notes: "pt strongly refused to take any medication or any medical intervention to lower his blood sugar."

Follow-up issues: Spoke with pt via phone this am. States he was discharged from ED on 6/26/15 and spent the weekend at his residence at Hooker, OK. This am traveling to his home in Missouri. States he is feeling fine. Denies dizziness, confusion, n/v, or blurred vision. Blood sugar by EMS on 6/26/15 was 355 and at hospital lab 408. Pt does not admit that he has diabetes and states "I am working on some things regarding my pancreas." Nurse strongly encouraged pt to follow-up with provider at KC VA due to high blood sugars. States he would.

Will forward Southwest Medical Center ED notes to provider for review.

Reason for appointment:
RN Triage

Is the patient diabetic?
Yes - patient is a diabetic.

Last HGBA1c value and time done: 13.6 3/19/15

HGBA1c < 7, repeat in 6 months HGBA1c > 7, repeat in 3 months
Are you registered for My HealtheVet (MHV)?
No - Are you interested in registering? No If 'yes' please hand Veteran My HealtheVet brochure.

Pt ambulatory to clinic states he is dizzy and eyes are blurring. Primary residence is in Hooker, OK and pt was driving to Kansas City this am and developed sx while driving. States he waited a few minutes and continued feeling light headed and somewhat confused. States had dizziness 3-4 times in past 2 weeks and just thought maybe he was getting up too fast. Night before last vomited x 5, denies having fever. Unsteady gait while walking down hall in clinic this am, used wall to support self at times. States "my body just feels strange." Hx of diabetes but refuses medication. Latest hgb a1c 13.6 on 5/19/15. States has lost approx. 20 lbs in last month. Oriented x 4. Pulse irregular and weak. Denies chest pain or nausea. Lungs sounds clear to auscultation. Hand grips strong bilaterally. Denies SOB.

RTC: 1 year

Labs ordered to obtain during next visit:

Fasting Chemistry Metabolic panel, CBC, lipid profile, PSA, Hgb A1c, Urine microalbumin, T4.

Long discussion about the risks of untreated Diabetes mellitus, hyperlipidemia and RIH. Several questions were answered. He appears to understand but ABSOLUTELY REFUSES ANY MEDICATION. He understands this will likely result in premature DEATH. He prefers to follow a low fat / ADA diet and exercise only. He understands to call anytime should he agree to start medication.

Pt instructed to call or RTC if ever needed prior to next scheduled appointment.

Response not required due to responses to other questions.

COLORECTAL CANCER SCREEN:
Patient provided education/counseling related to colorectal cancer screening, but declined.
DEPRESSION SCREEN:
PHQ-2 (Mental Health Instrument)
A PHQ-2 screen was performed. The score was 0 which is a negative screen for depression.

1. Little interest or pleasure in doing things
Not at all

2. Feeling down, depressed, or hopeless
Not at all

INFLUENZA VACCINE (SEASONAL):
Patient counseled on health risks/benefits of influenza vaccine, but declined vaccine during flu season.
PRESSURE ULCER RISK SCREEN:

	--STATUS--	--DUE DATE--	--LAST DONE--
KC-Pressure Ulcer Risk Screening	DUE NOW	04/15/2015	04/15/2014

All responses are negative. Screening for risk is negative.
Fall Risk Assessment
1. Do you feel you are at risk for falling?
No
2. By observation patient appears to have instability with functional mobility.
No
3. Have you fallen within the last 12 months?
No

Dear HOPKINS,MARSHALL HUGH,

You are receiving this letter in regard to your recent Teleretinal Imaging exam (eye exam) that was done in CAMERON CBOC 1111Euclid Dr Cameron,MO 64429 CBOC.

Your exam results were normal - no diabetic retinopathy noted.

A one to two year follow up screening was recommended and we will schedule you for this when the next exam is due.

Thank you so much for allowing us to serve you.

Teleretinal Imaging Department
Kansas City Veterans Affairs Medical Center
CAMERON CBOC 1111Euclid Dr Cameron,MO 64429 CBOC

*Know the ABC's of Diabetic Eye Disease and remember to keep your numbers low, take all your medication as prescribed, and get regular physical exercise to maintain a healthy weight.

DISPOSITION:
Patient scheduled for Diabetic Teleretinal Imaging
Patient Education :

Discussed with pt the ABC's of diabetic eye disease Aic, Blood pressure, Cholesterol and the importance of keeping these numbers low. Discussed etiology
of Diabetic Retinopathy, discussed terms in diabetes glossary, and longterm complications of diabetes such as retinopathy. Spoke with pt about the importance of every 1-2 year eye screening to prevent loss of eyesight. Gave pt
(and discussed) the following Krames pt ed materials to take with him today:
1) What is Diabetic Retinopathy?
2) Diabetes Glossary
3) Longterm Complications of Diabetes

Also gave pt the following National Eye Institute material:
1) Don't Lose Sight of Diabetic Eye Disease

Reviewed eye anatomy; macula, optic nerve, blood vessels and viewed and discussed normal retinal images and images with diabetic retinopathy with patient, utilizing the Conditions of The Retina poster provided by Topcon.

Pt verbalizes understanding of all above and has material to review at home.

Eye History: None

Ocular Surgery (excluding eyelid, cataract, laser refractive like lasik or Photorefractive Keratectomy): none

Ocular Trauma? None

Ocular medications? None

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Family History of ocular disease? None

Does pt give verbal consent for imaging today? Yes, has given consent.

Dear MARSHALL HUGH HOPKINS,

I wanted to update you on your recent lab/test results:

LIPIDS
CHOL: 239 (04/08/14 08:15)
HDL: 44 (04/08/14 08:15)
LDL-CAL: 145 (04/08/14 08:15)
RISK FA: 18 (04/08/14 08:15)
TGL: 249 (04/08/14 08:15)
(LDL is the "bad" cholesterol)
(HDL is the "good" cholesterol. Target is >40. Exercise can increase
HDL) (TGL = triglycerides. Target is <150. A nonfasting sample,

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

sweets, alcohol, weight gain, and diabetes can increase these.)
Your goal LDL is <100 (vascular disease or diabetes or chronic kidney disease)

HEMOGLOBIN A1C 9.8 % H (04/08/2014 08:15)
Your target Hgb A1C is 6.5
(The Hgb A1C tells us information about your diabetes control over the past 3 months)

LIVER PANEL
ALB: 4.3 (04/08/14 08:15)
ALKPHOS: 58 (04/08/14 08:15)
ALT: 19 (04/08/14 08:15)
AST: 15 (04/08/14 08:15)
TBIL: 0.7 (04/08/14 08:15)
TP: 8.1 (04/08/14 08:15)
Results are normal

HEMOGLOBIN 15.4 g/dl (04/08/2014 08:15) (red blood cell count)
Results are normal

CHEM 7
ANI GAP: 14.0 (04/08/14 08:15)
BUN: 12 (04/08/14 08:15)
CA: 9.4 (04/08/14 08:15)
CL : 99 (04/08/14 08:15)
CO2 : 29 (04/08/14 08:15)
CRT: 0.90 (04/08/14 08:15)
EGFR: 83.4 (04/08/14 08:15)
GLU: 244 (04/08/14 08:15)
K: 3.8 (04/08/14 08:15)
NA: 142 (04/08/14 08:15)
(BUN and CRT measure kidney function)
Results are normal

TSH 2.310 uIU/mL (04/08/2014 08:15)
This is a thyroid function test. The results are normal.

IN SUMMARY:
1. TC GOAL IS <200, LDL (BAD) GOAL <100 DUE TO DIABETES. YOU HAVE INDICATED THAT YOU DECLINE TO TAKE MEDICATION AT THIS TIME.

2. DIABETES - THE A1C REFLECTS AVERAGE BLOOD SUGAR OF 227. NORMAL A1C IS 5.8, AVERAGE BLOOD SUGAR OF 107. GOAL FOR APPROPIRATELY TREATED DIABETES IS 6.5, AVERAGE BLOOD SUGAR OF 130. YOU HAVE DIABETES. TREATMENT FOR DIABETES IS NEEDED. AT YOUR RECENT VISIT YOU DECLINED THERAPY.

3. INGUINAL HERNIA - PER SURGEON'S NOTE, HE IS UNABLE TO TO PERFORM SURGERY DUE TO YOUR UNTREATED DIABETES.

Future Appointments:
06/04/2014 09:00 KC-GEN SURG-FOLLOW UP
06/22/2014 13:00 KC-RAD-US

If you have any questions, please call the clinic. If you decide to initiate medical therapy, let us know.

CC: recurrent right inguinal hernia

HPI: Mr. Hopkins is a 70 y/o M who presents to the clinic for evaluation of a right inguinal hernia. The patient has had two operations to fix his RIH previously, the first in 1969 and the second in 1974 (which was done with mesh). The patient states he again noticed a bulge in his right groin about 3 mo ago. It is soft and reducible, but not painful. He has been wearing a truss for support. The patient recently moved to KC from Oklahoma. Of note, Mr. Hopkins is a diagnosed diabetic with an A1c of 9.8 and blood glucose >240, but refuses any medical therapy. He states "I do not believe in medication" and states he will work on his diet to bring down his blood glucose.

Psych: approp mood & affect

LABS/RADIOLOGY:
LAB RESULTS FOR: APR 30, 2014 - NONE FOUND, no imaging

A/P: 70 y/o M with recurrent RIH:

The patient is a candidate for open repair with mesh. However, his diabetes needs to be better controlled. We discussed the risk of operative complications including mesh infection and poor wound healing, secondary to his diabetes. The patient adamantly refuses accepting medical therapy for his diabetes, and states he will improve his blood glucose levels with diet alone. We will have him follow up in 1 mo with a fasting blood glucose and HbA1c level checked on the morning of the visit.

Patient seen and discussed with Dr. Stark.

(b) (6)

Dear MARSHALL HUGH HOPKINS,

This letter is written in followup of your recent visit.

As we discussed, you have diabetes with very high blood sugar (BS) on average. We know this because your A1C is 9.8, average BS for the last 3 months is 240.

We will provide a glucose meter and supplies, so that you can monitor your home BS readings. Please call the clinic to arrange provision of the meter and instructions.

Your surgery appointment is 4/23/14 at 9:30am. It is not the surgery but a pre-surgery evaulation.

If you have any questions, please call.

Sincerely,

Elizabeth Dean, D.O.

X-RAY: RIGHT SHOULDER PENDING

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

ASSESSMENT/PLAN:
1. DIABETES - PT. DECLINES ANY THERAPY. DISCUSSED A1C INTERPRETATION, AVERAGE BS IN LAST 3 MOS OF 240. ALSO ADVISED PT. THAT IMPLICATIONS OF HIGH BS ARE RISK OF CARDIOVASCULAR DISEASE. LOW CHO DIET DISCUSSED AND INFORMATOIN DISPENSED.

2. SCREENING FOR MALIGNANT NEOPLASMS OF COLON - PT. DECLINES TO HAVE COLONOSCOPY. HE AGREED TO COMPLETE STOOL CARDS. DISPENSED.

3. HYPERLIPIDEMIA - DECLINES THERAPY. DISCUSSED RESULTS AND GOALS.

4. RIGHT SHOULDER PAIN - XRAY PENDING.

5. RIH RECURRENT - SURGERY CONSULT. PT. ADVISED THAT SINCE HIS BS IS HIGH THEY MAY BE RELUCTANT TO PERFORM THE SURGERY.

6. SLEEP APNEA - PT. HAS CPAP BUT DECLINES TO USE IT.

7. ALCOHOLISM IN REMISSION - ACCOLADES.

8. TOBACCO USE IN REMISSION - ACCOLADES.

PATIENT EDUCATION:
(X)Diet: weight and cholesterol management. LOW CHO, LOW FAT
()Exercise: 20 minutes or to capacity; four days per week minimum.
(X)Medications: benefits and side effects. NA. NOT TAKING AND REFUSING MEDICATIONS.
(X)Lab: reviewed with patient. COPIES OF LABS TO PT AND DISCUSSED W/HIM TODAY.
(X)Smoking cessation: advised and supported. ACCOLADES
()Other:

CLINICAL REMINDER ACTIVITY:
  Zoster/Shingles Vac Candidate (KC):
    Zoster/Shingles vaccine (Zostavax)
      Patient counseled on health risks/benefits of Zoster/Shingles vaccine, but declined vaccine at this time.

  Screen for PTSD (KC):
    PC PTSD
      A PTSD screening test (PTSD 4Q) was negative (score=0).

      1. Have had any nightmares about it or thought about it when you did not want to?
      No

      2. Tried hard not to think about it or went out of your way to avoid situations that remind you of it?
      No

      3. Were constantly on guard, watchful, or easily startled?
      No

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

4. Felt numb or detached from others, activities, or your surroundings?
No

Elopement Risk Assessment (KC):
ELOPEMENT RISK ASSESSMENT
Conditions that might lead to this decision may include but not limited to:

High risk elopement factor(s) no longer apply

Homelessness Screening(KC):
In the past 2 months, have you been living in stable housing that you own, rent, or stay in as part of a household? Yes - Living in stable housing.
Are you worried or concerned that in the next 2 months you may NOT have stable housing that you own, rent, or stay in as part of a household?
No - Not worried about housing near future

Medication Reconciliation (KC):
MEDICATION RECONCILIATION
1. I have reviewed the list of medications the patient is taking with the patient and/or caregiver and reconciled the medications to the extent appropriate to the scope of this visit.
No differences identified
3. Copy of reconciled medication list given to patient and/or caregiver.
Patient verbalizes understanding:

yes.

Patient educated on:
- Medication side effects
- Importance of taking medications as prescribed
- Updating medication list when medications are discontinued, changed, or new medications are added
- Always bringing a list of current medication information to all doctor visits
- Always carrying current medication information in the event of emergency situations

Quit Tobacco Intervention:
This patient is not a current tobacco user.

KC-MOVE!:

Patient was provided with weight loss counseling about risks of being overweight and/or obese by this provider. Recommendation was made for the Veteran to increase activity and participate in a weight management program.

Patient declined/or would not benefit referral to MOVE!/Weight Management Program at this time due to:
Medical Condition: AT IBW

Learning Assessment (KC):

LEARNING ASSESSMENT
Patient has religious, cultural, or ethnic preferences that impact his/her care?
No

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Patient Preferred Health Care language is:
English
LEARNING BARRIER(S)**
Has no barriers to learning.
READINESS TO LEARN**
Patient is ready to learn
READING ABILITY**
Patient reads well.
LEARNING ABILITY**
Able
PREFERRED METHOD OF LEARNING**
Reading
N:Hepatitis C Risk Assessment:
Risk factors for Hepatitis C include Blood Transfusions prior to 1992, IV Drug Use, Exposure to Blood/Blood Products, Multiple Sexual Partners, Hemodialysis, Tattoo/Body Piercing, Cocaine Use, Unexplained Liver Disease, Unexplained Abnormal ALT/SGPT, History of Alcohol Abuse.
Patient has no risk factors for Hepatitis C.

LETTER TO PT. IN FU OF DIABETES, VERY HIGH BS, ABNORMAL CHOLESTEROL, HIGH RISK OF CAD. OFFER METER FOR BS MONITORING.

RTC 12 MOS - A1C, VIT. D, B12, FLP, L/R, PSA, TSH, CBC W/DIFF.

We are still processing your application for Dependency and Indemnity Compensation. We apologize for the delay. You will be notified upon completion of processing. If you need to contact us, be sure to show the file number and full name of the veteran.

If your mailing address is different than that shown above, please advise us of your new mailing address. You should notify us immediately of any changes in your mailing address.

If you reside in the Continental United States, Alaska, Hawaii, Guam, the Northern Marianas, or Puerto Rico, you may contact VA with questions and receive free help by calling our toll-free number 1-800-827-1000 (for hearing impaired TDD 1-800-829-4833). From American Samoa you may dial toll free 684-699-3730. Philippines residents call 632-550-3888.

Note: TDD phone number 1-800-829-4833 does not work for callers residing in Guam and the Northern Marianas.

Sincerely yours,

Regional Office Director

DEPARTMENT OF VETERANS AFFAIRS

October 8, 2020

DARLENE HOPKINS
310 MAIN ST
ALTAMONT MO 64620

In reply, refer to:
330/22R2/KJW
File Number: (b) (6)
Marshall H. Hopkins

IMPORTANT -- reply needed

Dear Darlene Hopkins:

We are working on your claim for:

- survivors pension
- dependency and indemnity compensation

What Do We Still Need from You?

We need additional evidence from you. ***Please put your VA file number on the first page of every document you send us.***

In order to support your claim for service connected dependency and indemnity compensation (DIC) under 38 U.S.C. 1151, you must provide evidence that shows that as a result of VA hospitalization, medical or surgical treatment, examination, or training, the Veteran had an additional disability or disabilities, or an aggravation of an existing injury or disease, and the disability was the direct result of VA fault such as carelessness, negligence, lack of proper skill, or error in judgment, or not a reasonably expected result or complication of the VA care or treatment, or the direct result of participation in a VA Vocational Rehabilitation and Employment or compensated work therapy program.

If you are reporting that a surgery caused the veteran's claimed service connected condition. Please report the type/name of the surgery, approximate date and place where the surgery occurred.

If you are reporting that medication caused the veteran's claimed service connected condition. Please report the name of the medication and the approximate date it was prescribed, if known.

We are requesting medical records from Amarillo and Memphis VA Medical Centers. If the Veteran was treated by a private physician, you may submit the evidence yourself or please complete the enclosed VA Form 21-4142, Authorization To Disclose Information To The Department of Veterans Affairs and return it to the VA form processing.

Where Should You Send What We Need?

Please note that the quickest, easiest, and most secure way to submit any documents to us is via the eBenefits website. Just visit www.eBenefits.va.gov to register. Please also refer to the 'What is eBenefits?' section of this letter for more information.

Please send what we need to this address:

You can send what we need to the appropriate address listed on the attached Where to Send Your Written Correspondence chart.

How Soon Should You Send What We Need?

We strongly encourage you to send any information or evidence as soon as you can. If we do not hear from you, we may make a decision on your claim after 30 days. However, you have up to one year from the date of this letter to submit the information and evidence necessary to support your claim. If we decide your claim before one year from the date of this letter, you will still have the remainder of the one-year period to submit additional information or evidence necessary to support your claim.

What is eBenefits?

eBenefits provides electronic resources in a self-service environment to Servicemembers, Veterans, and their families. Use of these resources often helps us serve you faster! Through the eBenefits website you can:

- Submit claims for benefits and/or upload documents directly to the VA
- Request to add or change your dependents
- Update your contact and direct deposit information and view payment history
- Request a Veterans Service Officer to represent you
- Track the status of your claim or appeal
- Obtain verification of military service, civil service preference, or VA benefits
- And much more!

Enrolling in eBenefits is easy. Just visit www.eBenefits.va.gov for more information. If you submit a claim in the future, consider filing through eBenefits. Filing electronically, especially if you participate in our fully developed claim program, may result in a faster decision than if you

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

submit your claim through the mail.

How Can You Contact Us?

If you are looking for general information about benefits and eligibility, you should visit our web site at http://www.va.gov. Otherwise, you can contact us in several ways. Please give us your VA file number, **529 56 7575**, when you do contact us.

- Call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the Federal number is 711 (international number is 1-800-829-4833).
- Send us an inquiry using the Internet at https://iris.va.gov.

We look forward to resolving your claim in a fair and timely manner.

Sincerely yours,

Regional Office

STATEMENT IN SUPPORT OF CLAIM

INSTRUCTIONS: Read the Privacy Act and Respondent Burden on Page 2 before completing the form. Complete as much of Section I as possible. The information requested will help process your claim for benefits. If you need any additional room, use the second page.

SECTION I: VETERAN/BENEFICIARY'S IDENTIFICATION INFORMATION

NOTE: You will *either* complete the form online or by hand. Please print the information request in ink, neatly, and legibly to help process the form.

1. VETERAN/BENEFICIARY'S NAME *(First, Middle Initial, Last)*

2. VETERAN'S SOCIAL SECURITY NUMBER – –

3. VA FILE NUMBER *(If applicable)*

4. VETERAN'S DATE OF BIRTH *(MM/DD/YYYY)*
Month – Day – Year

5. VETERAN'S SERVICE NUMBER *(If applicable)*

6. TELEPHONE NUMBER *(Include Area Code)*

7. E-MAIL ADDRESS *(Optional)*

8. MAILING ADDRESS *(Number and street or rural route, P.O. Box, City, State, ZIP Code and Country)*

No. & Street

Apt./Unit Number

City

State/Province

Country

ZIP Code/Postal Code –

SECTION II: REMARKS

(The following statement is made in connection with a claim for benefits in the case of the above-named veteran/beneficiary.)

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

VETERAN'S SOCIAL SECURITY NO. ☐☐☐ – ☐☐ – ☐☐☐☐

SECTION II: REMARKS *(Continued)*
(The following statement is made in connection with a claim for benefits in the case of the above-named veteran/beneficiary.)

SECTION III: DECLARATION OF INTENT

I CERTIFY THAT the statements on this form are true and correct to the best of my knowledge and belief.

9. SIGNATURE *(Sign in ink)*	10. DATE SIGNED *(MM/DD/YYYY)*

PENALTY: The law provides severe penalties which include fine or imprisonment, or both, for the willful submission of any statement or evidence of a material fact, knowing it to be false.

PRIVACY ACT INFORMATION: The VA will not disclose information collected on this form to any source other than what has been authorized under the Privacy Act of 1974 or Title 38, Code of Federal Regulations 1.576 for routine uses (i.e., civil or criminal law enforcement, congressional communications, epidemiological or research studies, the collection of money owed to the United States, litigation in which the United States is a party or has an interest, the administration of VA Programs and delivery of VA benefits, verification of identity and status, and personnel administration) as identified in the VA system of records, 58VA21/22/28, Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records - VA, published in the Federal Register. Your obligation to respond is required to obtain or retain benefits. VA uses your SSN to identify your claim file. Providing your SSN will help ensure that your records are properly associated with your claim file. Giving us your SSN account information is voluntary. Refusal to provide your SSN by itself will not result in the denial of benefits. The VA will not deny an individual benefits for refusing to provide his or her SSN unless the disclosure of the SSN is required by Federal Statute of law in effect prior to January 1, 1975, and still in effect. The requested information is considered relevant and necessary to determine maximum benefits under the law. The responses you submit are considered confidential (38 U.S.C. 5701). Information submitted is subject to verification through computer matching programs with other agencies.

RESPONDENT BURDEN: We need this information to obtain evidence in support of your claim for benefits (38 U.S.C. 501(a) and (b)). Title 38, United States Code, allows us to ask for this information. We estimate that you will need an average of 15 minutes to review the instructions, find the information, and complete this form. VA cannot conduct or sponsor a collection of information unless a valid OMB control number is displayed. You are not required to respond to a collection of information if this number is not displayed. Valid OMB control numbers can be located on the OMB Internet Page at **www.reginfo.gov/public/do/PRAMain**. If desired, you can call 1-800-827-1000 to get information on where to send comments or suggestions about this form.

OMB Control No. 2900-0858
Respondent Burden: 5 minutes
Expiration Date: 03/31/2021

Department of Veterans Affairs

AUTHORIZATION TO DISCLOSE INFORMATION TO THE DEPARTMENT OF VETERANS AFFAIRS (VA)

NOTE - PLEASE READ THE ENTIRE FORM *(both pages)* BEFORE SIGNING IN ITEM 13 BELOW.

SECTION I - RECORDS TO BE RELEASED TO THE DEPARTMENT OF VETERANS AFFAIRS (VA)

I voluntarily authorize and request disclosure (including paper, oral, and electronic interchange) of: ***All* my medical records; including information related to my ability to perform tasks of daily living. This includes specific permission to release:**

1. All records and other information regarding my treatment, hospitalization, and outpatient care for my impairment(s) *including*, but not limited to:
   a. Psychological, psychiatric, or other mental impairment(s) excluding "psychotherapy notes" as defined in 45 C.F.R. §164.501,
   b. Drug abuse, alcoholism, or other substance abuse,
   c. Sickle cell anemia,
   d. Records which may indicate the presence of a communicable or non-communicable disease; and tests for or records of HIV/AIDS,
   e. Gene-related impairments (including genetic test results)
2. Information about how my impairment(s) affects my ability to complete tasks and activities of daily living, and affects my ability to work.
3. Information created within 12 months *after* the date this authorization is signed in Item 13, as well as past information.

YOU SHOULD NOT COMPLETE THIS FORM UNLESS YOU WANT THE VA TO OBTAIN PRIVATE TREATMENT RECORDS ON YOUR BEHALF. IF YOU HAVE ALREADY PROVIDED THESE RECORDS OR INTEND TO OBTAIN THEM YOURSELF, THERE IS NO NEED TO FILL OUT THIS FORM. DOING SO WILL LENGTHEN YOUR CLAIM PROCESSING TIME.

IMPORTANT - In accordance with 38 C.F.R. §3.159(c), **"VA will not pay any fees charged by a custodian to provide records requested."**

SECTION II - VETERAN IDENTIFICATION INFORMATION

NOTE - You can *either* complete the form online or by hand. Please print the information requested in ink, neatly, and legibly to help process the form.

1. VETERAN/BENEFICIARY'S NAME *(First, Middle Initial, Last)*

2. SOCIAL SECURITY NUMBER — – –

3. VA FILE NUMBER

4. DATE OF BIRTH *(MM/DD/YYYY)* — – –

5. VETERAN'S SERVICE NUMBER *(If applicable)*

6. MAILING ADDRESS (*Number and street or rural route, P. O. Box, City, State, ZIP Code and Country*)

No. & Street

Apt./Unit Number

City

State/Province

Country

ZIP Code/Postal Code –

7. E-MAIL ADDRESS *(Optional)*

8. TELEPHONE *(Include Area Code)*

SECTION III - PATIENT IDENTIFICATION FOR RECORDS VA IS REQUESTING (If other than veteran)

9. PATIENT'S NAME *(First, Middle Initial, Last)*

10. SOCIAL SECURITY NUMBER — – –

11. VA FILE NUMBER *(If applicable)*

SECTION IV - INFORMATION REGARDING SOURCE OF RECORD(S)

SOURCE OF RECORD(S):

- **ALL** medical sources (hospitals, clinics, labs, physicians, psychologists, etc.) including mental health, correctional, addiction treatment, and VA health care facilities,
- Social workers/rehabilitation counselors,
- Consulting examiners used by VA,
- Employers, insurance companies, workers' compensation programs, and
- Others who may know about my condition (family, neighbors, friends, public officials).

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

VETERAN'S SOCIAL SECURITY NO. ☐☐☐ – ☐☐ – ☐☐☐☐

SECTION V - AUTHORIZATION AND CONSENT TO RELEASE INFORMATION TO VA AND SIGNATURE

12. IF MY CONSENT TO THIS INFORMATION IS LIMITED, THE LIMITATION IS WRITTEN HERE *(If this space is left blank, there is no limitation to records)*:

TO WHOM: The Department of Veterans Affairs (VA).
PURPOSE: Determining my eligibility for benefits, and whether I can manage such benefits.
EXPIRES: This authorization is good for 12 months from the date shown in Item 14.

- I authorize the use of a copy (including electronic copy) of this form for the disclosure of the information described above in Section I.
- I understand that there are some circumstances in which this information may be re-disclosed to other parties (See page 2 for details).
- I may write to VA and my source(s) to revoke this authorization at any time (See page 2 for details).
- VA will give me a copy of this form, if I ask; I may also ask the source(s) to allow me to inspect or get a copy of material to be disclosed.
- **I have read both pages of this form and agree to the disclosures above from the types of sources listed. See Patient Acknowledgement below.**

13. SIGNATURE OF PERSON AUTHORIZING DISCLOSURE ***(Required)*** *(Sign in ink)*	14. DATE SIGNED *(MM/DD/YYYY)* ***(Required)***
15. PRINTED NAME OF PERSON SIGNING *(First, Middle Initial, Last)*	16. RELATIONSHIP TO VETERAN/CLAIMANT *(If other than self, please provide full name, title, organization, city, State, and ZIP code. All court appointments must include docket number, county, and State)*

NOTE: This general and special authorization to disclose was developed to comply with the provisions regarding disclosure of medical and other information under P.L. 104-191 ("HIPAA"); 45 C.F.R. parts 160 and 164; 42 U.S.C. §290dd-2; 42 C.F.R. part 2, and State Law.

PRIVACY ACT NOTICE: The VA will not disclose information collected on this form to any source other than what has been authorized under the Privacy Act of 1974 or Title 38, Code of Federal Regulations 1.576 for routine uses (i.e., civil or criminal law enforcement, congressional communications, epidemiological or research studies, the collection of money owed to the United States, litigation in which the United States is a party or has an interest, the administration of VA programs and delivery of VA benefits, verification of identity and status, and personnel administration) as identified in the VA system of records, 58VA21/22/28 Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records - VA, published in the Federal Register. Your obligation to respond is voluntary. However, if the information including your Social Security Number (SSN) is not furnished completely or accurately, the source to which this authorization is addressed may not be able to identify and locate your records, and provide a copy to VA. VA uses your SSN to identify your claim file. Providing your SSN will help ensure that your records are properly associated with your claim file. Giving us your SSN account information is voluntary. Refusal to provide your SSN by itself will not result in the denial of benefits. The VA will not deny an individual benefits for refusing to provide his or her SSN unless the disclosure of the SSN is required by Federal Statute of law in effect prior to January 1, 1975 and still in effect.

If you do not revoke this authorization, it will automatically expire in 12 months from the date you sign and date the form. Signing this form is voluntary, but failing to sign it, or revoking it before we receive necessary information could prevent an accurate or timely decision on your claim, and could result in denial or loss of benefits. Although the information we obtain with this form is almost never used for any purpose other than those stated above, the information may be disclosed by VA without your consent if authorized by Federal laws such as the Privacy Act.

Under the Government Paperwork Elimination Act (GPEA) (Public Law 105-277), the Office of Management and Budget (OMB) ensures that agencies, when practicable, provide for the option of electronic maintenance, submission of disclosure of information and for the use and acceptance of electronic signatures. GPEA states that electronic records submitted or maintained in accordance with the procedures developed by OMB, or electronic signature or other forms of electronic authentication used in accordance with such procedures, "shall not be denied legal effect, validity, or enforceability merely because such records are in electronic form" (Public Law 105-277, section 1707).

RESPONDENT BURDEN: We need this information and your written authorization to obtain your treatment records to help us get the information required to process your claim. Title 38, United States Code, allows us to ask for this information. You can provide this authorization by signing VA Form 21-4142. Federal law permits sources with information about you to release that information if you sign a single authorization to release all your information from all possible sources. We will make copies of it for each source. A few States, and some individual sources of information, require that the authorization specifically name the source that you authorize to release personal information. In those cases, we may ask you to sign one authorization for each source and we may contact you again if we need you to sign more authorizations. We estimate that you will need an average of 5 minutes to review the instructions, find the information and complete this form. VA cannot conduct or sponsor a collection of information unless a valid OMB control number is displayed. Valid OMB control numbers can be located on the OMB Internet Page at **www.reginfo.gov/public/do/PRAMain**. If desired, you may call 1-800-827-1000 to get information on where to send comments or suggestions about this form. If you use the Telecommunications Device for the Deaf (TDD), the Federal relay number is 711.

PATIENT ACKNOWLEDGMENT: I HEREBY AUTHORIZE the sources listed in Section IV, to release any information that may have been obtained in connection with a physical, psychological or psychiatric examination or treatment, with the understanding that VA will use this information in determining my eligibility to veterans benefits I have claimed. I understand that the source being asked to provide the Veterans Benefits Administration with records under this authorization may not require me to execute this authorization before it provides me with treatment, payment for health care, enrollment in a health plan, or eligibility for benefits provided by it. I understand that once my source sends this information to VA under this authorization, the information will no longer be protected by the HIPAA Privacy Rule, but will be protected by the Federal Privacy Act, 5 USC 552a, and VA may disclose this information as authorized by law. I also understand that I may revoke this authorization in writing, at any time except to the extent a source of information has already relied on it to take an action. To revoke, I must send a written statement to the VA Regional Office handling my claim or the Board of Veterans' Appeals (if my claim is related to an appeal) and also send a copy directly to any of my sources that I no longer wish to disclose information about me. I understand that VA may use information disclosed prior to revocation to decide my claim.

NOTE: For additional information regarding VA Form 21-4142, refer to the following website: **https://www.benefits.va.gov/privateproviders/.**

WHERE TO SEND YOUR WRITTEN CORRESPONDENCE

The time it takes your response to reach VA affects how long it takes us to process your claim. We recommend responding electronically whenever possible to minimize the time we spend waiting for mail. Only claimants or representatives can upload responses electronically right now. If you are not a claimant or representative, we recommend faxing so VA can receive your responses immediately.

The **fastest** way to respond to VA is to upload your correspondence electronically through VA.gov.

Visit https://www.va.gov. Under **Disability** click "Upload Evidence to support your claim".

If you cannot upload your correspondence, fax or mail it to the applicable address below. These addresses serve **all United States and foreign locations**.

To determine where to send your correspondence, identify your benefit type (Compensation, Veterans Pension, or Survivor Benefits); then, locate the applicable fax number or mailing address.

Compensation Claims	**Veterans Pension** and **Survivor Benefit Claims**
Fax Toll Free: 844-531-7818	Fax Toll Free: 844-655-1604
Or mail to:	**Or mail to:**
Department of Veterans Affairs Evidence Intake Center **P.O. Box 4444** Janesville, WI, 53547-4444	Department of Veterans Affairs Pension Intake Center **P.O. Box 5365** Janesville, WI 53547-5365

You can also send a text message to 838255 to receive confidential support 24 hours a day, 7 days a week, 365 days a year. For more information, visit www.veteranscrisisline.net

A letter of condolence as well as a copy of the "Butterfly Poem" and bereavement handouts on loss and grief was placed in the USPS mail Wednesday October 14, 2015

Packet of materials was addressed to: Wife-Darlene Hopkins

A copy (one-page-two-sided) of "VA Burial Benefits and Information For Survivors"" from the Chaplain's Service was included in the mailing.

The condolence letter referenced the Memorial Service which will be held in the future. Further information will be mailed separately. Usually two-three weeks prior to service.

Decedent Affairs is an essential service of chaplain's office. A letter from Decedent Affairs is mailed approximately two-three weeks prior to the Memorial Service.

Contact information (business card) was included in the mailing. Chaplain will be available to family members as needed. Will refer to other resources as appropriate.

09/18/15 DEATH PRONOUNCEMENT:
I have identified the patient by first name, last name and Social Security number. Patient's code status at the time of death was DNR - Do Not Resuscitate
The attending physician of record is Gayle Minard and
the attending physician has been notified

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

This patient does not respond to verbal or tactile stimuli. There is no carotid pulse. There are no respirations. The pupils are fixed, midline and do not respond to light. I have listened for a heartbeat and observed for respirations for at least 1 minute. There is no heartbeat and no respirations.

Date and time of death: Sep 18,2015@08:38
Name of person contacted:HOPKINS,DARLENE R

DNR NOTE:

Does patient have decision-making capacity? No
Person contacted:
  Surrogate
    Surrogate's name: Darlene Hopkins
    Surrogate's relationship: wife

Diagnosis: necrotic small bowel
Prognosis: poor

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Recommendations of treating team/consultants: Patient went for emergency surgery on night of 9/16/15- found to have necrotic small bowel and underwent resection with temporary closure- has remained on multiple pressors with little improvement in his clinical status and has remained a GCS of 3 despite no sedation medications- wife stated her husband would not want to live like this on "life support"
Names of treating team/consultants: General Surgery
DNR Attending Name/Notification: Santiago Vera Discussed with attending by phone.

Explanation of DNR consequences (informed consent): With withdrawal of care- patient will likely die
Patient's/Surrogate's wishes: Per surrogate (patient's wife), pt would not not pressors and to be on the ventilator for prolonged periods of time with grim prognosis
Medical efforts that will be maintained: IVF

S: Pt is a 72 yo CM s/p RIHR 1 mo ago who presented in septic shock due to ischemic bowel. Pt POD #0 ex lap, SBR, temporary abdominal closure. Developed post-op afib and started on amio gtt. Pt currently intubated and on pressors. Started on PPI gtt for GIB. Pt being empirically treated with vanc/zosyn 2/2 sepsis.

HPI: Pt brought to the ER by his wife due to decreased responsiveness and generalized weakness. Pt with lack of appetite for ~1-2 weeks. Pt with coffee ground emesis beginning last night. Pt is from out-of-town with most recent care at the VA in Amarillo. Pt initially presented with BP in 60s per ED physician but responded to 2 L bolus. NG tube was put under suction which drained > 1400 ml black fluid. Patient was also found to have gas under the diaphragm on chest xray and surgery was consulted.

Vancomycin Dosing

Date/Time	Dose	Level	Comments
9/17 1037	1500mg	--	~19mg/kg
9/17 0852	--	18.67	
9/16 2000	2000mg	--	~25mg/kg

A/P:
NEURO: Fentanyl/propofol being held at this time.

PULM: Pt intubated, on SIMV.

CV: Norepi running @ 100mcg/min. Vasopressin @ 0.04units/min. Recommend starting phenylephrine @50mcg/min based on pt's persistent increased HR on NE. Continue amiodarone, currently running @ 17ml/hr.

FENGI: Pt presented with hyperglycemia. Insulin gtt started but now held for BG of 62. Recommend starting renally adjusted insulin gtt once BG warrants. Hypocalcemic, bolused with 6g of calcium gluc. Hypokalemic, bolused with 80 mEq of KCL IV. Hyponatremia now resolved. Continue NaBicarb gtt, currently running @ 75ml/hr. Continue pantoprazole gtt @10ml/hr for GIB.

ID:
-Pt received vancomycin 2g (~25mg/kg) loading dose in ED at 2000. Level this AM was 18.67 so 1500mg (~19mg/kg) vancomycin was given. Will pulse-dose vanc based

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

on renal function. Random level ordered to be drawn with AM labs. Will redose if level <20.
-Zosyn 4.5g x1 in ED. Dose changed to zosyn 2.25g Q6H based on renal function and indication. Will continue to monitor and adjust as needed.

DVT Prophylaxis: Will not start at this 2/2 GIB.

GI Prophylaxis: pantoprazole gtt

All changes discussed with SICU team during rounds.

(b) (6)

CC: hematuria

HPI: Pt is a 72 yo M with PMH of Dm, Hl, BPH who was en route to north carolina and had hematemesis and melena and was found to be hypotensive when brought to the ER last night. Pt. had free air in abdomen on KUB and was taken for exploratory laparotomy during which he was found to have ischemic bowel now s/p resection. He remains in ICU with temporary abdominal closure and is being treated for septic shock. He was noted to have hematuria, for which urology is being consulted along with a request to be present for his repeat exploration tomorrow 9/18 to evaluate the bladder.

Of note pt had a inguinal hernia repair about 1 month ago and had been having issues
with urinary retention after that. he was admitted for bladder outlet obstruction and was found to have hydronephrosis/pyelo and was treated with rocephin. per the wife, he has since been seen by Urology in amarillo, texas and had cystoscopy, which was negative for concerning findings.

INVASIVE PROCEDURE NOTE

TYPE OF PROCEDURE:Other (type below)PA catheter

Yes Patient Identity: Two (2) identifiers: Patient name and SSN, birthday, or other VA-approved identifier

Yes Consent Form: Confirm patient, procedure, side/site, reason

Yes Procedure: Procedure name and description

Yes Side/Site: Confirm laterality, surgical site marked (visible after draping) and/or special purpose wristband verified

Yes Imaging (as applicable): Two (2) members confirm imaging studies are available and properly labeled and presented.

Yes Allergies: Confirm allergies

Yes Specialty or Unit Specific Element: Include specific directions regarding other checklist elements such as implants, patient position, cultures, special equipment, etc.

SIDE ON WHICH PROCEDURE WAS PERFORMED:left

INDICATION FOR PROCEDURE:Monitoring

DESCRIPTION OF PROCEDURE AND FINDINGS:
PA catheter wedged at 50cm, stat pCXR ordered post procedure

POST PROCEDURE:
Post procedural X-Ray:YES
Post Procedure Specimens:NOT APPLICABLE
Vital Signs Stable:NO

TIME OUT done at:

TEAM MEMBERS PRESENT:
  Providers:
Elena Paulus Lamb
Gayle Minard

  Anesthesia:

  Nurse(s):

  Tech(s):

COMPLICATIONS:

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Procedure tolerated, no complications

Prior to procedure, the operative/procedure team members verbally confirmed:
Correct patient identity (2 identifiers)
Correct operation/procedure to be performed
Correct operative/procedure site/side
Correct consent form
Correct position
Correct imaging labeled and displayed
Correct implant(s) available, if applicable
Special equipment available, if applicable
Allergies confirmed

POTASSIUM	4.0	mmol/	3.5 - 5.0	17-Sep-15
GLUCOSE	337H	mg/dl	70 - 110	17-Sep-15
CALCIUM	6.5L	mg/dl	8.5 - 10.2	17-Sep-15
ALBUMIN	1.9L	g/dL	3.4 - 5.2	17-Sep-15
CREACTIVEPROTEI	467.6H	mg/L	0.0 - 4.0	17-Sep-15
CREATININE2	3.7H	mg/dl	.7 - 1.6	17-Sep-15

Blood Pressure: 125/76 (09/16/2015 22:00)
Comments: hemoglobin a1c in July is uncontrolled at 13.4%, pt currently ordered an insulin gtt to help better control glucoses (236-436mg/dL). Hypocalcemic (primary repleting). Renal function noted.

Skin Integrity: +surgical incision
BRADEN SCALE: 12-13 indicating moderate risk for HAPU

Assessment of Inflammation: marked inflammation as evidenced by CRP, sepsis

Physical Assessment:
Subjective evaluation noted patient to have deficits in the following aspects of body composition: none noted.

Anthropometrics:
BMI: 23; acceptable
HT: 182 cm (8/2015)
WT: 77 kg (RN admission note, 169 lbs)
WT: 175 lbs (8/2015)
DBW: 178 lbs
%DBW: 100%
UBW: 180 lbs (wife report back in August, pt was intentionally trying to lose this weight)
Weight Loss: possible 6 lbs weight loss x 1 month (3%)

Estimated Nutrition Needs (PENN State)
REE: 1552, Ve: 11, Tmax: 98
Calorie range: 1742 kcal
Protein range: 77-92g pro/day (1-1.2g pro/kg for AKI)
Fluid range: 1 ml/kcal or per PCP

Nutrition Status: NS3/Moderate

Based on the above findings malnutrition classification per AND/ASPEN criteria

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

is as follows: n/a

NUTRITION DIAGNOSIS - Inadequate oral food and beverage intake related to bowel necrosis, hemodynamic instability as evidenced by NPO status

NUTRITION INTERVENTION:
Nutrition Prescription: avoid prolonged NPO status

Food/and/or Nutrient Delivery: NPO status to continue as pt receiving high dose pressors and currently hemodynamically unstable. Will continue to evaluate appropriateness of nutrition support with ICU team.

Nutrition Education: n/a; pt intubated/sedated. Will need nutrition education on an outpatient basis.

NUTRITION MONITORING
-NPO status (< 7-10 days)
-Labs: (Hemoglobin a1c and accuchecks)

09/16/15 SURGERY:
SURGERY CONSULT

CONSULTING SERVICE: Emergency Dept Dr. Kari

REASON FOR CONSULTATION: pneumoperitoneum, SBO

HPI: Called by ED physician to evaluate pt. who had presented to Memphis VA with complaints of vomiting coffee ground emesis and lethargy. Pt is from out of town. Had RIH repaired in Texas 1 month ago. Per op report pt had marlex plug and patch repair. This was a recurrent RIH. Pt also has had LIH in past.

Pt lethargic and progressively more obtunded on evaluation in ED. Most of history obtained from wife. Pt had issues with urinary retention and incontinence post op requiring catheterization, cystoscopy and in and out catheterizations. Has had lack of appetite for last 1-2 wks and more weakness. Pt was very unsteady on his feet last 2 days and began vomiting coffee ground emesis last night. Also had dark melanotic stools. Some vague abd pain. Subjective fevers/chills.

Pt initially presented with BP in 60s per ED physician but has responed to 2 L bolus and is now in 90s.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

ROS: unable to be accurately obtained at this time 2/2 patients mental status

PMHx:
1. DM

PSHx:
1. LIHR
2. RIHR
3. Repair of recurrent RIH in August

Allergies: NKDA

Meds: per wife only takes insulin and flomax

Social History: former smoker but quit many years ago, former heavy drinker but quit several years ago. Wife denies illicits.

Family Hx: mult family members with hernias, otherwise non contributory

Exam:
Initial VS in ED: afebrile, HR 100-120, SBP 90-100, Saturating 93-98% on nasal cannula
Neuro: awake but lethargic, at times nearly obtunded. Slurring speech. MAE. No gross deficits
HEENT: NCAT. pupils 4 mm bilaterally. Sclerae non icteric. Dry oral mucosa
Neck: No JVD
Chest: coarse breath sounds bilaterally. Tachypneic to 30. Respirations somewhat labored
Cardiac: tachycardic. HR regular
Abd: firm, diffusely tender to palpation with rebound tenderness, consistent with peritonitis. No masses palpable. Well healed L groin scar. R groin scar healing well. Some steri strips still in place. No erythema or fluctuance
Genitalia: Scrotum large and fluid filled, somewhat firm near R inginal canal
Extremities: no edema, pedal and radial pulses easily palpable

Labs reviewed:
WBC 29.4
Hct 33.3
Plt 192
Na 118
K 4.2
BUN 96
Cr 4.4
BG 755
Mg 2.4
BNP 18800
Lactate 9.7
INR 1.5

Imaging: Upright CXR shows what appears to be free air under the diaphragm on the right and possibly also on the left. No chest abnormalities. KUB shows multiple dilated loops of small bowel concerning for obstructive process

Assessment:
1. Pneumoperitoneum, likely perforated viscus
2. GIB

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

3. Sepsis
4. Hyperglycemia
5. AKI
6. Profound hyponatremia

Plan:
1. Pt has physical exam findings consistent with peritonitis and severely deranged laboratory values. At this point the patient needs to proceed to the operating room emergently for an exploratory laparotomy. Operative intervention was discussed with the patient and his wife at the bedside. The critical nature of the patient was conveyed to both the patient and his wife. Risks including death were discussed. It was also related to patient that there is a good chance he may die he does not go to the operating room. They have both agreed to proceed and his wife will sign the consent form on his behalf
2. Pt is in critical condition. At this point he desires to be full code
3. To SICU post op

Seen and examined with Dr. Elena M. Paulus, chief

HPI: Called by ED physician to evaluate pt. who had presented to Memphis VA with complaints of vomiting coffee ground emesis and lethargy. Pt is from out of town. Had RIH repaired in Texas 1 month ago. Per op report pt had marlex plug and patch repair. This was a recurrent RIH. Pt also has had LIH in past.

Pt lethargic and progressively more obtunded on evaluation in ED. Most of history obtained from wife. Pt had issues with urinary retention and incontinence post op requiring catheterization, cystoscopy and in and out catheterizations. Has had lack of appetite for last 1-2 wks and more weakness. Pt was very unsteady on his feet last 2 days and began vomiting coffee ground

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

emesis last night. Also had dark melanotic stools. Some vague abd pain. Subjective fevers/chills.

Pt initially presented with BP in 60s per ED physician but has responed to 2 L bolus and is now in 90s.

ROS: unable to be accurately obtained at this time 2/2 patients mental status

PMHx:
1. DM

PSHx:
1. LIHR
2. RIHR
3. Repair of recurrent RIH in August

Allergies: NKDA

Meds: per wife only takes insulin and flomax

Social History: former smoker but quit many years ago, former heavy drinker but quit several years ago. Wife denies illicits.

Family Hx: mult family members with hernias, otherwise non contributory

Exam:
Initial VS in ED: afebrile, HR 100-120, SBP 90-100, Saturating 93-98% on nasal cannula
Neuro: awake but lethargic, at times nearly obtunded. Slurring speech. MAE. No gross deficits
HEENT: NCAT. pupils 4 mm bilaterally. Sclerae non icteric. Dry oral mucosa
Neck: No JVD
Chest: coarse breath sounds bilaterally. Tachypneic to 30. Respirations somewhat labored
Cardiac: tachycardic. HR regular
Abd: firm, diffusely tender to palpation with rebound tenderness, consistent with peritonitis. No masses palpable. Well healed L groin scar. R groin scar healing well. Some steri strips still in place. No erythema or fluctuance
Genitalia: Scrotum large and fluid filled, somewhat firm near R inginal canal
Extremities: no edema, pedal and radial pulses easily palpable

Labs reviewed:
WBC 29.4
Hct 33.3
Plt 192
Na 118
K 4.2
BUN 96
Cr 4.4
BG 755
Mg 2.4
BNP 18800
Lactate 9.7
INR 1.5

Imaging: Upright CXR shows what appears to be free air under the diaphragm on

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

the right and possibly also on the left. No chest abnormalities. KUB shows multiple dilated loops of small bowel concerning for obstructive process

Assessment:
1. Pneumoperitoneum, likely perforated viscus
2. GIB
3. Sepsis
4. Hyperglycemia
5. AKI
6. Profound hyponatremia

Plan:
1. Pt has physical exam findings consistent with peritonitis and severely deranged laboratory values. At this point the patient needs to proceed to the operating room emergently for an exploratory laparotomy. Operative intervention was discussed with the patient and his wife at the bedside. The critical nature of the patient was conveyed to both the patient and his wife. Risks including death were discussed. It was also related to patient that there is a good chance he may die he does not go to the operating room. They have both agreed to proceed and his wife will sign the consent form on his behalf
2. Pt is in critical condition. At this point he desires to be full code
3. To SICU post op

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

I have examined the patient and reviewed the patient's initial presentation and
laboratory and test results.I agree with the diagnostic and therapeutic plans of the housestaff.
        For this patient there is a moderate risk for surgical intervention ,but I believe it is the best
option. The risk of failure or poor outcome is known and has been discussed with the patient.
Complications explained include: Anesthetic adverse actions,perioperative bleeding,infection,
injury to adjacent structures,reaction to medications and blood and death.The patient understands the
alternatives treatment options as well as the sequelae of no intervention.

The diagnosis is acute abdomen

The intended procedure laparotomy

ASSESSMENT/PLAN:
-Veteran is a 72 yo CM w/ pmhx significant for DM who presented to the Memphis VA ER with complaints of coffee ground emesis, lethargy, and decreased mental status. Patient was found to be hypotensive in the ED to the low 60s. Imaging was concerning for pneumoperitoneum taken back to the OR for emergent ex lap with small bowel resection this AM now POD#0

1. Neuro: Sedated presently. Fentanyl for pain. Propofol for sedation
2. CV: Afib. Amiodarone drip. Levophed/vassopressin for bp support. PA catheter placed with primary team. CVP noted to be 5
3. Pulm: intubated. Chest tubes x2 left chest wall. Metabolic acidosis with trending ABGS. bicarb drip running
4. FEN/GI: MIVF. Q6H lab draws. Aggressive fluid replacement. Insulin drip with hyperglycemia on admission to the 700s.
5. GU: Foley. hematuria. strict I&O. urology consulte.
6. ID/HEME: Vanc/zosyn D1
7. MSK: no restraints. actively monitoring sedation to ensure patient doesn't become arousable. Will consult PT once pt becomes less critical.
8. Ppx: SCDs, SQH.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

9. Dispo: continue ICU care. likely takeback for Friday with assistance from Urology for bladder/hematuria.

Patient was seen,examined and discussed with attending.

NURSING ADMISSION HISTORY

OIF/OEF COMBAT STATUS:None Indicated

Arrived on unit at Sep 17,2015@02:35

Mental Status: unarousable

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Home Environment:

Allergies: Patient has answered NKA
  ** Allergies Verified by nurse - no
  Other: no family members around, pt. sedated

Reason for admission (from patient or other): small bowel obstruction

Patient Height: unknown

Patient Weight: 77kg

Past Medical History: (refer to H&P)
MRSA Swab Done? -
  Yes
    Education:
      Patient educated on how, why, and outcome of possible positive MRSA swab test results. Patient acknowledges his understanding and consents to nares swab. Patient advised test may be performed multiple times throughout admission and prior to discharge. The benefit of hand hygiene on prevention of spread of MDRO was included. Handouts were provided for the patient and the family.
Tobacco Screen: Patient has quit tobacco (nicotine) use over one to seven (7) yrs

Alcohol Screen:

 In the past 12 months, has the patient had ANY drinks containing alcohol?

 no - no alcohol in the past 12 mths
 Comments: per doctors note
PAIN ASSESSMENT-1st Location:
  Patient states "experiencing pain" on a scale of 1-10.
    Stated pain is: 99
  OUTCOME: There will be a 50% reduction in pain (inpatients within 24 hours and outpatients within 2 encounters). Select at three interventions to achieve this goal. For pharmacological interventions see Pain Management Policy.
Patient/Family Outcome: Able to explain critical information about the following:
  States understanding of rights and responsibilities of pain management.
Discharge Planning Screening Criteria:

A yes answer to any question below must result in a consult to Social Work Service per Policy.

(To notify Social Service after 5 P.M., weekends, & holidays, contact the MAA)

Special Needs Assessment Screening Criteria Questions:

  Patient shows signs of neglect or abuse - n/a
  Patient has no Source of Support and/or Homeless - n/a
  Patient's caregiver unable to meet patient's needs - n/a
  Patient admitted from nursing home or other extended care

Fall Prevention Interventions

Note: If patient is identified as a high risk for falls, implement fall
prevention and management program.

Standard Fall Prevention Interventions:

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Assess patient's fall risk upon admission, change in status, transfer to another unit and discharge.

Assign the patient to a bed that enables the patient to exist toward his/her stronger side whenever possible.

Assess the patient's coordination and balance before assisting with transfer and mobility activities.

Implement bowel and bladder programs to decrease urgency and incontinence.

Use treaded socks for all patients.

High Risk Fall Prevention Interventions: (Place on Falling Leaves Program)
Equipment: bed in low position, personal items and call light within reach
Environment: Patient's environment cleared of all hazards.

FUNCTIONAL SCREENING CRITERIA: - High Risk Screen
(If Answer Is Yes Appropriate Consult Must Be Sent)

Ability to carry out ADL: Total Care
Name of caregiver -

Patient has impaired mobility, ADL/needs adaptive equipment/Limb loss (past or present) n/a

Instructions:

If any of the following Profound Risk Factors in Section I is present,
Go to Step IV and follow instructions given, "Do NOT complete sections
II and III."

If no Profound Risk Factors are noted in Step I, Proceed to Step II.

If any of the Mild to Moderate Risk Factors are present, Go to Step III.

If no Risk Factors are Identified in Step I and II, Go to Step IV.

Note: Testing of swallow is to be done by the nurse at bedside prior to
sending a consult, using the procedure in Step III and Step IV #2.
Step I: Profound Risk Factors: none
Step II: Mild to Moderate Risk Factors:
Other (NPO Admission, PEG, Etc.)
BRADEN SKIN RISK ASSESSMENT

Sensory Perception:2 = Very Limited
Moisture: 4 = Rarely Moist
Activity: 1 = Bedfast
Mobility: 2 = Very Limited
Nutrition: 2 = Probably Inadequate
Friction: 2 = Potential Problem
13-14 Moderate Risk
Score: 13

SKIN PATCHES
The patient has the following patches on the skin.

MAJOR RISK FACTORS / SPECIAL POPULATIONS

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

The patient does not have any spinal cord injury, paralysis or neurologic disease.

CURRENT SKIN ASSESSMENT
Skin Color:
Color: Normal for ethnic group
Skin Temperature
Temp: Cool
Skin Moisture
Moisture: Dry
Skin Turgor
Turgor: Within normal limits

SKIN PROBLEMS
Bruising
BUE's
Wound -location, type, description
midabdominal surgical incision open, covered with cassett
Other
redness to perineal area;redness/echymmosis to BLE's;scratches to left upper chest area

INTERVENTIONS
The pressure ulcer protocol was implemented.
Education
Provide patient/caregiver education regarding causes and prevention of pressure ulcers.
Pressure-Redistribution Measures
Turn and reposition every 2 hours while in bed, using pillows to separate pressure areas
Elevate heels using pillows or foam blocks
Apply heel/elbow pads
Maximize Mobilization
Perform range of motion exercises when turning/repositioning
Manage Moisture
Maintain clean and dry skin
Apply protective barrier ointment
Manage Nutrition
Provide or encourage oral care as needed
Monitor fluid/food intake
Reduce Friction and Shear
Use a bed trapeze or pull sheet to lift up in bed or turn
Raise the knee when elevating head of bed
Nursing Plan of Care:

NURSING PROBLEMS:
DECREASED CARDIAC OUTPUT:

Decreased cardiac output related to medical condition

Target date for review of problem: Sep 20,2015
Target date must be no less than 3 days and no greater than 5 days.

Goals:

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Maintains cardiac output , Returns to and maintains normal sinus rhythm, Maintains therapeutic levels of anti-arrhythmic agents, Avoids toxicity/allergic reactions to drugs, Limits myocardial infarction area

Interventions:
Monitor vital signs, Monitor Intake and Output, Assess heart rate/rhythm , Monitor for drug toxicity

---

RISK FOR INFECTION:

Infection related to
surgery
Target date for review of problem: Sep 20,2015
Target date must be no less than 3 days and no greater than 5 days.

Goals:
Has normal sputum production, Afebrile, Maintain skin integrity, Absence of tenderness , Absence of inflammation, purulent drainage, Maintain optimal fluid balance

Interventions:
Monitor Vital Signs , Monitor Intake and Output, Provide adequate hydration and nutrition, Universal precautions maintained, Monitor lab values (serum albumin, CBC and C&S), Assess respiratory rate and pattern/breath sounds, Teach prevention of infection techniques, Provide skin care, Reposition and turn q 2 hours

Additional Comments:

0630-Dr. Paulus and Dr. Stiles was at the bedside since pt. came from OR @ 0235 till 0430,aware of pt. condition and what he is getting to stabilized his VS; Dr. Paulus spoke with pt. wife earlier, but unbale to now for her to come see the pt.;on high dose of pressors;pt. still unresponsive;notified Dr. Paulus about Ca 6.5
0655-surgery team at the bedside, aware of the 120ml urine output,they changed the dressing;waiting for Ca IV
0720-check ICU flowsheet for VS,intake and output total

HOPKINS,MARSHALL HUGH (b) (6) Date 09/17/15 00:22
72YO WHITE MALE

CC: Decreased responsiveness

HPI: Pt is a 72 yo CM with PMH of Dm, Hl, BPH who was brought to the ER by his wife due to decreased responsiveness and just generalized weakness. patient was altered at the time of exam and most history was obtained from ER physician. apparently pt and his wife were travelling from somewhere and he got sick on the way.

Pt had a inguinal hernia repair about 1 month ago and had been having issues with urinary retention after that. he was admitted for bladder outlet obstruction and was found to have hydronephrosis/pyelo and was treated with rocephin. Pt
Has had lack of appetite for last 1-2 wks and more weakness.
Pt was very unsteady on his feet last 2 days and began vomiting coffee ground emesis last night. Also had dark melanotic stools. Some vague abd pain. Subjective fevers/chills.

Pt initially presented with BP in 60s per ED physician but has responed to 2 L bolus. NG tube was put under suction which drained > 1400 ml black fluid. patient was also found to have gas under the diaphragm on chest xray and surgery was consulted.

IMAGING:

Sept 17,2015

 Impression:

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

No significant interval change in the left-sided pneumothorax with chest tube now present.

Interval subcutaneous emphysema tracking along the left lateral chest wall.

*** Exam date: SEP 16, 2015@22:48 Proc: PORTABLE CHEST ***
Impression:
1. Endotracheal tube tip is 4.6 and is above the carina.

2. There is left pneumothorax of approximately 40 % volume.

3. Lucency underneath the right hemidiaphragm consistent with free intra-abdominal air. This is unchanged from prior.

*** Exam date: SEP 16, 2015@19:53 Proc: ABDOMEN 1 VIEW ***
Impression:

1. Findings consistent with partial small bowel obstruction.

*** Exam date: SEP 16, 2015@19:31 Proc: PORTABLE CHEST ***
No report info on file!

ASSESSMENT/PLAN:

1. Severe sepsis/septic shock 2/2 small bowel necrosis and perforation and ?UTI
- has a history of bladder outlet obstruction and b/l pyelonephritis recently
- WBC increased, tachycardic, tachypneic,elevated lactate at 9.7
- given 4lt IVF in the ER 2/2 hypotension
- on maintainance IVF @ 125ml/hr
- started on vanc and zosyn; renally dose antibiotics 2/2 AKI
- also on vasopressors now
- surgery took the patient to the OR and found 75% necrotic bowels which were resected; condition critical

2. AMS
- likely 2/2 sepsis
- patient was more responsive since coming to the ER

3. DM
- has history of poorly controlled DM and non compliance with medications
- initial BS 755
- ketones negative in both blood and urine
- last A1c was >12
- was started on glipizide but likely non compliant
- was given 10U IV insulin in the ER and then started on insulin drip
- monitor BS and BMPs; not DKA; serum osmolality pending

4. ?UGIB
- pt had some coffee ground emesis

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

- NG tube was put in the ER and put under suction with >1400 ml of dark blackish liquid in around 2 hours
- pt was started on PPI drip
- also likley 2/2 ischemic gut

5. hematuria
- gross hematuria
- cause unknown
- pt taken to the OR

6. BPH
- hold BPH meds 2/2 hypotension

7. Bowel perforation
- free air seen under the diaphragm on the CXR
- surgery was consulted and took the patient to the OR asap; found frankly gangrenous necrotic small bowel.

8. ? CHF
- pro- BNP elevated at >18000
- will order a TTE

9. Pneumothorax
- iatrogenic
- 2/2 subclavian line placement
- s/p chest tube placement

10. hyponatremia
- new onset
- will recommend slow correction to prevent brain injury

11. Anion gap metabolic acidosis
- 2/2 lactic acidosis
-

12. AKI
- s/p fluid resuscitation; repeat creatinine check awaited
- baseline creatinine around 1; came with 4.4 in ER

13. atrial fibrillation
- new onset A fib
- patient hypotensive and on pressors so will avoid beta blocker or CCB
- recommend checking electrolytes and replacing them.
- keep K>4 and Mg>2; replace calcium for normal Ionized calcium levels
- can give bolus amiodarone and start on amidarone drip if needed.

13. Code status
- full code but patient doesnt want to be on prolonged life sustaining machines

DISPO: pt was taken by surgery on their service post-op. MICU will follow as consult and continue to give recs about management.

Post procedural X-Ray:YES Pneumothorax seen, please see separate note
Post Procedure Specimens:NOT APPLICABLE

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Vital Signs Stable:YES

TIME OUT done at:

TEAM MEMBERS PRESENT:
  Providers:

  Anesthesia:

  Nurse(s):

  Tech(s):

COMPLICATIONS:
Complications experienced during procedure include:pneumothorax seen on post stick CXR. See separate note for chest tube placement

Prior to procedure, the operative/procedure team members verbally confirmed:
     Correct patient identity (2 identifiers)
     Correct operation/procedure to be performed
     Correct operative/procedure site/side
     Correct consent form
     Correct position
     Correct imaging labeled and displayed
     Correct implant(s) available, if applicable
     Special equipment available, if applicable
     Allergies confirmed

Intubation Documentation

Patient, HOPKINS,MARSHALL HUGH, was intubated on Sep 16,2015@22:45

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

PM by - Donna Fortner,Resp.Therapist

Number of intubation attempts by this provider - (1)

Was this a "Code Blue" intubation? No

Did anyone else make an intubation attempt? no

Names of others who attempted this intubation (if applicable):
 nan/a Number of attempts:
 nan/a Number of attempts:
 nan/a Number of attempts:
 nan/a Number of attempts:

If more than one attempt at intubation was patient ventilated via
bag/mask between intubation attempts? Yes

Was laryngeal mask airway placement attempted? No

Endotracheal Tube Placement assessed by (check all that apply):
EtC02 Monitor , Chest Auscultation (equal bilateral breath sounds)

Tube Size: 8

Cuff Pressure: mltcmH2O

Endotracheal tube secured at :26 cm at gum line.

Ease of intubation: Easy to intubate

STATEMENT IN SUPPORT OF CLAIM

INSTRUCTIONS: Read the Privacy Act and Respondent Burden on Page 2 before completing the form. Complete as much of Section I as possible. The information requested will help process your claim for benefits. If you need any additional room, use the second page.

SECTION I: VETERAN/BENEFICIARY'S IDENTIFICATION INFORMATION

NOTE: You will *either* complete the form online or by hand. Please print the information request in ink, neatly, and legibly to help process the form.

1. VETERAN/BENEFICIARY'S NAME *(First, Middle Initial, Last)*

DARLENE E HOPKINS

(b) (6)

4. VETERAN'S DATE OF BIRTH *(MM/DD/YYYY)*
Month 07 - Day 20 - Year 1943

5. VETERAN'S SERVICE NUMBER *(If applicable)*

6. TELEPHONE NUMBER *(Include Area Code)*
620-272-4822

7. E-MAIL ADDRESS *(Optional)*
Themasterherbalist@yahoo.com

8. MAILING ADDRESS *(Number and street or rural route, P.O. Box, City, State, ZIP Code and Country)*

No. & Street: 310 Main street

Apt./Unit Number:

City: ALTAMONT

State/Province: KS

Country: US

ZIP Code/Postal Code: 67320-

SECTION II: REMARKS

(The following statement is made in connection with a claim for benefits in the case of the above-named veteran/beneficiary.)

30+ Years ago while in military Marshall had Hernia operation. In 2014 the mesh that was put in him tore. Aug 2015 He had Hernia Surgery In Amarillo Texas At the VA. Every thing appeared to go well. He went back Several weeks later saying something did not feel quite right. They did a Colonoscopy on him and told him Clean bill of Health But 5 days later he was dead... we were traveling and we went to Memphis Tenn VA. They told me he was a very sick man Apparently during the Colonoscopy his bowels were nicked... VA told me early morning after admitting him they did Surgery and removed 3/4 of his Colon. He never Woke from that Su

PENALTY: The law provides severe penalties which include fine or imprisonment, or both, for the willful submission of any statement or evidence of a material fact, knowing it to be false.

PRIVACY ACT INFORMATION: The VA will not disclose information collected on this form to any source other than what has been authorized under the Privacy Act of 1974 or Title 38, Code of Federal Regulations 1.576 for routine uses (i.e., civil or criminal law enforcement, congressional communications, epidemiological or research studies, the collection of money owed to the United States, litigation in which the United States is a party or has an interest, the administration of VA Programs and delivery of VA benefits, verification of identity and status, and personnel administration) as identified in the VA system of records, 58VA21/22/28, Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records - VA, published in the Federal Register. Your obligation to respond is required to obtain or retain benefits. VA uses your SSN to identify your claim file. Providing your SSN will help ensure that your records are properly associated with your claim file. Giving us your SSN account information is voluntary. Refusal to provide your SSN by itself will not result in the denial of benefits. The VA will not deny an individual benefits for refusing to provide his or her SSN unless the disclosure of the SSN is required by Federal Statute of law in effect prior to January 1, 1975, and still in effect. The requested information is considered relevant and necessary to determine maximum benefits under the law. The responses you submit are considered confidential (38 U.S.C. 5701). Information submitted is subject to verification through computer matching programs with other agencies.

RESPONDENT BURDEN: We need this information to obtain evidence in support of your claim for benefits (38 U.S.C. 501(a) and (b)). Title 38, United States Code, allows us to ask for this information. We estimate that you will need an average of 15 minutes to review the instructions, find the information, and complete this form. VA cannot conduct or sponsor a collection of information unless a valid OMB control number is displayed. You are not required to respond to a collection of information if this number is not displayed. Valid OMB control numbers can be located on the OMB Internet Page at www.reginfo.gov/public/do/PRAMain. If desired, you can call 1-800-827-1000 to get information on where to send comments or suggestions about this form.

DEPARTMENT OF VETERANS AFFAIRS

September 3, 2020

DARLENE HOPKINS
310 MAIN ST
ALTAMONT MO 64620

In reply, refer to:
330/22R2/KJW
File Number: (b) (6)
Marshall H. Hopkins

IMPORTANT -- reply needed

Dear Darlene Hopkins:

We are working on your claim for:

- survivors pension
- dependency and indemnity compensation

You requested that we expedite your claim under the Fully Developed Claim program. However, we required additional information to make a decision on your claim therefore; we will process your claim routinely.

What Do We Still Need from You?

We need additional evidence from you. ***Please put your VA file number on the first page of every document you send us.***

During the veteran's lifetime, service connection was established for mechanical low back pain with arthritis, major depression with sleep difficulty and memory loss, right shoulder contusion with arthritis, cervical spine arthritis. In order to support your claim, you need to submit evidence that shows a service-connected disability was the primary or contributory cause of death.

We will request medical records from any VA Facility that treated the veteran.
Use the enclosed VA Form 21-4138, Statement in Support of Claim, to tell us the location of the VA facility, the medical conditions treated, and the approximate date of treatment. Use this form to also tell us about any other records that may exist to support your claim or about a change in your address or phone number.

If a private physician or facility has treated the veteran, we may be able to request these records on your behalf. Complete and return an enclosed VA Form 21-4142, Authorization and Consent to Release Information, for each health care provider so that we can obtain treatment information. Provide the names and mailing addresses of each health care provider. You may want to obtain and send us the information yourself.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Where Should You Send What We Need?

Please note that the quickest, easiest, and most secure way to submit any documents to us is via the eBenefits website. Just visit www.eBenefits.va.gov to register. Please also refer to the 'What is eBenefits?' section of this letter for more information.

Please send what we need to this address:

You can send what we need to the appropriate address listed on the attached Where to Send Your Written Correspondence chart.

How Soon Should You Send What We Need?

We strongly encourage you to send any information or evidence as soon as you can. If we do not hear from you, we may make a decision on your claim after 30 days. However, you have up to one year from the date of this letter to submit the information and evidence necessary to support your claim. If we decide your claim before one year from the date of this letter, you will still have the remainder of the one-year period to submit additional information or evidence necessary to support your claim.

What is eBenefits?

eBenefits provides electronic resources in a self-service environment to Servicemembers, Veterans, and their families. Use of these resources often helps us serve you faster! Through the eBenefits website you can:

- Submit claims for benefits and/or upload documents directly to the VA
- Request to add or change your dependents
- Update your contact and direct deposit information and view payment history
- Request a Veterans Service Officer to represent you
- Track the status of your claim or appeal
- Obtain verification of military service, civil service preference, or VA benefits
- And much more!

Enrolling in eBenefits is easy. Just visit www.eBenefits.va.gov for more information. If you submit a claim in the future, consider filing through eBenefits. Filing electronically, especially if you participate in our fully developed claim program, may result in a faster decision than if you submit your claim through the mail.

How Can You Contact Us?

If you are looking for general information about benefits and eligibility, you should visit our web site at http://www.va.gov. Otherwise, you can contact us in several ways. Please give us your VA file number, (b) (6) when you do contact us.

- Call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the Federal number is 711 (international number is 1-800-829-4833).
- Send us an inquiry using the Internet at https://iris.va.gov.

We look forward to resolving your claim in a fair and timely manner.

Sincerely yours,

Regional Office

Department of Veterans Affairs

AUTHORIZATION TO DISCLOSE INFORMATION TO THE DEPARTMENT OF VETERANS AFFAIRS (VA)

NOTE - PLEASE READ THE ENTIRE FORM *(both pages)* BEFORE SIGNING IN ITEM 13 BELOW.

SECTION I - RECORDS TO BE RELEASED TO THE DEPARTMENT OF VETERANS AFFAIRS (VA)

I voluntarily authorize and request disclosure (including paper, oral, and electronic interchange) of: ***All* my medical records; including information related to my ability to perform tasks of daily living. This includes specific permission to release:**

1. All records and other information regarding my treatment, hospitalization, and outpatient care for my impairment(s) *including*, but not limited to:
   a. Psychological, psychiatric, or other mental impairment(s) excluding "psychotherapy notes" as defined in 45 C.F.R. §164.501,
   b. Drug abuse, alcoholism, or other substance abuse,
   c. Sickle cell anemia,
   d. Records which may indicate the presence of a communicable or non-communicable disease; and tests for or records of HIV/AIDS,
   e. Gene-related impairments (including genetic test results)
2. Information about how my impairment(s) affects my ability to complete tasks and activities of daily living, and affects my ability to work.
3. Information created within 12 months *after* the date this authorization is signed in Item 13, as well as past information.

YOU SHOULD NOT COMPLETE THIS FORM UNLESS YOU WANT THE VA TO OBTAIN PRIVATE TREATMENT RECORDS ON YOUR BEHALF. IF YOU HAVE ALREADY PROVIDED THESE RECORDS OR INTEND TO OBTAIN THEM YOURSELF, THERE IS NO NEED TO FILL OUT THIS FORM. DOING SO WILL LENGTHEN YOUR CLAIM PROCESSING TIME.

IMPORTANT - In accordance with 38 C.F.R. §3.159(c), **"VA will not pay any fees charged by a custodian to provide records requested."**

SECTION II - VETERAN IDENTIFICATION INFORMATION

NOTE - You can *either* complete the form online or by hand. Please print the information requested in ink, neatly, and legibly to help process the form.

1. VETERAN/BENEFICIARY'S NAME *(First, Middle Initial, Last)*

2. SOCIAL SECURITY NUMBER — – –

3. VA FILE NUMBER

4. DATE OF BIRTH *(MM/DD/YYYY)* — – –

5. VETERAN'S SERVICE NUMBER *(If applicable)*

6. MAILING ADDRESS (*Number and street or rural route, P. O. Box, City, State, ZIP Code and Country*)

No. & Street

Apt./Unit Number

City

State/Province

Country

ZIP Code/Postal Code –

7. E-MAIL ADDRESS *(Optional)*

SECTION III - PATIENT IDENTIFICATION FOR RECORDS VA IS REQUESTING (If other than veteran)

9. PATIENT'S NAME *(First, Middle Initial, Last)*

10. SOCIAL SECURITY NUMBER — – –

11. VA FILE NUMBER *(If applicable)*

SECTION IV - INFORMATION REGARDING SOURCE OF RECORD(S)

SOURCE OF RECORD(S):

- **ALL** medical sources (hospitals, clinics, labs, physicians, psychologists, etc.) including mental health, correctional, addiction treatment, and VA health care facilities,
- Social workers/rehabilitation counselors,
- Consulting examiners used by VA,
- Employers, insurance companies, workers' compensation programs, and
- Others who may know about my condition (family, neighbors, friends, public officials).

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

VETERAN'S SOCIAL SECURITY NO. ☐☐☐ – ☐☐ – ☐☐☐☐

SECTION V - AUTHORIZATION AND CONSENT TO RELEASE INFORMATION TO VA AND SIGNATURE

12. IF MY CONSENT TO THIS INFORMATION IS LIMITED, THE LIMITATION IS WRITTEN HERE *(If this space is left blank, there is no limitation to records)*:

TO WHOM: The Department of Veterans Affairs (VA).
PURPOSE: Determining my eligibility for benefits, and whether I can manage such benefits.
EXPIRES: This authorization is good for 12 months from the date shown in Item 14.

- I authorize the use of a copy (including electronic copy) of this form for the disclosure of the information described above in Section I.
- I understand that there are some circumstances in which this information may be re-disclosed to other parties (See page 2 for details).
- I may write to VA and my source(s) to revoke this authorization at any time (See page 2 for details).
- VA will give me a copy of this form, if I ask; I may also ask the source(s) to allow me to inspect or get a copy of material to be disclosed.
- **I have read both pages of this form and agree to the disclosures above from the types of sources listed. See Patient Acknowledgement below.**

13. SIGNATURE OF PERSON AUTHORIZING DISCLOSURE ***(Required)*** *(Sign in ink)*	14. DATE SIGNED *(MM/DD/YYYY)* ***(Required)***
15. PRINTED NAME OF PERSON SIGNING *(First, Middle Initial, Last)*	16. RELATIONSHIP TO VETERAN/CLAIMANT *(If other than self, please provide full name, title, organization, city, State, and ZIP code. All court appointments must include docket number, county, and State)*

NOTE: This general and special authorization to disclose was developed to comply with the provisions regarding disclosure of medical and other information under P.L. 104-191 ("HIPAA"); 45 C.F.R. parts 160 and 164; 42 U.S.C. §290dd-2; 42 C.F.R. part 2, and State Law.

PRIVACY ACT NOTICE: The VA will not disclose information collected on this form to any source other than what has been authorized under the Privacy Act of 1974 or Title 38, Code of Federal Regulations 1.576 for routine uses (i.e., civil or criminal law enforcement, congressional communications, epidemiological or research studies, the collection of money owed to the United States, litigation in which the United States is a party or has an interest, the administration of VA programs and delivery of VA benefits, verification of identity and status, and personnel administration) as identified in the VA system of records, 58VA21/22/28 Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records - VA, published in the Federal Register. Your obligation to respond is voluntary. However, if the information including your Social Security Number (SSN) is not furnished completely or accurately, the source to which this authorization is addressed may not be able to identify and locate your records, and provide a copy to VA. VA uses your SSN to identify your claim file. Providing your SSN will help ensure that your records are properly associated with your claim file. Giving us your SSN account information is voluntary. Refusal to provide your SSN by itself will not result in the denial of benefits. The VA will not deny an individual benefits for refusing to provide his or her SSN unless the disclosure of the SSN is required by Federal Statute of law in effect prior to January 1, 1975 and still in effect.

If you do not revoke this authorization, it will automatically expire in 12 months from the date you sign and date the form. Signing this form is voluntary, but failing to sign it, or revoking it before we receive necessary information could prevent an accurate or timely decision on your claim, and could result in denial or loss of benefits. Although the information we obtain with this form is almost never used for any purpose other than those stated above, the information may be disclosed by VA without your consent if authorized by Federal laws such as the Privacy Act.

Under the Government Paperwork Elimination Act (GPEA) (Public Law 105-277), the Office of Management and Budget (OMB) ensures that agencies, when practicable, provide for the option of electronic maintenance, submission of disclosure of information and for the use and acceptance of electronic signatures. GPEA states that electronic records submitted or maintained in accordance with the procedures developed by OMB, or electronic signature or other forms of electronic authentication used in accordance with such procedures, "shall not be denied legal effect, validity, or enforceability merely because such records are in electronic form" (Public Law 105-277, section 1707).

RESPONDENT BURDEN: We need this information and your written authorization to obtain your treatment records to help us get the information required to process your claim. Title 38, United States Code, allows us to ask for this information. You can provide this authorization by signing VA Form 21-4142. Federal law permits sources with information about you to release that information if you sign a single authorization to release all your information from all possible sources. We will make copies of it for each source. A few States, and some individual sources of information, require that the authorization specifically name the source that you authorize to release personal information. In those cases, we may ask you to sign one authorization for each source and we may contact you again if we need you to sign more authorizations. We estimate that you will need an average of 5 minutes to review the instructions, find the information and complete this form. VA cannot conduct or sponsor a collection of information unless a valid OMB control number is displayed. Valid OMB control numbers can be located on the OMB Internet Page at **www.reginfo.gov/public/do/PRAMain**. If desired, you may call 1-800-827-1000 to get information on where to send comments or suggestions about this form. If you use the Telecommunications Device for the Deaf (TDD), the Federal relay number is 711.

PATIENT ACKNOWLEDGMENT: I HEREBY AUTHORIZE the sources listed in Section IV, to release any information that may have been obtained in connection with a physical, psychological or psychiatric examination or treatment, with the understanding that VA will use this information in determining my eligibility to veterans benefits I have claimed. I understand that the source being asked to provide the Veterans Benefits Administration with records under this authorization may not require me to execute this authorization before it provides me with treatment, payment for health care, enrollment in a health plan, or eligibility for benefits provided by it. I understand that once my source sends this information to VA under this authorization, the information will no longer be protected by the HIPAA Privacy Rule, but will be protected by the Federal Privacy Act, 5 USC 552a, and VA may disclose this information as authorized by law. I also understand that I may revoke this authorization in writing, at any time except to the extent a source of information has already relied on it to take an action. To revoke, I must send a written statement to the VA Regional Office handling my claim or the Board of Veterans' Appeals (if my claim is related to an appeal) and also send a copy directly to any of my sources that I no longer wish to disclose information about me. I understand that VA may use information disclosed prior to revocation to decide my claim.

NOTE: For additional information regarding VA Form 21-4142, refer to the following website: **https://www.benefits.va.gov/privateproviders/.**

WHERE TO SEND YOUR WRITTEN CORRESPONDENCE

The time it takes your response to reach VA affects how long it takes us to process your claim. We recommend responding electronically whenever possible to minimize the time we spend waiting for mail. Only claimants or representatives can upload responses electronically right now. If you are not a claimant or representative, we recommend faxing so VA can receive your responses immediately.

The **fastest** way to respond to VA is to upload your correspondence electronically through VA.gov.

Visit https://www.va.gov. Under **Disability** click "Upload Evidence to support your claim".

If you cannot upload your correspondence, fax or mail it to the applicable address below. These addresses serve **all United States and foreign locations**.

To determine where to send your correspondence, identify your benefit type (Compensation, Veterans Pension, or Survivor Benefits); then, locate the applicable fax number or mailing address.

Compensation Claims	**Veterans Pension** and **Survivor Benefit Claims**
Fax Toll Free: 844-531-7818	Fax Toll Free: 844-655-1604
Or mail to:	**Or mail to:**

July 31, 2020

In reply, refer to:
File Number:
(b)(6)
MARSHALL H HOPKINS

DARLENE HOPKINS
PO BOX 72
HOOKER OK 73945

Dear DARLENE HOPKINS:

We received your intent to file on July 27, 2020. You indicated you would like to file a claim for survivor benefits.

If your completed application is received within one year from the date that your intent to file was received and we decide that you are entitled to VA benefits, we may be able to compensate you from the date we received your intent to file.

If your completed application is not received within one year from the date that your intent to file was received and we decide that you are entitled to VA benefits, we can only compensate you from the date we received your completed application.

What Should You Do?

In order for us to start processing your claim, you must complete, sign, and return a VA Form 21-534EZ, *Application for DIC, Death Pension, and/or Accrued Benefits*, if you are the spouse or child of the Veteran.

If you are the parent of the Veteran, you must complete, sign, and return a VA Form 21-535, *Application for Dependency and Indemnity Compensation by Parent(s) (Including Accrued Benefits and Death Compensation When Applicable)*.

We will take no further action until we receive your completed application. To locate the appropriate form(s), please visit the following website: **www.va.gov/vaforms**.

What is eBenefits?

eBenefits provides electronic resources in a self-service environment to Servicemembers, Veterans, and their families. Use of these resources often helps us serve you faster! Through the eBenefits website you can:

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

- Submit claims for benefits and/or upload documents directly to the VA
- Request to add or change your dependents
- Update your contact and direct deposit information and view payment history
- Request a Veterans Service Officer to represent you
- Track the status of your claim or appeal
- Obtain verification of military service, civil service preference, or VA benefits
- And much more!

Enrolling in eBenefits is easy. Just visit **www.eBenefits.va.gov** for more information. If you submit a claim in the future, consider filing through eBenefits. Filing electronically, especially if you participate in our fully developed claim program, may result in a faster decision than if you submit your claim through the mail.

If You Have Questions or Need Assistance

If you have any questions or need assistance with filing your claim, you may contact us by telephone, e-mail, or letter. You may also contact your appointed Veterans Service Organization and/or representative for assistance. If you are not represented, additional information on how to obtain representation is provided below.

If you	Here is what to do.
Telephone	Call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the Federal number is 711.
Use the Internet	Send electronic inquiries through the Internet at **https://iris.custhelp.com/**.
Write	VA now uses a centralized mail system. For all written communications, put your full name and VA file number on the letter. Please mail or fax all written correspondence to the appropriate address listed on the attached *Where to Send Your Written Correspondence* chart, below.

In all cases, be sure to refer to your VA file number 529 56 7575.

If you are looking for general information about benefits and eligibility, you should visit our web site at **http://www.va.gov** or search the Frequently Asked Questions (FAQs) at **https://iris.custhelp.com/**.

We have no record of you appointing a service organization or representative to assist you with your claim. You can contact us for a listing of the recognized Veterans Service Organizations and/or representatives. Veterans Service Organizations, which are recognized or approved to provide services to the veteran community, can also help you with any questions.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Sincerely yours,

Regional Office Director

Enclosure(s): Where to Send Your Written Correspondence

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Where to Send Your Written Correspondence

The time it takes your response to reach VA affects how long it takes us to process your claim. We recommend responding electronically whenever possible. Only claimants or representatives can upload responses electronically currently. If you are not a claimant or representative, we recommend faxing so VA can receive your responses without wasting the time and money required to mail your documents.

The **fastest** way to respond to VA is to upload your response electronically through VA.gov.

Visit **https://www.va.gov** and under **Disability** click "**Upload evidence to support your claim.**"

VA.gov provides one easy location to upload correspondence as well as learn about filing claims, check claim status, find out how much money you have left to pay for school or training, or refill prescriptions and communicate with your health care team among many items.

If you need to fax or mail your correspondence, identify the benefit type; then, use the corresponding fax number or mailing address below:

OMB Control No. 2900-0004
Respondent Burden: 25 minutes
Expiration Date: 10/31/2021

Department of Veterans Affairs

VA DATE STAMP
(DO NOT WRITE IN THIS SPACE)

APPLICATION FOR DIC, SURVIVORS PENSION, AND/OR ACCRUED BENEFITS

IMPORTANT: Please read the Privacy Act and Respondent Burden on page 11 before completing the form.

SECTION I: PERSONAL INFORMATION *(MUST COMPLETE)*

1. VETERAN'S NAME (Last, first, middle): Hopkins Marshall Hugh
(b) (6)
3. VETERAN'S DATE OF BIRTH (MM,DD,YYYY): 7/20/1943
4. VETERAN'S SEX: [X] MALE [ ] FEMALE
5. HAS THE VETERAN, SURVIVING SPOUSE, CHILD, OR PARENT EVER FILED A CLAIM WITH VA? [X] YES [ ] NO (If "Yes," provide the file number in Item 6)
(b) (6)
7. DID THE VETERAN DIE WHILE ON ACTIVE DUTY? [ ] YES [X] NO
(b) (6)
9. WHAT IS THE VETERAN'S DATE OF DEATH? (MM,DD,YYYY): 9/18/2015
10. WHAT IS YOUR NAME? (First, middle, last name): Darlene Ruth Hopkins
11. WHAT IS YOUR RELATIONSHIP TO THE VETERAN? (Check one): [X] SURVIVING SPOUSE [ ] PARENT [ ] CHILD [ ] CUSTODIAN FILING FOR CHILD
12. WHAT IS YOUR SOCIAL SECURITY NUMBER? 522-94-9287
13. WHAT IS YOUR DATE OF BIRTH? (MM,DD,YYYY): 7/2/1964
14. ARE YOU A VETERAN? [ ] YES [X] NO
15A. WHAT IS YOUR ADDRESS?
310 Main St
Street address, rural route, or P.O. Box — Apt. number
Altamont — MO — 64620 — USA
City — State — ZIP Code — Country
15B. YOUR TELEPHONE NUMBER(S) (include Area Code)
DAYTIME: (620) 272-4822
EVENING: (620) 272-4822
CELL PHONE: (620) 272-4822
16A. YOUR PREFERRED E-MAIL ADDRESS (If applicable): None
16B. YOUR ALTERNATE E-MAIL ADDRESS (If applicable)
17. WHAT ARE YOU CLAIMING? (Check all that apply)
[X] DEPENDENCY AND INDEMNITY COMPENSATION (DIC) [X] SURVIVORS PENSION [ ] ACCRUED BENEFITS

SECTION II: VETERAN'S SERVICE INFORMATION *(COMPLETE ONLY IF THE VETERAN WAS NOT RECEIVING VA (b) MPENSATION OR PENSION BENEFITS AT THE TIME OF DEATH)*

(Skip to Section III if the veteran was receiving VA compensation or pension benefits at the time of his or her death)

18A. DID THE VETERAN SERVE UNDER ANOTHER NAME? [ ] YES [X] NO (If "Yes," complete Item 18B) (If "No," skip to Item 18C)
18B. PLEASE LIST OTHER NAME(S) THE VETERAN SERVED UNDER:
18C. VETERAN ENTERED ACTIVE SERVICE ON (MM,DD,YYYY): 12/2/1963
18D. BRANCH OF SERVICE: Air Force

			$
			$

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

SECTION V: VETERAN'S PARENT *(COMPLETE ONLY IF CLAIMING BENEFITS AS THE PARENT OF VETERAN)*

*(Skip to Section VI if you are **NOT** claiming benefits as the parent of a veteran)*

30A. WHAT IS YOUR MARITAL STATUS? (Check one)

☐ MARRIED AND LIVE WITH OTHER PARENT OF VETERAN ☐ MARRIED AND LIVE WITH SPOUSE WHO IS NOT THE OTHER PARENT OF THE VETERAN ☐ SEPARATED, MARRIED BUT NOT LIVING WITH SPOUSE ☐ DIVORCED ☐ WIDOWED ☐ NEVER MARRIED

30B. IF YOUR MARRIAGE HAS ENDED, PLEASE SPECIFY THE DATE (month, day, year) AND HOW MARRIAGE ENDED (death, divorce, etc.)

30C. IF YOU ARE SEPARATED, WHAT WAS THE CAUSE OF THE SEPARATION? GIVE THE REASON, DATE(S) AND DURATION OF THE SEPARATION *(IF THE **SEPARATION WAS BY COURT ORDER, ATTACH A COPY OF THE ORDER**)*

31A. WHAT IS YOUR SPOUSE'S NAME? (First, middle initial, last name) (Skip to Item 32A if never married or no longer married)	31B. WHAT IS YOUR SPOUSE'S DATE OF BIRTH? (MM,DD,YYYY)	31C. WHAT IS YOUR SPOUSE'S SOCIAL SECURITY NUMBER?

31D. IS YOUR SPOUSE ALSO A VETERAN? ☐ YES ☐ NO (If "Yes," complete Item 31E)	31E. WHAT IS YOUR SPOUSE'S VA FILE NUMBER? (If applicable)

32A. WAS THE VETERAN A MEMBER OF YOUR HOUSEHOLD OR UNDER YOUR PARENTAL CONTROL AT ALL TIMES BEFORE HE/SHE REACHED THE AGE OF *MAJORITY* (AGE 18 IN MOST STATES)? ☐ YES ☐ NO (If "Yes," skip to Item 34)	32B. DATE(S) OF PARENTAL CONTROL (If veteran did not live in your household continuously before age 18 provide the time period (dates) when he/she was under your parental control) (MM DD YYYY) *to* (MM DD YYYY) (MM DD YYYY) *to* (MM DD YYYY)

32C. WHY WASN'T THE VETERAN A MEMBER OF YOUR HOUSEHOLD OR UNDER YOUR PARENTAL CONTROL AT ALL TIMES BEFORE HE/SHE REACHED THE AGE OF MAJORITY? (Explain fully)

33. NAME AND ADDRESS OF EACH PERSON WHO ASSUMED PARENTAL CONTROL OVER THE VETERAN OUTSIDE THE DATE(S) SHOWN IN ITEM 32B

A. NAME (FIRST, MIDDLE, LAST)	B. ADDRESS
	Street address, rural route, or P.O. Box Apt. number City State ZIP Code Country
	Street address, rural route, or P.O. Box Apt. number City State ZIP Code Country

34. IF YOU ARE NOT THE BIOLOGICAL PARENT OF THE VETERAN, PROVIDE THE NAMES OF THE BIOLOGICAL PARENTS, IF DECEASED, PROVIDE THE DATE(S) OF DEATH.

A. NAME (FIRST, MIDDLE, LAST)	B. DATE OF DEATH (MM,DD,YYYY)

SECTION VI: DIC *(COMPLETE ONLY IF CLAIMING DEPENDENCY AND INDEMNITY COMPENSATION (DIC))*

*(Skip to Section VII if you are **NOT** claiming DIC)*

35. WHAT BENEFIT ARE YOU CLAIMING?

☒ DIC ☐ DIC under 38 U.S.C. 1151 (RARE)

36. LIST ANY VA MEDICAL CENTERS WHERE THE VETERAN RECEIVED TREATMENT PERTAINING TO YOUR CLAIM AND PROVIDE TREATMENT DATES:

A. NAME AND LOCATION OF VA MEDICAL CENTER	B. DATE(S) OF TREATMENT
VA Medial Center, Memphis TN	09/18/2015
VA Medial Center, Amarillo TX	01/14/2003

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

SECTION VII: NURSING HOME OR INCREASED SURVIVORS ENTITLEMENT

37. ARE YOU CLAIMING SPECIAL MONTHLY PENSION OR SPECIAL MONTHLY DIC BECAUSE YOU NEED THE REGULAR ASSISTANCE OF ANOTHER PERSON, HAVE SEVERE VISUAL PROBLEMS, OR ARE GENERALLY CONFINED TO YOUR IMMEDIATE PREMISES?

☐ YES ☒ NO *(If "Yes," please complete and attach with this application, VA Form 21-2680, Exam for Housebound Status or Permanent Need for Regular Aid and Attendance. Please make sure every box is complete and signed by a Physician, Physician Assistant (PA), Certified Nurse Practitioner (CNRP), or Clinical Nurse Specialist (CNS).)*

38A. ARE YOU NOW IN A NURSING HOME?

☐ YES ☒ NO *(If "Yes," answer Items 38B and 38C. Also, submit a statement from an official of the nursing home that tells us that you are a patient in the nursing home because of a physical or mental disability. The statement should include the monthly charge you are paying out-of-pocket for your care.)*

38B. WHAT IS THE NAME AND COMPLETE MAILING ADDRESS OF THE FACILITY?

38C. DOES MEDICAID COVER ALL OR PART OF YOUR NURSING HOME COSTS?

☐ YES ☒ NO *(If "No," complete Item 38D)*

38D. HAVE YOU APPLIED FOR MEDICAID?

☐ YES ☒ NO

SECTION VIII: INCOME AND ASSETS *(COMPLETE ONLY IF CLAIMING SURVIVORS PENSION OR PARENTS DIC)*

*(Skip to Section XI if you are **NOT** claiming survivors pension benefits or parents DIC)*

IMPORTANT:

- If you are a surviving spouse claimant, you must report income and assets for yourself and for any child of the veteran who lives with you or for whom you are responsible unless a court has decided you do not have custody of the child.
- If you are a surviving child claimant (which means the child is not in the custody of a surviving spouse), you must report income and assets for yourself, your custodian, and your custodian's spouse.
- If you are a surviving parent claimant, you must report income for yourself and your spouse.

39. DO YOU OR YOUR DEPENDENTS RECEIVE SOCIAL SECURITY BENEFITS?

☐ YES ☒ NO (If "YES," complete Item 40) (If "NO," skip to Item 41)

40. GROSS MONTHLY INCOME (Attach a separate sheet if necessary)

SOCIAL SECURITY RECIPIENT	GROSS MONTHLY AMOUNT
	$
	$
	$
	$
	$

41. DO YOU OWN YOUR PRIMARY RESIDENCE? (Parents' DIC claimants skip to Item 43A)

☒ YES ☐ NO

42A. WHAT IS THE SIZE OF THE LOT ON WHICH YOUR PRIMARY RESIDENCE SITS? (Square Feet)

Square Feet:_____

42B. COULD PART OF YOUR LOT BE SOLD *WITHOUT SELLING YOUR RESIDENCE?*

☐ YES ☒ NO (If "YES," complete and attach VA Form, 21P-0969, *Income and Asset Statement*)

IMPORTANT: VA matches income information reported with Federal tax information. Report ALL income you and your dependents receive on the appropriate sections of this form and VA Form 21P-0969, Income and Asset Statement, if appropriate.

43A. **OTHER THAN SOCIAL SECURITY**, DO YOU OR YOUR DEPENDENTS RECEIVE ANY INCOME?

☒ YES ☐ NO

43B. **OTHER THAN SOCIAL SECURITY**, DID YOU OR YOUR DEPENDENTS RECEIVE ANY INCOME LAST YEAR?

☒ YES ☐ NO

43C. DO YOU OR YOUR DEPENDENTS HAVE MORE THAN $10,000 IN ASSETS? (NOTE: Assets are all the money and property you or your dependents own. Assets ***do not*** include your primary residence or personal effects such as appliances and vehicles you or your dependents need for transportation)

☐ YES ☒ NO

43D. IN THE THREE CALENDAR YEARS BEFORE THIS YEAR, DID YOU OR YOUR DEPENDENTS TRANSFER ANY ASSETS? (Examples of asset transfers include giving them away, selling them, purchasing an annuity, or using them to establish a trust)

☐ YES ☒ NO

43E. DID YOU ANSWER "YES," TO ANY OF THE QUESTIONS IN ITEMS 43A THRU 43D?

☒ YES ☐ NO (If "Yes," you ***must*** also complete VA Form 21P-0969, *Income and Asset Statement*)

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

SECTION IX: INFORMATION ABOUT YOUR MEDICAL OR OTHER EXPENSES

Family medical expenses and certain other expenses you actually paid may be deductible from your income. Show the amount of unreimbursed medical expenses, including the Medicare deduction, you paid over the last year (or expect to pay and continue indefinitely) for yourself or relatives who are members of your household. Also, show unreimbursed last illness and burial expenses and educational or vocational rehabilitation expenses you paid. Last illness and burial expenses are unreimbursed amounts you paid for the last illness and burial of a spouse or child. Educational or vocational rehabilitation expenses are amounts you paid for courses of education including tuition, fees, and materials. Do not include any expenses for which you were/will be reimbursed. Please make sure to complete all 6 criteria below (if applicable). If you need more space, complete and attach a separate VA Form 21P-8416, Medical Expense Report.

IMPORTANT: If you are claiming expenses for in-home care or assisted living, adult day care, or similar facility, you must complete the applicable worksheet on pages 12 and 13.

44. ARE YOU CLAIMING UNREIMBURSED MEDICAL EXPENSES?

☐ YES ☒ NO (If "No," skip to Section X)

45A. WHOSE MEDICAL, LEGAL, OR OTHER EXPENSES WERE PAID?	45B. PAID TO (Name of provider, insurance company, nursing home, etc.)	45C.PURPOSE (Medicare premiums, nursing home, etc.)	45D. DATE PAID (MM,DD,YYYY)	45E. HOURLY RATE/HOURS (In-home Provider only)	45F. AMOUNT YOU PAY

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

SECTION X: DIRECT DEPOSIT INFORMATION *(MUST COMPLETE)*

The Department of Treasury requires all Federal benefit payments be made by electronic funds transfer (EFT), also called direct deposit. Please attach a voided personal check or deposit slip or provide the information requested below in Items 46, 47, and 48 to enroll in direct deposit. If you ***do not*** have a bank account, you must receive your payment through Direct Express Debit MasterCard. To request a Direct Express Debit MasterCard you must apply at www.usdirectexpress.com or by telephone at 1-800-333-1795. If you elect not to enroll, you must contact representatives handling waiver requests for the Department of Treasury at 1-888-224-2950. They will encourage your participation in EFT and address any questions or concerns you may have.

46. ACCOUNT NUMBER (Check the appropriate box and provide the account number, or simply write "Established" if you have a direct deposit with VA.)

☒ CHECKING ☐ SAVINGS ☐ I CERTIFY THAT I DO NOT HAVE AN ACCOUNT WITH A FINANCIAL INSTITUTION OR CERTIFIED PAYMENT AGENT

Account No.: 1363603 Account No.:

47. NAME OF FINANCIAL INSTITUTION (Please provide the name of the bank where you want your direct deposit)	48. ROUTING OR TRANSIT NUMBER (The first nine numbers located at the bottom left of your check)
First National Bank	103110046

SECTION XI: CLAIM CERTIFICATION AND SIGNATURE *(MUST COMPLETE)*

I certify and authorize the release of information. I certify that the statements in this document are true and complete to the best of my knowledge. I authorize any person or entity, including but not limited to any organization, service provider, employer, or government agency, to give the Department of Veterans Affairs any information about me except protected health information, and I waive any privilege which makes the information confidential.

I certify I have received the notice attached to this application titled *Notice to Survivor of Evidence Necessary to Substantiate a Claim for Dependency Indemnity Compensation, Death Pension, and/or Accrued Benefits.*

I certify I have enclosed all information or evidence that will support my claim, to include an identification of relevant records available at a Federal facility, such as a VA medical center; **OR,** I have no information or evidence to give VA to support my claim; **OR**, I have checked the box in Item 49, indicating that I do not want my claim considered for rapid processing in the Fully Developed Claim (FDC) Program because I plan to submit further evidence in support of my claim.

49. The FDC Program is designed to rapidly process compensation or pension claims received with the evidence necessary to decide the claim. VA will *automatically* consider a claim submitted on this form for rapid processing under the FDC Program. Check the box below **ONLY if you DO NOT want your claim considered for rapid processing** under the FDC Program because you plan to submit further evidence in support of your claim.

☐ **I DO NOT want my claim considered for rapid processing** under the FDC Program because I plan to submit further evidence in support of my claim.

50A. CLAIMANT'S SIGNATURE **(REQUIRED)**	50B. DATE SIGNED
Dalia L Hopkins	7/27/2020

SECTION XII: WITNESSES TO SIGNATURE *(COMPLETE ONLY IF CLAIMANT SIGNED ITEM 45A WITH AN "X")*

51A. SIGNATURE OF WITNESS (If claimant signed above using an "X")	51B. PRINTED NAME AND ADDRESS OF WITNESS
52A. SIGNATURE OF WITNESS (If claimant signed above using an "X")	**52B. PRINTED NAME AND ADDRESS OF WITNESS**

PRIVACY ACT NOTICE: The form will be used to determine allowance to compensation and/or pension benefits (38 U.S.C. 5101). The responses you submit are considered confidential (38 U.S.C. 5701). VA may disclose the information that you provide, including Social Security numbers, outside VA if the disclosure is authorized under the Privacy Act, including the routine uses identified in the VA system of records, 58VA21/22/28, Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records - VA, published in the Federal Register. The requested information is considered relevant and necessary to determine maximum benefits under the law. Information submitted is subject to verification through computer matching programs with other agencies. VA may make a "routine use" disclosure for: civil or criminal law enforcement, congressional communications, epidemiological or research studies, the collection of money owed to the United States, litigation in which the United States is a party or has an interest, the administration of VA programs and delivery of VA benefits, verification of identity and status, and personnel administration. Your obligation to respond is required in order to obtain or retain benefits. Information that you furnish may be utilized in computer matching programs with other Federal or State agencies for the purpose of determining your eligibility to receive VA benefits, as well as to collect any amount owed to the United States by virtue of your participation in any benefit program administered by the Department of Veterans Affairs. Social Security information: You are required to provide the Social Security number requested under 38 U.S.C. 5101(c)(1). VA may disclose Social Security numbers as authorized under the Privacy Act, and, specifically may disclose them for purposes stated above.

RESPONDENT BURDEN: We need this information to determine your eligibility for pension. Title 38, United States Code, allows us to ask for this information. We estimate that you will need an average of 25 minutes to review the instructions, find the information, and complete this form. VA cannot conduct or sponsor a collection of information unless a valid OMB control number is displayed. You are not required to respond to a collection of information if this number is not displayed. Valid OMB control numbers can be located on the OMB Internet Page at **www.reginfo.gov/public/do/PRAMain**. If desired, you can call 1-800-827-1000 to get information on where to send comments or suggestions about this form.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

WORKSHEET FOR AN ASSISTED LIVING, ADULT DAY CARE, OR A SIMILAR FACILITY

NOTE: Only complete this worksheet if you are claiming expenses for an assisted living facility, adult day care or similar facility.

IMPORTANT: VA recognizes the following five activities as Activities of Daily Living (ADLs) for medical expense purposes:

(1) Eating

(2) Bathing/Showering

(3) Dressing

(4) Transferring (for example, from bed to chair)

(5) Using the toilet

Custodial Care is regular -
- assistance with two or more ADLs, ***or***
- supervision because a person with a mental disorder is unsafe if left alone due to the mental disorder.

INSTRUCTIONS: Use this worksheet if you are claiming a disabled person's care in an assisted living facility, adult day care, or similar facility as unreimbursed medical expenses. Follow the steps below to determine whether VA may deduct all or some of your out-of-pocket payments to the facility.

STEP 1. Are the expenses you wish to claim due to the disabled person's treatment in a hospital, inpatient treatment center, nursing home, or VA approved medical foster home?

(If "NO," continue to Step 2)

☐ YES ☐ NO (If "YES," ***all*** payments to the facility qualify as medical expenses in Items 45A thru 45F. You are finished completing this worksheet)

STEP 2. Do ***all*** of the following apply to the facility?
- The facility is licensed (if the State or Country requires it)
- The facility's staff (or the facility's contracted staff) provides the disabled person with health care or custodial care or both.
- If the facility is residential, it is staffed 24 hours per day with caregivers.

☐ YES ☐ NO (If "NO," payments to the facility ***do not*** qualify as medical expenses. You are finished completing this worksheet)

STEP 3. Are you (the claimant) the disabled person, a surviving spouse, or a Parents' DIC claimant?

☐ YES ☐ NO (If "NO," skip to Step 6)

STEP 4. Did you claim special monthly pension or special monthly DIC in Item 37?

☐ YES ☐ NO (If "NO," payments to this facility for meals and lodging ***do not*** qualify as medical expenses. ***Only*** claim amount you pay the facility for ***health care services or assistance with ADLs provided by a health care provider*** in Items 45A thru 45F. Skip to Step 8)

STEP 5. If you answered "YES" in Step 2, you stated that the facility provides you with health care and/or custodial care. Is this the ***primary reason*** you live in the facility (or attend day care in the facility)?

☐ YES ☐ NO (If "YES," all payments to this facility ***may*** qualify as medical expenses in Items 45A thru 45F ***if*** VA rates you as eligible for special monthly pension or special monthly DIC. Please report the amount you pay the facility for lodging and meals separate from the amount you pay the facility for ***health care services or assistance with ADLs provided by a health care provider*** as medical expenses in Items 45A thru 45F. Skip to Step 8)
(If "NO," payments to this facility for meals and lodging ***do not*** qualify as medical expenses. Please report separately in Items 45A thru 45F applicable amounts you pay the facility for: (1) ***health care services or assistance with ADLs provided by a health care provider***; and (2) ***custodial care***. Skip to Step 8)

STEP 6. Does the disabled person require the health care services or custodial care that the facility provides to him or her because of the disabled person's mental or physical disability?

(If "YES," you must submit a statement from a physician or physician assistant that (1) the disabled person requires the health care services or custodial care that the facility provides to him or her because of mental or physical disability, and (2) describes the mental or physical disabilty)

☐ YES ☐ NO (If "NO," claim payments you pay this facility for ***health care services or assistance with ADLs provided by a health care provider*** in Items 45A thru 45F. Skip to Step 8)

STEP 7. If you answered "YES" in Step 2, you stated that the facility provides the disabled person with health care and/or custodial care. Is this the ***primary reason*** the disabled person lives in the facility (or attends day care in the facility)?

(If "YES," claim all payments to this facility (to include meals and lodging) as medical expenses in Items 45A thru 45F)

☐ YES ☐ NO (If "NO," ***only*** claim payments you pay the facility for assistance with ***health care and/or assistance with custodial care*** as medical expenses in Items 45A thru 45F. Payment to this facility for meals and lodging ***do not*** qualify)

STEP 8. Facility Certification: Please submit a current statement showing the fees the claimant pays to your facility and a breakdown of the care received.

I CERTIFY that the information stated within this WORKSHEET FOR AN ASSISTED LIVING, ADULT DAY CARE, OR SIMILAR FACILITY is accurate and reflects the current environment pertaining to _____ (Name of person staying at your facility)

and his or her care at this facility _____ (Name and address of facility)

_____ (Name, Signature and Title of Person Certifying for the Facility)

_____ (Date Certified)

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

WORKSHEET FOR IN-HOME ATTENDANT EXPENSES

NOTE: Only complete this worksheet if you are claiming expenses for in-home care.

IMPORTANT: VA recognizes the following five activities as Activities of Daily Living (ADLs) for medical expense purposes:

(1) Eating

(2) Bathing/Showering

(3) Dressing

(4) Transferring (for example, from bed to chair)

(5) Using the toilet

Custodial Care is regular -
- assistance with two or more ADLs, ***or***
- supervision because a person with a mental disorder is unsafe if left alone due to the mental disorder

IMPORTANT: The following activities are examples of Instrumental Activities of Daily Living (IADLs) for VA purposes. VA generally ***does not*** recognize assistance with these activities as medical expenses: (1) Shopping; (2) Food Preparation; (3) Housekeeping; (4) Laundering; (5) Handling medications; (6) Using the telephone; (7) Transportation (except for medical purposes such as transportation to a doctor's appointment).

INSTRUCTIONS: Use this worksheet if you are claiming payments to a disabled person's in-home attendant as an unreimbursed medical expense.

Follow the steps below to determine whether or not:

- the attendant must be a health care provider for VA purposes ***and***
- VA may deduct payment for assistance with IADLs as well as assistance with ADLs and custodial care

STEP 1. Are you (the claimant) the disabled person, a surviving spouse, or a Parents' DIC claimant?

☐ YES ☐ NO (If "NO," skip to Step 4)

STEP 2. Did you claim special monthly pension on Item 37?

☐ YES ☐ NO (If "NO," payments to this in-home attendant for assistance with IADLs ***do not*** qualify as medical expenses. Please report separately in Items 45A thru 45F applicable amounts you pay an in-home attendant for: (1) health care services or assistance with ADLs provided by a health care provider and (2) custodial care. Skip to Step 6)

STEP 3. Is the ***primary responsibility*** of the in-home attendant to provide you with health care or custodial care?

☐ YES ☐ NO (If "YES," payments to this in-home attendant ***may*** qualify as medical expenses in Items 45A thru 45F ***if*** VA rates you as eligible for special monthly pension. Please report separately in Items 45A thru 45F amounts you pay an in-home attendant for: (1) health-care services or assistance with ADLs provided by a health care provider, (2) assistance with IADLs, and (3) custodial care. Skip to Step 6)

(If "NO," payments to this in-home attendant for assistance with IADLs ***do not*** qualify as medical expenses. Please report separately in Items 45A thru 45F applicable amounts you pay an in-home attendant for: (1) health care services or assistance with ADLs provided by a health care provider and (2) custodial care. Skip to Step 6)

STEP 4. Does the disabled person require the health care services or custodial care that the in-home attendant provides to him or her because of the disabled person's mental or physical disability?

☐ YES ☐ NO (If "YES," you must submit a statement from a physician or physician assistant that (1) the disabled person requires the health care services or custodial care that the in-home attendant provides to him or her because of mental or physical disability, and (2) describes the mental or physical disability)

(If "NO," the attendant ***must be a health care provider***. Only report payments to the in-home attendant for ***health care services or assistance with ADLs*** provided by the health care provider as medical expenses in Items 45A thru 45F. Payments for assistance with IADLs do not qualify as medical expenses. Skip to Step 6)

STEP 5. Is the ***primary responsibility*** of the in-home attendant to provide the disabled person with health care or custodial care?

☐ YES ☐ NO (If "YES," payments to the in-home attendant qualify as medical expenses (even assistance with IADLs) and can be reported in Items 45A thru 45F)

(If "NO," report payments to this in-home attendant for ***health care and/or custodial care*** as medical expenses in Items 45A thru 45F. Payments for assistance with IADLs ***do not*** qualify as medical expenses)

STEP 6. Check all activities below that the attendant assists the veteran or disabled person with:

ADLs: ☐ EATING ☐ BATHING/SHOWERING ☐ DRESSING ☐ TRANSFERRING ☐ USING THE TOILET

IADLs: ☐ SHOPPING ☐ FOOD PREPARATION ☐ HOUSEKEEPING ☐ LAUNDERING ☐ MANAGING FINANCES ☐ HANDLING MEDICATIONS ☐ USING THE TELEPHONE ☐ TRANSPORTANTION FOR NON-MEDICAL PURPOSES

STEP 7. In-Home Attendant Certification: Please submit a current breakdown of the time the attendant spends assisting the veteran or disabled person with health care services, ADLs and IADLs.

I CERTIFY that the information stated within this WORKSHEET FOR IN-HOME ATTENDANT EXPENSES is accurate and reflects the current environment pertaining to _____ (Name of Person Requiring Care) and his or her care from _____ (Name of Attendant).

_____ (Name, Signature and Title of Certifying Official) _____ (Date Certified)

INCOME AND ASSET STATEMENT IN SUPPORT OF CLAIM FOR PENSION OR PARENTS' DEPENDENCY AND INDEMNITY COMPENSATION (DIC)
(Attachment to VA Forms 21P-527, 21P-527EZ, 21P-534, 21P-534EZ, and 21-526)

IMPORTANT: This is ***not*** a stand-alone form. Only complete this attachment if you are directed to do so when you complete ***one*** of the following:

1. Section VI on VA Form 21P-527 or Section VII on VA Form 21P-527EZ
2. Section VII on VA Form 21P-534 or Section VIII on VA Form 21P-534EZ
3. Section VIII on VA Form 21-526

VETERAN/CLAIMANT PERSONAL INFORMATION

1. VETERAN'S NAME (Last, First, Middle)	(b) (6)	
Hopkins Marshall Hugh		
4. CLAIMANT'S NAME (Last, First, Middle)	**5. CLAIMANT'S SOCIAL SECURITY NUMBER**	**6. CLAIMANT'S TELEPHONE NUMBER**
Hopkins Darlene Ruth	522-94-9287	602-272-4822

7. TYPE OF CLAIMANT (Check only one box)

☐ VETERAN ☒ SURVIVING SPOUSE ☐ SURVIVING CHILD ☐ PARENT

IMPORTANT INFORMATION FOR CLAIMANTS

NOTE - The term **"assets"** means the fair market value of all property that an individual owns, including all real and personal property (excluding the value of your or your dependent's primary residence including the residential lot area, not to exceed 2 acres) less the amount of mortgages or other encumbrances specific to the mortgaged or encumbered property. Personal property means the value of personal effects that are in excess of being suitable and consistent with a reasonable mode of life.

If you are a **Veteran**, you must report income and assets for:
- yourself
- your spouse (***unless*** you live apart ***and*** you are estranged ***and*** you do not contribute to your spouse's support)
- your child or children (***unless*** you do not have custody* ***and*** you do not contribute to your child's or children's support)

If you are a **Surviving Spouse,** you must report income and assets for:
- yourself
- any child of the veteran who is in your custody*

If you are a **Surviving Child** or the **Custodian of a Surviving Child**, you must report income and assets for the:
- child
- child's custodian (unless the child's custodian is an institution)
- custodian's spouse

If you are a **Parent**, you must report income** for:
- yourself
- your spouse (even if your spouse is the veteran's other parent. If your spouse is the veteran's other parent, you must ***both*** file claims)

*Child custody for pension purposes is defined in 38 C.F.R. § 3.57(d). A natural or adoptive parent has custody of a child unless custody is legally removed. For pension purposes, a child who has attained age 18 remains in the custody of the person who had custody before the child turned age 18 unless custody is legally removed.

** Parent's DIC claimants do ***not*** need to ***report*** or ***provide*** documentation of their assets.

NOTICE

IMPORTANT: VA will compare the information you report on this form to Internal Revenue Service (IRS) and Social Security Administration (SSA) records to verify your income for the past three tax years for which information is available. Information from the IRS or SSA that conflicts with the income information you provide with your application may delay your claim and/or reduce your benefit amount.

PRIVACY ACT NOTICE: VA will not disclose information collected on this form to any source other than what has been authorized under the Privacy Act of 1974 or Title 38, code of Federal Regulations 1.576 for routine uses (i.e., civil or criminal law enforcement, congressional communications, epidemiological or research studies, the collection of money owed to the United States, litigation in which the United States is a party or has an interest, the administration of VA programs and delivery of VA benefits, verification of identity and status, and personnel administration) as identified in the VA system of records, 58VA21/22/28, Compensation, Pension, Education, and Vocational Rehabilitation Records - VA, published in the Federal Register. Your obligation to respond is required to obtain or retain benefits. The requested information is considered relevant and necessary to determine maximum benefits provided under the law. Giving us your SSN account information is voluntary. Refusal to provide your SSN by itself will not result in the denial of benefits. VA will not deny an individual benefits for refusing to provide his or her SSN unless the disclosure of the SSN is required by a Federal Statute of law in effect prior to January 1, 1975, and still in effect. The responses you submit are considered confidential (38 U.S.C. 5701). Information submitted is subject to verification through computer matching programs with other agencies.

RESPONDENT BURDEN: We need this information to determine your eligibility for pension. Title 38, United States Code, allows us to ask for this information. We estimate that you will need an average of 25 minutes to review the instructions, find the information, and complete this form. VA cannot conduct or sponsor a collection of information unless a valid OMB control number is displayed. You are not required to respond to a collection of information if this number is not displayed. Valid OMB control numbers can be located on the OMB Internet Page at www.reginfo.gov/public/do/PRAMain. If desired, you can call 1-800-827-1000 to get information on where to send comments or suggestions about this form.

Respondent Burden: 5 minutes
Expiration Date: 02/28/2022

Department of Veterans Affairs

VA DATE STAMP
(DO NOT WRITE IN THIS SPACE)

APPOINTMENT OF VETERANS SERVICE ORGANIZATION AS CLAIMANT'S REPRESENTATIVE

IMPORTANT: Please read the Privacy Act and Respondent Burden Information on Page 3 before completing the form.

NOTE: If you prefer to have an individual assist you with your claim instead of a veterans service organization please complete VA Form 21-22, *Appointment of Individual as Claimant's Representative.* When completed you can mail ***or*** fax this form to the appropriate intake center address shown on Page 4. VA forms are available at www.va.gov/vaforms.

SECTION I: VETERAN'S INFORMATION

NOTE: You can *either* complete the form online or by hand. If completed by hand, print the information requested in ink, neatly, and legibly to expedite processing of the form.

1. VETERAN'S NAME *(First, Middle Initial, Last)*: Marshall H Hopkins

(b) (6)

4. VETERAN'S DATE OF BIRTH: Month 07 – Day 20 – Year 1943

(b) (6)

6. INSURANCE NUMBER(S) *(If applicable) (Include letter prefix)*:

(b) (6)

8. VETERAN'S TELEPHONE NUMBER *(Include Area Code)*: 620-272-4822

9. VETERAN'S EMAIL ADDRESS *(Optional)*: None

SECTION II: CLAIMANT'S INFORMATION (If other than veteran)

10. CLAIMANT'S NAME *(First, Middle Initial, Last)*: Darlene R Hopkins

11. CLAIMANT'S MAILING ADDRESS *(Number and street or rural route, P.O. Box, City, State, ZIP Code and Country)*

No. & Street: 310 Main St

Apt./Unit Number:

City: Altamont

State/Province: MO

Country:

ZIP Code/Postal Code: 64620 –

12. CLAIMANT'S TELEPHONE NUMBER *(Include Area Code)*: 602-272-4822

13. CLAIMANT'S EMAIL ADDRESS *(Optional)*: None

14. RELATIONSHIP TO VETERAN: Wife

SECTION III: SERVICE ORGANIZATION INFORMATION

15. NAME OF SERVICE ORGANIZATION RECOGNIZED BY THE DEPARTMENT OF VETERANS AFFAIRS *(See list on Page 3 before selecting organization)*: MO Veterans Commission -031

16A. NAME OF OFFICIAL REPRESENTATIVE ACTING ON BEHALF OF THE ORGANIZATION NAMED IN ITEM 15 *(This is an appointment of the entire organization and does not indicate the designation of only this specific individual to act on behalf of the organization)*: Elaine Gerstenberger

16B. JOB TITLE OF PERSON NAMED IN ITEM 16A: Accredited Veterans Service Officer

17. EMAIL ADDRESS OF THE ORGANIZATION NAMED IN ITEM 15: Movets.veteran@mvc.dps.mo.gov

18. DATE OF THIS APPOINTMENT *(MM/DD/YYYY)*: 7/27/2020

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

VETERAN'S SOCIAL SECURITY NUMBER 5 2 9 – 5 6 – 7 5 7 5

SECTION IV: AUTHORIZATION INFORMATION

19. AUTHORIZATION FOR REPRESENTATIVE'S ACCESS TO RECORDS PROTECTED BY SECTION 7332, TITLE 38, U.S.C. - By checking the box below I authorize VA to disclose to the service organization named on this appointment form any records that may be in my file relating to treatment for drug abuse, alcoholism or alcohol abuse, infection with the human immunodeficiency virus (HIV), or sickle cell anemia.

☒ I **authorize** the VA facility having custody of my VA claimant records to disclose to the service organization named in Item 15 all treatment records relating to drug abuse, alcoholism or alcohol abuse, infection with the human immunodeficiency virus (HIV), or sickle cell anemia. Redisclosure of these records by my service organization representative, other than to VA or the Court of Appeals for Veterans Claims, is not authorized without my further written consent. This authorization will remain in effect until the earlier of the following events: (1) I revoke this authorization by filing a written revocation with VA; or (2) I revoke the appointment of the service organization named in Item 15, either by explicit revocation or the appointment of another representative.

20. LIMITATION OF CONSENT- I authorize disclosure of records related to treatment for all conditions listed in Item 19 except:

☐ DRUG ABUSE ☐ INFECTION WITH THE HUMAN IMMUNODEFICIENCY VIRUS (HIV)

☐ ALCOHOLISM OR ALCOHOL ABUSE ☐ SICKLE CELL ANEMIA

21. AUTHORIZATION TO CHANGE CLAIMANT'S ADDRESS - By checking the box below, I authorize the organization named in Item 15 to act on my behalf to change my address in my VA records.

☒ I **authorize** any official representative of the organization named in Item 15 to act on my behalf to change my address in my VA records. This authorization does not extend to any other organization without my further written consent. This authorization will remain in effect until the earlier of the following events: (1) I file a written revocation with VA; or (2) I appoint another representative, or (3) I have been determined unable to manage my financial affairs and the individual or organization named in Item 16A is not my appointed fiduciary.

I, the claimant named in Items 1 ***or*** 10, hereby **appoint** the service organization named in Item 15 as my representative to prepare, present and prosecute my claim(s) for any and all benefits from the Department of Veterans Affairs (VA) based on the service of the veteran named in Item 1. I authorize VA to release any and all of my records, to include disclosure of my Federal tax information (other than as provided in Items 19 and 20), to my appointed service organization. I understand that my appointed representative will not charge any fee or compensation for service rendered pursuant to this appointment. I understand that the service organization I have appointed as my representative may revoke this appointment at any time, subject to 38 CFR 20.608. *Additionally, in some cases a veteran's income is developed because a match with the Internal Revenue Service necessitated income verification. In such cases, the assignment of the service organization as the veteran's representative is valid for only five years from the date the claimant signs this form for purposes restricted to the verification match.* Signed and accepted subject to the foregoing conditions.

SECTION V: SIGNATURES

NOTE: THIS POWER OF ATTORNEY DOES NOT REQUIRE EXECUTION BEFORE A NOTARY PUBLIC

22A. SIGNATURE OF VETERAN OR CLAIMANT *(Do Not Print)*	22B. DATE SIGNED *(MM/DD/YYYY)*
Dalia Hoyne	7/27/2020
23A. SIGNATURE OF VETERANS SERVICE ORGANIZATION REPRESENTATIVE NAMED IN ITEM 16A *(Do Not Print)* Elaine K. Gerstenberger, VSO	**23B. DATE SIGNED** *(MM/DD/YYYY)* 7/27/2020

NOTE: As long as this appointment is in effect, the organization named herein will be recognized as the sole representative for preparation, presentation and prosecution of your claim before the Department of Veterans Affairs in connection with your claim or any portion thereof.

VA USE ONLY	COPY OF VA FORM 21-22 SENT TO: ☐ VR&E FILE ☐ EDU FILE ☐ LG FILE ☐ INSURANCE FILE	DATE SENT	ACKNOWLEDGED *(Date)*	REVOKED *(Reason and date)*

PENALTY: The law provides severe penalties which include fine or imprisonment, or both, for the willful submission of any statement of a material fact, knowing it to be false or for the fraudulent acceptance of any payment to which you are not entitled.

VA Claims Intake Center – 08172020

DISTRICT COURT, FREMONT COUNTY, COLORADO

Case No. 95DR174 Division 1

DECREE OF DISSOLUTION OF MARRIAGE

IN RE THE MARRIAGE OF:

KAROL A. HOPKINS, Petitioner,

and

MARSHALL H. HOPKINS, Co-Petitioner.

THIS MATTER was reviewed by the Court on October 12, 1995. Petitioner and Co-Petitioner appeared in person without counsel. The Court has examined the record, heard the evidence and statements of the parties, and makes the following findings:

1. The Court has jurisdiction over the parties and subject matter of this action based upon a Co-Petitioner filing on May 4, 1995.

2. The parties were domiciled in Colorado for ninety days before this case was filed.

3. At least ninety days have passed since Co-Petitioner filing.

4. The marriage between the parties is irretrievably broken.

5. The separation agreement between the parties, which is attached as Court's Ex. A, has been considered by the Court and is found not to be unconscionable as to its provisions.

6. The provisions regarding custody and parenting time are in the best interest of the children, and the named custodians are fit and proper to have custody.

7. The Court has further entered "Final Orders", also attached to this Decree.

THE COURT THEREFORE ORDERS:

1. The marriage is dissolved, and a Decree of Dissolution of Marriage is entered.

2. Each party shall perform the applicable provisions of the separation agreement (except as to two provisions therein) and the Final Orders separately entered by the Court.

3. The custody of the minor children, Sterling, Laura, Melanie, and Dan'l Hopkins, is awarded to Petitioner. The custody of the minor child, Jason Hopkins, is awarded to Co-Petitioner.

VA Claims Intake Center – 08172020

Dated: March 22, 1996, and effective October 12, 1995.

John Anderson
District Judge

IT IS FURTHER ORDERED THAT THIS COURT RETAINS JURISDICTION OVER THIS ACTION AS IS PROVIDED BY LAW.

NOTE: Child support has been ordered in this case. A wage assignment will be activated in the event of default in child support.

Department of Veterans Affairs

PO BOX 5365
JANESVILLE WI 53547-5365

July 31, 2020

In reply, refer to:
File Number:
(b)(6) [redacted]
MARSHALL H HOPKINS

DARLENE HOPKINS
PO BOX 72
HOOKER OK 73945

Dear DARLENE HOPKINS:

We received your intent to file on July 27, 2020. You indicated you would like to file a claim for survivor benefits.

If your completed application is received within one year from the date that your intent to file was received and we decide that you are entitled to VA benefits, we may be able to compensate you from the date we received your intent to file.

If your completed application is not received within one year from the date that your intent to file was received and we decide that you are entitled to VA benefits, we can only compensate you from the date we received your completed application.

What Should You Do?

In order for us to start processing your claim, you must complete, sign, and return a VA Form 21-534EZ, *Application for DIC, Death Pension, and/or Accrued Benefits*, if you are the spouse or child of the Veteran.

If you are the parent of the Veteran, you must complete, sign, and return a VA Form 21-535, *Application for Dependency and Indemnity Compensation by Parent(s) (Including Accrued Benefits and Death Compensation When Applicable)*.

We will take no further action until we receive your completed application. To locate the appropriate form(s), please visit the following website: **www.va.gov/vaforms**.

What is eBenefits?

eBenefits provides electronic resources in a self-service environment to Servicemembers, Veterans, and their families. Use of these resources often helps us serve you faster! Through the eBenefits website you can:

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

- Submit claims for benefits and/or upload documents directly to the VA
- Request to add or change your dependents
- Update your contact and direct deposit information and view payment history
- Request a Veterans Service Officer to represent you
- Track the status of your claim or appeal
- Obtain verification of military service, civil service preference, or VA benefits
- And much more!

Enrolling in eBenefits is easy. Just visit **www.eBenefits.va.gov** for more information. If you submit a claim in the future, consider filing through eBenefits. Filing electronically, especially if you participate in our fully developed claim program, may result in a faster decision than if you submit your claim through the mail.

If You Have Questions or Need Assistance

If you have any questions or need assistance with filing your claim, you may contact us by telephone, e-mail, or letter. You may also contact your appointed Veterans Service Organization and/or representative for assistance. If you are not represented, additional information on how to obtain representation is provided below.

If you	**Here is what to do.**
Telephone	Call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the Federal number is 711.
Use the Internet	Send electronic inquiries through the Internet at **https://iris.custhelp.com/**.
Write	VA now uses a centralized mail system. For all written communications, put your full name and VA file number on the letter. Please mail or fax all written correspondence to the appropriate address listed on the attached *Where to Send Your Written Correspondence* chart, below.

In all cases, be sure to refer to your VA file number 529 56 7575.

If you are looking for general information about benefits and eligibility, you should visit our web site at **http://www.va.gov** or search the Frequently Asked Questions (FAQs) at **https://iris.custhelp.com/**.

We have no record of you appointing a service organization or representative to assist you with your claim. You can contact us for a listing of the recognized Veterans Service Organizations and/or representatives. Veterans Service Organizations, which are recognized or approved to provide services to the veteran community, can also help you with any questions.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Sincerely yours,

Regional Office Director

Enclosure(s): Where to Send Your Written Correspondence

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Where to Send Your Written Correspondence

The time it takes your response to reach VA affects how long it takes us to process your claim. We recommend responding electronically whenever possible. Only claimants or representatives can upload responses electronically currently. If you are not a claimant or representative, we recommend faxing so VA can receive your responses without wasting the time and money required to mail your documents.

The **fastest** way to respond to VA is to upload your response electronically through VA.gov.

Visit **https://www.va.gov** and under **Disability** click "**Upload evidence to support your claim**."

VA.gov provides one easy location to upload correspondence as well as learn about filing claims, check claim status, find out how much money you have left to pay for school or training, or refill prescriptions and communicate with your health care team among many items.

If you need to fax or mail your correspondence, identify the benefit type; then, use the corresponding fax number or mailing address below:

VA DATE STAMP (DO NOT WRITE IN THIS SPACE)

INTENT TO FILE A CLAIM FOR COMPENSATION AND/OR PENSION, OR SURVIVORS PENSION AND/OR DIC

(This Form Is Used to Notify VA of Your Intent to File for the General Benefit(s) Checked Below)

NOTE: Please read the Privacy Act and Respondent Burden below before completing the form.

SECTION I: CLAIMANT/VETERAN IDENTIFICATION

NOTE: You can ***either*** complete the form online or by hand. If completed by hand, print the information requested in ink, neatly and legibly to expedite processing of the form.

1. CLAIMANT'S NAME *(First, Middle Initial, Last)*: Darlene R Hopkins

2. CLAIMANT'S SOCIAL SECURITY NUMBER: 522-94-9287 (b) (6)

4. VETERAN'S DATE OF BIRTH (MM,DD,YYYY): Month 07 – Day 20 – Year 1943

5. VETERAN'S NAME *(First, Middle Initial, Last)* ***(If different from claimant)***: Marshall H Hopkins

(b) (6)

7. VETERAN'S SEX: [X] MALE [ ] FEMALE

(b) (6)

9. CURRENT MAILING ADDRESS *(Number and street or rural route, P.O. Box, City, State, ZIP Code and Country)*

No. & Street: 310 Main St

Apt./Unit Number:

City: Altamont

State/Province: MO

Country:

ZIP Code/Postal Code: 64620 –

10. HAS THE VETERAN EVER FILED A CLAIM WITH VA? [X] YES [ ] NO

11. TELEPHONE NUMBER *(Include Area Code)*: 602-272-4822

12. EMAIL ADDRESS *(If applicable)*: None

SECTION II: GENERAL BENEFIT ELECTION

IMPORTANT: *VA may not be able to use this form to establish an effective date for benefits if you* ***do not*** *select one or more of the general benefits listed below.*

13. I intend to file for the general benefit(s) checked below: ***(Choose all that apply)***

[ ] **COMPENSATION** [ ] **PENSION**

NOTE: Only check the box below if you are a surviving dependent of the veteran.

[X] **SURVIVORS PENSION AND/OR DEPENDENCY AND INDEMNITY COMPENSATION (DIC)**

IMPORTANT: After receiving this form, VA will give you the appropriate application to file for the general benefit you select above. You can also apply for VA disability compensation online through eBenefits at www.ebenefits.va.gov. If you give VA a completed application for the selected general benefit within ***one*** year of filing this form, your completed application will be considered filed as of the date of receipt of this form. Only the ***first*** completed application for each selected general benefit that is received after you file this form will be considered filed as of the date of receipt of this form. You may indicate your intent to file for more than one general benefit on this form or you may submit a separate intent to file for each general benefit. Please complete as many fields in Section II as possible. VA cannot process this form if we cannot identify the claimant and veteran.

SECTION III: DECLARATION OF INTENT

By filing this form, I hereby indicate my intent to apply for one or more general benefits under the laws administered by VA. I acknowledge that: (1) this is ***not a claim for benefits***; (2) I must file a complete application for each general benefit with VA before VA will process my claim; and (3) a complete application for the same general benefit(s) as indicated on this form must be received within one year of the date VA receives this form for my application to be considered filed as of the date of this form.

14A. SIGNATURE OF CLAIMANT/AUTHORIZED REPRESENTATIVE: Darlene Hopkins

14B. DATE SIGNED *(MM,DD,YYYY)*: 7/27/2020

15. NAME OF ATTORNEY, AGENT, OR VETERANS SERVICE ORGANIZATION *(Please Print)*

(**NOTE**: This form may only be completed by a Veterans Service Organization, attorney, or agent if a valid power of attorney has been completed.)

Missouri Veterans Commission

PRIVACY ACT NOTICE: VA will not disclose information collected on this form to any source other than what has been authorized under the Privacy Act of 1974 or Title 38, Code of Federal Regulations 1.576 for routine uses (i.e., civil or criminal law enforcement, congressional communications, epidemiological or research studies, the collection of money owed to the United States, litigation in which the United States is a party or has an interest, the administration of VA programs and delivery of benefits, verification of identity and status, and personnel administration) as identified in the VA system of records, 58VA21/22/28, Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records - VA, published in the Federal Register. Your obligation to respond is required only to preserve a date of claim for an application that is received within one year of receipt of this form. VA uses your Social Security number to identify if you have a claim file and to ensure that your records are properly associated with your claim file. VA will not deny an individual benefits for refusing to provide his or her SSN unless the disclosure of the SSN is required by Federal Statute of law in effect prior to January 1, 1975, and still in effect. The requested information is considered relevant and necessary to determine the appropriate application and provide it to the claimant.

RESPONDENT BURDEN: We need this information to determine and to provide the claimant with the appropriate application for VA benefits (38 U.S.C. 5102). Title 38, United States Code, allows us to ask for this information. We estimate that you will need an average of 15 minutes to review the instructions, find the information, and complete this form. VA cannot conduct or sponsor a collection of information unless a valid OMB control number is displayed. You are not required to respond to a collection of information if this number is not displayed. Valid OMB control numbers can be located on the OMB Internet Page at www.reginfo.gov/public/do/PRAMain. If desired, you can call 1-800-827-1000 to get information on where to send comments or suggestions about this form.

SECTION IV: AUTHORIZATION INFORMATION

19. AUTHORIZATION FOR REPRESENTATIVE'S ACCESS TO RECORDS PROTECTED BY SECTION 7332, TITLE 38, U.S.C. - By checking the box below I authorize VA to disclose to the service organization named on this appointment form any records that may be in my file relating to treatment for drug abuse, alcoholism or alcohol abuse, infection with the human immunodeficiency virus (HIV), or sickle cell anemia.

☒ I **authorize** the VA facility having custody of my VA claimant records to disclose to the service organization named in Item 15 all treatment records relating to drug abuse, alcoholism or alcohol abuse, infection with the human immunodeficiency virus (HIV), or sickle cell anemia. Redisclosure of these records by my service organization representative, other than to VA or the Court of Appeals for Veterans Claims, is not authorized without my further written consent. This authorization will remain in effect until the earlier of the following events: (1) I revoke this authorization by filing a written revocation with VA; or (2) I revoke the appointment of the service organization named in Item 15, either by explicit revocation or the appointment of another representative.

20. LIMITATION OF CONSENT- I authorize disclosure of records related to treatment for all conditions listed in Item 19 except:

☐ DRUG ABUSE ☐ INFECTION WITH THE HUMAN IMMUNODEFICIENCY VIRUS (HIV)

☐ ALCOHOLISM OR ALCOHOL ABUSE ☐ SICKLE CELL ANEMIA

21. AUTHORIZATION TO CHANGE CLAIMANT'S ADDRESS - By checking the box below, I authorize the organization named in Item 15 to act on my behalf to change my address in my VA records.

☒ I **authorize** any official representative of the organization named in Item 15 to act on my behalf to change my address in my VA records. This authorization does not extend to any other organization without my further written consent. This authorization will remain in effect until the earlier of the following events: (1) I file a written revocation with VA; or (2) I appoint another representative, or (3) I have been determined unable to manage my financial affairs and the individual or organization named in Item 16A is not my appointed fiduciary.

I, the claimant named in Items 1 ***or*** 10, hereby **appoint** the service organization named in Item 15 as my representative to prepare, present and prosecute my claim(s) for any and all benefits from the Department of Veterans Affairs (VA) based on the service of the veteran named in Item 1. I authorize VA to release any and all of my records, to include disclosure of my Federal tax information (other than as provided in Items 19 and 20), to my appointed service organization. I understand that my appointed representative will not charge any fee or compensation for service rendered pursuant to this appointment. I understand that the service organization I have appointed as my representative may revoke this appointment at any time, subject to 38 CFR 20.608. *Additionally, in some cases a veteran's income is developed because a match with the Internal Revenue Service necessitated income verification. In such cases, the assignment of the service organization as the veteran's representative is valid for only five years from the date the claimant signs this form for purposes restricted to the verification match.* Signed and accepted subject to the foregoing conditions.

SECTION V: SIGNATURES

NOTE: THIS POWER OF ATTORNEY DOES NOT REQUIRE EXECUTION BEFORE A NOTARY PUBLIC

22A. SIGNATURE OF VETERAN OR CLAIMANT *(Do Not Print)*	22B. DATE SIGNED *(MM/DD/YYYY)*
Dalia Hoyos	7/27/2020
23A. SIGNATURE OF VETERANS SERVICE ORGANIZATION REPRESENTATIVE NAMED IN ITEM 16A *(Do Not Print)* Elaine K. Gerstenberger, VSO	**23B. DATE SIGNED** *(MM/DD/YYYY)* 7/27/2020

NOTE: As long as this appointment is in effect, the organization named herein will be recognized as the sole representative for preparation, presentation and prosecution of your claim before the Department of Veterans Affairs in connection with your claim or any portion thereof.

VA USE ONLY	COPY OF VA FORM 21-22 SENT TO: ☐ VR&E FILE ☐ EDU FILE ☐ LG FILE ☐ INSURANCE FILE	DATE SENT	ACKNOWLEDGED *(Date)*	REVOKED *(Reason and date)*

PENALTY: The law provides severe penalties which include fine or imprisonment, or both, for the willful submission of any statement of a material fact, knowing it to be false or for the fraudulent acceptance of any payment to which you are not entitled.

DARLENE HOPKINS
PO BOX 702
HOOKER, OK 73945

HOPKINS, Marshall H

Dear Mrs. HOPKINS:

We made a decision on your claim for death benefits received September 23, 2016.

Every effort was made in considering your claim. This notification tells you what we decided, how we made our decision and what evidence we used to make our decision. We have also included information on what to do if you disagree with our decision and who to contact if you have questions or need assistance.

What We Decided

We denied your claim for death pension.

How Did We Make Our Decision?

The evidence shows your income effective October 1, 2015 exceeds the maximum annual death pension limit set by law.

The income limit for a surviving spouse with 1 dependent(s) is $11,296.00.

	Annual Earnings	Annual Social Security	Annual Retirement	Social Security Lump Sum Death Benefit
Yourself	$12,000.00	$6,996.00	$0.00	$255.00
KERRI HOPKINS	0.00	6,996.00	0.00	0.00

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

The evidence shows your income effective November 1, 2015 exceeds the maximum annual death pension limit set by law.

The income limit for a surviving spouse with 1 dependent(s) is $11,296.00.

	Annual Earnings	Annual Social Security	Annual Retirement	Social Security Lump Sum Death Benefit
Yourself	$12,000.00	$12,564.00	$0.00	$255.00
KERRI HOPKINS	0.00	12,564.00	0.00	0.00

The evidence shows your income effective October 1, 2016 exceeds the maximum annual death pension limit set by law.

The income limit for a surviving spouse with 1 dependent(s) is $11,296.00.

	Annual Earnings	Annual Social Security	Annual Retirement	Social Security Lump Sum Death Benefit
Yourself	$12,000.00	$12,564.00	$0.00	$0.00
KERRI HOPKINS	0.00	12,564.00	0.00	0.00

If this is incorrect, please send us a copy of your SSA award letter showing the correct information.

You may reapply for death pension when:

- your income drops, *or*
- the medical expenses you pay increase.

Should your circumstances change, complete and return the enclosed VA Form 21-8416, "Medical Expense Report" and VA Form 21-0519S-1 "Improved Pension Eligibility

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Verification Report (Surviving Spouse With Children)." To claim an income change and family medical expenses, you must return the completed forms to this office no later than December 31, 2017. We may consider family medical expenses you paid after September 18, 2015.

We have enclosed a VA Form 21-0510, "Eligibility Verification Report Instructions," for your use.

Evidence Used to Decide Your Claim

In making our decision, we used the following evidence:

- VA Form 21-534ez, Application for Dependency and Indemnity Compensation, Death Pension and Accrued Benefits by a Surviving Spouse or Child
- Social Security Data Match
- Funeral Statement
- Death Certificate
- VA Form 21-22, Appointment of Veteran's Service Organization as Claimant's Representative
- VA Form 21P-530, Application for Burial Benefits

What You Should Do If You Disagree With Our Decision

If you do not agree with our decision, you should write and tell us why. You have *one year from the date of this letter to appeal the decision.* The enclosed *VA Form 4107, "Your Rights to Appeal Our Decision,"* explains your right to appeal.

If You Have Questions or Need Assistance

If you have any questions, you may contact us by telephone, e-mail, or letter.

If you	**Here is what to do.**
Telephone	Call us at 1-877-294-6380. If you use a Telecommunications Device for the Deaf (TDD), the Federal number is 711.
Use the Internet	Send electronic inquiries through the Internet at https://iris.va.gov.
Write	Please send all correspondence to the appropriate address for **Veterans Pension and Survivor Benefit** claims listed in the *Where to Send Your Written Correspondence* enclosure.

In all cases, be sure to refer to your VA file number 529 56 7575.

STATEMENT IN SUPPORT OF CLAIM

PRIVACY ACT INFORMATION: The VA will not disclose information collected on this form to any source other than what has been authorized under the Privacy Act of 1974 or Title 38, Code of Federal Regulations 1.576 for routine uses (i.e., civil or criminal law enforcement, congressional communications, epidemiological or research studies, the collection of money owed to the United States, litigation in which the United States is a party or has an interest, the administration of VA Programs and delivery of VA benefits, verification of identity and status, and personnel administration) as identified in the VA system of records, 58VA21/22/28, Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records - VA, published in the Federal Register. Your obligation to respond is required to obtain or retain benefits. VA uses your SSN to identify your claim file. Providing your SSN will help ensure that your records are properly associated with your claim file. Giving us your SSN account information is voluntary. Refusal to provide your SSN by itself will not result in the denial of benefits. The VA will not deny an individual benefits for refusing to provide his or her SSN unless the disclosure of the SSN is required by Federal Statute of law in effect prior to January 1, 1975, and still in effect. The requested information is considered relevant and necessary to determine maximum benefits under the law. The responses you submit are considered confidential (38 U.S.C. 5701). Information submitted is subject to verification through computer matching programs with other agencies.

RESPONDENT BURDEN: We need this information to obtain evidence in support of your claim for benefits (38 U.S.C. 501(a) and (b)). Title 38, United States Code, allows us to ask for this information. We estimate that you will need an average of 15 minutes to review the instructions, find the information, and complete this form. VA cannot conduct or sponsor a collection of information unless a valid OMB control number is displayed. You are not required to respond to a collection of information if this number is not displayed. Valid OMB control numbers can be located on the OMB Internet Page at www.reginfo.gov/public/do/PRAMain. If desired, you can call 1-800-827-1000 to get information on where to send comments or suggestions about this form.

FIRST NAME - MIDDLE NAME - LAST NAME OF VETERAN *(Type or print)*	(b) (6)	VA FILE NO.
Marshall Hugh Hopkins		C/CSS -

The following statement is made in connection with a claim for benefits in the case of the above-named veteran:

It was requested that I provide what I own and if I make an income from any property.

I have a home in Hooker ok that I live in. I have a shell of a Home in Rahma. Colo. and a vacant Lot in Florence colo. I do not make an income from any of this property.

The home in Hooker was valued at 40,000 I owe 32,000 on it The house in Rahma colo is not liveable

I CERTIFY THAT the statements on this form are true and correct to the best of my knowledge and belief.

By checking the box below I **authorize** VA to disclose to the service organization named on this appointment form any records that may be in my file relating to treatment for drug abuse, alcoholism or alcohol abuse, infection with the human immunodeficiency virus (HIV), or sickle cell anemia.

☒ I authorize the VA facility having custody of my VA claimant records to disclose to the service organization named in Item 3A all treatment records relating to drug abuse, alcoholism or alcohol abuse, infection with the human immunodeficiency virus (HIV), or sickle cell anemia. Redisclosure of these records by my service organization representative, other than to VA or the Court of Appeals for Veterans Claims, is not authorized without my further written consent. This authorization will remain in effect until the earlier of the following events: (1) I revoke this authorization by filing a written revocation with VA; or (2) I revoke the appointment of the service organization named above, either by explicit revocation or the appointment of another representative.

13. LIMITATION OF CONSENT - I authorize disclosure of records related to treatment for all conditions listed in Item 12 except:
☐ DRUG ABUSE ☐ INFECTION WITH THE HUMAN IMMUNODEFICIENCY VIRUS (HIV)
☐ ALCOHOLISM OR ALCOHOL ABUSE ☐ SICKLE CELL ANEMIA

14. AUTHORIZATION TO CHANGE CLAIMANT'S ADDRESS - By checking the box below, I authorize the organization named in Item 3A to act on my behalf to change my address in my VA records.

☒ I authorize any official representative of the organization named in Item 3A to act on my behalf to change my address in my VA records. This authorization does not extend to any other organization without my further written consent. This authorization will remain in effect until the earlier of the following events: (1) I file a written revocation with VA; or (2) I appoint another representative, or (3) I have been determined unable to manage my financial affairs and the individual or organization named in Item 3A is not my appointed fiduciary.

I, the claimant named in Items 1 or 6, hereby appoint the service organization named in Item 3A as my representative to prepare, present and prosecute my claim(s) for any and all benefits from the Department of Veterans Affairs (VA) based on the service of the veteran named in Item 1. I authorize VA to release any and all of my records, to include disclosure of my Federal tax information (other than as provided in Items 12 and 13), to my appointed service organization. I understand that my appointed representative will not charge any fee or compensation for service rendered pursuant to this appointment. I understand that the service organization I have appointed as my representative may revoke this appointment at any time, subject to 38 CFR 20.608. *Additionally, in some cases a veteran's income is developed because a match with the Internal Revenue Service necessitated income verification. In such cases, the assignment of the service organization as the veteran's representative is valid for only five years from the date the claimant signs this form for purposes restricted to the verification match.* Signed and accepted subject to the foregoing conditions.

Department of Veterans Affairs

APPOINTMENT OF VETERANS SERVICE ORGANIZATION AS CLAIMANT'S REPRESENTATIVE

NOTE - If you would prefer to have an individual assist you with your claim, you may use VA Form 21-22a, "Appointment of Individual as Claimant's Representative." VA Forms are available at www.va.gov/vaforms.

IMPORTANT - PLEASE READ THE PRIVACY ACT AND RESPONDENT BURDEN ON REVERSE BEFORE COMPLETING THE FORM.

1. LAST-FIRST-MIDDLE NAME OF VETERAN
Hopkins, Marshall (b) (6)

3A. NAME OF SERVICE ORGANIZATION RECOGNIZED BY THE DEPARTMENT OF VETERANS AFFAIRS *(See list on reverse side before selecting organization)*
Disabled American Veterans (DAV)

3B. NAME AND JOB TITLE OF OFFICIAL REPRESENTATIVE ACTING ON BEHALF OF THE ORGANIZATION NAMED IN ITEM 3A *(This is an appointment of the entire organization and does not indicate the designation of only this specific individual to act on behalf of the organization)*
National Service Officer (La Shaun M Edwards-Luckey)

3C. E-MAIL ADDRESS OF THE ORGANIZATION NAMED IN ITEM 3A
dav.vbamus@va.gov

INSTRUCTIONS - TYPE OR PRINT ALL ENTRIES

(b) (6)

5. INSURANCE NUMBER(S) *(Include letter prefix)*

6. NAME OF CLAIMANT *(If other than veteran)*
Darlene Ruth Hopkins

7. RELATIONSHIP TO VETERAN
spouse

8. ADDRESS OF CLAIMANT *(No. and street or rural route, city or P.O., State and ZIP Code)*
P.O. Box 72
Hooker, OK 73945

9. CLAIMANT'S TELEPHONE NUMBERS *(Include Area Code)*
A. DAYTIME: (620) 272-4822
B. EVENING:

10. E-MAIL ADDRESS *(If applicable)*

11. DATE OF THIS APPOINTMENT 08/11/2016

12. AUTHORIZATION FOR REPRESENTATIVE'S ACCESS TO RECORDS PROTECTED BY SECTION 7332, TITLE 38, U.S.C.
By checking the box below I **authorize** VA to disclose to the service organization named on this appointment form any records that may be in my file relating to treatment for drug abuse, alcoholism or alcohol abuse, infection with the human immunodeficiency virus (HIV), or sickle cell anemia.

☒ I authorize the VA facility having custody of my VA claimant records to disclose to the service organization named in Item 3A all treatment records relating to drug abuse, alcoholism or alcohol abuse, infection with the human immunodeficiency virus (HIV), or sickle cell anemia. Redisclosure of these records by my service organization representative, other than to VA or the Court of Appeals for Veterans Claims, is not authorized without my further written consent. This authorization will remain in effect until the earlier of the following events: (1) I revoke this authorization by filing a written revocation with VA; or (2) I revoke the appointment of the service organization named above, either by explicit revocation or the appointment of another representative.

13. LIMITATION OF CONSENT - I authorize disclosure of records related to treatment for all conditions listed in Item 12 except:

☐ DRUG ABUSE
☐ ALCOHOLISM OR ALCOHOL ABUSE
☐ INFECTION WITH THE HUMAN IMMUNODEFICIENCY VIRUS (HIV)
☐ SICKLE CELL ANEMIA

14. AUTHORIZATION TO CHANGE CLAIMANT'S ADDRESS - By checking the box below, I authorize the organization named in Item 3A to act on my behalf to change my address in my VA records.

☒ I authorize any official representative of the organization named in Item 3A to act on my behalf to change my address in my VA records. This authorization does not extend to any other organization without my further written consent. This authorization will remain in effect until the earlier of the following events: (1) I file a written revocation with VA; or (2) I appoint another representative, or (3) I have been determined unable to manage my financial affairs and the individual or organization named in Item 3A is not my appointed fiduciary.

I, the claimant named in Items 1 or 6, hereby appoint the service organization named in Item 3A as my representative to prepare, present and prosecute my claim(s) for any and all benefits from the Department of Veterans Affairs (VA) based on the service of the veteran named in Item 1. I authorize VA to release any and all of my records, to include disclosure of my Federal tax information (other than as provided in Items 12 and 13), to my appointed service organization. I understand that my appointed representative will not charge any fee or compensation for service rendered pursuant to this appointment. I understand that the service organization I have appointed as my representative may revoke this appointment at any time, subject to 38 CFR 20.608. *Additionally, in some cases a veteran's income is developed because a match with the Internal Revenue Service necessitated income verification. In such cases, the assignment of the service organization as the veteran's representative is valid for only five years from the date the claimant signs this form for purposes restricted to the verification match.* Signed and accepted subject to the foregoing conditions.

DARLENE HOPKINS
PO BOX 702
HOOKER OK 73945

MARSHALL H HOPKINS

Dear DARLENE HOPKINS:

We received your intent to file on August 14, 2016. You indicated you would like to file a claim for survivor benefits.

If your completed application is received within one year from the date that your intent to file was received and we decide that you are entitled to VA benefits, we may be able to compensate you from the date we received your intent to file.

If your completed application is not received within one year from the date that your intent to file was received and we decide that you are entitled to VA benefits, we can only compensate you from the date we received your completed application.

What Should You Do?

In order for us to start processing your claim, you must complete, sign, and return a VA Form 21-534EZ, *Application for DIC, Death Pension, and/or Accrued Benefits*, if you are the spouse or child of the Veteran.

If you are the parent of the Veteran, you must complete, sign, and return a VA Form 21-535, *Application for Dependency and Indemnity Compensation by Parent(s) (Including Accrued Benefits and Death Compensation When Applicable)*.

We will take no further action until we receive your completed application. To locate the appropriate form(s), please visit the following website: **www.va.gov/vaforms**.

What is eBenefits?

eBenefits provides electronic resources in a self-service environment to Servicemembers, Veterans, and their families. Use of these resources often helps us serve you faster! Through the eBenefits website you can:

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

- Submit claims for benefits and/or upload documents directly to the VA
- Request to add or change your dependents
- Update your contact and direct deposit information and view payment history
- Request a Veterans Service Officer to represent you
- Track the status of your claim or appeal
- Obtain verification of military service, civil service preference, or VA benefits
- And much more!

Enrolling in eBenefits is easy. Just visit **www.eBenefits.va.gov** for more information. If you submit a claim in the future, consider filing through eBenefits. Filing electronically, especially if you participate in our fully developed claim program, may result in a faster decision than if you submit your claim through the mail.

If You Have Questions or Need Assistance

If you have any questions or need assistance with filing your claim, you may contact us by telephone, e-mail, or letter. You may also contact your appointed Veterans Service Organization and/or representative for assistance. If you are not represented, additional information on how to obtain representation is provided below.

If you	**Here is what to do.**
Telephone	Call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the Federal number is 711.
Use the Internet	Send electronic inquiries through the Internet at **https://iris.va.gov**.
Write	VA now uses a centralized mail system. For all written communications, put your full name and VA file number on the letter. Please mail or fax all written correspondence to the appropriate address listed on the attached *Where to Send Your Written Correspondence* chart, below.

In all cases, be sure to refer to your VA file number 529 56 7575.

If you are looking for general information about benefits and eligibility, you should visit our web site at **http://www.va.gov** or search the Frequently Asked Questions (FAQs) at **http://iris.va.gov**.

We have no record of you appointing a service organization or representative to assist you with your claim. You can contact us for a listing of the recognized Veterans Service Organizations and/or representatives. Veterans Service Organizations, which are recognized or approved to provide services to the veteran community, can also help you with any questions.

VA DATE STAMP
(DO NOT WRITE IN THIS SPACE)

INTENT TO FILE A CLAIM FOR COMPENSATION AND/OR PENSION, OR SURVIVORS PENSION AND/OR DIC

(This Form Is Used to Notify VA of Your Intent to File for the General Benefit(s) Checked Below)

NOTE: Please read the Privacy Act and Respondent Burden below before completing the form.

SECTION I: CLAIMANT/VETERAN IDENTIFICATION

NOTE: You can ***either*** complete the form online or by hand. Please print your information using blue or black ink, neatly and legibly to help process the form.

1. CLAIMANT'S NAME *(First, middle initial, last)*: Darlene Hopkins

2. CLAIMANT'S SOCIAL SECURITY NUMBER: 522-94-9287

3. VA FILE NUMBER *(If applicable)*:

4. VETERAN'S DATE OF BIRTH: Month 07 – Day 20 – Year 1943

5. VETERAN'S NAME *(First, middle initial, last) (If different from claimant)*: MARSHALL HOPKINS

6. VETERAN'S SOCIAL SECURITY NUMBER: (b) (6)

7. VETERAN'S SEX: ☑ MALE ☐ FEMALE

8. VETERAN'S SERVICE NUMBER *(If applicable)*:

9. CURRENT MAILING ADDRESS *(Number and street or rural route, P.O. Box, City, State, ZIP Code and Country)*

No. & Street: PO Box 7002

Apt./Unit Number:

City: Hooker

State/Province: OK

Country: US

ZIP Code/Postal Code: 73945 –

10. HAS THE VETERAN EVER FILED A CLAIM WITH VA?
☐ YES ☑ NO

11. PREFERRED TELEPHONE NUMBER *(Include Area Code)*: 620-272-4822

12. PREFERRED E-MAIL ADDRESS *(If applicable)*: darlene.hopkins@yahoo.com

SECTION II: GENERAL BENEFIT ELECTION

IMPORTANT: *VA may not be able to use this form to establish an effective date for benefits if you **do not** select one or more of the general benefits listed below.*

13. I intend to file for the general benefit(s) checked below: ***(Choose all that apply)***

☐ **COMPENSATION** ☐ **PENSION**

NOTE: Only check the box below if you are a surviving dependent of the veteran.

☑ **SURVIVORS PENSION AND/OR DEPENDENCY AND INDEMNITY COMPENSATION (DIC)**

IMPORTANT: After receiving this form, VA will give you the appropriate application to file for the general benefit you select above. You can also apply for VA disability compensation online through eBenefits at **www.ebenefits.va.gov**. If you give VA a completed application for the selected general benefit within ***one*** year of filing this form, your completed application will be considered filed as of the date of receipt of this form. Only the ***first*** completed application for each selected general benefit that is received after you file this form will be considered filed as of the date of receipt of this form. You may indicate your intent to file for more than one general benefit on this form or you may submit a separate intent to file for each general benefit. Please complete as many fields in Section II as possible. VA cannot process this form if we cannot identify the claimant and veteran.

SECTION III: DECLARATION OF INTENT

By filing this form, I hereby indicate my intent to apply for one or more general benefits under the laws administered by VA. I acknowledge that: (1) this is ***not a claim for benefits***; (2) I must file a complete application for each general benefit with VA before VA will process my claim; and (3) a complete application for the same general benefit(s) as indicated on this form must be received within one year of the date VA receives this form for my application to be considered filed as of the date of this form.

(b) (6)

14B. DATE SIGNED *(MM,DD,YYYY)*: 08/12/2016

(NOTE: This form may only be completed by a Veterans Service Organization, attorney, or agent if a valid power of attorney has been completed.)

PRIVACY ACT NOTICE: VA will not disclose information collected on this form to any source other than what has been authorized under the Privacy Act of 1974 or Title 38, Code of Federal Regulations 1.576 for routine uses (i.e., civil or criminal law enforcement, congressional communications, epidemiological or research studies, the collection of money owed to the United States, litigation in which the United States is a party or has an interest, the administration of VA programs and delivery of benefits, verification of identity and status, and personnel administration) as identified in the VA system of records, 58VA21/22/28, Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records - VA, published in the Federal Register. Your obligation to respond is required only to preserve a date of claim for an application that is received within one year of receipt of this form. VA uses your Social Security number to identify if you have a claim file and to ensure that your records are properly associated with your claim file. VA will not deny an individual benefits for refusing to provide his or her SSN unless the disclosure of the SSN is required by Federal Statute of law in effect prior to January 1, 1975, and still in effect. The requested information is considered relevant and necessary to determine the appropriate application and provide it to the claimant.

RESPONDENT BURDEN: We need this information to determine and to provide the claimant with the appropriate application for VA benefits (38 U.S.C. 5102). Title 38, United States Code, allows us to ask for this information. We estimate that you will need an average of 15 minutes to review the instructions, find the information, and complete this form. VA cannot conduct or sponsor a collection of information unless a valid OMB control number is displayed. You are not required to respond to a collection of information if this number is not displayed. Valid OMB control numbers can be located on the OMB Internet Page at www.reginfo.gov/public/do/PRAMain. If desired, you can call 1-800-827-1000 to get information on where to send comments or suggestions about this form.

HOPKINS, Marshall H

DARLENE HOPKINS
PO BOX 702
HOOKER OK 73945

Dear Mrs. Hopkins:

We made a decision on your claim for Dependency and Indemnity Compensation (DIC), death pension, and accrued benefits received November 23, 2015.

Every effort was made in considering your claim. This notification tells you what we decided, how we made our decision and what evidence we used to make our decision. We have also included information on what to do if you disagree with our decision and who to contact if you have questions or need assistance.

What We Decided

We denied your claim for DIC, death pension, and accrued benefits.

How Did We Make Our Decision?

Entitlement to Dependency and Indemnity Compensation (DIC) has been considered but not formally decided, as this benefit was not specifically claimed on your application. At this time, there is not sufficient evidence to warrant a favorable outcome on this issue. If you feel the Veteran's death was related to service and you wish to formally claim DIC benefits, please complete and sign the enclosed VA Form 21-534EZ (Application for DIC, Death Pension, and/or Accrued Benefits) and submit this form to our office.

DIC may be paid to *eligible dependents*:

- when the Veteran died while in service, *or*
- when the Veteran died of a service-connected condition.

DIC may also be paid when the Veteran was totally disabled because of service-connected condition(s) but died from other causes if:

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

- the Veteran was totally disabled by reason of service connected disability(ies) for a period of 10 years or more immediately preceding death, *or*
- the Veteran was totally disabled by reason of service connected disability(ies) from date of discharge from military service for at least a 5 year period immediately preceding death.

An accrued benefit is any money we owe a Veteran at the time of death. We can't approve your claim for accrued benefits because VA didn't owe the Veteran any money and the Veteran did not have any existing claims or appeals pending at the time of death.

On March 28, 2016 we wrote and asked you to send us the following evidence in support of your claim for death benefits:

- Your application states that you own real property. On the enclosed VA Form 21-4138 (Statement in Support of Claim), we asked that you tell us what the real property holdings you reported represent.

    - If this real property represents a business or rental property, please complete the attached Report of Income from Property or Business (VA Form 21-4185).
    - If this real property is farmland, please complete the attached Pension Claim Questionnaire for Farm Income (VA Form 21-4165).
    - If the property is a home, please clarify whether this is your primary residence or a second home that you own.

    We also require you to report the current market value of all real property as reported by a licensed real estate appraiser or real estate agent.

Because we have not received them, we must deny your claim for Dependency and Indemnity Compensation (DIC), death pension, and accrued benefits.

What Evidence Was Used to Decide Your Claim?

In making our decision, we used the following evidence:

- VA Form 21-534EZ, Application for DIC, Death Pension, and/or Accrued Benefits
- Copy of Veterans Discharge Documentation
- Copy of Veterans Death Certificate
- Copy of Marriage Certification

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

(b) (6)
Hopkins, Marshall H

When and Where Do You Send the Information or Evidence?

Please send us the information we asked for as soon as you can. If you are having any difficulty getting this evidence, call us. We may be able to help you.

If we get the evidence by March 28, 2017, we can continue processing your claim. Information received after March 28, 2017, must be considered a new claim. That means any benefits you may be eligible for can't start before the date we receive your new claim.

We have enclosed the above-listed forms for your convenience if you wish to re-apply for benefits.

IMPORTANT

It is to your advantage to send this information as soon as you can.

What You Should Do If You Disagree With Our Decision

If you do not agree with our decision, you should write and tell us why. You have one year from the date of this letter to appeal the decision. The enclosed *VA Form 4107, "Your Rights to Appeal Our Decision,"* explains your right to appeal.

If you have any questions, you may contact us by telephone, e-mail, or letter.

If you	Here is what to do.
Telephone	Call us at 1-877-294-6380. If you use a Telecommunications Device for the Deaf (TDD), the number is 1-800-829-4833.
Use the Internet	Send electronic inquiries through the Internet at https://iris.va.gov.
Write	Put your full name and VA file number on the letter. Please send all correspondence to the address at the top of this letter.

In all cases, be sure to refer to your VA file number 529 56 7575.

If you are looking for general information about benefits and eligibility, you should visit our website at https://www.va.gov, or search the Frequently Asked Questions (FAQs) at https://iris.va.gov.

IMPORTANT

Dear Darlene Hopkins:

We are working on your claim for:
- Death Pension

This letter tells you what we will do with your claim and what you can do to help us. Please read the enclosure to this letter entitled, "Veteran Claims Assistance Act (VCAA)." The enclosure explains how we obtain evidence related to your claim and the legal requirements for supporting your claim.

What Do We Need ?

- Your application states that you own real property. On the enclosed VA Form 21-4138 (Statement in Support of Claim), please tell us what the real property holdings you reported represent.

  - If this real property represents a business or rental property, please complete the attached Report of Income from Property or Business (VA Form 21-4185).
  - If this real property is farmland, please complete the attached Pension Claim Questionnaire for Farm Income (VA Form 21-4165).

  **If the property is a home, please clarify whether this is your primary residence or a second home that you own.

  We also require you to report the current market value of all real property as reported by a licensed real estate appraiser or real estate agent.

- **We have enclosed a "VCAA Notice Response." We encourage you to return this document, as it may expedite a decision on your claim.**

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

How Should You Submit What We Need?

Please note that the quickest, easiest, and most secure way to submit any documents to us is via the eBenefits website. Just visit www.eBenefits.va.gov to register. Please also refer to the 'What is eBenefits?' section of this letter for more information.

You can also send what we need to this address:

Department Of Veterans Affairs
Claims Intake Center
Attention: St. Paul Pension Center
PO Box 5365
Janesville, WI 53547-5365

How Soon Should You Send What We Need?

We strongly encourage you to send any information or evidence as soon as you can. If we do not hear from you, we may make a decision on your claim after 30 days. However, you have up to one year from the date of this letter to submit the information and evidence necessary to support your claim. If we decide your claim before one year from the date of this letter, you will still have the remainder of the one-year period to submit additional information or evidence necessary to support your claim.

What Have We Received?

- Your claim for benefits, which we received on November 23, 2015.

    - VA Form 21-534EZ, Application for DIC, Death Pension, and/or Accrued Benefits
    - Copy of Veterans Discharge Documentation
    - Copy of Veterans Death Certificate

What is eBenefits?

eBenefits provides electronic resources in a self-service environment to Servicemembers, Veterans, and their families. Use of these resources often helps us serve you faster! Through the eBenefits website you can:

- Submit claims for benefits and/or upload documents directly to the VA
- Request to add or change your dependents
- Update your contact and direct deposit information and view payment history
- Request a Veterans Service Officer to represent you
- Track the status of your claim or appeal
- Obtain verification of military service, civil service preference, or VA benefits
- And much more!

Enrolling in eBenefits is easy. Just visit www.eBenefits.va.gov for more information. If you submit a claim in the future, consider filing through eBenefits. Filing electronically, especially if you participate in our fully developed claim program, may result in a faster decision than if you submit your claim through the mail.

How Can You Contact Us?

If you are looking for general information about benefits and eligibility, you should visit our web site at http://www.va.gov. Otherwise, you can contact us in several ways. Please give us your VA file number, **529 56 7575**, when you do contact us.

- Call us at 1-877-294-6380. If you use a Telecommunications Device for the Deaf (TDD), the Federal number is 711 (international number is 1-800-829-4833).
- Send us an inquiry using the Internet at https://iris.va.gov.
- Write to us at the address at the top of this letter.

We look forward to resolving your claim in a fair and timely manner. We have also enclosed information on how Veterans' Service Organizations can help you.

Sincerely yours,

Director

VA Form 21-4138
VA Form 21-4185
VA Form 21-4165

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Veterans Claims Assistance Act (VCAA)

VA is Responsible for Getting the Following Evidence:

- Relevant records that you adequately identify and authorize VA to obtain from any Federal agency. These may include records from the military, VA medical centers (including private facilities where VA authorized treatment), or the Social Security Administration.
- VA will provide a medical examination for you, or get a medical opinion, if we determine it is necessary to decide your compensation claim.

On Your Behalf, VA Will Make Reasonable Efforts to Get the Following Evidence:

Relevant records not held by a Federal agency that you adequately identify and authorize VA to obtain. These may include records from State or local governments, private doctors and hospitals, or current or former employers.

How Can You Help: If you have any information or evidence that you have not previously told us about or given to us, please tell us or give us that evidence now. If the evidence is not in your possession, you must give us enough information about the evidence so that we can request it from the person or agency that has it. If the holder of the evidence declines to give it to us, asks for a fee to provide it, or VA otherwise cannot get the evidence, we will notify you. *It is your responsibility to make sure we receive all requested records that are not in the possession of a Federal department or agency.*

How VA Determines the Effective Date: If we grant a claim for death benefits, the beginning date of your entitlement will generally be based on when we received your claim. However, if VA received your claim within one year of the date of the veteran's death, entitlement will be from the first day of the month in which the veteran died.

The veteran's death certificate is evidence relevant to determining the effective date of any benefits we award.

Higher levels of benefits are available for a veteran's surviving spouse and/or parents who are unable to perform certain activities of daily living or leave their home. Higher levels of benefits may be effective from the date medical evidence first establishes entitlement.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

What Are Veterans Service Organizations and How Can They Help You?

- Veterans Service Organizations (VSOs) are not part of VA. VSOs are recognized national and state organizations that help veterans and their dependents and survivors with their claims. These services are provided without charge.

- VSOs can help you with questions about your claim. They can also act on your behalf regarding your claim with VA. Ask your VA representative or a VSO for more specific information about what VSOs do.

What Is an Example of a VSO?

Below is a list of recognized national organizations that can assist with your claim. Other recognized state and local organizations can also help you. A more complete list of recognized VSOs can be found at http://www.va.gov/vso.

American Legion	Disabled American Veterans	Paralyzed Veterans of America, Inc.
American Red Cross	Marine Corps League	Veterans of Foreign Wars of the US
AMVETS	Military Order of the Purple Heart	Vietnam Veterans of America

How Can You Contact a VSO?

To contact a particular VSO, consult your local telephone book.

VCAA NOTICE RESPONSE

Date of Claim: November 23, 2015

We provided a notice to you about the evidence and information VA needs to support your claim for benefits. At this time, you may choose to indicate whether you intend to submit additional information or evidence that would help support your claim.

Your signed response will let us know whether to decide your claim without waiting 30 days, or whether we should give you the full 30 days from the date of the letter sent with this notice response before deciding your claim.

Your signature on this response will not affect:

- Whether or not you are entitled to VA benefits;
- The amount of benefits to which you may be entitled;
- The assistance VA will provide you in obtaining evidence to support your claim; or
- The date any benefits will begin if your claim is granted.

RESPONSE

I elect *one* of the following: (Whichever box you check, you have one year from the date of the notice to give VA any other information or evidence you think will support your claim.)

☐ I have enclosed all the remaining information or evidence that will support my claim, or I have no other information or evidence to give VA to support my claim. Please decide my claim as soon as possible.

☐ I will send more information or evidence to VA to support my claim. VA will wait the full 30 days from the date of the letter sent with this notice response before deciding my claim.

MARSHALL H HOPKINS

(b) (6)

Dear Mrs. Hopkins:

We are writing about the Application for Burial Benefits we received on November 2, 2015.

Burial Benefits Are Approved

- We are sending $1,640.00 to help pay for the veteran's funeral and burial.

- This amount is payable when a veteran's death was not related to service but,

1. died while hospitalized by VA
2. died while receiving care under VA contract at a non-VA facility
3. died while traveling, under proper authorization at VA expense, to or from a specified place for the purpose of examination, treatment, or care or
4. died on or after October 9, 1996, while a patient at an approved States Veterans' home

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

The above amount includes $150.00 for transportation charges.

- If you have any evidence showing that death was due to service or that a service-connected disease or injury caused or contributed to death, please send it to us.

What Evidence Was Used to Decide Your Claim?

In making our decision, we considered:

- Proof of the veteran's death
- The application
- The receipted bills

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

(b) (6)

Hopkins, Marshall H

We Approved the VA Plot Allowance Payment

We are sending $745.00 to help pay the costs of the veteran's plot or other plot related expenses, which is included in the amount above.

We Will Mail the Payment Soon

We will send payment directly to you.

If You Think We Are Wrong

If you do not agree with our decision, you should write and tell us why. You have *one year from the date of this letter to appeal the decision.* The enclosed *VA Form 4107, "Your Rights to Appeal Our Decision,"* explains your right to appeal

If You Have Questions

Please call us. We can answer most questions by phone, and the call is free. Our number is

1-877-294-6380. If you are hearing-impaired and use a TDD, our number is 711. Your County Veterans Service Officer may also be able to help you. Check your phone book for the number to that office.

Sincerely yours,

Director

ACKNOWLEDGEMENT AND AGREEMENT

I hereby acknowledge that I have the legal right to arrange the final services for the deceased, and I authorize this funeral establishment to perform services, furnish goods, and incur outside charges specified on this Statement. I acknowledge that I have received the General Price List and the Casket Price List and the Outer Burial Container Price List.

Terms of Payment: 10 days NET.

Full payment is due no later than Aug 7-2015.

If any payment is not paid when due, an unanticipated LATE CHARGE of 2 % per month (ANNUAL PERCENTAGE RATE 24 %) on the unpaid balance will be due. I agree to pay the Balance Due listed on this Statement, plus any Late Charge. In the event I default in payment to this funeral establishment, I agree to pay reasonable attorney's fees and court costs in addition to any Late Charge applicable. I understand and agree that I am assuming personal liability for the charges set forth in this Statement and that this is in addition to the liability imposed by law upon the estate of the deceased. By my signature below, I hereby agree to all of the above and acknowledge receipt of a copy of this Statement.

24A. SIGNATURE OF WITNESS

24B. ADDRESS OF WITNESS

25A. SIGNATURE OF WITNESS

25B. ADDRESS OF WITNESS

PENALTY - The law provides severe penalties which include fine or imprisonment, or both, for the willful submission of any statement or evidence of a material fact knowing it to be false.

DEPARTMENT OF VETERANS AFFAIRS HEADSTONES AND MARKERS

The Department of Veterans Affairs will furnish, upon request, a Government headstone or marker at the expense of the United States for the unmarked graves of certain individuals eligible for burial in a national cemetery, but not buried there. These individuals may include any veterans with an other than dishonorable discharge who dies after service or any servicemember who dies on active duty. Certain other individuals may also be eligible for the headstone or marker. Headstones or markers for all individuals in a national or post cemetery are furnished automatically without request from the family.
For additional information on burial benefits go to the web site, www.cem.va.gov/bbene_burial.asp. To obtain VA Form 40-1330, Application for Standard Government Headstone or Marker go to www.va.gov/vaforms or contact your local VA regional office. The address of that office can be found at to www.va.gov/directory.

MARSHALL H HOPKINS
(b) (6)

In reply, refer to:
351/TL
(b) (6)
Marshall Hopkins

Dear Mr. Hopkins:

We made a decision regarding your entitlement to VA benefits.

This letter tells you about your entitlement amount, payment start date, and what we decided. It includes the evidence used and reasons for our decision. We have also included information about what to do if you disagree with our decision and who to contact if you have questions or need assistance.

Payment Summary

Your monthly entitlement amount is shown below:

Total VA Benefit	Amount Withheld	Amount Paid	Payment Start Date	Reason
$1,262.00	$406.00	$856.00	Jun 1, 2006	Recoupment of Disability Severance Pay
$1,303.00	$420.00	$883.00	Dec 1, 2006	Cost of Living Adjustment, Recoupment of Disability Severance Pay
$1,332.00	$429.00	$903.00	Dec 1, 2007	Cost of Living Adjustment, Recoupment of Disability Severance Pay
$1,409.00	$453.00	$956.00	Dec 1, 2008	Cost of Living Adjustment, Recoupment of Disability Severance Pay

$1,505.66	$0.00	$1,505.66	Dec 1, 2013	Cost of Living Adjustment
$1,505.40	$0.00	$1,505.40	Jan 1, 2014	Cost of Living Adjustment
$1,530.71	$0.00	$1,530.71	Dec 1, 2014	Cost of Living Adjustment
$1,447.71	$0.00	$1,447.71	Aug 22, 2021	Minor Child Adjustment

We are currently paying you as a Veteran with 2 dependents. *Let us know right away if there is any change in the status of your dependents.*

You Can Expect Payment

Generally, payments begin the first day of the month following the effective date. When applicable, a retroactive payment, minus any withholdings, will be issued. Thereafter, payment will be made at the beginning of each month for the prior month. For example, benefits due for May are paid on or about June 1.

Your payment will be directed to the financial institution and account number that you specified. To confirm when your payment was deposited, please contact your financial institution.

If this account is no longer open,
please notify us immediately.

We Have Withheld Benefits

You received severance pay of $75,380.00 for your major depression with sleep difficulty and memory loss. We must hold back all or part of your VA compensation until this severance amount is paid back. If received after September 30, 1996, VA shall withhold the after federal

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

income tax amount of severance pay. If received prior to October 1, 1996, VA shall withhold the amount of severance pay received before federal taxes were taken out. After the severance amount is paid back, you'll start receiving your full VA compensation.

What We Decided

We made the following decision(s):

We have added Darlene and Kerri back to your award from June 1, 2006, the date that they were previously removed.

We will remove your dependent KERRI HOPKINS effective August 22, 2021 because:

- He/she is over the age of 18 and not attending school.

Are You Entitled to Additional Benefits?

Did you know you may be eligible for a VA guaranteed mortgage with no down payment (potentially exempt from a funding fee depending on your rating)? For more information about this benefit, or to determine and print your Loan Guaranty Certificate of Eligibility, please visit the eBenefits website at http://www.ebenefits.va.gov.

If you served overseas in support of a combat operation you may be eligible for mental health counseling at no cost to you at the Veteran's Resource Center. For more information on this benefit please visit https://www.myhealth.va.gov/mhv-portal-web/.

The VA provides Blind Rehabilitation services to eligible blind, low vision, or visually impaired Veterans to help them regain their independence and quality of life. The Veteran's blindness, low vision, or vision impairment does NOT have to be related or caused by military service. If you need help with your vision loss, please contact your nearest Visual Impairment Services Team Coordinator (VIST) at the eye clinic at your nearest VA Medical Center. For more information, go to www.va.gov/blindrehab/.

What You Should Do If You Disagree With Our Decision

For Compensation Claims:

If you do not agree with our decision, you must complete and return to us the enclosed VA Form 21-0958, *Notice of Disagreement*, in order to initiate your appeal. You have *one year from the*

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

date of this letter to appeal the decision. The enclosed VA Form 4107, "*Your Rights to Appeal Our Decision,*" explains your right to appeal.

What is eBenefits?

eBenefits provides electronic resources in a self-service environment to Servicemembers, Veterans, and their families. Use of these resources often helps us serve you faster! Through the eBenefits website you can:

- Submit claims for benefits and/or upload documents directly to the VA
- Request to add or change your dependents
- Update your contact and direct deposit information and view payment history
- Request a Veterans Service Officer to represent you
- Track the status of your claim or appeal
- Obtain verification of military service, civil service preference, or VA benefits
- And much more!

Enrolling in eBenefits is easy. Just visit www.eBenefits.va.gov for more information. If you submit a claim in the future, consider filing through eBenefits. Filing electronically, especially if you participate in our fully developed claim program, may result in a faster decision than if you submit your claim through the mail.

If You Have Questions or Need Assistance

If you have any questions or need assistance with this claim, you may contact us by telephone, e-mail, or letter.

If you	Here is what to do.
Telephone	Call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the Federal number is 711.
Use the Internet	Send electronic inquiries through the Internet at https://iris.va.gov.
Write	VA now uses a centralized mail system. For all written communications, put your full name and VA file number on the letter. Please mail or fax all written correspondence to the appropriate address listed on the attached *Where to Send Your Written Correspondence* chart, below.

In all cases, be sure to refer to your VA file number (b) (6)

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

If you are looking for general information about benefits and eligibility, you should visit our web site at http://www.va.gov, or search the Frequently Asked Questions (FAQs) at http://iris.va.gov.

We sent a copy of this letter to DISABLED AMERICAN VETERANS, who you have appointed as your representative. If you have questions or need assistance, you can also contact your representative.

Thank you for your service,

Regional Office Director

Department of Veterans Affairs

YOUR RIGHTS TO APPEAL OUR DECISION

After careful and compassionate consideration, a decision has been reached on your claim. If we were not able to grant some or all of the VA benefits you asked for, this form will explain what you can do if you disagree with our decision. If you do not agree with our decision, you may:

- Start an appeal by submitting a Notice of Disagreement.
- Give us evidence we do not already have that may lead us to change our decision.

This form will tell you how to appeal and how to send us more evidence. You can do either one or both of these things.

HOW CAN I APPEAL THE DECISION?

How do I start my appeal? To begin your appeal, you **must** submit VA Form 21-0958, "Notice of Disagreement," if that form was provided to you in connection with our decision. If we denied more than one claim for a benefit (for example, if you claimed compensation for three disabilities and we denied two of them), please tell us in Part III of VA Form 21-0958 each of the claims you are appealing. A filed VA Form 21-0958 is considered your Notice of Disagreement. If you did not receive VA Form 21-0958 in connection with our decision, then write us a letter telling us you disagree with our decision or enter your disagreement on VA Form 21-0958 in questions 15 or 16A. If you did not receive VA Form 21-0958 in connection with our decision, then either your statement or VA Form 21-0958 is considered your Notice of Disagreement. ***Send your Notice of Disagreement to the address included on our decision notice letter.***

How long do I have to start my appeal? You have one year to start an appeal of our decision. ***Your*** Notice of Disagreement must be postmarked (or received by us) within one year from the date of ***our*** letter denying you the benefit. In most cases, you cannot appeal a decision after this one-year period has ended.

What happens if I do not start my appeal on time? If you do not start your appeal on time, our decision will become final. Once our decision is final, you cannot get the VA benefit we denied unless you either:

- Show that we were clearly wrong to deny the benefit ***or***
- Send us new evidence that relates to the reason we denied your claim.

What happens after VA receives my Notice of Disagreement? We will either grant your claim or send you a Statement of the Case. A Statement of the Case describes the facts, laws, regulations, and reasons that we used to make our decision. We will also send you a VA Form 9, "Appeal to Board of Veterans' Appeals," with the Statement of the Case. If you want to continue your appeal to the Board of Veterans' Appeals (the Board) after receiving a Statement of the Case, you must complete and return the VA Form 9 within one year from the date of our letter denying you the benefit ***or*** within 60 days from the date that we mailed the Statement of the Case to you, ***whichever is later***. If you decide to complete an appeal by filing a VA Form 9, you have the option to request a Board hearing. Hearings often increase wait time for a Board decision. It is not necessary for you to have a hearing for the Board to decide your appeal. It is your choice.

Where can I find out more about the VA appeals process?

- You can find a "plain language" pamphlet called "How Do I Appeal," on the Internet at: http://www.bva.va.gov/How_Do_I_Appeal.asp.
- You can find the formal rules for the VA appeals process in title 38, Code of Federal Regulations, Part 20. You can find the complete Code of Federal Regulations on the Internet at: http://www.gpoaccess.gov/cfr/index.html. A printed copy of the Code of Federal Regulations may be available at your local law library.

YOUR RIGHT TO REPRESENTATION

Can I get someone to help me with my appeal? Yes. You can have a Veterans Service Organization representative, an attorney-at-law, or an "agent" help you with your appeal. You are not required to have someone represent you. It is your choice.

- Representatives who work for accredited Veterans Service Organizations know how to prepare and present claims and will represent you. You can find a listing of these organizations on the Internet at: http://www.va.gov/vso.

(Please continue reading on page 2)

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

- A private attorney or an "agent" can also represent you. VA only recognizes attorneys who are licensed to practice in the United States or in one of its territories or possessions. Your local bar association may be able to refer you to an attorney with experience in veterans' law. An agent is a person who is not a lawyer, but who VA recognizes as being knowledgeable about veterans' law. Contact us if you would like to know if there is a VA accredited agent in your area.

Do I have to pay someone to help me with my appeal? It depends on who helps you. The following explains the differences.

- Veterans Service Organizations will represent you for free.
- Attorneys or agents can charge you for helping you under some circumstances. Paying their fees for helping you with your appeal is your responsibility. If you do hire an attorney or agent to represent you, one of you must send a copy of any fee agreement to the following address within 30 days from the date the agreement is executed: Office of the General Counsel (022D), 810 Vermont Avenue, NW, Washington, DC 20420. *See* 38 C.F.R. 14.636(g). If the fee agreement provides for the direct payment of fees out of past-due benefits, a copy of the agreement must also be filed with us at the address included on our decision notice letter. *See* 38 C.F.R. 14.636(h)(4).

GIVING VA ADDITIONAL EVIDENCE

You can send us more evidence to support a claim whether or not you choose to appeal.

NOTE: Please direct all new evidence to the address included on our decision notice letter. You should not send evidence directly to the Board at this time. You should only send evidence to the Board if you decide to complete an appeal and, then, you should only send evidence to the Board after you receive written notice from the Board that they received your appeal.

If you have more evidence to support a claim, it is in your best interest to give us that evidence as soon as you can. We will consider your evidence and let you know whether it changes our decision. Please keep in mind that we can only consider new evidence that: (1) we have not already seen and (2) relates to your claim. You may give us this evidence either in writing or at a personal hearing with your local VA office.

In writing. To support your claim, you may send documents and written statements to us at the address included on our decision notice letter. Tell us in a letter how these documents and statements should change our earlier decision.

At a personal hearing. You may request a hearing with an employee at your local VA office at any time, whether or not you choose to appeal. We do not require you to have a local hearing. It is your choice. At this hearing, you may speak, bring witnesses to speak on your behalf, and hand us written evidence. If you want a local hearing, send us a letter asking for a local hearing. Use the address included on our decision notice letter. We will then:

- Arrange a time and place for the hearing
- Provide a room for the hearing
- Assign someone to hear your evidence
- Make a written record of the hearing

WHAT HAPPENS AFTER I GIVE VA EVIDENCE?

We will review any new evidence, including the record of the local hearing, if you choose to have one, together with the evidence we already have. We will then decide if we can grant your claim. If we cannot grant your claim and you complete an appeal, we will send the new evidence and the record of any local hearing to the Board.

Department of Veterans Affairs

INFORMATION AND INSTRUCTIONS FOR COMPLETING NOTICE OF DISAGREEMENT (NOD)

IMPORTANT: PLEASE READ THE INFORMATION BELOW CAREFULLY TO HELP YOU COMPLETE THIS FORM QUICKLY AND ACCURATELY. SOME PARTS OF THE FORM ALSO CONTAIN NOTES OR SPECIFIC INSTRUCTIONS FOR COMPLETING THAT PART.
THE USE OF THIS FORM IS MANDATORY TO INITIATE AN APPEAL FROM A DECISION ON COMPENSATION CLAIMS. THIS FORM HAS SEVERAL KEY COMPONENTS, WHICH WHEN FILLED OUT COMPLETELY AND ACCURATELY, WILL DECREASE THE AMOUNT OF TIME IT TAKES TO PROCESS YOUR NOD.

FREQUENTLY ASKED QUESTIONS

For what do I use this standard NOD?

You **must** use this form if you wish to indicate to your Regional Office (RO) that you disagree with a decision you received regarding your claim for disability compensation. Examples of these decisions may include entitlement to service connection, percentage of evaluation assigned, and effective date among other things. This form is the only way that you can initiate an appeal from a decision on your claim for disability compensation.

Should I fill out this form?

You **must** fill out this form if you disagree with a decision issued by your RO about your disability compensation claim. This includes an initial decision, a decision for an increased rating, or any other decision with which you disagree. Only those issues that you list on this NOD will be considered on appeal. For those issues you do not list on this NOD, you will still have one year from the date of the decision notification letter to file an appeal for those issues.

Where can I get help?

You can ask the Department of Veterans Affairs (VA) to help you fill out the form by contacting us at 1-800-827-1000. Before you contact us, please make sure you gather the necessary information and materials, and complete as much of the form as you can.

What should I do when I have finished my NOD?

You should provide your signature in the block provided at the bottom of the second page. Be sure to sign every form you fill out before you send it to us. If you don't sign the form, VA will return it for you to sign, and it will take longer to process.

Attach any materials that support and explain your NOD.

Mail or take your NOD to the RO that issued the decision or notification that you disagree with, which is the Agency of Original Jurisdiction (AOJ.)

Do I need to keep a copy of this NOD form?

It is important that you keep a copy of all completed forms and materials you give to VA.

What constitutes a complete NOD form?

Generally, VA will consider your NOD "complete" if the following information is provided on the form:

(1) Part I - Information to identify the claimant such as name, Social Security Number, or VA claim number.
Please note that it would assist VA if you provide all the personal information in Part I. However, if you provide certain information specific to the claimant such as the claimant's last name and Social Security Number or VA file number, VA will be able to identify the claimant in our system and would not necessarily consider this NOD incomplete if other information in Part I such as the claimant's address and telephone number is excluded.
(2) Part III - Information to identify the specific nature of the disagreement.
Please enumerate the issues or conditions for which you seek appellate review in Item 10 of Part III. At a minimum, please indicate the specific issue of disagreement in Item 10A such as "right knee disability" or "PTSD" and indicate the area of disagreement in Item 10B by checking the appropriate box. If you disagree with an evaluation of a disability, you may tell us what percentage evaluation you seek in Item 10C. However, you are not required to indicate the percentage of evaluation sought in Item 10C in order to complete this form.
(3) Part IV - Claimant's signature.
Please be sure to sign the NOD, certifying that the statements on the form are true and correct to the best of the claimant's knowledge and belief.

IMPORTANT: If you do not provide the above information on this NOD, VA will consider your form incomplete and will request clarification from you: either 60 days from the date of VA's request for verification or one year from the date of mailing of the notice of decision of the AOJ, whichever is later. If you do not provide VA with a completed form within that time frame, the decision will become final, and you will have to file a new claim.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

SPECIFIC INSTRUCTIONS FOR THE NOD

Part I - Personal Information

Please provide all personal contact information.

Part II - Telephone Contact

Why is VA asking to contact me by telephone?

The purpose of the optional telephone contact is to help process your NOD quicker by requesting clarification of any ambiguous information on the form. If you indicate you wish to be contacted by telephone, VA may make up to two attempts to call you at the telephone number provided during the time slot you select. It is important to make sure you select a time period you will be available to speak with a RO representative by telephone.

Part III - Specific Issues of Disagreement

What date do I enter in the Notification/Decision Letter Date?

You should enter the date stamped on the notification or decision letter you received that you disagree with in Item 14. Please do not enter today's date in this field. If you need help identifying the date of the notification or decision you disagree with, contact us.

How do I complete this section?

The purpose of this section is for you to individually identify each area of disagreement that you have with our decision notification letter. Please list **only** the issues or disabilities with which you disagree. Only those issues that you list on this NOD will be considered on appeal. For those issues you do not list on this NOD, you will still have one year from the date of the decision notification letter to file an appeal for those issues.

In the Specific Issue of Disagreement column in Item 10, please individually identify in separate boxes each of the issues with which you disagree. For example, left knee condition, hearing loss, etc.

In the "Area of Disagreement" column, Item 10B, please check the area with which you disagree. For example, if you disagree with the effective date that VA assigned for a particular benefit, check the "Effective Date of Award" option. If VA granted a benefit, but you disagree with the evaluation that we assigned, check the "Evaluation of Disability" option. If you were claiming service connection for an injury or disability that you believe to be the result of your military service, and VA denied that claim, please check the "Service Connection" option. If you are disagreeing with our decision for reasons other than listed in the "Area of Disagreement" column, please check "Other" and specify your reason.

If you disagree with a disability evaluation that we have assigned and believe that the evidence justifies a specific evaluation, please list the percentage that you believe the evidence to warrant in the "Percentage of Evaluation Sought If Known" column, Item 15C, within Part III of the form. To assist, please refer to our decision notification letter where we indicate what the evidence must show for the evaluation we assigned as well as the next higher evaluation.

There is extra space provided for you in Item 11A to explain why you feel VA incorrectly decided your claim, and to list any disagreements not covered by the form. Please utilize this space to briefly and clearly explain why you disagree with our decision.

Privacy Act Notice: VA will not disclose information collected on this form to any source other than what has been authorized under the Privacy Act of 1974 or Title 38, Code of Federal Regulations 1.576 for routine uses (i.e., civil or criminal law enforcement, congressional communications, epidemiological or research studies, the collection of money owed to the United States, litigation in which the United States is a party or has an interest, the administration of VA programs and delivery of VA benefits, verification of identity and status, and personnel administration) as identified in the VA system of records, 58/VA21/22/28, Compensation, Pension, Education and Vocational Rehabilitation and Employment Records - VA, published in the Federal Register. Your obligation to respond is required to obtain or retain benefits. VA uses your SSN to identify your claim file. Providing your SSN will help ensure that your records are properly associated with your claim file. Giving us your SSN account information is voluntary. Refusal to provide your SSN by itself will not result in the denial of benefits. VA will not deny an individual benefits for refusing to provide his or her SSN unless the disclosure of the SSN is required by a Federal Statute of law in effect prior to January 1, 1975, and still in effect. The requested information is considered relevant and necessary to determine maximum benefits under the law. The responses you submit are considered confidential (38 U.S.C. 5701). Information submitted is subject to verification through computer matching programs with other agencies.

Respondent Burden: We need this information to determine entitlement to benefits (38 U.S.C. 501). Title 38, United States Code, allows us to ask for this information. We estimate that you will need an average of 30 minutes to review the instructions, find the information, and complete the form. VA cannot conduct or sponsor a collection of information unless a valid OMB control number is displayed. You are not required to respond to a collection of information if this number is not displayed. Valid OMB control numbers can be located on the OMB Internet Page at www.reginfo.gov/public/do/PRAMain. If desired, you can call 1-800-827-1000 to get information on where to send comments or suggestions about this form.

NOTICE OF DISAGREEMENT

A CLAIMANT OR HIS OR HER DULY APPOINTED REPRESENTATIVE MAY FILE NOTICE EXPRESSING THEIR DISSATISFACTION OR DISAGREEMENT WITH AN ADJUDICATIVE DETERMINATION BY THE AGENCY OF ORIGINAL JURISDICTION. A DESIRE TO CONTEST THE RESULT WILL CONSTITUTE A NOTICE OF DISAGREEMENT (NOD.) WHILE SPECIAL WORDING IS NOT REQUIRED, THE NOD MUST BE IN TERMS WHICH CAN BE REASONABLY CONSTRUED AS DISAGREEMENT WITH THAT DETERMINATION AND A DESIRE FOR APPELLATE REVIEW. (AUTHORITY: 38 U.S.C. 7105)

TO FILE A VALID NOD, THERE IS A TIME LIMIT OF ONE YEAR FROM THE DATE VA MAILED THE NOTIFICATION OF THE DECISION TO THE CLAIMANT. FOR CONTESTED CLAIMS INCLUDING CLAIMS OF APPORTIONMENT, THIS TIME LIMIT IS 60 DAYS FROM THE DATE VA MAILED THE NOTIFICATION OF THE DECISION TO THE CLAIMANT.

(DO NOT WRITE IN THIS SPACE)
(VA DATE STAMP)

PART I - PERSONAL INFORMATION

1. VETERAN'S NAME *(First, middle initial, last)*

2. VA FILE NUMBER
C/CSS -

3. VETERAN'S SOCIAL SECURITY NUMBER
___ — ___ — ____

CLAIMANT'S PERSONAL INFORMATION

4. CLAIMANT'S NAME *(First, middle initial, last)*

5. MAILING ADDRESS *(Number and street or rural route, P.O. Box, City, State, ZIP Code and Country)*

Number and Street *or* Rural Route, P.O. Box

Apt./Unit Number

City, State, ZIP Code and Country

6. PREFERRED TELEPHONE NUMBER *(Include Area Code)*

7. PREFERRED E-MAIL ADDRESS

PART II - TELEPHONE CONTACT

8. WOULD YOU LIKE TO RECEIVE A TELEPHONE CALL OR E-MAIL FROM A REPRESENTATIVE AT YOUR LOCAL REGIONAL OFFICE REGARDING YOUR NOD?

☐ YES ☐ NO *(If you answered "Yes," VA will make up to two attempts to call you between 8:00 a.m. and 4:30 p.m. local time at the telephone number and time period you select below. Please select up to two time periods you are available to receive a phone call.)*

☐ 8:00 a.m. - 10:00 a.m. ☐ 10:00 a.m. - 12:30 p.m. ☐ 12:30 p.m. - 2:00 p.m. ☐ 2:00 p.m. - 4:30 p.m.

Phone number I can be reached at the above checked time: _____

PART III - SPECIFIC ISSUES OF DISAGREEMENT

9. NOTIFICATION/DECISION LETTER DATE

10. PLEASE LIST EACH SPECIFIC ISSUE OF DISAGREEMENT AND NOTE THE AREA OF DISAGREEMENT. IF YOU DISAGREE ON THE EVALUATION OF A DISABILITY, SPECIFY PERCENTAGE EVALUATION SOUGHT, IF KNOWN. PLEASE LIST ONLY ONE DISABILITY IN EACH BOX. YOU MAY ATTACH ADDITIONAL SHEETS IF NECESSARY.

A. Specific Issue of Disagreement	B. Area of Disagreement	C. Percentage (%) Evaluation Sought *(If known)*
	☐ Service Connection ☐ Effective Date of Award ☐ Evaluation of Disability ☐ Other *(Please specify)*	
	☐ Service Connection ☐ Effective Date of Award ☐ Evaluation of Disability ☐ Other *(Please specify)*	
	☐ Service Connection ☐ Effective Date of Award ☐ Evaluation of Disability ☐ Other *(Please specify)*

OMB Approved No. 2900-0500
Respondent Burden: 10 Minutes

STATUS OF DEPENDENTS QUESTIONNAIRE

PRIVACY ACT NOTICE: - The VA will not disclose information collected on this form to any source other than what has been authorized under the Privacy Act of 1974 or Title 5, Code of Federal Regulations 1.526 for routine uses (i.e., civil or criminal law enforcement, congressional communications, epidemiological or research studies, the collection of money owed to the United States, litigation in which the United States is a party or has an interest, the administration of VA programs and delivery of VA benefits, verification of identity and status, and personnel administration) as identified in the VA system of records, 58VA21/22/28 Compensation, Pension, Education, Vocational Rehabilitation and Employment Records - VA, published in the Federal Register. Your obligation to respond is required to obtain or retain benefits. You must give us your and your dependents SSN account information. Applicants are required to provide their SSN and the SSN of any dependents for whom benefits are claimed under Title 38 U.S.C. 5101 (c) (1). The VA will not deny an individual benefits for refusing to provide his or her SSN unless the disclosure of the SSN is required by Federal Statute of law in effect prior to January 1, 1975, and still in effect. Information that you furnish may be utilized in computer matching programs with other Federal or state agencies for the purpose of determining your eligibility to receive VA benefits, as well as to collect any amount owed to the United States by virtue of your participation in any benefit program administered by the Department of Veterans Affairs.

RESPONDENT BURDEN: We need this information to determine continued eligibility for an additional allowance for your spouse and/or child(ren). 38 U.S.C. 1115, Title 38, United States Code, allows us to ask for this information. We estimate that you will need an average of 10 minutes to review the instructions, find the information and complete this form. VA cannot conduct or sponsor a collection of information unless a valid OMB control number is displayed. Valid OMB control numbers can be located on the OMB Internet page at www.reginfo.gov/public/do/PRAMain. If desired, you may call 1-800-827-1000 to get information on where to send comments or suggestions about this form.

The Department of Veterans Affairs recently sent you a letter explaining that your entitlement to Compensation and Pension benefits had changed. As a result, you were paid $ 19,186.26 more than you were entitled to receive. **Since you are currently receiving VA benefits, we plan to withhold those benefits until the amount you were overpaid is recouped. The withholding is scheduled to begin on** July 2015.

WHAT ARE YOUR RIGHTS?
You have the right to dispute the debt and the right to request waiver. If you request waiver, you also have the right to request an oral hearing. **Information regarding these options is on the enclosed document entitled, Notice of Rights and Obligations. Read it carefully.**

WHAT ARE YOUR OPTIONS?
You can pay the debt in full within the next 30 days. Payment instructions are on the back of this letter. If you cannot afford to have your entire check withheld, contact us immediately. We will work with you to establish a reasonable payment schedule.

WHERE DO YOU CALL IF YOU HAVE QUESTIONS?
You can contact this office by calling toll-free, 1-800-827-0648. Our office hours are 7:30 AM to 6:00 PM Central Time. Please note we experience our highest call volumes on Mondays and throughout the first week of each month. By avoiding these peak times, you will minimize your wait time. Your call may be monitored to ensure quality information.

FOR PROPER CREDIT TO YOUR ACCOUNT, PLEASE DETACH AND RETURN WITH YOUR PAYMENT

HOPKINS, M H

Dear Mr. Hopkins:

As proposed in our letter dated December 29, 2014, we have removed your spouse, Darlene, and your child, Kerri, from your compensation award effective June 1, 2006, the first day of the month following the last date you verified them as your dependents.

Your Award Amount and Payment Start Date

Your monthly entitlement amount is shown below:

Total VA Benefit	Amount Withheld	Amount Paid	Payment Start Date	Reason For Change
$1,099.00	$337.00	$762.00	Jun 1, 2006	Remove spouse and minor child, Recoupment of Disability Severance Pay
1,135.00	348.00	787.00	Dec 1, 2006	Cost of Living Adjustment, Recoupment of Disability Severance Pay
1,161.00	356.00	805.00	Dec 1, 2007	Cost of Living Adjustment, Recoupment of Disability Severance Pay
1,228.00	376.00	852.00	Dec 1, 2008	Cost of Living Adjustment, Recoupment of Disability Severance Pay
1,272.00	389.00	883.00	Dec 1, 2011	Cost of Living Adjustment, Recoupment of Disability Severance Pay
1,293.00	395.00	898.00	Dec 1, 2012	Cost of Living Adjustment, Recoupment of Disability Severance Pay

Hopkins, M H

Total VA Benefit	Amount Withheld	Amount Paid	Payment Start Date	Reason For Change
1,312.40	400.93	911.47	Dec 1, 2013	Cost of Living Adjustment, Recoupment of Disability Severance Pay
1,312.40	293.28	1,019.12	May 1, 2014	Recoupment of Disability Severance Pay
1,312.40	0.00	1,312.40	Jun 1, 2014	Recoupment of Disability Severance Pay Ends
1,334.71	0.00	1,334.71	Dec 1, 2014	Cost of Living Adjustment

This adjustment results in an overpayment of benefits which have been paid to you. You will be notified shortly of the exact amount of the overpayment and given information about repayment.

NEW EVIDENCE: If you believe this decision is incorrect, you may submit additional evidence in connection with your claim. It is in your interest to send us any new evidence as promptly as possible. We will carefully consider it and let you know whether it changes our decision.

PERSONAL HEARING: If you desire a personal hearing to present evidence or argument on any point of importance in your claim, notify this office and we will arrange a time and place for the hearing. You may bring witnesses if you desire and their testimony will be entered in the record. The Department of Veterans Affairs (VA) will furnish the hearing room and provide hearing officials. The VA cannot pay any other expenses of the hearing since a personal hearing is held only on your request.

REPRESENTATION: You may be represented, without charge, by an accredited representative of a veterans organization or other service organization recognized by the Secretary of the Department of Veterans Affairs. You may also be represented by an agent or an attorney, for example, an attorney in private practice or a legal aid attorney. However, under 38 U.S.C. 3404(c), an agent or an attorney may only charge you for services performed on or after the date of final decision by the Board of Veterans Appeals.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

(b) (6)

Hopkins, M H

APPEAL: You may appeal our decision to the Board of Veterans Appeals at any time within 1 year from the date of this letter if you believe the decision is not in accord with the law and the facts now of record. You can start the appeal process by filing a Notice of Disagreement. You may do this by writing a letter to this office stating that you wish to appeal. If more than one benefit is involved, you should identify the benefit or benefits you are appealing.

What You Should Do If You Disagree With Our Decision

If you do not agree with our decision, please download and complete VA Form 21-0958, "*Notice of Disagreement*". You can download the form at http://www.va.gov/vaforms or you can call us at 1-800-827-1000. You have *one year from the date of this letter to appeal the decision.* The enclosed *VA Form 4107, "Your Rights to Appeal Our Decision,"* explains your right to appeal.

If You Have Questions or Need Assistance

If you have any questions, you may contact us by telephone, e-mail, or letter.

If you	**Here is what to do.**
Telephone	Call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the Federal number is 711.
Use the Internet	Send electronic inquiries through the Internet at https://iris.va.gov.
Write	VA now uses a centralized mail system. For all written communications, put your full name and VA file number on the letter. Please mail or fax all written correspondence to the appropriate address listed on the attached *Where to Send Your Written Correspondence*.

In all cases, be sure to refer to your VA file number 529 56 7575.

If you are looking for general information about benefits and eligibility, you should visit our website at https://www.va.gov, or search the Frequently Asked Questions (FAQs) at https://iris.va.gov.

MR. MARSHALL H HOPKINS
(b) (6)

In reply, refer to:
(b) (6)
Marshall H. Hopkins

IMPORTANT -- reply needed

Dear Mr. Hopkins:

We previously sent you Department of Veterans Affairs (VA) Form 21-0538, Status of Dependents Questionnaire, which we have not received as of this date. You are presently receiving additional benefits for DARLENE and KERRI. Because you failed to return the requested form, we propose to reduce your benefits effective June 1, 2006, the last date we can verify the status of your dependents.

Your Proposed Award Amount and Payment Start Date

Your monthly entitlement and amount is shown below:

Monthly Entitlement Amount	Withhold Amount	Amount Paid	Payment Start Date	Reason For Change
$1,099.00	406.00	693.00	Jun 1, 2006	Remove Darlene and Kerri
1,135.00	420.00	715.00	Dec 1, 2006	Cost of Living Adjustment
1,161.00	429.00	732.00	Dec 1, 2007	Cost of Living Adjustment
1,228.00	453.00	775.00	Dec 1, 2008	Cost of Living Adjustment
1,272.00	469.00	803.00	Dec 1, 2011	Cost of Living Adjustment
1,293.00	476.00	817.00	Dec 1, 2012	Cost of Living Adjustment
1,312.40	199.93	1,112.47	Feb 1, 2013	Recoupment of severance pay
1,312.40	0.00	1,312.40	Mar 1, 2013	Recoupment ends
1,334.71	0.00	1,334.71	Dec 1, 2014	Cost of Living Adjustment

We are enclosing VA Form 21-0538 for you to complete and return. If we do not receive this form within 60 days from the date of this letter, the above proposed action will be implemented.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

SUBMISSION OF EVIDENCE: Your payments will continue at the present rate for 60 days following the date of this notice so that you may, if you wish, submit evidence to show that the proposed action should not be taken. You may submit evidence in person, through the mail or through your accredited representative.

If you wait more than 60 days to submit evidence, we will carefully consider whatever you submit, but the adjustment of benefits described above will already have gone into effect and your benefits will continue in that status while we review the additional evidence.

MINIMIZING POTENTIAL OVERPAYMENT. You should be aware if you continue to accept payments at the present rate for the next 60 days and it is then determined the proposed adjustment must be made, you will have to repay all or a part of the benefits you have received during the 60 days. You may minimize this potential overpayment by sending us a written statement asking that, beginning with your next check, we reduce your payments while we review your case. If you make this request and at the end of the 60 days our review shows you should have received the higher rate, we will restore the full rate from the date on which it was reduced.

PERSONAL HEARING: If you desire a personal hearing to present evidence or argument on any point of importance in your claim, notify this office and we will arrange a time and place for the hearing. You may bring witnesses if you desire and their testimony will be entered in the record. The VA will furnish the hearing room and provide hearing officials. The VA cannot pay any other expenses of the hearing, since a personal hearing is held only upon your request.

If, within 30 days from the date of this notice, Department of Veterans Affairs (VA) receives a hearing request from you, payments will continue at the present rate until the hearing is held and the testimony is reviewed. You should be aware that continuing to receive the current rate of payments until a hearing is conducted could result in the creation of an overpayment which must be repaid. If you request a hearing but desire to minimize any overpayment which could result, you should submit a statement asking your benefits be reduced or suspended beginning with your next check.

This adjustment will result in an overpayment of benefits which have been paid to you. If the proposed decision is implemented, you will be notified of the exact amount of the overpayment and given information about repayment.

After 30 days, you may request a hearing but benefits may already have been adjusted as explained earlier in this notice.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

REPRESENTATION: You may be represented, without charge, by an accredited representative of a veterans organization or other service organization recognized by the Secretary of the Department of Veterans Affairs. You may also be represented by an agent or an attorney, for example, an attorney in private practice or a legal aid attorney.

How Should You Submit What We Need?

Please note that the quickest, easiest, and most secure way to submit any documents to us is via the eBenefits website. Just visit www.eBenefits.va.gov to register. Please also refer to the 'What is eBenefits?' section of this letter for more information.

You can also send what we need to the appropriate address listed on the attached *Where to Send Your Written Correspondence chart.*

What is eBenefits?

eBenefits provides electronic resources in a self-service environment to Servicemembers, Veterans, and their families. Use of these resources often helps us serve you faster! Through the eBenefits website you can:

- Submit claims for benefits and/or upload documents directly to the VA
- Request to add or change your dependents
- Update your contact and direct deposit information and view payment history
- Request a Veterans Service Officer to represent you
- Track the status of your claim or appeal
- Obtain verification of military service, civil service preference, or VA benefits
- And much more!

Enrolling in eBenefits is easy. Just visit www.eBenefits.va.gov for more information. If you submit a claim in the future, consider filing through eBenefits. Filing electronically, especially if you participate in our fully developed claim program, may result in a faster decision than if you submit your claim through the mail.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

How Can You Contact Us?

If you are looking for general information about benefits and eligibility, you should visit our web site at http://www.va.gov. Otherwise, you can contact us in several ways. Please give us your VA file number, **529 56 7575**, when you do contact us.

- Call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the Federal number is 711 (international number is 1-800-829-4833).
- Send us an inquiry using the Internet at https://iris.va.gov.
- Please mail or fax all responses to the appropriate address listed on the attached *Where to Send Your Written Correspondence* chart.

We look forward to resolving your claim in a fair and timely manner.

Sincerely yours,

RO Director
VA Regional Office

This letter is a summary of benefits you currently receive from the Department of Veterans Affairs (VA). We are providing this letter to disabled Veterans to use in applying for benefits such as housing entitlements, free or reduced state park annual memberships, state or local property or vehicle tax relief, civil service preference, or any other program or entitlement in which verification of VA benefits is required. Please safeguard this important document. This letter replaces VA Form 20-5455, and is considered an official record of your VA entitlement.

--America is Grateful to You for Your Service--

Our records contain the following information:

Personal Claim Information:

Your VA claim number is: (b) (6)
You are the Veteran

Military Information:

Your character(s) of discharge and service date(s) include:

Air Force, Honorable, 02-Dec-1963 - 09-Jun-1967

(You may have additional periods of service not listed above)

VA Benefits Information:

Service-connected disability: Yes
Your combined service-connected evaluation is: 70 PERCENT
The effective date of the last change to your current award was: 01-DEC-2014
Your current monthly award amount is: $1,530.71

You should contact your state or local office of Veterans' affairs for information on any tax, license, or fee-related benefits for which you may be eligible. State offices of Veterans' affairs are available at http://www.va.gov/statedva.htm.

Need Additional Information or Verification?

If you have any questions about this letter or need additional verification of VA benefits, please call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the federal relay number is 711. Send electronic inquiries through the Internet at https://iris.va.gov.

Sincerely yours,

T.CLARK
VETERANS SERVICE CENTER MANAGER

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

VA Benefit Details

SERVICE-CONNECTED DISABILITY: A condition incurred during or aggravated by military service, for which the Veteran is receiving VA benefits.

COMBINED SERVICE-CONNECTED EVALUATION: The Veteran's disability rating for all conditions determined to be service-connected.

CURRENT MONTHLY AWARD AMOUNT: The monthly monetary benefit paid to the Veteran or survivor receiving benefits under a VA program.

NON-SERVICE-CONNECTED PENSION: Benefit for a non-service connected Veteran who meets specific criteria, which include disability or age, wartime service, minimum length of service, and income restrictions. If a Veteran is eligible for service-connected benefits and pension benefits, VA will pay the higher benefit.

INDIVIDUAL UNEMPLOYABILITY (IU): The Veteran is receiving payment at the 100 percent rate, even though the combined service-connected evaluation is not 100 percent. The Veteran's service-connected conditions cause him/her to be unable to obtain or maintain substantially gainful employment because of the Veteran's service-connected conditions. The Veteran must periodically certify continued unemployability, but if there is no scheduled future reduction or medical examination required, he/she may be considered by some states to be permanently and totally disabled.

PERMANENT AND TOTAL (P&T) DISABILITY: The Veteran is considered by VA to be permanently and totally disabled because of his/her service-connected conditions.

SPECIAL MONTHLY COMPENSATION: The Veteran is receiving additional compensation for one or more of the following: a service-connected loss of or loss of use of one or more specific organs or extremities; a combination of severe disabilities; is 100 percent disabled and housebound, bedridden, or in the need of the aid and attendance of another person.

SPECIALLY ADAPTED HOUSING and/or SPECIAL HOME ADAPTATION GRANT: Grants provided by VA to service-connected veterans and service members to help build a new specially adapted house, to adapt a home they already own, or buy a house and modify it to meet their disability-related requirements.

Wartime Service Periods

Mexican Border Period: May 9, 1916, through April 5, 1917, for veterans who served in Mexico, on its borders or in adjacent waters.

World War I: April 6, 1917, through Nov. 11, 1918; for veterans who served in Russia, April 6, 1917, through April 1, 1920; extended through July 1, 1921, for veterans who had at least one day of service between April 6, 1917, and Nov. 11, 1918.

World War II: Dec. 7, 1941, through Dec. 31, 1946.

Korean War: June 27, 1950, through Jan. 31, 1955.

Vietnam War: Aug. 5, 1964 (Feb. 28, 1961, for veterans who served "in country" before Aug. 5, 1964), through May 7, 1975.

Gulf War: Aug. 2, 1990, through a date to be set by law or Presidential Proclamation.

This letter is a summary of benefits you currently receive from the Department of Veterans Affairs (VA). We are providing this letter to disabled Veterans to use in applying for benefits such as housing entitlements, free or reduced state park annual memberships, state or local property or vehicle tax relief, civil service preference, or any other program or entitlement in which verification of VA benefits is required. Please safeguard this important document. This letter replaces VA Form 20-5455, and is considered an official record of your VA entitlement.

--America is Grateful to You for Your Service--

Our records contain the following information:

Personal Claim Information:

Your VA claim number is: (b) (6) [redacted]
You are the Veteran

Military Information:

Your character(s) of discharge and service date(s) include:

Air Force, Honorable, 02-Dec-1963 - 09-Jun-1967

(You may have additional periods of service not listed above)

VA Benefits Information:

Service-connected disability: Yes
Your combined service-connected evaluation is: 70 PERCENT
The effective date of the last change to your current award was: 01-DEC-2013
Your current monthly award amount is: $1,505.66

You should contact your state or local office of Veterans' affairs for information on any tax, license, or fee-related benefits for which you may be eligible. State offices of Veterans' affairs are available at http://www.va.gov/statedva.htm.

Need Additional Information or Verification?

If you have any questions about this letter or need additional verification of VA benefits, please call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the number is 1-800-829-4833. Send electronic inquiries through the Internet at https://iris.va.gov.

Sincerely yours,

T.CLARK
VETERANS SERVICE CENTER MANAGER

VA Benefit Details

SERVICE-CONNECTED DISABILITY: A condition incurred during or aggravated by military service, for which the Veteran is receiving VA benefits.

COMBINED SERVICE-CONNECTED EVALUATION: The Veteran's disability rating for all conditions determined to be service-connected.

CURRENT MONTHLY AWARD AMOUNT: The monthly monetary benefit paid to the Veteran or survivor receiving benefits under a VA program.

NON-SERVICE-CONNECTED PENSION: Benefit for a non-service connected Veteran who meets specific criteria, which include disability or age, wartime service, minimum length of service, and income restrictions. If a Veteran is eligible for service-connected benefits and pension benefits, VA will pay the higher benefit.

INDIVIDUAL UNEMPLOYABILITY (IU): The Veteran is receiving payment at the 100 percent rate, even though the combined service-connected evaluation is not 100 percent. The Veteran's service-connected conditions cause him/her to be unable to obtain or maintain substantially gainful employment because of the Veteran's service-connected conditions. The Veteran must periodically certify continued unemployability, but if there is no scheduled future reduction or medical examination required, he/she may be considered by some states to be permanently and totally disabled.

PERMANENT AND TOTAL (P&T) DISABILITY: The Veteran is considered by VA to be permanently and totally disabled because of his/her service-connected conditions.

SPECIAL MONTHLY COMPENSATION: The Veteran is receiving additional compensation for one or more of the following: a service-connected loss of or loss of use of one or more specific organs or extremities; a combination of severe disabilities; is 100 percent disabled and housebound, bedridden, or in the need of the aid and attendance of another person.

SPECIALLY ADAPTED HOUSING and/or SPECIAL HOME ADAPTATION GRANT: Grants provided by VA to service-connected veterans and service members to help build a new specially adapted house, to adapt a home they already own, or buy a house and modify it to meet their disability-related requirements.

Wartime Service Periods

Mexican Border Period: May 9, 1916, through April 5, 1917, for veterans who served in Mexico, on its borders or in adjacent waters.

World War I: April 6, 1917, through Nov. 11, 1918; for veterans who served in Russia, April 6, 1917, through April 1, 1920; extended through July 1, 1921, for veterans who had at least one day of service between April 6, 1917, and Nov. 11, 1918.

World War II: Dec. 7, 1941, through Dec. 31, 1946.

Korean War: June 27, 1950, through Jan. 31, 1955.

Vietnam War: Aug. 5, 1964 (Feb. 28, 1961, for veterans who served "in country" before Aug. 5, 1964), through May 7, 1975.

Gulf War: Aug. 2, 1990, through a date to be set by law or Presidential Proclamation.

VA Benefit Details

SERVICE-CONNECTED DISABILITY: If yes, the Veteran is receiving VA benefits for a condition incurred during or aggravated by military service.

COMBINED SERVICE-CONNECTED EVALUATION: The Veteran's combined evaluation for all conditions determined to be service-connected.

CURRENT MONTHLY AWARD AMOUNT: The monetary benefit paid to Veterans and survivors who are receiving benefits under a VA program.

NON-SERVICE-CONNECTED PENSION: Benefit for non-service connected Veteran's who meet specific criteria, which include wartime service, minimum length of service, and income restrictions. If a Veteran is eligible for service-connected benefits and pension benefits, VA will pay the higher benefit.

INDIVIDUAL UNEMPLOYABILITY (IU): Veteran is receiving payment at the 100 percent rate, even though the combined service connected evaluation is not 100 percent. The Veteran's service-connected conditions cause him/her to be unable to obtain or maintain substantially gainful employment because of the Veteran's service-connected conditions. These Veterans must periodically certify continued unemployability, but if there is no scheduled future reduction or medical examination required, they may be considered by some states to be permanently and totally disabled.

PERMANENT AND TOTAL (P&T) DISABILITY: Veteran is considered by VA to be totally and permanently disabled because of his/her service-connected conditions.

FUTURE EXAMINATION: If this line appears on the letter, the Veteran is scheduled for a follow-up medical examination on the date shown, to determine the current level of disability.

FUTURE REDUCTION: If this line appears on the letter, the Veteran is currently receiving temporary disability benefits. On the date shown, the Veteran's temporary disability period will expire, and the combined service-connected evaluation will be reduced.

SPECIAL MONTHLY COMPENSATION: If yes, the Veteran is service-connected for loss of or loss of use of a limb, or is totally blind in or missing at least one eye.

SPECIALLY ADAPTED HOUSING and/or SPECIAL HOME ADAPTATION GRANT: Grants provided by VA to service-connected veterans and service members to help build a new specially adapted house, to adapt a home they already own, or buy a house and modify it to meet their disability-related requirements.

Wartime Service Periods

Mexican Border Period: May 9, 1916, through April 5, 1917, for veterans who served in Mexico, on its borders or in adjacent waters.

Dear Mr. Hopkins:

You have filed a Notice of Disagreement with our action. This is the first step in appealing to the Board of Veterans' Appeals (BVA). This letter and enclosures contain very important information concerning your appeal.

Statement of the Case

We have enclosed a Statement of the Case, a summary of the law and evidence concerning your claim. This summary will help you to make the best argument to the BVA on why you think our decision should be changed.

What You Need To Do

To complete your appeal, you must file a formal appeal. We have enclosed VA Form 9, Appeal to the Board of Veterans' Appeals, which you may use to complete your appeal. We will gladly explain the form if you have questions. Your appeal should address:

- the benefit you want
- the facts in the Statement of the Case with which you disagree; and
- the errors that you believe we made in applying the law.

When You Need To Do It

You must file your appeal with this office within 60 days from the date of this letter or within the remainder, if any, of the one-year period from the date of the letter notifying you of the action that you have appealed. **If we do not hear from you within this period, we will close your case.** If you need more time to file your appeal, you should request more time before the time limit for filing your appeal expires. See item 5 of the instructions in VA Form 9, Appeal to Board of Veterans' Appeals.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Hearings

You may have a hearing before we send your case to the BVA. If you tell us that you want a hearing, we will arrange a time and a place for the hearing. VA will provide the hearing room, the hearing official, and a transcript of the hearing for the record. VA cannot pay any other expenses of the hearing. You may **also** have a hearing before the BVA, as noted on the enclosed VA Form 9, Appeal to the Board of Veterans' Appeals. **Do not delay filing your appeal if you request a hearing. Your request for a hearing does not extend the time to file your appeal.**

Representation

If you do not have a representative, it is not too late to choose one. An accredited representative of a recognized service organization may represent you without charge. An attorney or an accredited agent may also represent you, and may charge you a fee for services related to your claim that he or she provides after a final decision of the BVA under certain circumstances. VA cannot pay fees of agents or attorneys. For more information on fees, see 38 U.S.C. § 5904. If an attorney or accredited agent charges a fee for services in connection with your claim before VA, the attorney or agent should file a copy of the fee agreement within 30 days after it is signed. The fee agreement should be filed at the following address: Counsel to the Chairman (01C3), Board of Veterans' Appeals, 810 Vermont Avenue, N.W., Washington, DC 20420.

What We Will Do

After we receive your appeal, we will send your case to the BVA in Washington, DC for a decision. The BVA will base its decision on an independent review of the entire record, including the transcript of the hearing, if you have a hearing.

Sincerely yours,

Judy Sikes

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

ISSUE:

Whether the collectable amount of severance disability pay of $75,380.00 is correct.

EVIDENCE:

December 19, 2008, Formal Finding stating all requests for severance pay records to National Personnel Records Center, claimant, Defense Finance and Accounting Services, Air Force Personnel Center, and Department of Defense in Denver, Colorado.

Copy of claimant's deposit receipt in the amount of $54,273.60 dated April 18, 1996.

ADJUDICATIVE ACTIONS:

06-11-2007	Claim considered based on all the evidence of record.
06-11-2007	Claimant notified of decision.
08-27-2007	Notice of Disagreement received.
09-07-2007	Appeal Election Letter sent to the appellant.
09-28-2007	De Novo Review election received from appellant.

PERTINENT LAWS; REGULATIONS; RATING SCHEDULE PROVISIONS:

Unless otherwise indicated, the symbol "§" denotes a section from title 38 of the Code of Federal Regulations, Pensions, Bonuses and Veterans' Relief. Title 38 contains the regulations of the Department of Veterans Affairs which govern entitlement to all veteran benefits.

§3.700 General.

Not more than one award of pension, compensation, or emergency officers', regular or reserve retirement pay will be made concurrently to any person based on his or her own service except as provided in §3.803 relating to naval pension and §3.750(c) relating to waiver of retirement pay. Not more than one award of pension, compensation, or dependency and indemnity compensation may be made concurrently to a dependent on account of more than one period of service of a veteran. (Authority: 38 U.S.C. 5304(a))

(a) Veterans:

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

(1) Active service pay.

(i) Pension, compensation, or retirement pay on account of his or her own service will not be paid to any person for any period for which he or she receives active service pay. (Authority: 38 U.S.C. 5304(c))

(ii) Time spent by members of the ROTC in drills as part of their activities as members of the corps is not active service.

(iii) Reservists may waive their pension, compensation, or retirement pay for periods of field training, instruction, other duty or drills. A waiver may include prospective periods and contain a right of recoupment for the days for which the reservists did not receive payment for duty by reason of failure to report for duty.

(2) Lump-sum readjustment pay.

(i) Where entitlement to disability compensation was established prior to September 15, 1981, a veteran who has received a lump-sum readjustment payment under former 10 U.S.C. 687 (as in effect on September 14, 1981) may receive disability compensation for disability incurred in or aggravated by service prior to the date of receipt of lump-sum readjustment payment subject to deduction of an amount equal to 75 percent of the amount received as readjustment payment. (Authority: 38 U.S.C. 1501(a))

(ii) Readjustment pay authorized under former 10 U.S.C. 3814(a) is not subject to recoupment through withholding of disability compensation, entitlement to which was established prior to September 15, 1981. (Authority: 38 U.S.C. 1501(a))

(iii) Where entitlement to disability compensation was established on or after September 15, 1981, a veteran who has received a lump-sum readjustment payment may receive disability compensation for disability incurred in or aggravated by service prior to the date of receipt of the lump-sum readjustment payment, subject to recoupment of the total amount of the readjustment payment. (Authority: 38 U.S.C. 1501(a))

(iv) The receipt of readjustment pay does not affect the payment of disability compensation based on a subsequent period of service. Compensation payable for service-connected disability incurred or aggravated in a subsequent period of service will not be reduced for the purpose of offsetting readjustment pay based on a prior period of service. (Authority: 10 U.S.C. 1174(h)(2))

(3) Severance pay. Where the disability or disabilities found to be service-connected are the same as those upon which disability severance pay is granted, an award of compensation will be made subject to recoupment of the disability severance pay. Prior to the initial determination of the

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

degree of disability recoupment will be at the full monthly compensation rate payable for the disability or disabilities for which severance pay was granted. Following initial determination of the degree of disability recoupment shall not be at a monthly rate in excess of the monthly compensation payable for that degree of disability. For this purpose the term "initial determination of the degree of disability" means the first regular schedular compensable rating in accordance with the provisions of Subpart B, Part 4 of this chapter and does not mean a rating based in whole or in part on a need for hospitalization or a period of convalescence. There is no prohibition against payment of compensation where the veteran received nondisability severance pay or where disability severance pay was based upon some other disability. Compensation payable for service-connected disability other than the disability for which disability severance pay was granted will not be reduced for the purpose of recouping disability severance pay. (Authority: 10 U.S.C. 1212(c))

(4) Improved pension. If a veteran is entitled to improved pension on the basis of the veteran's own service and is also entitled to pension under any pension program currently or previously in effect on the basis of any other person's service, the Department of Veterans Affairs shall pay the veteran only the greater benefit. (Authority: 38 U.S.C. 1521(i))

(5) Separation pay.

(i) A veteran who has received separation pay may receive disability compensation for disability incurred in or aggravated by service prior to the date of receipt of separation pay subject to recoupment of the total amount received as separation pay.

(ii) The receipt of separation pay does not affect the payment of disability compensation based on a subsequent period of service. Compensation payable for service-connected disability incurred or aggravated in a subsequent period of service will not be reduced for the purpose of offsetting separation pay based on a prior period of service. (Authority: 10 U.S.C. 1174)

(b) Dependents:

(1) Surviving spouse. Subject to the provisions of paragraph (a)(4) of this section, the receipt of pension, compensation, or dependency and indemnity compensation by a surviving spouse because of the death of any veteran, or receipt of pension or compensation because of his or her own service, shall not bar the payment to the surviving spouse of pension, compensation, or dependency and indemnity compensation because of the death or disability of any other veteran; however, other than insurance, concurrent benefits under laws administered by the Department of Veterans Affairs may not be authorized to a surviving spouse by reason of the death of more than one veteran to whom the surviving spouse has been married. The surviving spouse may elect to receive benefits based on the death of one such spouse and the election places the right to benefits based on the deaths of other spouses in suspense. The suspension may be lifted at any time by another election based on the death of another spouse. Benefits payable in the elected case will be

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

subject to prior payments for the same period based on the death of the other spouse where, under the provisions of §3.400(c) there is entitlement in the elected case prior to date of receipt of the election. (Authority: 38 U.S.C. 5304)

(2) Children. Except as provided in §3.703 and paragraph (a)(4) of this section, the receipt of pension, compensation, or dependency and indemnity compensation by a child on account of the death of a veteran or the receipt by the child of pension or compensation on account of his or her own service will not bar the payment of pension, compensation, or dependency and indemnity compensation on account of the death or disability of any other veteran.

(3) Parents. The receipt of compensation or dependency and indemnity compensation by a parent on account of the death of a veteran or receipt by him or her of pension or compensation on account of his or her own service will not bar the payment of pension compensation, or dependency and indemnity compensation on account of the death or disability of any other person. (Authority: 38 U.S.C. 5304(b))

DECISION:

The collectable amount of severance disability pay of $75,380.00 is correct.

REASONS AND BASES:

Claimant received severance pay in April 1996. We have exhausted all possibilities to verify the amount received. In April of 1996, severance pay was taxed at the 28% rate. 28% of $75.380.00 is $54,273.60, the amount of the check veteran deposited in his account on April 18, 1996. Regulations state that Prior to October 1, 1996, the pre-tax amount should be recouped, therefore we are in the process of recouping $75,380.00 from his monthly benefits.

IMPORTANT INFORMATION

Dear Mr. Hopkins:

The purpose of this letter is to advise you we have completed a review of your claim file. We previously notified you that we were unable to obtain information concerning your severance pay amount. This letter will inform you the steps we have take to obtain this information.

What Has VA Done So Far?

As of this date, we have initiated inquiries to obtain your severance pay amount from 1996, as follows:

DATE SENT	TYPE OF INQUIRY	INQUIRY SENT TO	RESPONSE RECEIVED/DATE (if applicable)
09-06-05	Request for severance pay information on severance received April 1996	National Personnel Records Center (NPRC), St Louis, MO	September 26, 2005, NPRC responds that finance records are not kept at their facility, and they are forwarding request to DFAS finance code 17
09-06-05	Phone call to Veteran to ask for severance pay amount	Veteran	December 12, 2005, veteran calls us to tell us deposit slip found for $54,273.60 deposited April 18, 1996
12-12-05 to 12-30-05	10 phone calls to request for severance pay amount	DFAS, 7 calls to 7 different people AF Personnel Center, 1 call AF Reserve Personnel Center, 1 call NPRC, 1 call	Each call referred us to someone else, until, we came full circle, being referred to DFAS again

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

7-24-08	Request for severance pay	Department of Defense (Air Force) in Denver CO	No response, however we have deleted this request because VA manual reference M21-MR III.iii.2.71.d tells us records are destroyed six years and 3 months after separation

If you have any other information concerning your severance pay amount, please submit it.

How Soon Should You Send It?

We will continue on your appeal if severance pay information is not received within 10 days from the date of this letter.

How Can You Contact Us?

If you are looking for general information about benefits and eligibility, you should visit our website at http//www.va.gov. Otherwise, you can contact us in several ways. Let us know your VA file number, (b) (6) when you contact us.

- Call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the number is 1-800-829-4833.
- Wrote t us at the address at the top of this letter.
- On the Internet at https://iris.va.gov

We appreciate your help.

Sincerely yours,

J. Sikes

PAYEE NO 00
M H HOPKI

We amended your disability compensation award as follows:

MONTHLY RATE	EFFECTIVE DATE
$1409.00	12-01-08
$1333.00	8-22-21

We included additional benefits for your spouse and child. You must tell us immediately if there is any change in the number or status of your dependents. Failure to tell VA immediately of a dependency change will result in an overpayment which must be repaid.

We included a cost-of-living increase in this award effective December 1, 2008.

If this change in your award decreases your payments for a prior period, we may establish an overpayment in your award. If our adjustment results in an overpayment of the benefits we paid you, we will notify you shortly of the exact amount of the overpayment. Also, we will give you information about repayment.

Please read the enclosed VA Form 21-8764. It contains important information about rights to receive this benefit.

If your mailing address is different than that shown above, please advise us of your new mailing address. You should notify us immediately of any changes in your mailing address.

IF YOU RESIDE IN THE CONTINENTAL UNITED STATES, ALASKA, HAWAII OR PUERTO RICO, YOU MAY CONTACT VA WITH QUESTIONS AND RECEIVE FREE HELP BY CALLING OUR TOLL-FREE NUMBER 1-800-827-1000 (FOR HEARING IMPAIRED TDD 1-800-829-4833).

RE: Marshall H. Hopkins

SUBJ: Formal Finding on the Unavailability of Personnel records

TO: File

1. We have determined that the finance/personnel records are unavailable for review.

2. All procedures to obtain the finance/personnel records for this veteran have been correctly followed. Evidence of written and telephonic efforts to obtain the records is in the file. All efforts to obtain the needed military information have been exhausted; further attempts are futile and that, based on these facts, the record is not available.

3. The following efforts to obtain the military service records were attempted:

DATE SENT	TYPE OF INQUIRY	INQUIRY SENT TO	RESPONSE RECEIVED/DATE (if applicable)
09-06-05	Request for severance pay information on severance received April 1996	National Personnel Records Center (NPRC), St Louis, MO	September 26, 2005, NPRC responds that finance records are not kept at their facility, and they are forwarding request to DFAS finance code 17
09-06-05	Phone call to Veteran to ask for severance pay amount	Veteran	December 12, 2005, veteran calls us to tell us deposit slip found for $54,273.60 deposited April 18, 1996
12-12-05 to 12-30-05	10 phone calls to request for severance pay amount	DFAS, 7 calls to 7 different people AF Personnel Center, 1 call AF Reserve Personnel Center, 1 call NPRC, 1 call	Each call referred us to someone else, until, we came full circle, being referred to DFAS again
7-24-08	Request for severance pay	Department of Defense (Air Force) in Denver CO	No response, however we have deleted this request because VA manual reference M21-MR III.iii.2.71.d tells us records are destroyed six years and 3 months after separation

The President has signed into law an Act of Congress increasing rates of Disability Compensation for disabled veterans, and of Dependency and Indemnity Compensation for the survivors of deceased veterans effective December 1, 2008. We are reviewing your award to determine what rate you will be entitled to receive.

Should your award require adjustment, we will advise you of the new monthly rate.

Please advise us immediately if you return to active military service or if your address or marital status changes. If you are receiving additional benefits for dependents, notify us immediately of any change in their status.

VA will match benefit information from your records with the following agencies for the purposes described below:

1. Department of Defense: to verify a return to active military service.

2. Department of Defense: to identify veterans receiving disability compensation who are also receiving military pay and allowances (drill pay) as members of the National Guard or Reserves.

3. Social Security Administration: to identify veterans in receipt of substantial earned income who are also rated totally disabled based on unemployability for VA purposes.

4. Social Security Administration: to assist in determining eligibility for benefits under the Supplemental Security Income program.

5. Social Security Administration: to verify a beneficiary's self-certification of eligibility for prescription drug subsidy assistance under the Medicare Prescription Drug, Improvement and Modernization Act of 2003.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

6. U.S. Department of Health and Human Services: to assist states in determining eligibility for public assistance programs.

7. Department of Education: to verify veteran status of applicants for financial assistance.

8. Federal and State law enforcement agencies: to identify VA beneficiaries who are fugitive felons.

9. Bureau of Prisons and Social Security Administration: to identify beneficiaries who are incarcerated more than 60 days.

A beneficiary may be entitled to additional benefits if permanently housebound or in need of the regular aid and attendance of another person in performing certain activities of daily living. For information about these benefits, call 1-800-827-1000.

STATE BENEFITS: You should contact your state office of veterans' affairs for information on any tax, license, or fee-related benefits for which you may be eligible as a veteran (or surviving dependent of a veteran). State offices of veterans' affairs are available at http://www.va.gov/statedva.htm.

TAX CREDITS: The Internal Revenue Service has asked us to encourage you to take advantage of certain tax credits, deductions and services for which you may qualify. Special deductions and credits can benefit disabled taxpayers or their families. Free tax help is available for low-income, elderly, disabled or individuals who do not speak English. Returns can be filed electronically to speed receipt of refunds and increase accuracy. The Earned Income Tax Credit may be available to low- or moderate-income workers, depending on the amount of earned income and the number of children in the household. Even when income is below the threshold for filing a tax return, eligible individuals can file a return and claim the credit to receive a refund. Education credits and deductions for non-reimbursed expenses may be available to individuals when they or members of their family are pursuing post-secondary or job-related education. Child tax credits may be available to those with children under age 17. To find out more and to see if you qualify for the credits, call the Internal Revenue Service at (800) 829-1040 or visit the IRS web site at www.irs.gov.

CONTACTING VA: Any questions or correspondence should be submitted to the VA regional office handling your account. If you do not know which regional office handles your account, contact the office nearest your home. For telephone inquiries, dial the following toll-free number: 1-800-827-1000. If you are hearing impaired, dial 1-800-829-4833.

ADDRESS OF PERSON CONTACTED

(b) (6) [redacted]

BRIEF STATEMENT OF INFORMATION REQUESTED AND GIVEN *

This file came to me for a follow-up on an old PIES request. We have been trying to verify the exact pre-tax amount of the veteran's disability severance pay. The veteran's claims file contains a detailed history of our attempts to verify the information.

The response to the most recent PIES request shows that the inquiry was forwarded to address code 25, which is APRC (Air Force Reserve Personnel Center) in Denver. I called ARPC and spoke with Sgt. Stanton, who said that ARPC only held records back to 2003, and that prior records would have been retired to NPRC.

I spoke with Carol at NPRC, and she said that this was not NPRC information, and she directed me to DFAS. A prior PIES request was forwarded to DFAS on September 23, 2005. Subsequent calls to DFAS from that date were negative, per the notes in the file from the SVSR who had previously attempted to verify the information.

To this point, DFAS, NPRC, and ARPC are all pointing at each other as to which facility should have the veteran's records. It appears that the only information we can use is what was previously submitted by the veteran, and that further attempts to verify the information (or to locate any other information) would be futile.

Contents

- Change Date
- a. Address Codes for Service Information
- b. Address Codes for Medical and Dental Records
- c. Addresses for Air Force X-Ray Records
- d. Address Codes for Other Types of Service Information

Change Date

December 13, 2005

[III.iii.2.J.71.a]a. Address Codes for Service Information

The table below lists the types of service, service circumstances, and the corresponding address codes to use to obtain the following for officers and enlisted personnel:

- personnel records
- facts and circumstances surrounding an other-than-honorable discharge including
  - Board of Officers proceedings, and
  - investigations and information concerning all courts-martial
- summary of proceedings of summary
- special or general courts-martial
- reports of investigation on in-service injuries
- Physical Evaluation Board proceedings
- pay grade, and
- travel time.

To request Air Force x-ray records, use

- address code 75 for entrance and separation x-rays, and
- address code 85 for in-service interim x-rays.

Note: In-service interim x-rays are retained for only five years from date of exposure.

[III.iii.2.J.71.d]d. Address Codes for Other Types of Service Information

The table below lists the appropriate address codes to use to obtain other service information for officers and enlisted personnel.

Type of Record	Address Code
Information on	For personnel separated or deceased
• readjustment pay • severance pay, not released from TDRL • separation pay • allowance, and • allotment. ***Note***: Records are destroyed six years and three months after separation or the death of a member.	• before 06/01/1951, use address code 16, and • on or after 06/01/1951 use address code 25.
Retired pay information	35
SBP information (Finance)	17
Verification of in-service stressors (claimed by veterans seeking service connection for post-traumatic stress disorder)	55
Inpatient clinical records created during active duty	13
Military retiree outpatient treatment records	13
In/outpatient treatment records for dependents of service members	13

Note: Clinical records are retired to NPRC in annual collections by the creating hospital. They are typically retained for two calendar years before retirement. Teaching hospitals that maintain clinical record libraries may retain records up to 5 years before retirement to NPRC.

DEFERRED RATING DECISION

REGIONAL OFFICE NUMBER	NAME OF VETERAN	(b) (6)
351/Muskogee, OK	MARSHALL HOPKINS	[redacted]

THE RATING HAS BEEN DEFERRED PENDING RECEIPT OF DATA INDICATED BELOW:

REASONS(S) FOR DEFERRAL *(Check appropriate box(es)*

[] EXAMINATION REPORT [] HOSPITAL REPORT [] FIELD EXAMINATION REPORT [] SUPPLEMENTAL SERVICE RECORDS [] EVIDENCE FROM VETERAN OR OTHERS [X] OTHER *(Specify)*

EXPLANATION FOR ITEMS CHECKED

We need to follow up on PIES request for information on severance pay. Initial request sent 9/6/2005. Response noting finance records not maintained at Code 13 and request forwarded to Code 17. We then did a lot of chasing, but there is nothing to indicate we have ever received any actual response to show the amount received. We have to have a negative response or a final response before we can work the veteran's NOD.

INSTRUCTIONS FOR QUARTERS PATIENTS

1. While on quarters, you are expected to remain in your residence to recuperate from your illness. Members residing in dormitories are permitted to go to mess in government dining facilities while on quarters. You may also make stops to purchase personal items at the BX, Commissary, etc.
2. It is your responsibility to present a copy of the quarters authorization to your orderly room.
3. It is your responsibility to notify your supervisor that you are being placed on quarters.
4. At the expiration of your quarters you are expected to report to your duty section.
5. Noncompliance with the above directives can lead to disciplinary action by your commander. If you have any questions, contact Patient Administration at 556-4037.

REMARKS

I certify I have been advised of my disqualifying medical condition and of the requirement to provide medical information from my private physician to my supporting reserve medical unit to aid in the evaluation of my medical condition. I understand that HQ AFRES/SGP will make the final determination on my medical qualifications for continued military duty and that if I fail to submit the requested civilian medical documentation to my supporting reserve medical unit within 60 days from the date of initial request, my case may be forwarded to HQ AFRES/SGP without it. I UNDERSTAND THAT WHILE I HAVE THIS PROFILE, I MAY NOT PARTICIPATE IN THE RESERVE PROGRAM, WHETHER FOR PAY OR POINTS, UNTIL THE "4" HAS BEEN REMOVED FROM MY PROFILE.

We amended your disability compensation award as follows:

MONTHLY RATE	EFFECTIVE DATE
$1332.00	12-01-07
$1260.00	8-22-21

We included additional benefits for your spouse and child. You must tell us immediately if there is any change in the number or status of your dependents. Failure to tell VA immediately of a dependency change will result in an overpayment which must be repaid.

We included a cost-of-living increase in this award effective December 1, 2007.

If this change in your award decreases your payments for a prior period, we may establish an overpayment in your award. If our adjustment results in an overpayment of the benefits we paid you, we will notify you shortly of the exact amount of the overpayment. Also, we will give you information about repayment.

Please read the enclosed VA Form 21-8764. It contains important information about rights to receive this benefit.

If your mailing address is different than that shown above, please advise us of your new mailing address. You should notify us immediately of any changes in your mailing address.

IF YOU RESIDE IN THE CONTINENTAL UNITED STATES, ALASKA, HAWAII OR PUERTO RICO, YOU MAY CONTACT VA WITH QUESTIONS AND RECEIVE FREE HELP BY CALLING OUR TOLL-FREE NUMBER 1-800-827-1000 (FOR HEARING IMPAIRED TDD 1-800-829-4833).

The President has signed into law an Act of Congress increasing rates of Disability Compensation for disabled veterans, and of Dependency and Indemnity Compensation for the survivors of deceased veterans effective December 1, 2007. We are reviewing your award to determine what rate you will be entitled to receive.

Should your award require adjustment, we will advise you of the new monthly rate.

VA will match benefit information from your records with the following agencies for the purposes described below:

1. Department of Defense to verify a return to active military service.

2. Department of Defense to identify veterans receiving disability compensation who are also receiving military pay and allowances (drill pay) as members of the National Guard or Reserves.

3. Social Security Administration to identify veterans in receipt of substantial earned income who are also rated totally disabled based on unemployability for VA purposes.

4. Your records are provided to the Social Security Administration to assist in determining eligibility to benefits under the Supplemental Security Income program.

5. During the next year it is expected that VA compensation records will be matched through the U.S. Department of Health and Human Services with records maintained by the New York State Department of Social Services, the South Dakota Department of Social Services and the Tennessee Department of Human Services. This information will be used, by the states, to determine eligibility to Medicaid, Aid to Families with Dependent Children and Food Stamps.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

6. U.S. Department of Health and Human Services to assist states in determining eligibility for public assistance programs.

7. Department of Education to verify veteran status of applicants for financial assistance.

8. Federal and State law enforcement agencies to identify VA beneficiaries who are fugitive felons.

9. Social Security Administration to verify a beneficiary's self-certification of eligibility for prescription drug subsidy assistance under the Medicare Prescription Drug, Improvement and Modernization Act of 2003.

10. Bureau of Prisons and Social Security Administration to identify beneficiaries who are incarcerated more than 60 days.

Please advise us immediately if you return to active military service or if your address or marital status changes. If you are receiving additional benefits for dependents, notify us immediately of any change in their status.

If you want to open or expand a small business, VA's Center for Veterans Enterprise (CVE) can help. To open a business, its staff will connect you with local specialists who can answer start-up and financing questions as well as help you craft a business plan. VA has no business loans or grants, but some veterans may be eligible for tuition assistance for qualified business courses. To expand an existing business into the federal marketplace, the staff will help you learn how to identify and market contract opportunities. To learn more, visit the CVE web portal at http://www.vetbiz.gov.

The Internal Revenue Service has asked us to encourage you to take advantage of certain tax credits, deductions and services for which you may qualify. Special deductions and credits can benefit disabled taxpayers or their families. Free tax help is available for low-income, elderly, disabled or non-English speaking individuals. Returns can be filed electronically to speed receipt of refunds and increase accuracy. The Earned Income Tax Credit may be available to low- or moderate-income workers, depending on the amount of earned income and the number of children in the household. Even when income is below the threshold for filing a tax return, eligible individuals can file a tax return and claim the credit to receive a refund. Education credits and deductions for non-reimbursed expenses may be available to individuals when they or members of their families are pursuing post-secondary or job-related education. Child tax credits may be available to those with children under age 17. To find out more and to see if you qualify for the credits, call the Internal Revenue Service at (800) 829-1040 or visit the IRS web site at www.irs.gov.

FROM: Martha Gile, Congressional Liaison

Number of pages to include cover sheet: 1
Commercial Telephone numbers are 918-781-7684/7627
Fax telephone number is 918-781-7694

IN REFERENCE TO: Marshall Hopkins
CLAIM NUMBER: (b) (6) [redacted]

This is in response to your inquiry for Mr. Hopkins.

You are correct regarding severance. Section 653 of Public law 104-201 provides that with respect to payments after September 30, 1996, VA shall recoup the amount of readjustment pay received by the veteran after withholding for Federal income tax. Prior to this date, the total amount of the readjustment pay rewarded must be recouped.

We notified the veteran by letter dated June 11, 2007, that we had exhausted all resources to verify the amount of disability severance pay he stated that he received upon discharge from the service. We asked him to provide documentation of the amount for further consideration. We received his Notice of Disagreement on August 27, 2007. We sent him a letter informing him of this on September 11, 2007. We received his election to have his case reviewed by a Decision Review Officer on September 28, 2007.

We will add the evidence submitted by Mr. Hopkins to his claims file and it will be reviewed in the date order received. We have flashed the file for "Congressional Interest." We will notify both you and the veteran of any future actions regarding his claim.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

July 26, 2007

Dear Sen. Coburn
I am writing this letter requesting your assistance.
In Dec. 1990 I was activated in the Air Force Reserves for " Desert Shield ". While on active duty and during work I was involved in an accident. I was stopped at a crosswalk waiting for a pedestrian to cross and was rear-ended. I was hit hard enough that my car seat separated from it's mountings and I was thrown into the rear seat, then when my car went forward from the impact and hit another car, I was then thrown forward into the dash and windshield. In 1994 I was medically discharged from the reserves. I chose to take a cash pay-out in instead of a monthly retirement. I thought that I was in better physical shape than I actually am. I then decided to apply for a V.A. pension. For ten years I fought the V.A. for disability status. That was finally awarded in 2004. I was told that I would have to pay back my cash-out. Which I was ok with. I was asked for proof of the amount of the cash-out. All I could come up with is the deposit slip for the check. {See enclosed letter}. It is not right because the V.A. cannot find out how much I was paid to take out the $ 75,380.00. I Just received an answer to the enclosed letter stating that is still their intention, I am asking for you help in this matter.

Sincerely

Marshall Hopkins

Muskogee, Oklahoma 74401-7031

Dear Ms. Gile,

Attached please find a letter from one of my constituents, Marshall Hopkins, concerning a situation in which I believe you can be of assistance. This appears to be an issue of when he was discharged from the military and received the severance bonus. It is our understanding that after a certain date, you only had to recoup the after tax amount and before that date, you had to recoup the pre-tax amount.

Which case does Mr. Hopkins fall into, or is there some other issue? I would appreciate your looking into this matter for me. In responding to me, please direct your correspondence to the attention of my representative:

Patrick Guinn, Constituent Representative
1800 S Baltimore, Ste. 800
Tulsa, OK 74119

Thank you very much for your cooperation.

Sincerely,

Tom Coburn

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

January 23, 2006

To; Dept. of Veterans Affairs
VA Regional Office
125 South Main St.
Muskogee, Ok. 74401

Case number: 351/21
(b) (6)
Hopkins, M H

Attn: To Whom It May Concern

In 1996 I was medically retired from the USAFR. I choose to receive my retirement, Lump Sum. On the 18th of April I received a check for $ 54,273.60.
On Mar.8th 2004 I was awarded VA compensation. In a letter dated Jan. 12, 2006, it stated that I was given $ 75,380.00. I called your office and Talked to (b) (6) He asked if I had the paperwork that came with the lump sum check. I did not at that time, so I started to look for it. I never found it but I did find the deposit check for it. I called him and gave him the date of the deposit, check number, and the amount. He said that if I did not have the proper paper work then the VA would go with the $ 75,380.00 amount.
Today I called and talked to a Karen. She said that there was nothing in my records about the $ 54,273.60 but that as of today there was still a recoup amount of $ 32,855.93. This is wrong. I never received $ 75,380. With, or without taxes. The above mentioned letter states that the VA is trying to verify the amount from the service. It is now two years later and apparently nothing has happened. If I don't hear from you in a couple of months then I will turn this over to my Senator's office for assistance, but first I feel that I need to give you another chance to straighten it out.

Sincerely

Marshall H. Hopkins

Dear Mr. Hopkins:

We received your written disagreement with the Department of Veterans Affairs (VA) decision of June 11, 2007. This letter describes what happens next.

Will VA try to resolve my disagreement?

This local VA office will try to resolve your disagreement through the Post-Decision Review Process. As part of this process, you must decide how you would like us to handle your appeal. You may choose to have a Decision Review Officer assigned to your case or to follow the traditional appeal process.

How does the Decision Review Officer Process work?

Complete review: The Decision Review Officer will review the materials in your VA claims folder, including evidence and arguments, and statements from your representative. This may lead the Decision Review Officer to request additional evidence from you, your doctor or some other source. You may be asked to participate in an informal conference with the Decision Review Officer to discuss your case.

New decision: The DRO will then make a new decision. You will be notified of the decision and your appeal rights.

How does the Traditional Appeal Process work?

Complete review: A VA staff member will check your file for completeness. Then a review will be made of your evidence and arguments, statements from your representative and any other information available in your claims folder. This may lead to a request for additional evidence from you, your doctor or other sources. You may be asked to clarify questions about your disagreement.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Statement of the Case: The reviewer will then prepare a Statement of Case (SOC) and send you a copy. The SOC will include a summary of the evidence, a citation to pertinent laws, a discussion of how those laws affect the decision, and a summary of the reasons for the decision. If you still do not agree with that decision and wish to continue your appeal, you need to submit a substantive appeal so that your case can be sent to the Board of Veterans' Appeals. Instructions on how to file a substantive appeal will be provided in our letter notifying you of the decision.

May I be represented?

You designated Disabled American Veterans to represent you in presenting your claim to VA. The Decision Review Officer will work with this representative while trying to resolve your disagreement. If you have not already done so, you should contact your representative directly to discuss your case.

How do I select the Decision Review Officer or traditional appeal process?

You must notify us within 60 days from the date of this letter whether you want to have your case reviewed by the Decision Review Officer or by the traditional appeal process. If we do not hear from you within 60 days, your case will be reviewed under the traditional appeal process.

We hope we will be able to resolve your disagreement to your satisfaction. If you have questions about the information in this letter please call us at 800-827-1000.

Sincerely yours,

J. SIKES
Veterans Service Center Manager

Dear Mr. Hopkins:

We received your informal notice of disagreement on August 6, 2007. We can not accept a notice of disagreement that has not been signed by you or your representative.

You should sign the attached notice of disagreement and return it to this office if you wish to file an appeal.

No further action will be taken on your notice of disagreement until we receive this information from you.

This evidence should be submitted as soon as possible, preferably within 30 days and in any case, it must be received in the Department of Veterans Affairs (VA) within 1 year from the date of this letter; otherwise, benefits, if entitlement is established, may not be paid prior to the date of its receipt.

If you have any questions, call us toll-free by dialing 1-800-827-1000. Our TDD number for the hearing impaired is 1-800-829-4833. *If you call, please have this letter with you.*

We sent a copy of this letter to Oklahoma Department of Veterans Affairs because you appointed them as your representative. If you have questions or need assistance, you can also contact them.

Sincerely yours,

J. SIKES
Veterans Service Center Manager

Notice of Disagreement

July 31, 2007

Ref. Letter of July 11,2007
351/21
(b) (6)
HOPKINS M.H.

To Whom It May Concern,

I have supplied you with the check number, amount, and day I deposited the check. There was an additional piece of paper with the check showing the purpose and breakdown of the amount. I do not now have that paper. There has to be a copy of that paper somewhere in my pay records.

I have requested the assistance of Senator Tom Cole and Congressman Frank Lucas in this matter. I can better understand now why the Veteran's Administration is having the problems that they are. My situation should not exist at all. And yet it does. It appears that you do not have ANY record of the amount that I received. I find this VERY strange.

Marshall H. Hopkins

Dear Mr. Hopkins:

We have exhausted all resources to verify the amount of disability severance pay you state that you received upon discharge from the service.

Provide us with documentation of the amount for further consideration.

What You Should Do If You Disagree With Our Decision.

If you do not agree with our decision, you should write and tell us why. You have *one year from the date of this letter to appeal the decision.* The enclosed *VA Form 4107, "Your Rights to Appeal Our Decision,"* explains your right to appeal.

Do You Have Questions Or Need Assistance?

If you have any questions, you may contact us by telephone, e-mail, or letter.

If you	Here is what to do.
Telephone	Call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the number is 1-800-829-4833.
Use the Internet	Send electronic inquiries through the Internet at https://iris.va.gov.
Write	Put your full name and VA file number on the letter. Please send all correspondence to the address at the top of this letter.

In all cases, be sure to refer to your VA file number 529 56 7575.

If you are looking for general information about benefits and eligibility, you should visit our web site at https://www.va.gov, or search the Frequently Asked Questions (FAQs) at https://iris.va.gov.

We amended your disability compensation award as follows:

MONTHLY RATE	EFFECTIVE DATE
$1303.00	12-01-06
$1232.00	8-22-21

We included additional benefits for your spouse and child. You must tell us immediately if there is any change in the number or status of your dependents. Failure to tell VA immediately of a dependency change will result in an overpayment which must be repaid.

We included a cost-of-living increase in this award effective December 1, 2006.

If this change in your award decreases your payments for a prior period, we may establish an overpayment in your award. If our adjustment results in an overpayment of the benefits we paid you, we will notify you shortly of the exact amount of the overpayment. Also, we will give you information about repayment.

Please read the enclosed VA Form 21-8764. It contains important information about rights to receive this benefit.

If your mailing address is different than that shown above, please advise us of your new mailing address. You should notify us immediately of any changes in your mailing address.

IF YOU RESIDE IN THE CONTINENTAL UNITED STATES, ALASKA, HAWAII OR PUERTO RICO, YOU MAY CONTACT VA WITH QUESTIONS AND RECEIVE FREE HELP BY CALLING OUR TOLL-FREE NUMBER 1-800-827-1000 (FOR HEARING IMPAIRED TDD 1-800-829-4833).

Hopkins, M H

Total Award Amount	Amount Withheld	Monthly Entitlement Amount	Payment Start Date	Reason For Change
1262.00	406.00	856.00	Apr 17, 2006	Dan'l reaches the age of 18 and withholding due to receipt of severance pay
1193.00	377.00	816.00	Aug 22, 2021	Kerri reaches the age of 18 and withholding due to receipt of severance pay

Presently, we are paying you as a veteran with two dependents. Please inform us of any change to the status of your dependents. Failure to inform us of a change in your dependent's status will result in an overpayment of benefits paid to you.

Why Have We Withheld Benefits?

You received a severance pay allowance of $75,380.00 from the military for your major depression with sleep difficulty and memory loss. We must hold back part of your VA compensation until the severance amount is paid back. *VA shall withhold (after federal income tax) the severance amount received after September 30, 1996. Severance amount received prior to October 1, 1996, will include the amount before taxes are taken out.* After an amount equal to your severance pay allowance is paid back, you'll start receiving your full monthly VA compensation.

What You Should Do If You Disagree With Our Decision.

If you do not agree with our decision, you should write and tell us why. You have *one year from the date of this letter to appeal the decision.* The enclosed *VA Form 4107, "Your Rights to Appeal Our Decision,"* explains your right to appeal.

Do You Have Questions Or Need Assistance?

If you have any questions, you may contact us by telephone, e-mail, or letter.

If you	Here is what to do.
Telephone	Call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the number is 1-800-829-4833.

JUN 14 2006

Dear Mr. Hopkins:

On April 11, 2006, we wrote and asked you to send us:

- VA Form 21-686c, Declaration of Status of Dependents, providing complete marital history for you and your spouse
- VA Form 21-4138, Statement in Support of Claim, providing Social Security numbers for Kerri, Dan'l, Melanie, Kenneth, Sterling and Laura
- Providing a statement if any of the children married prior to their eighteenth birthday
- Verification of school attendance for any children who attended school after age 18

Because we have not received them, we must deny your claim.

When And Where Do You Send The Information Or Evidence?

Please send us the information we asked for as soon as you can. If you are having any difficulty getting this evidence, call us. We may be able to help you.

If we get the evidence by January 12, 2007, we can continue processing your claim. Information received after January 12, 2007, must be considered a new claim. That means any benefits you may be eligible for can't start before the date we receive your new claim.

IMPORTANT

It is to your advantage to send this information as soon as you can.

OMB Approved No. 2900-0043
Respondent Burden: 15 minutes

Department of Veterans Affairs

DECLARATION OF STATUS OF DEPENDENTS

VARO, MUSKOGEE

Privacy Act Information: The VA will not disclose information collected on this form to any source other than what has been authorized under the Privacy Act of 1974 or Title 38, Code of Federal Regulations 1.576 for routine uses (i.e., civil or criminal law enforcement, congressional communications, epidemiological or research studies, the collection of money owed to the United States, litigation in which the United States is a party or has an interest, the administration of VA programs and delivery of VA benefits, verification of identity and status, and personnel administration) as identified in the VA system of records, 58 VA21/22 Compensation, Pension, Education, and Rehabilitation Records - VA, and published in the Federal Register. Your obligation to respond is required to obtain or retain benefits. Giving us your and your dependents' SSN account information is mandatory. Applicants are required to provide their SSN and the SSN of any dependents for whom benefits are claimed under Title 38 USC 5101 (c)(1). The VA will not deny an individual benefits for refusing to provide his or her SSN unless the disclosure of the SSN is required by Federal Statute of law in effect prior to January 1, 1975, and still in effect. Information that you furnish may be utilized in computer matching programs with other Federal or state agencies for the purpose of determining your eligibility to receive VA benefits, as well as to collect any amount owed to the United States by virtue of your participation in any benefit program administered by the Department of Veterans Affairs.

RESPONDENT BURDEN: We need this information to determine marital status and eligibility for an additional allowance for dependents under 38 U.S.C. 1115. Title 38, United States Code, allows us to ask for this information. We estimate that you will need an average of 15 minutes to review the instructions, find the information and complete this form. VA cannot conduct or sponsor a collection of information unless a valid OMB control number is displayed. You are not required to respond to a collection of information unless a valid OMB number is displayed. You are not required to respond to a collection of information if this number is not displayed. Valid OMB control numbers can be located on the OMB Internet Page at www.whitehouse.gov/library/omb/OMBINVC.html#VA. If desired, you can call 1-800-827-1000 to get information on where to send comments or suggestions about this form.

INSTRUCTIONS: Print all answers clearly. Make sure you sign and date this form (Items 18 and 19). Note: Unless the claimant is the veteran's surviving spouse, the veteran must sign in Item 18. When you have completed this form, mail it or take it to a VA regional office.

Dear Ms. Buchanan:

On May 15, 2006, we received your request for an apportionment for Dan'l. However, because he is over the age of eighteen, he must sign a request for an apportionment. In addition, he must be attending school at an approved institution or school to be eligible for the apportionment. We have enclosed a VA Form 21-674, Request for Approval of School Attendance, for his completion. Therefore, no further action will be taken until receipt from Dan'l.

If you have any questions, you may contact us by telephone, e-mail, or letter.

If you	Here is what to do.
Telephone	Call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the number is 1-800-829-4833.
Use the Internet	Send electronic inquiries through the Internet at https://iris.va.gov.
Write	Put your full name and VA file number on the letter. Please send all correspondence to the address at the top of this letter.

In all cases, be sure to refer to your VA file number (b) (6)

If you are looking for general information about benefits and eligibility, you should visit our web site at http://www.va.gov, or search the Frequently Asked Questions (FAQs) at http://iris.va.gov.

Dear Sir

My ex-husband has a medical disability from the Air Force for an accident in 1991 while on active duty at Peterson Field. His SSN is (b) (6) [redacted]

My purpose in writing is to ask if some of his disability can be apportioned to his son, Daniel. Marshall has an active child support order which is currently in arrears.

These funds would be helpful for Dan to help with his support and maintenance.

Thank you in advance for checking on this matter.

Sincerely,

Karol Hopkins Buchanan

IMPORTANT -- reply needed

Dear Mr. Hopkins:

We are working on your application for Dependency.

G-FILE
21
APR 11 2006

What Do We Still Need from You?

We need additional things from you. ***Please put your VA file number on the first page of every document you send us.***

The number of previous marriages indicated on your application for benefits did not equal the former spouses listed. On the enclosed VA Form 21-686c, Declaration of Status of Dependents, please provide you and your spouse's complete marital history, listing the date and place of each prior marriage, and its termination.

On the enclosed VA Form 21-4138, Statement in Support of Claim, please provide us the Social Security number(s) for Kerri, Dan'l, Melanie, Kenneth, Sterling and Laura.

Please make a statement on the enclosed form, if any children married prior to their eighteenth birthday.

If any children attended school after the age of 18, please provide evidence of their school attendance (i.e. verification from the College or University). Please provide the date of marriage for your child, if they did attend school after the age of 18.

How Soon Should You Send It?

You can take up to a year from January 12, 2006, to make sure we receive the information and evidence we have requested. VA may decide your claim within 60 days if we have completed our attempts to get all the relevant evidence about which we know. If VA decides your claim before one year from the date of this letter, you continue to have until that date to submit additional evidence.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

How Can You Contact Us?

If you are looking for general information about benefits and eligibility, you should visit our web site at http://www.va.gov. Otherwise, you can contact us in several ways. Please give us your VA file number, (b) (6) when you do contact us.

- Call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the number is 1-800-829-4833.
- On the Internet at https://iris.va.gov.
- Write to us at the address at the top of this letter.

We are trying to decide claims as quickly as possible. We appreciate your help.

Sincerely yours,

J. Sikes

To whom it may concern,
Since I have been awarded back pay on my disability claim, I have come up with a question and that is what about the unmarried children in the years of 1996 up to present. I called and talked with someone from your dept. and they said to send proof of children and my pay would be calculated accordingly. Enclosed are birth certificates and social security numbers. On our latest child, a social security number has just been requested.

Sincerely

Marshall H. Hopkins

My Air Force Reserve dates Should be From 1982 To 1996

MARSHALL H HOPKINS
(b) (6)

In Reply Refer To: 351/21
(b) (6)
HOPKINS, M H
(b) (6)
(b) (6)

Dear Mr. Hopkins:

We made a decision on your claim for service connected compensation received on March 8, 2004.

This letter tells you about your entitlement amount and payment start date and what we decided. It includes a copy of our rating decision that gives the evidence used and reasons for our decision. We have also included information about additional benefits, what to do if you disagree with our decision, and who to contact if you have questions or need assistance.

What Is Your Entitlement Amount And Payment Start Date?

Your monthly entitlement amount is shown below:

Total Award Amount	Amount Withheld	Monthly Entitlement Amount	Payment Start Date	Reason For Change
$542.00	$266.00	$276.00	Oct 1, 1996	Grant service connected compensation; withholding disability severance pay
558.00	274.00	284.00	Dec 1, 1996	Cost of living adjustment; withholding disability severance pay
569.00	279.00	290.00	Dec 1, 1997	Cost of living adjustment; withholding disability severance pay
576.00	282.00	294.00	Dec 1, 1998	Cost of living adjustment; withholding disability severance pay
589.00	288.00	301.00	Dec 1, 1999	Cost of living adjustment; withholding disability severance pay

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

609.00	298.00	311.00	Dec 1, 2000	Cost of living adjustment; withholding disability severance pay
625.00	306.00	319.00	Dec 1, 2001	Cost of living adjustment; withholding disability severance pay
633.00	310.00	323.00	Dec 1, 2002	Cost of living adjustment; withholding disability severance pay
646.00	316.00	330.00	Dec 1, 2003	Cost of living adjustment; withholding disability severance pay
1,029.00	316.00	713.00	Apr 1, 2004	Grant increase in service connected compensation; withholding disability severance pay
1,056.00	324.00	732.00	Dec 1, 2004	Cost of living adjustment; withholding disability severance pay
1,099.00	337.00	762.00	Dec 1, 2005	Cost of living adjustment; withholding disability severance pay

We are paying you as a single veteran with no dependents.

When Can You Expect Payment?

Your payment begins the first day of the month following your effective date. You will receive a payment covering the initial amount due under this award, minus any withholdings, in approximately 15 days. Payment will then be made at the beginning of each month for the prior month. For example, benefits due for May are paid on or about June 1.

Why Have We Withheld Benefits?

You received a severance pay allowance of $75,380.00 from the military for your major depression with sleep difficulty and memory loss. We are continuing to try to verify the amount with the service department. When we receive the correct amount we will make any adjustment needed. We must hold back part of your VA compensation until the severance amount is paid back. *VA shall withhold (after federal income tax) the severance amount received after September 30, 1996. Severance amount received prior to October 1, 1996, will include the amount before*

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

taxes are taken out. After an amount equal to your severance pay allowance is paid back, you'll start receiving your full monthly VA compensation.

What Did We Decide?

We determined that the following condition(s) was/were related to your military service, so service connection has been granted:

Medical Description	Percent (%) Assigned	Effective Date
Mechanical low back pain with arthritis	10%	Sep 11, 1996
Major depression with sleep difficulty and memory loss	30%	Sep 11, 1996
Right shoulder contusion with arthritis	10%	Sep 11, 1996
Cervical spine arthritis	10%	Sep 11, 1996

We determined that the following condition(s) was/were not related to your military service, so service connection couldn't be granted:

Medical Description
Fibromyalgia
Tic douloureux
Myofascial pain

We determined that the following service connected condition(s) has/have worsened, so we granted an increase in your assigned percentage:

Medical Description	Old Percent (%) Assigned	New Percent (%) Assigned	Effective Date
Mechanical low back pain with arthritis	10%	40%	Mar 8, 2004

Your overall or combined rating is 50% effective September 11, 1996 and 70% effective March 8, 2004. We do not add the individual percentages of each condition to determine your combined rating. We use a combined rating table that considers the effect from the most serious to the least serious conditions.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

(b) (6)
Hopkins, M H

We have enclosed a copy of your Rating Decision for your review. It provides a detailed explanation of our decision, the evidence considered and the reasons for our decision. You can find the decision discussed in the section titled *"Decision."* The evidence we considered is discussed in the section titled *"Evidence."* The reasons for our decision can be found in the portion of the rating titled *"Reasons for Decision"* or *"Reasons and Bases."*

We enclosed a VA Form 21-8764, "Disability Compensation Award Attachment-Important Information," which explains certain factors concerning your benefits.

What Do We Need From You To Complete Your Claim For Dependents?

The information you sent us about your dependents wasn't complete. Before we can pay additional benefits for your dependent(s), send us the following:

- VA Form 21-686c, "Declaration Of Status Of Dependents." Please fill out every blank on the form which applies to you.

When And Where Do You Send The Information Or Evidence?

Send the information or the evidence to the address at the top of this letter. Please put your full name and VA file number on the evidence.

We may be able to pay you from the date we received your claim, if we receive the information or evidence within one year from the date of this letter and we decide that you are entitled to VA benefits. If we do not receive the evidence within one year from the date of this letter, we can only pay you from the date we receive the evidence.

How Do You Start Direct Deposit?

Your money may be deposited directly into your checking or savings account. This is the safest and most reliable way to get your money. For more information about Direct Deposit, please call us toll free by dialing 1-877-838-2778.

Are You Eligible To Additional Benefits?

Since you have been rated for a new service connected disability, you may be eligible for government life insurance if you are in good health (except for any service connected conditions) and apply within two years of this notification of your disability rating. If you are totally disabled, you may be eligible to have your government life insurance premiums waived. You should receive an S-DVI package within two

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

weeks. This package will contain information about the insurance and an application. If you do not receive an S-DVI package, please contact the Insurance Center to request additional information. Call the Insurance toll free number, 1-800-669-8477, or visit the Insurance web site, **http://www.insurance.va.gov**, for further information about Service-Disabled Veterans Insurance.

You may be able to receive vocational rehabilitation employment services. The enclosed VA Form 28-8890, "Important Information About Vocational Rehabilitation Benefits," explains this benefit completely. To apply for this benefit, complete and return the enclosed VA Form 28-1900, "Disabled Veterans Application for Vocational Rehabilitation."

You are eligible to medical care by the VA health care system for any service connected disability. You may apply for medical care or treatment at the nearest medical facility. If you apply in person, present a copy of this letter to the Patient Registration/Eligibility Section. If you apply by writing a letter, include your VA file number and a copy of this letter.

What You Should Do If You Disagree With Our Decision.

If you do not agree with our decision, you should write and tell us why. You have *one year from the date of this letter to appeal the decision.* The enclosed *VA Form 4107, "Your Rights to Appeal Our Decision,"* explains your right to appeal.

Do You Have Question Or Need Assistance?

If you have any questions, you may contact us by telephone, e-mail, or letter.

If you	Here is what to do.
Telephone	Call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the number is 1-800-829-4833.
Use the Internet	Send electronic inquires through the Internet at https://iris.va.gov.
Write	Put your full name and VA file number on the letter. Please send all correspondence to the address at the top of this letter.

In all cases, be sure to refer to your VA file number 529 56 7575.

If you are looking for general information about benefits and eligibility, you should visit our web site at http://www.va.gov, or search the Frequently Asked Questions (FAQs) at http://iris.va.gov.

Subject: RE: here's that case information

The original request was sent to code 003. They responded advising us they were forwarding to Finance, code 17. We did a follow-up request on 12-30-05. (b) (6) [redacted] says we're not allowed to do follow-up requests, though. We just have to wait. Today he is going to try to find a fax number for us and we'll fax our request. We sent our request to code 25.

Subject: FW: here's that case information

Debbie,

So where was the original PIES request sent? And we never heard anything back?

What's the normal follow up now. I need to get caught up on the current procedures.

One PIES request and we then start calling?

Marshall H Hopkins

Vet was in the Air Force from 12-02-63 to 06-09-67. When he got out, he joined the reserves. He went back on active duty from 10-16-90 to 02-25-91. He was medically discharged from the reserves on 03-27-96 with severance pay at the E7 rate.

Vet's discharge papers tell us he received severance pay. Vet could not supply the amount, only that it was around $50,000.00. He did not have any paperwork to support that amount. VSR sent PIES request on 09-26-05. The following is the trail I took to try to find the amount:

DFAS 1-800-321-1080 they had no record, but gave me the number and e-mail address for (b) (6) -800-433-0461 ext 4274 I or 4275
I called and got (b) (6) had nothing, but sent a message to (b) (6) (b) (6)
(b) (6) had nothing, but gave me the name and number of (b) (6) 3
(b) (6) 303-676-5020 fax number is 303-676-5019
(b) (6) has old LESs back 50 years or more and travel vouchers 6 yrs and 3mos old (b) (6) sent my request to (b) (6) -216-204-3617 4
(b) (6) had nothing, but gave me (b) (6) at 303-676-7121 5
(b) (6) ad nothing but gave me AF Personnel Center 1-800-616-3775 and AF 6
Reserve Personnel at 1-800-525-0102
Nothing. Someone gave me NPRC 314-801-0800. 7
(b) (6) ad nothing, but gave me DFAS.
Even though I had called there before, I tried again and (b) (6) gave me 8
1-888-755-7413. I have not been able to reach that number. Always get a busy signal, regardless of the time of day I call.

This has been going on for over 2.5 months. Finally, the vet called in on 12-12-05 and spoke with (b) (6) said he found the amount of his deposit on 04-18-96. It went to (b) (6) in the amount of $54,273.60.

(b) (6) said we could use the amount supplied by veteran for severance pay amount. He said to take the EP and establish a 290 for the PIES request.

Fist action to establish debt amount of $75380.00. This should be the before-tax amount of the severance pay amount supplied by veteran. Done

Re-do your PIES request to use the new date. Give them the date he was discharged and the date he states he received the money.

We'll go ahead and take action and start paying veteran while we're waiting on the response from PIES.

(b) (6) further said to send him the history of this case and he would contact (b) (6) Parker to see if she could be of any assistance. - Done

Subject: another problem case

(b) (6)

We have another problem case. The case has been rated since 09-01-05. This will be the first time we've paid him, and he received severance pay. He didn't have anything to show the amount of severance pay, but remembered it was around $50,000.00. I have called everybody I know to call. I've called DFAS, AF Reserve Personnel Center, AF Personnel Center, MMPA (can't remember what that stands for, but they have records going back 50 years), Military Pay Specialist, Nat'l Personnel Records. No one has any record of the guy. (It's taken this long because I've been waiting for call backs from all these places.)

So, he called a couple of weeks ago and told the VSR he found the amount of the deposit he got on 04-18-96 in the amount of $54,273.60. Can we just use this amount? Do you have any suggestions?

DISABLED AMERICAN VETERANS

Rating Decision
September 1, 2005

INTRODUCTION

The records reflect that you are a veteran of the Vietnam Era, Peacetime and Gulf War Era. You served in the Air Force from December 2, 1963 to June 9, 1967 and the Air Force Reserves from December 28, 1990 to February 25, 1991. We received a request to reopen a previous claim on March 8, 2004. Based on a review of the evidence listed below, we have made the following decision(s) on your claim.

Effective date is September 11, 1996, because verified service has been received. You were notified previously that should we receive your verified service and a different decision made that the decision will be effective as of the date of the original claim.

DECISION

1 . Service connection for mechanical low back pain with arthritis is granted with an evaluation of 10 percent effective September 11, 1996 and 40 percent effective March 8, 2004.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

2 . Service connection for major depression with sleep difficulty and memory loss is granted with an evaluation of 30 percent effective September 11, 1996.

3 . Service connection for right shoulder contusion with arthritis is granted with an evaluation of 10 percent effective September 11, 1996.

4 . Service connection for cervical spine arthritis is granted with an evaluation of 10 percent effective September 11, 1996.

5 . Service connection for fibromyalgia is denied.

6 . The previous denial of service connection for tic douloureux is confirmed and continued.

7 . The previous denial of service connection for myofascial pain is confirmed and continued.

EVIDENCE

- Service medical records from November 1963 through June 1967 and reserve medical records for the period July 14, 1974 to February 1977 and January 15, 1983 to October 18, 1995
- Personnel records with Physical Evaluation Board findings
- VA examination dated February 7, 1997
- QTC examination dated April 25, 2005
- The attempt to get outpatient treatment records from VA Medical Center, Amarillo was not successful because there were no records for you.
- Article named "The Fibromyalgia Alliance of America"

REASONS FOR DECISION

1. Service connection for mechanical low back pain with arthritis.

Service connection for mechanical low back pain has been established as directly related to military service. The claim for mechanical low back pain was previously denied because there was no verified service. Verified service has been received; therefore, the claim is reopened. Service medical records and personnel records show you were in an automobile accident January 4, 1991. This accident was during your active duty for training and there is a line of duty determination showing this accident was in line of duty. You had complaints of chronic low back pain since the accident. Examination of February 7, 1997 shows tenderness of the back with some limitation of motion. A 10 percent evaluation will be assigned effective September 11, 1996, date of original claim based on pain and some limitation of motion. An evaluation of 20 percent is assigned

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

for muscle spasm on extreme forward bending and unilateral loss of lateral spine motion in a standing position. The current examination dated April 25, 2005 shows X-ray evidence of minimal degenerative arthritic changes. In the examiners opinion the chronic back pain from the accident as likely as not led to current minimal lumbosacral degenerative joint disease. Range of motion is limited by pain and stiffness. It is not further limited by fatigue, weakness, lack of endurance, or coordination. Range of motion consists of 30 degrees flexion, extension 25 degrees, bilateral lateral flexion of 20 degrees, and bilateral rotation of 30 degrees. A 40 percent evaluation is assigned due to flexion of 30 degrees effective March 8, 2004, date your reopened claim was received. A higher evaluation of 50 percent is not warranted unless there is unfavorable ankylosis of the entire thoracolumbar spine. Effective September 25, 2003, the rating criteria for a spinal condition was changed. The criteria for rating diseases and injuries of the spine apply with or without symptoms such as pain (whether or not it radiates), stiffness, or aching in the area of the spine affected by residuals of injury or disease. Effective March 8, 2004, your back is evaluated under the new criteria because it is more advantageous.

2. Service connection for major depression with sleep difficulty and memory loss.

Service connection for major depression with sleep difficulty has been established as directly related to military service. Service connection for depression was previously denied because of no verified service. Verified service has been received and the claim is reopened. Service medical records show you were in an automobile accident in January 1991 and had complaints of depression, memory loss, and difficulty with sleep. The Physical Evaluation Board granted you severance pay for major depressive disorder, single episode, mild and pain disorder associated with psychological and general medical problems. A 30 percent evaluation is assigned because the examination in February 1997 shows affect somewhat constricted, some memory difficulty, and difficulty with sleep. The current examination shows moderate memory loss, passive thought of suicide with no intent, and difficulty with sleep. Although the examiner states you have difficulty establishing and maintaining effective work and social relationships but you are shown to be currently working and have an excellent relationship with your boss.

An evaluation of 30 percent is granted whenever there is occupational and social impairment with occasional decrease in work efficiency and intermittent periods of inability to perform occupational tasks (although generally functioning satisfactorily, with routine behavior, self-care, and conversation normal), due to such symptoms as: depressed mood, anxiety, suspiciousness, panic attacks (weekly or less often), chronic sleep impairment, mild memory loss (such as forgetting names, directions, recent events). A higher evaluation of 50 percent is not warranted unless there is reduced reliability and productivity due to such symptoms as: flattened affect; circumstantial, circumlocutory, or stereotyped speech; panic attacks more than once a week; difficulty in understanding complex commands; impairment of short- and long-term memory (e.g., retention of only

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

highly learned material, forgetting to complete tasks); impaired judgment; impaired abstract thinking; disturbances of motivation and mood; difficulty in establishing and maintaining effective work and social relationships.

3. Service connection for right shoulder contusion with arthritis.

Service connection for right shoulder contusion with arthritis has been established as directly related to military service. This disability was previously denied because of no verified service. Verified service has been received; therefore, the claim is reopened. Service medical records show you were in an automobile accident in January 1991. Following the accident you were seen for right shoulder pain. The examination in February 1997 shows you had burning pain in your right shoulder. It was stated the myofascial pain you were experiencing was primarily in the right shoulder. A 10 percent evaluation is assigned due pain and some limitation of motion. The current examination shows range of motion is limited by pain and stiffness. It is not further limited by fatigue, weakness, lack of endurance after repetitive use or incoordination. Range of motion consists of forward flexion of 160 degrees, abduction 160 degrees, internal rotation of 80 degrees, and external rotation of 60 degrees. There is x-ray evidence of degenerative arthritis. In the examiners opinion it is as likely as not that the right shoulder contusion from the accident is related to current right shoulder arthritis. A higher evaluation of 20 percent is not warranted unless the record shows dislocation of the clavicle or scapula, or nonunion of the clavicle or scapula with loose movement or limitation of motion of the arm at shoulder level.

4. Service connection for cervical spine arthritis.

Service connection for cervical spine arthritis has been established as directly related to military service. Service connection for cervical spine was previously denied because there was no verified service. Verified service has been received; therefore the claim is reopened. Service medical records show you were in an automobile accident in January 4, 1991. You were shown to have complaints of neck pain. Report in service medical records show headaches and facial pain might have cervical origin. Examination in February 1997 showed stiffness of the neck with some mild limitation of motion. Current examination shows range of motion is limited by pain and stiffness. It is not further limited by fatigue, weakness, lack of endurance after repetitive use or incoordination. Range of motion consists of flexion 40 degrees, extension 50 degrees, right lateral flexion to 45 degrees, left lateral flexion 45 degrees, right rotation 70 degrees and left rotation 80 degrees with a combination of 330. There is x-ray evidence of arthritis. In the examiners opinion it is as likely as not the neck strain in January 1991 led to the current arthritis of the cervical spine. The headaches are more likely than not related to the cervical arthritis. The headache complaints require no ongoing medical treatment or medications. A 10 percent evaluation is assigned due to pain under the old criteria for spinal conditions. An evaluation of 20 percent is assigned whenever there is moderate limitation of motion of the cervical spine, or demonstrable deformity of a

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

vertebral body from fracture with slight limitation of motion. Effective September 25, 2003, the criteria for evaluating spines was changed. The criteria for rating diseases and injuries of the spine apply with or without symptoms such as pain (whether or not it radiates), stiffness, or aching in the area of the spine affected by residuals of injury or disease. An evaluation of 10 percent is granted for forward flexion of the cervical spine greater than 30 degrees but not greater than 40 degrees; or, combined range of motion of the cervical spine greater than 170 degrees but not greater than 335 degrees. A higher evaluation of 20 percent is now warranted unless there is forward flexion of the cervical spine greater than 15 degrees but not greater than 30 degrees; or, the combined range of motion of the cervical spine is not greater than 170 degrees. Your cervical spine is evaluated 10 percent under the old and new criteria; therefore, it will remain under the old criteria.

5. Service connection for fibromyalgia.

Service connection may be granted for a disability which began in military service or was caused by some event or experience in service. Report from Drs. Herrington and Schultz dated April 7, 1993 shows fibromyalgia right scapular and lumbosacral spine areas. Service connection for right shoulder and low back has already been established. Although the Line of Duty Determination shows the nature and extent of you injury are symptoms similar in appearance to fibromyalgia the current examination shows there is no objective evidence to render this diagnosis and is less likely as not related to your automobile accident in January 1991. Therefore, service connection is denied.

6. Service connection for tic douloureux.

Service connection for tic douloureux was previously denied May 15, 1997 due to no verified service. Verified service has been received; therefore, the claim is reopened. Although the service medical records shows complaints of right facial pain also shown as tic douloureux it was shown to be completely resolved. Symptoms resumed in November 1991 but then again subsided. Magnetic resonance imaging was normal. Medical Board Report shows tic douloureux treated with medication the current medical evidence shows no diagnosis for this condition. The report "The Fibromyalgia Alliance of America" submitted in connection with the current claim does not show you have a current diagnosis of this condition. Examination by QTC Medical Services shows the claims file was reviewed and it is opined that fibromyalgia is less likely as not related to the motor vehicle accident in January 1991. There is no objective evidence to render this diagnosis.

7. Service connection for myofascial pain.

The claim for service connection for myofascial pain which was shown in the examination in February 1997 as primarily in the left knee, left ankle, right shoulder, neck, and back was previously denied by rating dated May 15, 1997 because there was no verified service. Verified service has been received; therefore, the claim is reopened.

Service connection for myofascial pain is denied because the current examination shows no objective evidence to render a diagnosis and in the examiner's opinion is less likely as not related to the automobile accident. However, service connection for low back, right shoulder, and cervical spine is granted and is separately evaluated under their own criteria.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Theresa Garton, MD
PO BOX 13068
OKLAHOMA CITY, OK 73113

CLAIMANT: MARSHALL HOPKINS
(b) (6)
DATE OF EXAM: 4/25/2005
DATE OF REPORT: 4/25/2005

GENERAL HISTORY:

Patient reports "it began after the accident, I had a lot of pain, things kept going down hill, I got discouraged a lot. I lost the best job I ever had because they medically discharged me. Then, I got a divorce, I had gotten hard to live with."

"There's days I wake up and I'm more tired than when I went to bed."

States he got some treatment initially, but didn't like the medications because of the side effects, and "in 1994, I made the decision to go medication free."

SPECIFIC HISTORY FOR: DEPRESSION AND SLEEP DISORDER

The mental symptoms began on 1991. He has had trouble sleeping for 14 years. The sleeping problem consist frequent awakenings, with pain. The current symptoms are fatigue, irritability, sleep problems, pain, "I do stupid things", will sit at an intersection and is sure he is hit as a car approaches, puts wrong dates on invoices, has sleep episodes. The symptoms described occur constantly. The ability to perform daily functions during remission/partial remission is "On my best day, I can go out and do the whole day"

OTHER HISTORY:

He is receiving the following treatment for his psychiatric condition: Prozac since 1992 and 1993 the dosage is unknown but the response has been poor. There are side effects of ?dizziness and numbness. He still requires continuous treatment to control this condition because patient continues to have symptoms, but won't take medication. He has not received psychotherapy for his mental condition within the past year. He has not been admitted to a hospital for psychiatric reasons. He has not required any emergency room visits for his psychiatric problem. He served in the Air Force for 19 years. His occupation in the military was Airlift control, leadmaster and the highest rank he obtained was E-6. During his military service he did not receive a citation, did not have any disciplinary infractions and did not have any adjustment problems. He has received a medal, including the NDSM. He was discharged from the service on 1994 with an Honorable discharge. After leaving the service he reports having further medical problems, including neck and back pain for 14 years. He has been treated with chiropracter for this condition; it has resulted in disability consisting of pain, walking restrictions; hospitalization has been necessary 1 times. After leaving the service, he has worked at the following jobs: airlift control for 5 months and the relationship with the supervisor was good; the relationship with his co-workers was good. sales for 6 years and the relationship with the supervisor was good; the relationship with his co-workers was good. During this employment, he had the following problems at work: not able to work all day. He has not had any legal problems after leaving military service.

HISTORY OF ACTIVITIES AND FUNCTIONS:

Since he developed his mental condition there have been major changes in his daily activities, such as has to stop and take naps, puts wrong dates on invoices, cannot walk long distances There have been some major social function changes since he developed his mental condition, for example divorce in 1994, avoids social contact, irritable He states that currently he is working. The job title is salesman and he has worked there since 2004. His relationship with his supervisor is excellent and his relationship with his co-workers is none. While performing this job he has lost time from work as follows: (1) off and on he was off work for daily to weekly because has to stop and take naps. Regarding excessive alcohol and/or illegal substances, he reports using alcohol that he started 1963- 1972 because "I liked it." He reports quitting this habit for the past 33 years.

MENTAL STATUS EXAMINATION:

The claimant is a reliable historian. Orientation is within normal limits. Appearance and hygiene are appropriate. Behavior is appropriate. Affect and mood are normal. Communication is within normal limits. Speech is within normal limits. Panic attacks are absent. There is no delusion history present. At the time of examination, there was no delusion observed. There is no hallucination history present. At the time of examination, there was no hallucination observed. Obsessional rituals are absent. Thought processes

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

are appropriate. Judgment is not impaired. Abstract thinking is normal. Memory is impaired and the degree is moderate-problems with retention of highly learned material, forgetting to complete tasks. There are passive thoughts of death has had thoughts "I'd be better off.. get rid of the pain.. not seriously.". Homicidal ideation is absent.

MEDICAL RECORD REVIEW:

The following records have been reviewed: DD 214, report from Dr. Vinson, report from Dr. Adams, report from Dr. Sutton, report from Dr. Stassen, report from Dr. Khan,

DIAGNOSIS:

For the claimant's claimed condition of DEPRESSION,

For the claimant's claimed condition of SLEEP DISORDER, Axis I: Major Depression.
Axis II: No Diagnosis.
Axis III: Back and neck pain.
Axis IV: health problems, limited social support.
Axis V: The GAF score is 30.

REMARKS:

He is mentally capable of managing benefit payments in his own best interest. Mentally, he intermittently is unable to perform activities of daily living (but he can provide self-care) because patient has problems with memory and concentration, as well as motivation He has difficulty establishing and maintaining effective work and social relationships because patient is irritable, and somewhat socially avoidant He has no difficulty understanding commands. He appears to pose no threat of persistent danger or injury to self or others

Sincerely

Theresa Garton, MD

(b) (6) [redacted]

This 61 year old male veteran, who was active duty in the United States Air Force for 4 years and 6 months and inactive duty for 17 years with combat duty in the Gulf War and Viet Nam, is referred to this office for a Veterans Administration medical examination of the following claimed conditions:

1. Fibromyalgia
2. Right shoulder condition
3. Myofascial pain syndrome, left knee
4. Myofascial pain syndrome, left ankle
5. Mechanical low back pain
6. Cervical spine condition
7. Tic Douloureux
8. Headaches

Medical records reviewed

- Lawrence J. Adams, Lt. Col. USAF, MC Neurologist dated April 7, 1995
- Imran U. Khan, M. D. dated May 30, 1994 and March 23, 1995
- Stassen Chiropractic Center for the period of March 27, 1995 to May 22, 1995
- Sutton Chiropractic Office dated June 15, 1994
- Raphael W. Vinson, M. D. dated February 7, 1997

Chief Complaints:

The Veteran presents today for the complaints listed above, strains and contusions secondary to a minor motor vehicle accident in January 1991 at Fort Collins AFB in Colorado. No significant abnormalities were noted on radiographic or physical examinations. The treated the condition was chiropractic manipulations and passive therapy.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

History of Injuries:
Medical records were reviewed in this case, listed above.

The Veteran allegedly developed Fibromyalgia from a January 1991 motor vehicle accident. He complaints of easy fatigue, headaches, insomnia, stiffness, depression, and numbness in his hands. The symptoms are more than 2/3 of the year. The symptoms are not precipitated by weather, emotions, overexertion. He currently seeks no medical treatment for this condition.

The Veteran allegedly sustained a right shoulder contusion in a January 1991 motor vehicle accident. He complains of shoulder pain, weakness, instability, stiffness, and lack of endurance on overhead work. He treated the condition with chiropractic manipulations and passive therapy.

The Veteran allegedly developed moyfascial pain syndrome of the left knee from a January 1991 motor vehicle accident. He complains of some knee pain, weakness, stiffness, swelling, fatigue, and inflammation. He states that his knee condition flares up weekly from activities that require prolonged standing, walking, or repetitive climbing. He treated the condition with chiropractic manipulations and passive therapy.

The Veteran allegedly developed moyfascial pain syndrome of the left ankle from a January 1991 motor vehicle accident. He complains of some knee pain, weakness, stiffness, swelling, fatigue, and inflammation. He states that his knee condition flares up weekly from activities that require prolonged standing, walking, or repetitive climbing. He treated the condition with chiropractic manipulations and passive therapy.

The Veteran allegedly developed moyfascial pain syndrome of the low back from a January 1991 motor vehicle accident. He complains of some knee pain, weakness, stiffness, swelling, fatigue, and inflammation. He states that his knee condition flares up weekly from activities that require prolonged standing, walking, or repetitive climbing. He treated the condition with chiropractic manipulations and passive therapy.

The Veteran allegedly developed cervical spine strain from a January 1991 motor vehicle accident. He complains of some knee pain, weakness, stiffness, swelling, fatigue, and inflammation. He states that his knee condition flares up weekly from activities that require prolonged standing, walking, or repetitive climbing. He treated the condition with chiropractic manipulations and passive therapy.

The Veteran allegedly developed Tic Douloureux, a neuralgia of the facial nerve, from his January 1991 motor vehicle accident. The Veteran explained that his neuralgia on his nose and forehead. They occur two or three times day with each episode lasting 1 to 2 minutes. He has no seizure disorders or any complaints of vertigo or balance problems. He treats these headaches with over the counter headache medicine and rest. He treated the condition with Dilantin for several years. He had not taken any medicine or sought any further care for the condition since 1996.

The Veteran allegedly developed headaches from his January 1991 motor vehicle accident. The Veteran explained that his headaches are at the base of this skull. The Veteran explained that his headaches are on the side of his temple to his forehead. They occur two or three times per month

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

with each episode lasting 1 to 2 hours. He has no seizure disorders or any complaints of vertigo or balance problems. He has never tried any prescription or over-the-counter headache medicine for this condition.

Social History:
The Veteran does routine activities of daily living without difficulty, including hair care, dressing, donning shoes/socks, climbing stairs, taking out the trash, and cooking. He can no longer do the following activities because of his complaints: heavy lifting.

Occupational History:
The patient was a Loadmaster in the Air Force and is a salesman as a civilian.

History of Previous Diagnostic Testing:
MRI of back, neck and head in 1991, no significant abnormalities were noted

Physical Examinations:
General: This is a well-developed male, well-nourished, in no apparent distress. He is right handed and does not smoke. Gait and posture are normal, no devices used while walking.

Vitals Signs:
Height: 6'2"
Weight: 180 pounds

Head: Normocephalic, atraumatic

EENT: Ophthalmic, otoscopic, and oral cavity exams were unremarkable.

Skin: the skin reveals no signs of topical or systemic diseases, no scars are noted. A few small "trigger points" were noted on palpation of the skin on the upper back and base of the neck.

Inclinometers and goniometer instruments are used to perform range of motion tests. When appropriate, repeated measurements are taken for validity.

Examination of the musculature of the patient's spine reveals no paravertebral spasm of the cervical, thoracic or lumbar areas. No lymph nodes are palpable.

Cervical Spine: Range of motion is limited by pain and stiffness; range of motion is not further limited by fatigue, weakness, lack of endurance, after repetitive use, or incoordination. Examination of the cervical spine reveals the patient has flexion from the neutral position to 40 degrees and extension from the neutral position to 50 degrees. Occipital and T1 range of motion testing were performed to obtain results of flexion and extension. The patient has right lateral flexion to 45 degrees and left lateral flexion to 45 degrees. The patient has right cervical rotation to 70 degrees and left cervical rotation to 80 degrees. No radicular or neurologic abnormalities were noted on physical examination. No ankylosis in flexion or extension was present by clinical exam.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Right Shoulder: Range of motion is limited by pain and stiffness; range of motion is not further limited by fatigue, weakness, lack of endurance, after repetitive use, or incoordination. Examination reveals the patient to have forward flexion from the neutral position to 160 degrees, and backward extension from the neutral position to 50 degrees. The patient has abduction from the neutral position to 160 degrees and adduction from the neutral position to 50 degrees. The patient has internal rotation from the neutral position to 80 degrees and external rotation from the neutral position to 60 degrees. No crepitus is noted throughout the range of motion examination.

Left Knee: Range of motion is normal. Examination reveals retained active flexion of 120 degrees and extension to 0 degrees. No effusion is noted. The knee joint is stable. No ligament laxity is noted. Tenderness is noted. Crepitus & patellar grinding are absent. No drawer or McMurray's signs are noted. There is no heat, redness, swelling, effusion, drainage, instability, or weakness noted in the left knee.

Lumbar Spine: Range of motion is limited by pain and stiffness; range of motion is not further limited by fatigue, weakness, lack of endurance, or coordination. Examination of the lumbar spine region reveals the patient's maximum true lumbar flexion angle equals 30 degrees. The patient's maximum true lumbar extension angle equals 25 degrees. The patient's maximum lumbar right lateral flexion angle equals 20 degrees and maximum lumbar left lateral flexion angle equals 20 degrees. No ankylosis is present by clinical examination. Straight leg raising is negative at 90 degrees, bilaterally. Right and left rotation is 30 degrees to each side. I cannot demonstrate any definite toe extensor weakness. There is no evidence of sensory loss extremities. Deep tendon reflexes are present and equal.

Feet: there are no sign of abnormal weight bearing, and no devices are required for ambulation. The patient is not flat-footed. There are no signs of painful motion, edema, instability, are weakness in either foot. No hallus valgus is noted. No shoe orthotics or other corrective devices are worn. There is no heat, redness, swelling, tenderness, muscle spasm, instability, or weakness noted in the feet. Weight bearing alignment of the Achilles tendon is normal. There are no skin or vascular changes. There are no hammer toes, high arches, claw feet, or hallus valgus. The Veteran wears no insets, corrective shoes, orthotics, foot, or ankle supports.

Left Foot and Ankle: Range of motion is normal. Examination reveals plantar flexion to 20 degrees, dorsi-flexion to 40 degrees, inversion to 30 degrees, and eversion to 20 degrees. The ankle joint is stable. No crepitus is noted. The patient walks on heels and metatarsal heads independently. Repetitive toe raises can be performed. No ligament laxity is noted. No effusion is noted. Toe flexion and extension are both 60 degrees. Two-point sensory exam on the left lower extremities, ankle, and left foot are normal. No sensory deficit noted.

Heart has regular sinus rate and rhythm, without gallop or murmur.

Abdomen: Round, soft, non-tender, bowel sounds present. No evidence of liver or spleen enlargement is noted.

Neurologic Examination:
Memory for remote and recent past events is intact.
Cranial nerves I - XII are intact.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Patient's visual fields and movements are intact.
V. Corneal reflexes intact.
VII. Patient able to elevate eyebrows, close eyes tightly.
VIII. Hearing grossly intact.
IX, X. Gag reflex and swallowing intact.
XI. Patient able to elevate shoulders.
XII. Tongue coordination normal.

Motor system demonstrates no muscle atrophy, rigidity, or spasticity, but diffuse muscle tenderness in noted on palpation. No abnormal movements such as tremors or clonus noted. Upper and lower extremities are without cyanosis, clubbing, or edema. Reflexes are normal in the biceps, triceps, patellar, and Achilles tendon. Sensation such as touch, vibration, and position are normal. Two-point discrimination is normal.

Gait and coordination are normal.

Diagnostic Tests:
Radiographs of the right shoulder indicate moderate degenerative or post traumatic arthritic changes.
Radiographs of the left knee indicate minimal osteoarthropathy.
Radiographs of the left ankle are within normal limits.
Radiographs of the cervical spine indicate mild to moderate degenerative arthritic changes.
Radiographs of the lumbar spine indicate minimal degenerative arthritic changes.

Diagnosis:

1. For the claimed condition of fibromyalgia, there is no objective evidence to render this diagnosis. This diagnosis presents the Veteran with no functional limitations with restrictions. In my opinion, this diagnosis is less likely as not, related to the Veteran's January 1991 motor vehicle accident. The Veteran was involved in a relatively minor motor vehicle accident at Fort Carson, Colorado in January 1991. Physical, neurologic, and radiographic examinations at the time of the alleged incident failed to reveal any acute abnormalities, despite the Veteran's complaints of headaches, neck, shoulder, and upper back pain.

2. For the claimed condition of right shoulder contusion, the diagnosis is s/p right shoulder contusion with mild DJD. This diagnosis presents the Veteran with mild functional limitations with restrictions on repetitive use of the right shoulder. The Veteran was involved in a relatively minor motor vehicle accident at Fort Carson, Colorado in January 1991. Physical, neurologic, and radiographic examinations at the time of the alleged incident failed to reveal any acute abnormalities, despite the Veteran's complaints of headaches, neck, shoulder, and upper back pain. It is as likely as not that the right shoulder contusion from the Veteran's 1991 MVA is causally related to his current right shoulder. DJD

3. For the claimed condition of moyfascial pain syndrome, there is no objective evidence to render this diagnosis. This diagnosis presents the Veteran with no functional limitations with restrictions. In my opinion, this diagnosis is less likely as not, related to the

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Veteran's January 1991 motor vehicle accident. The Veteran was involved in a relatively minor motor vehicle accident at Fort Carson, Colorado in January 1991. Physical, neurologic, and radiographic examinations at the time of the alleged incident failed to reveal any acute abnormalities, despite the Veteran's complaints of headaches, neck, shoulder, and upper back pain.

4. For the claimed condition of mechanical low back pain, the diagnosis is minimal lumbosacral DJD. This diagnosis presents the Veteran with minimal functional limitations with restrictions on prolonged standing, walking, or repetitive lifting. The Veteran was involved in a relatively minor motor vehicle accident at Fort Carson, Colorado in January 1991. Physical, neurologic, and radiographic examinations at the time of the alleged incident failed to reveal any acute abnormalities, despite the Veteran's complaints of headaches, neck, shoulder, and upper back pain. The patient's back condition was treated with a course of chiropractic manipulations, which as likely as not, led to his current minimal lumbosacral DJD.

5. For the claimed condition of cervical spine condition, the diagnosis is minimal cervical spine DJD. This diagnosis presents the Veteran with mild functional limitations with restrictions on repetitive and overhead use of the neck. In my opinion, this condition is as likely at not, related to the alleged MVA in January 1991. The Veteran was involved in a relatively minor motor vehicle accident at Fort Carson, Colorado in January 1991. Physical, neurologic, and radiographic examinations at the time of the alleged incident failed to reveal any acute abnormalities, despite the Veteran's complaints of headaches, neck, shoulder, and upper back pain. It is as likely as not that the patient's neck strain in January 1991 led to his current minimal DJD of the cervical spine.

6. For the claimed condition of Tics Douloureux, the diagnosis is s/p Tics Douloureux. This condition causes no functional limitations and requires no ongoing medical treatment or follow-up. In my opinion, this condition is less likely than not related to the alleged MVA in January 1991. The Veteran was involved in a relatively minor motor vehicle accident at Fort Carson, Colorado in January 1991. Physical, neurologic, and radiographic examinations at the time of the alleged incident failed to reveal any acute abnormalities, despite the Veteran's complaints of headaches, neck, shoulder, and upper back pain. The Veteran has a normal central and peripheral neurologic examination on today's visit.

7. For the claimed condition of headaches, there is no objective medical evidence to render this diagnosis. The claimed condition of headaches is more likely than not, related to the patient's minimal cervical spine DJD. The headache complaints require no ongoing medical treatment or medications. The Veteran has a normal central and peripheral neurologic examination on today's visit.

8. For the claimed condition of left ankle strain, there is no objective medical evidence to render this diagnosis. This diagnosis presents the Veteran with no functional limitations with restrictions on the use of the left ankle and foot. This is based on normal range of motion and physical examination of the patient's left ankle.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Additional Comments and Discussions:
There are no signs of malnutrition, anemia, or systemic arthritis.

I hope this assists you in the evaluation of this case. If I can be of further assistance, please do not hesitate to contact my office at 405-521-8604.

My examination is in compliance with the VA's Reference Manual for General Medical Evaluation for Compensation and Pension.

I declare under penalty of perjury that I have examined this report, and that all statements contained herein, and to the best of my knowledge and belief, are true, correct and complete.

Respectfully,

William D. Jones IV, M.D., MPH

CERVICAL SPINE FOUR VIEWS: Four projections reveal a normal curvature and appropriate alignment of the anterior and posterior elements. There is mild to moderate diffuse cervical spondylosis. There is no compression injury, subluxation or evidence of neuroforaminal compromise.

LUMBAR SPINE FOUR VIEWS: Four projections reveal a normal curvature. There is minimal diffuse spondylosis. There is no abnormality of significance in the posterior elements. Of note, there are sclerotic bone changes consistent with chronic bilateral sacroiliitis.

LEFT KNEE FOUR VIEWS: Four projections reveal minimal osteoarthropathy but no joint effusion, fracture, subluxation or osteochondritis.

LEFT ANKLE THREE VIEWS: Complete ankle series reveals normal mineralization. No fractures or osseous abnormalities are demonstrated. The joint spaces are well maintained without ligamentous laxity. No soft tissue swelling is seen. Of note, there is a plantar heel spur of the foot.

RIGHT SHOULDER TWO VIEWS: Two projections reveal moderate degenerative or posttraumatic arthritic change within the AC joint but no separation. The glenohumeral joint of the shoulder is unremarkable in appearance.

IMPRESSION:

1. **MILD TO MODERATE DIFFUSE CERVICAL SPONDYLOSIS BUT NO EVIDENCE OF FORAMINAL COMPROMISE.**
2. **MINIMAL DIFFUSE LUMBAR SPONDYLOSIS. CHRONIC BILATERAL SACROILIITIS.**
3. **MINIMAL OSTEOARTHROPATHY LEFT KNEE.**
4. **NEGATIVE LEFT ANKLE. PLANTAR HEEL SPUR LEFT FOOT.**
5. **MODERATE DEGENERATIVE OR POSTTRAUMATIC ARTHRITIC CHANGES AC JOINT RIGHT SHOULDER. NORMAL GLENOHUMERAL JOINT.**

REQUEST FOR MEDICAL OPINION

ISSUE: Service connection for fibromyalgia with depression, tic douloureux, myofascial pain, sleep disorder and headaches secondary to motor vehicle accident and low back, shoulder and cervical spine conditions secondary to motor vehicle accident.

AVAILABLE PERTINENT EVIDENCE:

(a) Line of Duty Determination dated November 4, 1993
(b) Report from Sutton Chiropractic Office dated June 15, 1994
(c) Report from Imran U. Khan, M.D., dated March 23, 1995 and May 30, 1994
(d) Report and progress notes from Stassen Chiropractic Center for the period March 27, 1995 to May 22, 1995
(e) Report from Laurence J. Adams, Lt. Col, USAF, MC Neurologist dated April 7, 1995
(f) Medical Evaluation Board Report dated May 6, 1995
(g) Findings and Recommended Disposition of USAF Physical Evaluation Board dated October 18, 1995
(h) VA examination dated February 7, 1997

MILITARY SERVICE:

12-02-63 to 06-09-67 Active Duty
06-10-67 to 12-01-69 inactive duty
07-17-74 to 02-01-77 inactive duty
01-15-83 to 03-27- 96 inactive duty

REQUESTED OPINION: The Line of Duty Determination (a) shows the veteran was in an automobile accident on January 4, 1991 while on active duty. The nature and extent of the condition was symptoms similar in appearance to fibromyalgia syndrome. There is chronic and recurring pain and insomnia. The report from Sutton Chiropractic (b) shows the veteran continues to suffer and complain of his injury, signs, and symptoms associated with automobile accident of January 3, 1991. The Report from Imran U. Khan, M.D., shows treatment for fibromyalgia and trigeminal neuralgia in the right side. He is shown to have swelling in his knees, back, with trigger point injections. The report from Stassen Chiropractic (d) shows treatment for complaints of neck pain, headaches, and low back for past 4 years. There is X-ray evidence of slight disc space loss of C4-5 and C5-6. there is also slightly dropped sacrum on right, rotatory subluxation of L4 and flattened lateral lumbar curvature. Report from Laurence Adams (e) shows he has been seeing the veteran since January 1994. He states his problems began in 1991. The diagnosis is myofascial pain, mechanical low back syndrome, tic douloureux, and decline in lapse of judgment probably secondary to depression. The Medical Evaluation Board (f) shows myofascial pain, mechanical low back syndrome, and tic douloureux beginning in 1991 and incurred in service. The decline in cognitive function secondary to depression and depression beginning in 1994 and incurred in service. The Physical Evaluation Board (g) shows major depressive disorder, single episode, mild; pain disorder associated with psychological and general medical problems with definite industrial impairment was incurred in service. The other

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

diagnoses considered but not ratable is mechanical low back pain, tic douloureux, occasional right facial pain, stable; subjective loss of memory. VA examination (h) shows a diagnosis of tic douloureux on the right, small Schmorl's node of L3 , myofacial pain syndrome, and dysthymia.

There are several different diagnoses between what the veteran is claiming, the findings of the Physical Evaluation Board, and the VA examination. Which in fact are the current diagnoses and are they more likely than not due to the motor vehicle accident in 1991?

NOTE TO EXAMINER – In Your Response Please:

1. Identify the specific evidence you reviewed and considered in forming your opinion
2. Please provide a rationale (explanation/basis) for the opinion presented.
3. State your conclusions using one of the following legally recognized phrases:

a) _____is caused by or a result of_____
b) _____is most likely caused by or a result of _____
c) _____is at least as likely as not (50/50 probability) caused by or a result of _____
d) _____is less likely as not (less than 50/50 probability caused by or a result of:____
e) _____is not caused by or a result of _____
f) _____I cannot resolve this issue without resort to mere speculation.

V. RATER'S COMMENTS

FACTS AND SPECIFIC ACHIEVEMENTS: SSgt Hopkins is a qualified loadmaster in the Aerial Delivery Section. He shows a willingness, ability and attitude to perform all duties assigned him. SSgt Hopkins has been a valuable asset to this squadron by his outstanding dedication in the preparation of airdrop loads and the recovery of same. SSgt Hopkins has demonstrated his NCO responsibilities in the utmost manner. Sheer dedication by him has resulted in mission success in the accomplishment of this unit's tasking. SSgt Hopkins' expertise and leadership qualities in the utilization of airdrop resources place him in a class all his own. STRENGTHS: SSgt Hopkins has the ability to work well with his supervisors and subordinates. He is always there to help others with problems and will spend extra time to get to the proper solution. SSgt Hopkins is the type of person and NCO that will never let you down. EDUCATIONAL AND TRAINING ACCOMPLISHMENTS: SSgt Hopkins has completed Career Development Course A11450 in the minimum amount of time. He is currently enrolled in course 00011 and is progressing in a satisfactory manner. OTHER COMMENTS: SSgt Hopkins possesses the attributes desired in our NCOs and is worthy of special monitoring to insure maximum utilization. His continued drive, mark him for advancement and assignment to the most challenging positions. He is a type of person not reluctant to roll up his sleeves to get the job done and insists on integrity and responsiveness in all actions emanating from his activity. Promote.

VI. 1ST INDORSER'S COMMENTS ☒ CONCUR ☐ NONCONCUR

SSgt Hopkins is ideally suited for any Aerial Delivery position. He is an efficient and demanding NCO. I wholeheartedly agree with the rater's comments. SSgt Hopkins' work is always first class. His dedicated efforts have greatly improved the Aerial Delivery Section. He is a true professional whose "can-do" attitude is contagious to all he comes in contact with. I highly recommend this NCO for promotion at the earliest time possible

V. RATER'S COMMENTS FACTS AND SPECIFIC ACHIEVEMENTS: SSgt Hopkins has performed his duties and responsibilities in an outstanding and examplary manner. SSgt Hopkins received the Air Force Commendation Medal for his accurate and proficient assessment and response during an inflight emergency while that the LLATT School He was able to personnally assist the aircraft commander to assess and implement procedures to avoid an eminent disaster. SSgt Hopkins was recognized as primary crew member of the Outstanding Air Force Reserve Flight Crew of the Year in 1985. The crew was awarded the Presidental Citation. Because of his thorough knowledge and extensive experience SSgt Hopkins was selected to be the primary loadmaster judge at the 4th Air Force MAPS Rodeo. SSgt Hopkins was personnally requested to provide training on the C-130 and assorted aerial port equipment. The thoroughness of training and his ability to establish rapport and communicate the member of the CSS has resulted in a significant increase of their proficiency of their overall mission. Further, SSgt Hopkins developed and implemented a program to re-clean and re-inspect all weapons assigned to the 302 TAW and their tenant units. This program has resulted in a 40% reduction of mandays that had been anticipated. OTHER COMMENTS: In civilian life SSgt Hopkins is working with the east Colorado Council of Government (COG) to develop and improve the economic base of 5 small towns and 3 counties in eastern Colorado. This loyal dedicated individual is one of the finest NCOs I have come into contact with during my Air Force Career. He should be considered for advancement ahead of his contemporaries.

TSGT, SSGT, SGT PERFORMANCE REPORT

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

V. RATER'S COMMENTS FACTS AND SPECIFIC ACHIEVEMENTS: TSgt Hopkins is a qualified Loadmaster with the 731 TAS. TSgt Hopkins is a highly dedicated member, his attitude is mission first above all. He has supported the unit in many ways, i.e. attends all UTA's, 48 AFTP's, numerous mandays, Panama rotation, Green Flag and Maple Flag. OTHER COMMENTS: Hopkins's military bearing sets an example for all his peer's. He is an active member in the Reformed Latter Day Saints Church. TSgt Hopkins is also, a City Councilman and he is a volunteer with the fire department. TSgt Hopkins additional duties include Assistant NCOIC of Mobility for the 731 TAS, weapon courier and alternate flight chief.

6 August 1996

MEMORANDUM FOR HQ AFRES/DPML

FROM: HQ AFPC/DPPDS/dg
550 C Street West Ste 6
Randolph AFB TX 78150-4708

SUBJECT: Disability Discharge--Marshall H. Hopkins, (b) (6) [redacted] USAFR

The attached documents, which we received after we forwarded the case to your office on 7 Mar 96, are for file in member's master personnel record.

Our 171935Z Mar 96 message advised that the above identified member elected to be discharged in order to apply for early qualification for retired pay at age 60, in lieu of discharge with severance pay. Discharge was effective 27 March 1996.

Debra R. Gooden

DEBRA R. GOODEN, DAFC-7
Board Support Branch
USAF Physical Disability Division
Directorate of Personnel Program Mgt

1. This confirms the telephone conversation between Wanda Johnson, this headquarters and Debra Gooden, your office, on 4 March 1996. The MPF has been contacted, and the points earned while assigned are included in the computation.

a. As of 27 March 1996, the member has accrued a total of 4147 retirement points.

b. As of 27 March 1996, the member's Total Active Federal Military Service (TAFMS) is 8 years, 10 months, and 22 days.

2. If you have any questions regarding this matter, please contact Wanda Johnson at DSN 926-6012.

DARLENE NICKELS

EXPLANATION FOR ITEMS CHECKED

VSR –

A review of this veteran's file shows we've never requested his military personnel records to verify his recent active duty dates.

- **Please send the veteran a letter telling him we've requested portions of his military personnel file to try and verify that he was on active duty at the time of his motor vehicle accident in January 1991.** (See formal bndngs in file) See VCAA - 6-21-04
- **Tell him if he'll provide evidence from the military showing the date he entered active duty and the date he was discharged from active duty during which time he had his motor vehicle accident in January 1991, this may expedite processing of his claim. Tell him the Medical Evaluation Board shows his date entered active duty current tour as October 16, 1990. However, we have conflicting evidence showing he was to report for active duty in February 1990. In addition, we have no evidence showing the date the active duty ended, and he was returned to reserve status.** See RoC dated 9-11-04

I've already disp'd the ep 60 days for the PIES request. Please send file to PreWipp.

MARSHALL H HOPKINS
(b) (6)

In reply, refer to:
351
(b) (6)
Marshall H. Hopkins

Dear Mr. Hopkins:

We are working on your service-connected compensation claim for low back pain, shoulder disorder, cervical spine disorder, fibromyalgia, depression, tic doloureux, myofascial pain, sleep disorder, and headaches.

What Do We Still Need from You?

On your application, you indicated that you received treatment from Dr. Evans. Complete and return an enclosed VA Form 21-4142, Authorization and Consent to Release Information, for each health care provider so that we can obtain treatment information. You may want to obtain and send us the information yourself.

Send evidence showing service in the Southwest Asia Theater of Operations (i.e., official orders, travel vouchers, performance evaluations or receipts from purchases made.)

You were previously denied service connection for depression, tic douloureux, low back pain, and myofascial pain. You were notified of the decision on May 20, 1997. The appeal period for that decision has expired and the decision is now final. In order for us to reopen your claim, we need new and material evidence.

You were previously denied service connection for sleep disorder, shoulder disorder, cervical spine disorder, and headaches. You were notified of the decision on November 8, 1999. The appeal period for that decision has expired and the decision is now final. In order for us to reopen your claim, we need new and material evidence.

- To qualify as new, the evidence must be in existence and be submitted to VA for the first time. Although VA will make reasonable efforts to help you obtain currently existing evidence, we cannot provide a medical examination or obtain a medical opinion until your claim is successfully reopened.

- In order to be considered material, the additional existing evidence must pertain to the reason your claim was previously denied.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Your claim was previously denied for depression, tic douloureux, low back pain, and myofascial pain because the evidence indicated there was no treatment in service. Therefore, the evidence you submit must relate to this fact.

Your claim was previously denied for sleep disorder, shoulder disorder, cervical spine disorder, and headaches because service-connection could not be established until there is verification of service, and the claimant has not established status as a veteran. Therefore, the evidence you submit must relate to this fact.

New and material evidence must raise a reasonable possibility of substantiating your claim. The evidence cannot simply be repetitive or cumulative of the evidence we had when we previously decided your claim.

Send us the original or a certified copy of your DD Form 214 or other separation papers for all periods of service(active duty, guard and reserve). We will return original documents to you.

You mentioned treatment at Amarillo, Texas VA Medical Center. Give us the dates of treatment and we will request the records.

Please see the attached information sheet "What the Evidence Must Show to Help Prove Your Claim." If there is any other evidence or information that you think will support your claim, please let us know. If you have any evidence in your possession that pertains to your claim, please send it to us.

How Soon Should You Send It?

You can take up to a year from the date of this letter to make sure we receive the information and evidence we have requested. We encourage you to send us this information and evidence as soon as you can, or contact us within 60 days. Unless we hear from you, VA may decide your claim as soon as we have completed our attempts to get all the relevant evidence that we know about on your claim.

If VA decides your claim before one year from the date of this letter, you continue to have until that date to submit additional evidence and protect your entitlement to benefits from the earliest possible date.

How Can You Contact Us?

You can contact us in several ways. Let us know your VA file number, **529 56 7575**, when you contact us.

- Call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the number is 1-800-829-4833.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

- E-mail or visit our web site. For specific information about your claim, e-mail us at **muskogee.query@vba.va.gov**. For general information about benefits, visit our web site at www.va.gov.

- Write to us at the address at the top of this letter.

We have also enclosed information on the status of your claim and how you can help, and what the evidence must show.

We are trying to decide claims as quickly as possible. We appreciate your help.

Sincerely yours,

J. Tracy

J. Tracy
Veterans Service Center Manager

Enclosures: VA Form 21-4138
What is the Status of Your Claim and How You Can Help
What the Evidence Must Show

cc: DISABLED AMERICAN VETERANS

21/173rjl

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

What is the Status of Your Claim and How You Can Help

We want to update you about the supporting documentation we need for your claim.

We have received the following:

- Your claim for benefits, received March 8, 2004.
- VA Form 21-22
- VA Form 21-4138(2)
- Copy of Service Medical Records from the veteran
- cover sheet
- Accident Information
- Medical evidence from The Fibromyalgia Alliance of America
- copy of original VA Form 21-526

VA is responsible for getting the following evidence:

Relevant records held by any Federal Agency. This may include medical records from the military, from VA hospitals (including private facilities where VA authorized treatment), or from the Social Security Administration.

- Service
- Confirm Southwest Asia

On your behalf, VA will make reasonable efforts to get the following evidence:

Relevant records not held by any Federal Agency. This may include medical records from State or local governments, private doctors and hospitals, or current or former employers.

(b) (6)

Marshall H. Hopkins

How Can You Help VA

You must give us enough information about your records so that we can request them from the person or agency that has them. If the holder of the records declines to give us the records or asks for a fee to provide them, we'll notify you of the problem. *It's your responsibility to make sure that we receive all requested records that aren't in the possession of a Federal department or agency.*

(b) (6)

Marshall H. Hopkins

What the Evidence Must Show

What Must the Evidence Show to Support Your Claim?

To support the claim for service connected compensation benefits, the evidence must show three things:

1. You had an injury in military service or a disease that began in or was made worse during military service, or that there was an event in service which caused injury or disease.

2. You have a current physical or mental disability. Medical evidence, including a VA examination will show this.

3. There is a relationship between your current disability and an injury, disease, or event in military service. Medical records or medical opinions usually show this relationship. However, under certain circumstances, VA may conclude that certain current disabilities were caused by service, even if there is no specific evidence proving this in your particular claim. The relationship is presumed for these veterans who have certain diseases:
   - former prisoners of war
   - veterans who have certain chronic or tropical diseases which become evident within a specific period of time after discharge from service
   - veterans who were exposed to ionizing radiation, mustard gas, or Lewisite while in service
   - veterans who served in Vietnam or in Southwest Asia during the Gulf War

Veterans who have certain kinds of service/disease combinations may qualify for an automatic presumption of service connection.

How Will VA Help You Obtain Evidence for Your Claim?

This letter tells you what records or evidence we need to support the benefit you claimed. If they are needed for your claim, we're requesting all records held by Federal agencies to include your service medical records or other military records, and medical records at VA hospitals. We're making reasonable efforts to help you get private records or evidence necessary to support your claim. We'll tell you if we are unable to get records that we requested. We'll also assist you by providing a medical examination or getting a medical opinion if we decide it's necessary to make a decision on your claim.

STATEMENT IN SUPPORT OF CLAIM

PRIVACY ACT INFORMATION: The law authorizes us to request the information we are asking you to provide on this form (38 U.S.C.501(a) and (b)). The responses you submit are considered confidential (38 U.S.C.5701). They may be disclosed outside the Department of Veterans Affairs (VA) only if the disclosure is authorized under the Privacy Act, including the routine uses identified in the VA system of records, 58VA21/22, Compensation, Pension, Education and Rehabilitation Records - VA, published in the Federal Register. The requested information is considered relevant and necessary to determine maximum benefits under the law. Information submitted is subject to verification through computer matching programs with other agencies.

RESPONDENT BURDEN: VA may not conduct or sponsor, and respondent is not required to respond to this collection of information unless it displays a valid OMB Control Number. Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. If you have comments regarding this burden estimate or any other aspect of this collection of information, call 1-800-827-1000 for mailing information on where to send your comments.

VA FILE NO.

C/CSS - SSN.

The following statement is made in connection with a claim for benefits in the case of the above-named veteran:

I wash to file for service connection for the following conditions,

Low back pain, shoulder disorder, cervical spine disorder, due to the car wreck I was in on base at Ft. Carson. WI wish to file for service connection of Fibromyalgia with secondary symptoms of depression, tic doloureux, myofascial pain, sleep disorders, and headaches in connection to same car wreck. My medical records are located at the Amarillo VAMC and all other pertinent information is being sent in with request. If there is anythig more I can get for you please let me know.

THE FIBROMYALGIA ALLIANCE OF AMERICA

P.O. Box 21990, Columbus, Ohio 43221-0990 • Telephone (614) 457-4222 Fax (614) 457-2729

We thank you for contacting us for information on the fibromyalgia syndrome. It's always a pleasure to help people understand this frustrating condition a little more clearly. This is, after all, the reason why we are here! We hope this small packet will be helpful.

What Is It?

Fibromyalgia is a chronic musculoskeletal condition causing widespread pain throughout much of the body. People with fibromyalgia will often say, "I hurt all over." The pain is in the muscles, tendons, and ligaments. While it is an *arthritis-related* condition, it does not involve the joints, as do osteoarthritis or rheumatoid arthritis. It is not an inflammatory or an auto-immune condition. It does not cause permanent damage to the body. Although pain can be severe, people with fibromyalgia will look as if nothing is wrong with them!

In the past, fibromyalgia may have been called fibrositis, a term seldom used now. Doctors don't yet know what causes fibromyalgia, nor do they know how to cure it. Many doctors still aren't aware of the tremendous increase in scientific research on this condition in just the last ten years. New research focuses on abnormalities in biochemicals in the body, especially those which work within the central nervous system.

How Does Fibromyalgia (FMS) Feel?

The major symptoms are pain, fatigue, and stiffness in the muscles. Many persons with FMS do not sleep well and do not feel rested in the morning. Their sleep is "non-restorative." Other symptoms can include: anxiety, chest pain that is not cardiac-related, cognitive problems, depression, dizziness, excessive dryness in eyes or mouth, headaches, irritable bowel or bladder syndrome, numbness or tingling in the arms or legs, Raynaud's phenomenon, subjective swelling, tendinitis, and bursitis. While these symptoms occur in many other conditions as well, they seem to be more frequent in fibromyalgia.

How Often Does It Occur?

FMS is not rare. In fact, physicians are only now beginning to recognize how frequently this syndrome can occur. Many have not yet been diagnosed and don't realize what is causing their problems. Fibromyalgia occurs in 2% to 5% of the adult population, or approximately 3 1/2 to 5 million people.

FMS affects more women than men. It can be present in children and teenagers, too. Many adults now being diagnosed can trace their symptoms back to childhood. It also appears much more commonly than previously realized in older persons. Some doctors also feel that fibromyalgia may be inherited; a "predisposition" to develop it may be passed from parent to child.

Can It Occur With Another Condition?

It can and does! In older adults, many will have FMS along with osteoarthritis (or degenerative) arthritis. It also occurs frequently in people who have auto-immune or connective tissue disorders such as rheumatoid arthritis, lupus, or polymyalgia rheumatica, etc. Often physicians don't check for this additional condition and patients wonder why their pain and fatigue isn't responding to their usual arthritis or anti-inflammatory medications.

What Doctor Do I Go To?

Physicians specializing in Rheumatology or Physical Medicine are most aware of recent research on fibromyalgia. Family practitioners often diagnose and treat fibromyalgia, also. As yet, unfortunately, there are no lab tests or X-rays that show fibromyalgia. Your doctor should take your history and then do a "tender point exam" in which he presses on 18 designated areas in your muscles. FMS will be diagnosed if 11 of these 18 points are painful when pressure is applied. Please see diagram.

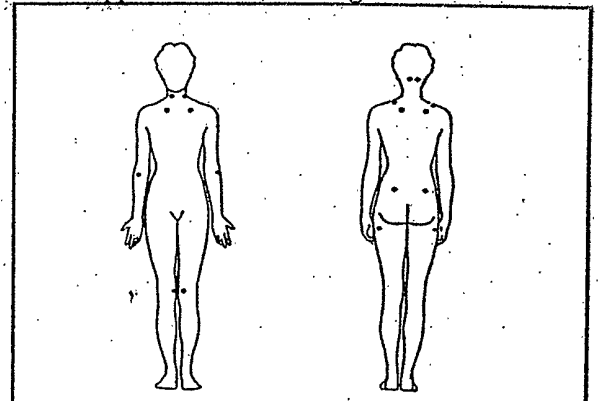

Illustration of Tender Points

How Is It Treated?

Medications currently being used for FMS include low doses of the tricyclic medications such at amitriptyline (Elavil) and cyclobenzaprine (Flexeril). These medications and others with similar actions increase the level of serotonin, an important neurotransmitter in the body. Low levels of serotonin occur in fibromyalgia and can contribute to pain sensitivity, sleep difficulty, and depression.

Although FMS can't yet be cured, it can be managed. A combination of medication, exercise, and lifestyle changes to reduce physical, environmental, and psychological stress can help improve your quality of life. Education and support are also of primary importance.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

and nomenclature for the benefit of the health care practitioner, patient, and legal representative. As fibromyalgia and myofascial pain syndrome have some degree of overlap, a brief historical perspective is useful to better understand these conditions.

"Fibrositis" was introduced into the English language medical literature by Sir William Gowers.[3] For many years this term was used for a variety of ill-defined painful disorders. However, the work of Kellgren in 1938,[4] which demonstrated that pain could be referred to remote locations from muscle and other tissues throughout the body, led to important clinical investigations throughout the world. Gutstein[5] in Europe, Kelly[6] in Australia, and Travell[7] in the United States published the bulk of the clinical work on myofascial pain. Collectively these works, coupled with the original work of Kellgren, unequivocally demonstrated that localized irritable regions in soft tissue (such as trigger points in muscle) were often the cause of pain perceived by the patient at a distance from the irritable site. The diagnosis of referred pain from muscles and other tissues depends upon a detailed history and physical examination specifically designed to ferret out tender points and trigger points. If these specific pain-producing tissues are not carefully sought, they will be missed. That is, they are not diagnosable on a routine physical examination, and conventional laboratory testing, for the most part, is not helpful. Doctors Travell and Simons published their seminal work on myofascial pain in 1983, followed by Volume 2 in 1992.[8] Parallel to this work on MPS, intensive studies on defining FMS were carried out. These culminated into a well-designed multicenter prospective study by a blue ribbon committee of the American College of Rheumatology and resulted in universally accepted criteria for the diagnosis of FMS.[9]

FIBROMYALGIA

Fibromyalgia is diagnosed when two criteria are met:

1. A history of widespread pain must have been present for at least three months. Pain is considered widespread when it: (a) is present on the left and right sides of the body, (b) is present above and below the waist, and (c) involves the axial skeleton.
2. Pain must be present on digital palpation in at least 11 out of 18 defined tender point sites.[10]

Seventy-seven percent of PTFS patients returned for treatment even after settlements or awards had been obtained.

Fibromyalgia can be either idiopathic (no identifiable precipitating event), or secondary/concomitant (due to an illness or disease). Fibromyalgia can also be post traumatic (PTFS, caused by an identifiable trauma/accident[11]), as authoritative textbooks indicate.[12] Of particular relevance is a recent study from Canada showing that "reactive" fibromyalgia, which includes development of fibromyalgia after an accident, causes more disability than the primary form.[13] It is PTFS that most often involves litigation, since a trauma/accident can be shown to be the proximate cause of the PTFS and damages or remuneration can be sought via a personal injury lawsuit. FMS is a painful musculoskeletal disorder that can involve other organ systems such as the central nervous system or immune system.[14] It is a permanent condition for which there is no known cure, although ongoing medical treatment is necessary to minimize and control the pain as well as to optimize functioning on numerous levels (e.g., employment, interpersonal relationships, recreation, etc.).[15] It can be as painful and disabling as rheumatoid arthritis,[16] and in the past the presence of FMS was relegated to a clinical diagnosis due to the limitation of imaging or standardized tests. Frequently, FMS patients suffer from muscle spasms, headache, poor/nonrestorative sleep (i.e., a defect in stage 4, non-rem, delta wave sleep), fatigue, a state of widespread diffuse musculoskeletal pain, and the reactive depression so often seen in individuals who have become limited in what they can do and who have displayed a loss of the enjoyment of life.

Anyone doubting that PTFS patients are truly suffering need only listen to the histories of these unfortunate individuals. Moreover, their behavior after litigation is equally convincing to clinicians who have followed the history of patients in the post-settlement era. Seventy-seven percent of PTFS patients returned for treatment even after settlements or awards had been obtained.[17] This dispels the notion that malingering or symptom amplification is a predictable profile of the PTFS patient. PTFS is a painful, permanent, and potentially disabling condition, even more so than primary FMS.[18] In light of the recent medical literature, reaching any other conclusion would be an example of severe intellectual myopia and a tremendous disservice to the patient.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

MYOFASCIAL PAIN

Myofascial pain syndrome (MPS) is the most common source of musculoskeletal pain.[19] The disease is not easily understood without specialized training. Although studied extensively for many years, myofascial pain has been somewhat more difficult to study systematically, particularly with complex cases, than fibromyalgia. It may take a great deal of clinical skill to define it on physical examination. While there are no generally accepted criteria that have been studied and defined in a systematic fashion, such as with fibromyalgia, most definitions are similar to those adopted by doctors Travell and Simons.[20] However, the regimen of MPS diagnosis and treatment are accomplished facts and have become recognized procedure within the accepted standard of care. Listed below are the symptoms (subjective) and signs (objective) of MPS:

Symptoms (subjective)—May consist of one or a number of the following:

- Pain Severity
  - Mild
  - Moderate
  - Severe
  - Morphine Type
- Pain Location
  - Single Muscle
  - Multifocal
  - One region (upper extremity)
  - Hemi-body
  - Total Body
- Decreased range of motion (restricted movement)
- Dysfunction (altered or abnormal function, such as limping, etc.)
- Weakness of an extremity (i.e., buckling knee; drops objects)
- Numbness
- Headaches
  - Muscular
  - "Sinus"
  - "Migraine"
  - "Unilateral"
  - "Bilateral"
- Tingling
- Burning Sensation
- Pressure Sensation
- Goose bumps ("goose flesh")
- Tenderness
- Muscle spasms
- Stiffness
- Tension
- Tightness
- Dizziness (vertigo)
- Ringing in the ears
- Difficulty breathing
- Bladder problems
- Muscle cramps and charley horses
- Sleep disorder
- Disability
  - Temporary
  - Intermittent
  - Permanent

Signs (objective)—May consist of one or more of the following:

- Perpetuating factors
- Taut band(s), an involuntary tightening of a portion of a muscle that the patient has no control over
- Jump sign, an involuntary startle or withdrawal response to pressure applied to an active trigger point
- Local twitch response, an involuntary contraction of a taut band in a muscle that may occur when the trigger point residing in the taut band is snapped with the examining finger
- Specific trigger points in specific, textbook-specified locations[21]
  - Pressure on the myofascial trigger points reproduces some or all of the presenting complaints(s).
- Irregular heartbeats
- Deformity (such as listing to one side or the other; involving twisting of the torso)
- Decreased range of motion (restrictive movement)
- Dysfunction (altered or abnormal function, such as limping)
- Breakaway weakness in the muscle that resisted the overload of the injury
- Abnormal tissue compliance
- Abnormal pressure threshold meter test
- Asymmetrical palpebral fissures (vertical dimension)
- Neurological abnormalities
  - Asymmetrical and/or absent deep tendon reflexes

APPOINTMENT OF VETERANS SERVICE ORGANIZATION AS CLAIMANT'S REPRESENTATIVE

Note — If you would prefer to have an individual assist you with your claim, you may use VA Form 21-22a, " Appointment of Individual As Claimant's Representative."

IMPORTANT - PLEASE READ THE PRIVACY ACT AND RESPONDENT BURDEN ON REVERSE BEFORE COMPLETING THE FORM

1. LAST-FIRST-MIDDLE NAME OF VETERAN: Hopkins Marshall H. (b) (6)

3A. NAME OF SERVICE ORGANIZATION RECOGNIZED BY THE DEPARTMENT OF VETERANS AFFAIRS *(See list on reverse side before selecting organization)*: Disabled American Veterans

3B. JOB TITLE OF OFFICIAL REPRESENTATIVE AUTHORIZED TO ACT ON VETERAN'S BEHALF:

INSTRUCTIONS - TYPE OR PRINT ALL ENTRIES

4. SOCIAL SECURITY NUMBER: (b) (6)

5. INSURANCE NUMBER(S) *(Include letter prefix)*:

6A. SERVICE NUMBER(S):

6B. BRANCH OF SERVICE: USAFR

7. NAME OF CLAIMANT *(If other than veteran)*: (b) (6)

8. RELATIONSHIP *(If other than veteran)*:

10. CLAIMANT'S TELEPHONE NUMBER *(Include Area Code)*
. EVENING: (b) (6)) Same

02 23 04

12. AUTHORIZATION FOR REPRESENTATIVE'S ACCESS TO RECORDS PROTECTED BY SECTION 7332, TITLE 38, U.S.C.

Unless I check the box below, I **do not authorize** VA to disclose to the service organization named on this appointment form any records that may be in my file relating to treatment for drug abuse, alcoholism or alcohol abuse, infection with the human immunodeficiency virus (HIV), or sickle cell anemia.

☒ I authorize the VA facility having custody of my VA claimant records to disclose to the service organization named in Item 3A all treatment records relating to drug abuse, alcoholism or alcohol abuse, infection with the human immunodeficiency virus (HIV), or sickle cell anemia. Redisclosure of these records by my service organization representative, other than to VA or the Court of Appeals for Veterans Claims, is not authorized without my further written consent. This authorization will remain in effect until the earlier of the following events: (1) I revoke this authorization by filing a written revocation with VA; or (2) I revoke the appointment of the service organization named above, either by explicit revocation or the appointment of another representative.

13. LIMITATION OF CONSENT— My consent in Item 12 for the disclosure of records relating to treatment for drug abuse, alcoholism or alcohol abuse, infection with the human immunodeficiency virus (HIV), or sickle cell anemia is limited as follows:

I, the claimant named in Items 1 or 7, hereby appoint the service organization named in Item 3A as my representative to prepare, present and prosecute my claim for any and all benefits from the Department of Veterans Affairs based on the service of the veteran named in Item 1. I authorize the Department of Veterans Affairs to release any and all of my records, to include disclosure of my Federal tax information (other than as provided in Items 12 and 13), to that service organization appointed as my representative. It is understood that no fee or compensation of whatsoever nature will be charged me for service rendered pursuant to this power of attorney. I understand that the service organization I have appointed as my representative may revoke this power of attorney at any time, subject to 38 C.F.R. §20.608. *Additionally, in those cases where a veteran's income is being developed because of an income verification necessitated by an Internal Revenue Service verification match, the assignment of the service organization as the veteran's representative is only valid for five years from the date this form is signed for purposes restricted to the verification match.* Signed and accepted subject to the foregoing conditions.

THIS POWER OF ATTORNEY DOES NOT REQUIRE EXECUTION BEFORE A NOTARY PUBLIC

14. SIGNATURE OF CLAIMANT (Do Not Print): Marshall H. Hopkins

RECOGNIZED SERVICE ORGANIZATIONS

Membership in an organization is not a prerequisite to appointment of the organization as claimant's representative.

The following is a listing of National Organizations recognized by the Secretary in the preparation, and prosecution of claims under laws administered by the Department of Veterans Affairs.

African American PTSD Association
American Legion
American Red Cross
American Veterans Committee
AMVETS
American Ex-Prisoners of War, Inc.
American Defenders of Bataan and Corregidor, Inc.
American GI Forum, National Veterans Outreach Program
Army and Navy Union, USA
Army and Air Force Mutual Aid Association
Blinded Veterans Association
Catholic War Veterans of the U.S.A.
Disabled American Veterans
Eastern Paralyzed Veterans Association
Fleet Reserve Association
Gold Star Wives of America, Inc.
Italian American War Veterans of the United States, Inc.
Jewish War Veterans of the United States
Legion of Valor of the United States of America, Inc.
Marine Corps League
Military Order of the Purple Heart
National Amputation Foundation, Inc.
National Association of County Veterans Service Officers, Inc.
National Veterans Legal Services Program
National Veterans Organization of America
Non Commissioned Officers Association of the USA
Navy Mutual Aid Association
Paralyzed Veterans of America, Inc.
Polish Legion of American Veterans, U.S.A.
Swords to Plowshares, Veterans Rights Organization
The Retired Enlisted Association
United Spanish War Veterans of the United States
Veterans of Foreign Wars of the United States
Veterans of World War I of the U.S.A., Inc.
Veterans of the Vietnam War, Inc.
Vietnam Era Veterans Association
Vietnam Veterans of America

Although agency titles vary, the following States and possessions maintain veterans service agencies which are recognized to present claims.

Alabama
American Samoa
Arizona
Arkansas
California
Colorado

TO: 217B

FROM: John Kleindienst
National Service Officer (T)
Disabled American Veterans
VARO Waco, TX

RE: Hopkins, Marshall
(b) (6)

DATE: 3/5/04

In accordance with 38 C.F.R. § 14.631 the above captioned requests the appointment of the Disabled American Veterans as the authorized representative as indicated on the completed VAF 21-22.

It is therefore requested that the Department of Veterans Affairs update all systems to include: COVERS, BDN, MINQ, PINQ, TINQ, MAP-D, and VACOLS to reflect the Disabled American Veterans accredited representative (083).

Please accept the attached 21-4138 (2), 2-pages of info on fibromyalgia, and 68 pages of medical information as a formal request to establish service connection for fibromyalgia.

We request the determination as to service connection be based on a careful review of the entire evidence of record with due consideration to the policy of the Department of Veterans Affairs to administer the law under a broad and liberal interpretation consistent with the facts in each individual case. (38 C.F.R. § 3.303)

The veteran has indicated that medical evidence pertaining to the claimed condition(s) may be obtained from the Amarillo VAMC. It is therefore requested that these records be secured in support of this veteran's claim pursuant to 38 C.F.R § 3.103.

FIRST NAME - MIDDLE NAME - LAST NAME OF VETERAN *(Type or print)*	(b) (6)	VA FILE NO.
Marshall Hopkins		C/CSS - SSN.

The following statement is made in connection with a claim for benefits in the case of the above-named veteran:

Approx. Jan. 3 1991, I had been out at Ft. Carson Colo. helping guard and reserve Army personnel deploy to Desert Storm. I had finished the duty for the day and was departing the post. I stopped at a crosswalk for a pedestrian.

A car coming from behind me failed to notice that I had stopped and rear-ended me. Several witnesses indicated that the car was approaching at approx. speeds of 30 to 40 mph.

The impact throwed me into the back seat of my car then moved my car into an adjoining lane and hit a car parked there. That impact moved me from the rear seat up and onto the dash. I was taken to Evens hospital, x-rayed, and released because there appeared to be no broken bones. Most of Evens permanate party had been deployed and temporary cevilian personnel were operating the hospital.

PRIVACY ACT REQUEST

RE: HOPKINS, Marshall H.
(b)(6) [redacted]

Gentlemen;

This is a request made under the provisions of the Privacy Act.

Please provide me, without delay, copies of the entire contents of my claims folder. This is to include, but is not limited to, all documents, papers, communications, memos, entries, correspondence, computer printouts, determinations, reports, notes, logs, actions, rating board decisions and each and every document of any other type that your office may possess that contains my name, social security or claim number.

You are no doubt familiar with the time requirements of the Privacy Act. Please forward the above requested information within those time constraints.

Thank You for your quick response to this request.

Sincerely,

Marshall H. Hopkins

Marshall H. HOPKINS

MARSHALL H HOPKINS
(b) (6)

(b) (6)
HOPKINS, Marshall H

Dear Mr. Hopkins:

We made a decision on your claim for service connected compensation.

This letter tells you what we decided. It includes a copy of our rating decision that gives the evidence used and reasons for our decision. We have also included information about what to do if you disagree with our decision, and who to contact if you have questions or need assistance.

What Did We Decide?

We determined that the following conditions were not related to your military service, so service connection couldn't be granted:

Medical Description
depression
tic douloureux
mechanical low back pain
decline in cognitive function secondary to depression
myofascial pain
sleep disorder
shoulder disorder
cervical spine disorder
gulf war syndrome
headaches

We have enclosed a copy of your Rating Decision for your review. It provides a detailed explanation of our decision, the evidence considered and the reasons for our decision. You can find the decision discussed in the section titled *"Decision."* The evidence we considered

4-18-02 RECD (b) (6)

FILE COPY

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

is discussed in the section titled *"Evidence."* The reasons for our decision can be found in the portion of the rating titled *"Reasons for Decision"* or *"Reasons and Bases."*

What You Should Do If You Disagree With Our Decision.

If you do not agree with our decision, you should write and tell us why. You have *one year from the date of this letter to appeal the decision.* The enclosed *VA Form 4107, "Your Rights to Appeal Our Decision,"* explains your right to appeal.

Do You Have Questions Or Need Assistance?

If you have any questions or need assistance with this claim, please call us at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the number is 1-800-829-4833.

If you call, please refer to your VA file number 529 56 7575. If you write to us, put your full name and VA file number on the letter. Please send all correspondence to the address at the top of this letter. You can visit our web site at www.va.gov for more information about veterans' benefits.

We sent a copy of this letter to Disabled American Veterans because you appointed them as your representative. If you have questions or need assistance, you can also contact them.

Sincerely yours,

Robert K. Sharin

ISSUE:

1. Service connection for depression.
2. Service connection for tic douloureux.
3. Service connection for mechanical low back pain.
4. Service connection for decline in cognitive function secondary to depression (claimed as memory loss).
5. Service connection for myofascial pain (claimed as right facial pain).
6. Service connection for sleep disorder.
7. Service connection for shoulder disorder.
8. Service connection for cervical spine disorder.
9. Service connection for gulf war syndrome.
10. Service connection for headaches.

EVIDENCE:

- Service medical records for the period November 1963 to June 1967.
- Reserve unit medical records for the period July 14, 1974 to February 1, 1977; and for the period January 15, 1983 to October 18, 1995.
- The DD 214 for the period November 1963 to June 1967 could not be obtained for review.
- There is no record on file of the active duty for training dates.
- There is no record on file confirming the 120 days active duty in support of Desert Shield/Desert Storm.
- Line of Duty determination dated November 4, 1993 noting that Mr. Hopkins was on 120 days of active duty when the motor vehicle accident occurred.
- The DD 214 for the 120 days of active duty in support of Desert Storm could not be obtained for review. If these records are located at a later date, this decision will be reconsidered. If a different decision results, that decision will be effective as of the date of the original claim.
- VA examination dated February 7, 1997, from the VA Medical Center, Denver ,Colorado.
- We sent a letter dated November 26, 2001 to Mr. Hopkins asking for any additional evidence he can provide which is related to the claimed disabilities. He did not provide additional evidence.

DECISION:

1. Service connection for depression (VCAA) is denied.
2. Service connection for tic douloureux (VCAA) is denied.
3. Service connection for mechanical low back pain (VCAA) is denied.
4. Service connection for decline in cognitive function secondary to depression (VCAA) is denied.
5. Service connection for myofascial pain (VCAA) is denied.
6. Service connection for sleep disorder (VCAA) is denied.
7. Service connection for shoulder disorder (VCAA) is denied.
8. Service connection for cervical spine disorder (VCAA) is denied.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

9. Service connection for gulf war syndrome (VCAA) is denied.
10. Service connection for headaches (VCAA) is denied.

REASONS FOR DECISION:

1. Service connection for depression.
2. Service connection for tic douloureux.
3. Service connection for mechanical low back pain.
4. Service connection for decline in cognitive function secondary to depression (claimed as memory loss).
5. Service connection for myofascial pain (claimed as right facial pain).

FACTS: Service connection for these five conditions was originally denied by the rating decision dated May 15, 1997. Mr. Hopkins had one year in which to appeal the decisions. The decisions were not appealed within the applicable one-year period, so the decisions became final.

We sent a letter dated November 21, 2001 to Mr. Hopkins asking for any additional medical evidence, or other evidence, he can provide which is related to these five conditions. He did not provide additional evidence.

ANALYSIS: In order to reopen a claim, new and material evidence must be presented. New and material evidence means evidence not previously submitted to agency decisionmakers which bears directly and substantially upon the specific matter under consideration, which is neither cumulative nor redundant, and which by itself or in connection with evidence previously assembled is so significant that it must be considered in order to fairly decide the merits of the claim.

No additional evidence has been provided for the claims on these five conditions:

depression
tic douloureux
mechanical low back pain
memory loss
myofascial pain

Without additional evidence, we do not have a basis upon which to re-open these claims.

Service connection may not be established until there is verification of service. The claimant has not established status as a veteran. Our efforts to obtain the necessary documentation have not been successful. In particular, active duty service during the Gulf War needs to be documented. Service connection on a presumptive basis for symptoms or disabilities associated with Gulf War Syndrome would require service in

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

the Southwest Asia theater. Service connection on a direct basis for diagnosed disabilities which arose while on active duty do not require SW Asia service.

6. Service connection for sleep disorder.
7. Service connection for shoulder disorder.
8. Service connection for cervical spine disorder.
9. Service connection for gulf war syndrome.
10. Service connection for headaches.

FACTS: Service connection for these five conditions was originally denied by the rating decisions dated October 29, 1999. Because of a change in the law, we are considering these claims again, as if the original decisions had not been made.

With the change in the law, we sent a letter dated November 21, 2001 to Mr. Hopkins asking for any additional evidence he can provide which is related to these conditions. He did not provide additional evidence.

There is no record on file of the active duty for training dates. There is no record on file confirming the 120 days active duty in support of Desert Shield/Desert Storm. A Line of Duty determination dated November 4, 1993 noting that Mr. Hopkins was on 120 days of active duty when the motor vehicle accident occurred. However, the DD 214 for the 120 days of active duty in support of Desert Storm could not be obtained for review.

ANALYSIS: Service connection may not be established until there is verification of service. The claimant has not established status as a veteran. Our efforts to obtain the necessary documentation have not been successful. In particular, active duty service during the Gulf War needs to be documented. Service connection on a presumptive basis for symptoms or disabilities associated with Gulf War Syndrome would require service in the Southwest Asia theater. Service connection on a direct basis for diagnosed disabilities which arose while on active duty do not require SW Asia service.

Without confirmed service during Desert Storm, establishing status as a veteran for the purposes of disabilities which arose during that time, service connection for the following conditions cannot be favorably considered.

sleep disorder
shoulder disorder
cervical spine disorder
gulf war syndrome
headaches

HOPKINS, Marshall H

MARSHALL H HOPKINS
(b) (6)

Dear Mr. Hopkins:

On May 5, 1999, you submitted a claim for service-connected disability compensation benefits. In our letter of November 8, 1999, we told you that we denied service-connection for the following disabilities because your claims were not well-grounded:

- SLEEP DISORDER
- SHOULDER DISORDER
- CERVICAL SPINE DISORDER
- HEADACHES
- GULF WAR SYNDROME
- MECHANICAL LOW BACK PAIN
- DECLINE IN COGNITIVE FUNCTION SECONDARY TO DEPRESSION (CLAIMED AS MEMORY LOSS)
- DEPRESSION
- TIC DOULOUREUX
- MYOFASCIAL PAIN

Recent Legislative Changes

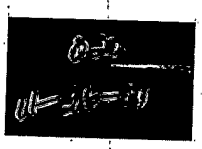
On November 9, 2000, The Veterans Claims Assistance Act of 2000 (VCAA) was signed into law. This law establishes new duties for the Department of Veterans Affairs (VA) when you file an application for disability benefits.

As a result of this new law, we are going to reconsider your claim.

In this letter, we will tell you what has been done to help with your claim, what evidence is necessary to establish entitlement, and what information or evidence we need from you. This letter will also tell you when and where to send the information or evidence, and who to call if you have questions or need assistance.

to 8C/020 11/26/01 (b) (b)(2),

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION



COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Please pay special attention to the sections entitled, "What Have We Done To Help With Your Claim?" and "What Information or Evidence Do We Need From You?"

VA's Duty To Notify You About Your Claim

The VCAA requires us to explain to you what information or evidence we need to grant the benefit you want. We will tell you when medical evidence is required. Medical evidence includes such things as doctors' records, medical diagnoses, and medical opinions.

We will tell you what necessary information or evidence you must give us, such as income information, or the names and addresses of doctors who treated you for your medical condition. We will also tell you what necessary information or evidence we will try to get for you.

VA's Duty To Assist You To Obtain Evidence For Your Claim

The law states that we must make reasonable efforts to help you get evidence necessary to support your claim. We will try to help you get such things as medical records, employment records, or records from other Federal agencies.

You must give us enough information about these records so that we can request them from the person or agency who has them. It's still your responsibility to make sure these records are received by us.

We will also assist you by providing a medical examination or getting a medical opinion if we decide it's necessary to make a decision on your claim.

What Must The Evidence Show To Establish Entitlement?

To establish entitlement for service-connected compensation benefits, the evidence must show three things:

- *An injury in military service or a disease that began in or was made worse during military service, or an event in service causing injury or disease.*

  OR

  Additionally, VA laws and regulations permit VA to conclude that some current disabilities were caused by service, even if there is no specific evidence proving this. These are called presumptive conditions.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

There are presumptions for veterans who have certain chronic or tropical diseases, which become evident within a particular period of time. Presumptions also apply to veterans who had a particular kind of service and develop certain diseases. Former prisoners of war, veterans who were exposed to ionizing radiation, mustard gas, or Lewisite while in service, and veterans who served in Vietnam or in Southwest Asia during the Gulf War are entitled to a presumption of service connection if they have certain diseases or disabilities.

If we do not have your service medical records, we will get them. We will review your service medical records to see if they show you had an injury or disease in service. We will also get other military service records if they are necessary.

- *A current physical or mental disability.*

This can be shown by medical evidence or other evidence showing you have persistent or recurrent symptoms of disability. We will get any VA medical records or other medical treatment records you tell us about. You may also submit your own statements or statements from other people describing your physical or mental disability symptoms. We will review this evidence to see if it shows you have a current disability or symptoms of a disability.

- *A relationship between your current disability and an injury, disease, or event in service.*

This is usually shown by medical records or medical opinions. We will request this medical evidence from medical providers who treated you if you tell us about it. You can give us a medical opinion regarding a relationship from your own doctor.

Gulf War Claims

- Regulations may authorize compensation for disabilities due to undiagnosed illness if:

  - began EITHER during active service in the Southwest Asian theater of operations OR to any time through December 31, 2001, and

  - has lasted for six months or longer.

If you have any questions, call our toll-free Gulf War Information Helpline at 1-800-PGW-VETS.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

(b) (6) [redacted]

Hopkins, Marshall H

- Exposure to Gulf War environmental hazards or "Gulf War Syndrome" is not considered a disability. We need to know specifically what disability(ies) you are claiming. We need current medical evidence of signs or symptoms which may be manifestations of undiagnosed illness to include, but not limited to the following:

  Fatigue
  Signs or symptoms involving skin
  Headache
  Muscle pain
  Joint pain
  Neurologic signs or symptoms
  Neuropsychological signs or symptoms
  Signs or symptoms involving the respirator system (upper or lower)
  Sleep disturbances
  Gastrointestinal signs or symptoms
  Cardiovascular signs or symptoms
  Abnormal weight loss
  Menstrual disorders

- We need a statement or proof that you served in the Southwest Asia theater of operations during the Gulf War.

- We need evidence showing one or more symptoms which have been present for more than six (6) months.

  Medical evidence is necessary to support your claim; however, we can also use nonmedical evidence. This is evidence such as:

  1. Records or reports of time you lost from work; changes in your physical appearance; changes in your physical abilities; changes in your mental or emotional attitude.

  2. We can also use statements from persons who knew you during the Gulf War or after military service. This person would have personal knowledge of your disabilities. Each person should submit a statement on the enclosed VA Form 21-4138, Statement In Support of Claim, or a letter with the following statement above the signature:

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

(b) (6) [redacted]

Hopkins, Marshall H

I hereby certify that the information I have given
is true to the best of my knowledge and belief.

The statement should describe exactly what the person observed and mention specific dates and places. The person's name and complete address must be clearly shown. Identify the statement with your name and VA file number.

A person on active duty at the time should include his or her service number and military unit.

- Provide medical evidence that the chronic disability is the result of an undiagnosed illness.

- Veterans who served in the Gulf War are entitled to a Gulf War Health Registry Examination provided at a Department of Veterans Affairs (VA) health care facility free of charge. If you have had this examination, submit copies as evidence to support your claim. You can also notify us of the date of examination and which VA Medical Center, and we will obtain the examination.

What Have We Done To Help With Your Claim?

We have received the following evidence to support your claim:

- SMR's, AND A REVIEW OF ALL EVIDENCE OF RECORD IN C-FILE WAS UNDERTAKEN

What Information Or Evidence Do We Need From You?

Please tell us whether there is any additional information or evidence that you think will support your claim. **If there are no additional records, please tell us.** VA Form 21-4138, Statement in Support of Claim, is enclosed for your use.

If there are additional records, you can send them directly to us, or you can ask us to help get them for you. If you want us to help get additional information or evidence for you, please follow these instructions:

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

- ***Private medical records:*** If you want us to help get private medical records for you, please complete and return the enclosed VA Form 21-4142, Authorization and Consent to Release Information to the Department of Veterans Affairs. We will request the records for you.

  Be sure to include a complete mailing address, including zip code, as well as dates of treatment and condition treated. Provide a separate form for each private care provider. If you need additional copies of VA Form 21-4142, you may photocopy the enclosed form.

  Note: You can help with your claim by getting the private medical records and sending them directly to us.

- ***Federal records:*** If there are *additional* Federal records (i.e., VA Medical Center records, military hospital records, etc.) that you think will support your claim, please tell us about them. We will request the records for you.

  Be sure to tell us the name of the facility, as well as the city, state, country, etc. of the facility. In addition, tell us the condition treated and the dates of treatment. VA Form 21-4138, Statement in Support of Claim, is enclosed for your use.

- ***Other information or evidence:*** If you want us to help get any *additional* information or evidence that you think will support your claim, please tell us about it. VA Form 21-4138, Statement in Support of Claim, is enclosed for your use. Be sure to include the following:

  1. the name of the person, agency, or company who has records that you think will support your claim;
  2. the address of the person, agency, or company; and
  3. the approximate time frame covered by the records.

  Note: You can help us with your claim by getting the information or evidence and sending it directly to us.

(b) (6)
Hopkins, Marshall H

When Do You Send The Information Or Evidence?

Send the information describing additional evidence or the evidence itself as soon as possible, but not later than 60 days from the date of this letter. Please put your VA file number, full name, and address on the evidence.

If we don't receive the information or evidence within that time, we will decide your claim based only on the evidence we have received and any VA examinations or medical opinions we have requested.

If the information or evidence is received within one year from the date of this letter, and if we decide that you are entitled to VA benefits, we may be able to pay you from the date we received your claim.

If the evidence isn't received within one year from the date of this letter, and if we decide that you are entitled to VA benefits, we can only pay you from the date we receive the evidence.

Where Do You Send the Information or Evidence?

Send the information describing additional evidence or the evidence itself to the address at the top of this letter.

For your convenience, you may FAX the requested evidence to the Denver Department of Veterans Affairs (VA) Regional Office at (303) 914-5903. If you do not have any additional information or evidence, you may also FAX your signed and dated VA Form 21-4138 to the regional office.

Please put your VA file number, and your full name and address on anything you send to us. Your VA file number is CSS 529 56 7575.

You should call or write to us as soon as possible if you move or change your mailing address.

How Long Will It Take To Decide Your Claim?

It now takes us an average of 8 months to complete this type of claim. We'll make every effort to decide your claim sooner.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

(b) (6) [redacted]

Hopkins, Marshall H

Do You Have Questions Or Need Assistance?

Your case has been assigned to Team 27E. Members of our team will keep you informed about what is happening with your claim and we will work with you to help gather the evidence we need. If you are in doubt about what to do at any time, please call us toll free at 1-800-827-1000. If you use a Telecommunications Device for the Deaf (TDD), the number is 1-800-829-4833.

If you call please refer to your VA file number CSS 529 56 7575. If you write to us, please put your full name and VA file number on the letter.

You can visit our web site at www.va.gov for more information about veterans' benefits.

A copy of this letter was sent to Disabled American Veterans, telephone number 303-914-5570, because you appointed them as your representative. If you have questions or need assistance completing forms/claim, etc., you can also contact them.

Your Right To Privacy

The information asked for in this letter is needed to determine your entitlement to benefits. All information and evidence you send to us is considered confidential. Information may only be disclosed outside VA as allowed by law.

Sincerely yours,

Robert K. Shearin

Dear Mr. Hopkins:

We've made a decision on your compensation claim. The attached copy of the Rating Decision shows the following:

- the evidence we considered,
- the decision we made,
- the reasons for our decision.

Compensation is not payable for the disability(s) in this decision.

If You Think We're Wrong

If you think our decision is wrong, you should write and tell us why. The enclosed VA Form 4107 explains your right to appeal.

If You Have Questions

If you have any questions, call us toll-free by dialing 1-800-827-1000. Our TDD number for the hearing impaired is 1-800-829-4833. *If you call, please have this letter with you.*

Sincerely yours,

Robert K. Shearin

VA FORM
JAN 1990 20-8992

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Rating Decision	*Department of Veterans Affairs* *Denver Regional Office*	Page 1 10/29/99
NAME OF VETERAN M. N. HOPKINS	(b) (6) [redacted]	POA Disabled American Veterans

ISSUE:

1. Service connection for sleep disorder.
2. Service connection for cervical spine disorder.
3. Service connection for shoulder disorder.
4. Service connection for headaches.
5. Service connection for back disorder.
6. Service connection for Gulf War syndrome.

EVIDENCE:

A review of all evidence of record in the C-file was undertaken

DECISION:

1. Service connection for sleep disorder is denied.
2. Service connection for cervical spine disorder is denied.
3. Service connection for shoulder disorder is denied.
4. Service connection for headaches is denied.
5. Service connection for back disorder is denied.
6. Service connection for Gulf War syndrome is denied.

REASONS AND BASES:

Service records including DD214 for the period November, 1963, to June, 1967 could not be obtained for review. There is no record of active duty training dates on file, as there is no record of the 120 days active duty in support of Desert Shield-Desert Storm on file. National Personnel Records Center responded on 6-11-97, that records which were stored at NPRC were recalled by the Air Force 2-4-83 and never returned.

Service connection may not be established until there is verification of service as the claimant has not established status as a veteran. Service connection for sleep disorder, shoulder pain, headaches, back pain, cervical spine disorder and Gulf War syndrome cannot be considered: the claimant has not established his status as a veteran. Therefore, the claim is not well grounded.

Marshall Hugh Hopkins		C/CSS-

The following statement is made in connection with a claim for benefits in the case of the above-named veteran:

I am requesting a reevaluation on my Disability claim. I still have Sleeping To the extent that it interfers with my holding a job. Also I cannot sit at a computer for more than 30-45 min without shoulder pain. I cannot walk or stand for more than 20-30 min without pain.

The Headaches come + go - sometime Sever, Sometime I suffer backpain all day long, Parts of my body still swells and throbs without a reason.

Twice before I was discharged, I was told that I had 17 of the 18 Sytoms of Desert Storm Syndrom. But I never Left the States. The only thing in common was that i had all of the Shots to go over Seas but i never went.

Dear Mr. Hopkins:

We've made a decision on your compensation claim. The attached copy of the Rating Decision shows the following:

- the evidence we considered,
- the decision we made,
- the reasons for our decision.

Compensation is not payable for the disability(ies) in this decision.

If You Think We're Wrong

If you think our decision is wrong, you should write and tell us why. The enclosed VA Form 4107 explains your right to appeal.

If You Have Questions

If you have any questions, call us toll-free by dialing 1-800-827-1000. Our TDD number for the hearing impaired is 1-800-829-4833. *If you call, please have this letter with you.*

Sincerely yours,

Raymond B Boor

Rating Decision	*Department of Veterans Affairs* *Denver Regional Office*	Page 1 05/15/97
NAME OF VETERAN M H HOPKINS	(b) (6)	POA Disabled American Veterans

ISSUE:

1. Service connection for depression.
2. Service connection for Tic douloureux.
3. Service connection for mechanical low back pain.
4. Service connection for decline in cognitive function secondary to depression/claimed as memory loss.
5. Service connection for myofascial pain/claimed as right facial pain.

EVIDENCE:

Service medical records for the period November 1963, to June 1967, and reserve medical records for the period July 14, 1974, to February 1, 1977, and January 15, 1983, to October 18, 1995.
Service records for the period November 1963, to June 1967, Form DD 214, could not be obtained for review. There is no record of active duty for training dates on file, as there is no record of the 120 days active duty in support of Desert Shield - Desert Storm on file. Line of duty determination noted that the veteran was on 120 days of active duty when the motor vehicle accident occurred. There is no DD 214 on file to verify the dates. If these records are located at a later date, this decision will be reconsidered. If a different decision results, that decision will be effective as of the date of the original claim.
VA examination dated February 7, 1997, from VA Medical Center, Denver, Colorado.

DECISION:

1. Service connection for depression is denied.
2. Service connection for Tic douloureux is denied.
3. Service connection for mechanical low back pain is denied.
4. Service connection for decline in cognitive function secondary to depression/claimed as memory loss is denied.
5. Service connection for myofascial pain/claimed as right facial pain is denied.

REASONS AND BASES:

1., 2., 3., 4., & 5. The law provides that a person who submits a claim for VA benefits must submit evidence sufficient to justify a belief that the claim is well grounded. A well-grounded claim is a plausible claim, one which has merit on its own, or is capable of substantiation. Such a claim need not be conclusive, but it must be accompanied by evidence which shows that the claimed condition exists and is possibly related to service.

A well grounded claim for service connection requires evidence of a current disability, evidence of incurrence or aggravation of a disease or injury in the service, and evidence of a nexus, or link, between the in-service injury or disease and the current disability. There is no record of treatment in service for depression, Tic douloureux, mechanical low back pain, decline in cognitive function secondary to depression/claimed as

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

memory loss, and myofascial pain/claimed as right facial pain. In order to establish a well-grounded claim, it is necessary to provide evidence which demonstrates that the claimed condition was incurred in or aggravated by military service.

Service connection may not be established until there is verification of service. The Medical Evaluation Board findings dated May 31, 1995, noted diagnoses of depression, Tic douloureux right side, mechanical low back pain, myofascial pain, and a decline in cognitive function secondary to depression. It was noted that these disabilities were incurred while entitled to basic pay. The right facial pain claimed by the veteran is associated with Tic douloureux.

Dear Mr. Hopkins:

Telephone and written requests have been made to obtain your DD214 and verification of active duty for training dates from the service department. All efforts to obtain these records have been exhausted.

If you have any of these records in your possession you must submit them to our office within the next 10 days or a decision will be made based on the evidence of record.

If we receive the above listed records after the initial decision, an amended decision will be made.

For your convenience, you may FAX the requested evidence to the Denver Department of Veterans Affairs (VA) Regional Office at (303) 914-5903.

You may request the above information directly from the service department by completing the attached Standard Form 180, Request Pertaining To Military Records, and sending it to the appropriate address on the back of the form. Please send us a copy of any response you receive.

Please show veteran's full name and VA file number on all correspondence or evidence submitted.

FORMAL FINDING

ISSUE: Unavailability of Service Records - DD-214/ACDUTRA

FACTS: VAF 21-3104-4 sent to NPRC on Oct 29, 1996 & Mar 3, 1997.

FINDING: The response from the service department/records center is inadequate.

Telephone calls by the military records specialist have not produced the service records. Written evidence of these contacts are in file and all procedures have been correctly followed.

REASONS AND BASES: All efforts to obtain the needed service records or military information have been exhausted; further efforts are futile. Based on these facts, the record is found to be unavailable.

DECISION: Service records are unavailable.

STATEMENT IN SUPPORT OF CLAIM

PRIVACY ACT INFORMATION: The law authorizes us to request the information we are asking you to provide on this form (38 U.S.C. 501(a) and (b)). The responses you submit are considered confidential (38 U.S.C. 5701). They may be disclosed outside the Department of Veterans Affairs (VA) only if the disclosure is authorized by the Privacy Act, including the routine uses identified in the VA system of records, 58VA21/22, Compensation, Pension, Education and Rehabilitation Records - VA, published in the Federal Register. The requested information is considered relevant and necessary to determine maximum benefits under the law. Information submitted is subject to verification through computer matching programs with other agencies.

RESPONDENT BURDEN: Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Clearance Officer (723), 810 Vermont Ave., NW, Washington, DC 20420; and to the Office of Management and Budget, Paperwork Reduction Project (2900-0075), Washington, DC 20503. PLEASE DO NOT SEND THIS FORM OR APPLICATIONS FOR BENEFITS TO THESE ADDRESSES.

RE: Marshall H. Hopkins
(b) (6) [redacted]
DOL: 1/3/91

To Whom It May Concern:

This office represents the interests of the above-referenced client. Enclosed is a copy of the signed authorization for the release of information executed by my client who was injured in the above referenced motor vehicle accident and who was treated by military medical facilities in the past.

Please provide us a copy of Mr. Hopkins military medical file to include office notes, records, diagnostic notes, emergency room records, clinic notes and reports, operating room notes and reports, and any other medical records, in your possession concerning the treatment of Marshall Hopkins. In addition, please include billing statements indicating the date of service, charges, amount paid and by whom, and the outstanding balance, if any.

Should you have any questions or concerns, please feel free to contact this office. Thank you for your assistance and cooperation in this matter.

Very truly yours,

F.M. Callaway

MEDICAL RECORDS REPORT

COMPENSATION AND PENSION EXAMINATION

JOB: 99
VA FORM 10-9034

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

COMPENSATION AND PENSION EXAMINATION
02-07-97

This is a 53-year-old, right-handed, male veteran who is appointed disability examination per 2507 request. This is a limited medical examination for tic douloureux, mechanical low back pain, cognitive dysfunction with loss of memory and myofascial pain syndrome. The medical records were available and were reviewed, and in December of 1994 he had neuropsychologic testing and board. Release from active duty date was June 1967.

He is unemployed at this time. He has a rooming house in Victor, Colorado and is self-employed in that respect. He was in the reserves from 1991 to March 1996. No hospitalizations, no surgeries. He has a private doctor. Medications are Dilantin 100 mg 2 capsules only as needed for right facial pain. This is not used even once a week. He is taking nothing for myofascial pain or mechanical low back pain. He is seeing a chiropractor for treatment of headaches and neck pain.

He had a motor vehicle accident in January 1991. He was shipping people to Operation Desert Storm at Fort Carson and he was injured on the post. At that time he had neck, back and right shoulder pain. No facial injury, no head injury, no known injury to the jaw. He had good recovery from this and then in August of 1991 he was in Oklahoma. He was eating grapes and he got the sudden jabbing pain behind the right cheek bone up into the right eye. He visited the dentist and the dentist said it was tic douloureux. He was referred to a neurologist at the Air Force Academy who confirmed the diagnosis. He was placed on Tegretol and later Dilantin. Apparently the Tegretol had a toxic side effect. He has spells now that occur once a month and they last for a week of recurrent lancinating pain behind the right cheek bone and right eye. Only about once a month are they severe. The other times they are not usually terribly bad and he treats it with Dilantin.

He has had from this accident of January 1991 headaches which are in the back of the neck, the occipital. He gets chiropractic adjustment and it relieves the headache completely for two weeks. The headache varies from mild to severe. There is always something present. He may have nausea with this and has become depressed over the lack of sleep and the headaches. He was first treated by the chiropractor for headaches, back pain in the mid-thoracic to low and over the scapular area.

MEDICAL RECORDS REPORT

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

He awakened in October 1991 with the first back pain. It grew worse. He went to Keesler Air Force Base in Mississippi and had an examination. By that time, it was excruciating. He went to the emergency room. They thought he had a kidney stone and screened him for this, but there was no hematuria and no stones. He was then referred to Balboa Hospital in California where he had awakening with back pain every day. The pain went away with sitting up. The head of neurology told him he had a tumor or cyst on the left kidney on his films. He advised a nephrectomy. The patient decided to come back to Evans, Colorado to get a second opinion. Here the urologist said it was a thumb print on the x-ray and not a kidney tumor or cyst. He got three thoracic nerve blocks which relieved the pain for months. When he had the pains, they started in the back, but they spread around with abdominal spasms. In April 1993, he went to Saudi Arabia and then Cairo, Egypt. The back pain recurred. He was told he had a vertebra out of place and this was put back in.

He dates the onset of depression to this time because of lack of sleep from the pain, and he has had trigger point injections periodically since then. He averages every two months for chiropractic treatment. At times when his cognitive dysfunction was bad, he would get in the truck and forget his destination or while teaching, he would forget his lesson plan. In September 1991, that was the first time his left knee swelled up and then in December 1991, his left ankle swelled up. These have been investigated by the flight surgeon and x-rayed and studied. Now he has periodic swelling of the left knee and left ankle. He used a TENS (transcutaneous electrical nerve stimulator) unit for three months and he occasionally has trigger point injections and manipulations down the mid-back and neck and right shoulder blade area with burning pain. If it is really bad, the right arm has gone numb on him two times. One year to 15 months ago, the left knee and ankle swell.

He has bile regurgitation in the throat. The pain, bile regurgitation and nausea occur but no irritable bowel. The discomfort is not constant. It is not refractory to treatment. Sometimes it is precipitated by stress or exertion, but he is on no medications for myofascial pain syndrome. Prozac causes slurred speech, disorientation and ataxia and an anxiety attack. Zoloft caused depersonalization and that was two to three years ago. Elavil had some side effects that he had to stop. He had a medical evaluation board on May 15, 1995. He saw Dr. Cohen, a psychiatrist at Fort Carson, Dr. Ingram, psychiatrist, Dr. Mark Wechsler, neuropsychologic testing in December 1994. He wore a TENS unit for three months. He gave it up. Major depression in 1992 lasting one to two years. His marriage ended and job was in jeopardy. He tried all of these

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

antidepressants. This was marked by some memory loss and cognitive dysfunction. Please see the psychiatrist's report on it.

PHYSICAL EXAMINATION: Height is 72" and weight 190 pounds. His gait is antalgic. He limps because the left knee is slightly painful. Cervical spine: There is general stiffness and slow moving of the neck. The cervical spine flexes 60 degrees, extended 50 degrees, laterally flexed 45 degrees to either side and rotated 50 degrees. The lumbar spine: There were some tender trigger points in the back. Tender along side the right supraspinatus muscle and the medial scapular muscles. This would be the rhomboid and in the mid-back. Rotating the scapular, however, was not painful. There was also a tender area about T12. The lumbar spine flexes 70 degrees and his fingertips did not touch the floor. They were about 23 cm from the floor. The back extends 10 degrees, laterally flexes 20 degrees to the right, 20 degrees to the left. Shoulders have 0-180 degrees dorsiflexion, 0-180 degrees of flexion, 0-90 degrees internal external rotation. Both knees showed no effusions. There were generally loose to lateral stress; however, the anterior drawers sign was negative. McMurray's sign was negative. The knees flexed 0-135 degrees. Ankles: Some stiffness, 0-15 degrees dorsiflexion, 0-25 degrees plantar flexion. There were no sensory losses and there was no specific motor weakness. The speech was normal. The answers to questions were appropriate. On checking deep tendon reflexes, they were 2+. There was no measurable loss of feeling in the arms, hands or feet. Pressure over the right temporomandibular joint did not cause pain. The jaw could be opened widely.

COMPENSATION AND PENSION EXAMINATION
02-07-97

This veteran is a 53-year-old, right-handed, Caucasian man who is appointed disability examination per 2507 request. The veteran has not been psychiatrically evaluated previously for claims purposes. The veteran's medical records were reviewed at the time of this examination. For pertinent past medical history and findings of record, please see the claims folder.

IDENTIFICATION: The veteran is referred for psychiatric evaluation in regard to depression and a claim for memory loss.

HISTORY OF PRESENT ILLNESS: On January 4, 1991, the veteran was driving his vehicle which was involved in a car crash. A car rearended the veteran whose car then lurched forward. The veteran said when this occurred he first thought an earth quake was occurring. He said the seat in which he was sitting broke. It sounded, from his description, as if he was slightly dazed for a brief period of time but did not loss consciousness. He apparently did not hit his head. Following the accident, the veteran went to the police station to make a statement. He said the police asked him if he was all right, and he answered that he was, but the police insisted that he go to the hospital to be examined. The veteran interpreted this advice to mean he was acting oddly or not himself. The veteran was cleared at the hospital and released.

Following the accident, the veteran has claimed problems with memory loss. He was given a neuropsychological battery of testing for cognitive deficits in December 1994. The report of that testing indicated essentially normal memory function and no indication of an organic brain syndrome. The veteran apparently had some difficulty defining his affects during the evaluation, and the doctor suggested depression @n the basis of the veteran's statements. The veteran said he has continued to have some difficulty. He has tic dpuloureux for which he takes Dilantin. He said he takes 200 mg of this medication only when his tic douloureux is acting up. He said the Dilantin will abort the tic.

He said he has had burning pain in his right shoulder and suprascapular area. He said twice in the last few years his right hand has gone numb briefly. The veteran said if he has to maintain a posture without being able to move, the pain will start. He described the pain in his shoulder as a burning kind of pain which can be

relieved by changing posture.

The veteran said he also has problems with sleep. He falls asleep without trouble but then will awaken after two hours or so. He said that he may waken several times during the night. He is not aware of bad dreams, and he has no idea why he wakes up.

He said that the people who work with him tell him that he does have memory problems. The veteran was elected mayor of the town of Victor, Colorado. The veteran said he will have difficulty remembering minutes of the town counsel meeting, and he will forget details so that he will have to check the minutes of the meeting to remember various resolutions which were passed. He said there have been occasions when he became suddenly disoriented. He said this has happened once or twice that he was driving and suddenly did not know where he was or why he was there or where he was trying to go. The veteran said that he uses stick-um pieces of paper as reminders when he gets in the car to go someplace. He will post the reminder so that he will be sure to get there. He said that he also carries a pocket planner all of the time to keep track of his schedule and appointments.

The veteran said in addition he has headache with fluttering of the eyelids. He said at times the fluttering of his right eyelid will be serious enough that it will interfere with his vision. He described this "fluttering" as a tic. The veteran said chiropractic treatments will help his headache. He said the chiropractic manipulations will relieve pressure in his back and also relieve pain. The veteran said he had a thoracic block which would help his back pain for a month or two at a time.

The veteran denied any ongoing depression. He said he has had some depression during the time he was suffering back pain. He said when the back pain was relieved, his depression was relieved. The veteran said he had also had some depression over losing his wife and family and, "The best job I ever had." The quotation reference is to the veteran's job with the Army which is explained in more detail in some of his letters in the C file. The veteran said he does have somewhat less sleep than usual, and he feels tired most of the time. He denied any suicidal thoughts. He said that he does have infrequent crying spells.

WORK HISTORY: Since the veteran lost his job with the Army, he has operated a hotel in Victor, Colorado. The veteran said he has lived in Victor, a town of some 550 people, for the last 25-26 years. He said that he cannot do any of the cleaning in the hotel and hires this

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

done. He said that he also has difficulty driving a truck which he attempted to do for a while. He said the posture problem again asserts itself. When he attempts to drive a truck, he will start having pain in his shoulder.

The veteran was asked if there was any litigation pending concerning the accident. He said there was litigation pending. He said that his claims have never been settled with the insurance company. The exact status of this situation is not altogether clear to the examiner. Apparently, the veteran and his insurance company are at odds over whether the veteran's insurance was canceled or not at the time of the accident. The veteran considers the insurance not canceled at that time. The veteran apparently is still involved with a lawyer concerning his situation with the insurance.

MARRIAGE AND SOCIAL RELATIONSHIPS: The veteran said his second marriage broke up after 18 years in October 1995. He and his second wife have five children, ages 9 to 18. The oldest son is emancipated. The veteran said the next child, a 17-year-old boy, is living with the patient in Victor. The rest of the children are living with their mother. The veteran is 6'2" tall, he reported, and currently weighs 178 lb.

MENTAL STATUS EXAMINATION: The veteran is a tall man who walked slowly and, as reported later, with some pain to the consultation room. He was dressed in casual clothes. He has a mustache. He maintained good eye contact. He was well spoken. His affect was somewhat constricted. He looked somewhat tired. He was oriented to time, place, and person. He was given three items to remember, a black sky, a 1956 Chevrolet, and a street address, 3328 East Pine Street. On immediate recall, he remembered all three items accurately. On recall six minutes later, he remembered the first item accurately. He changed the automobile to a 1957 Chevrolet. He remembered the address as 33-something Pine Street. He was able to remember six digits forward and four backwards, a usual performance. His proverb interpretations were appropriately abstract. There was no indication of any thinking disorder. He was asked how much change he should receive from a dollar bill if he bought an item for 34 cents and he gave the correct answer.

In the serial seven subtraction from 100, he gave a total of six answers with one incorrect answer which was unrecognized in 30 seconds. He was asked what he would do if he were in a movie theater and the first one to smell smoke. He said he would tell an usher. The examiner asked the veteran if he felt depressed at the time of the examination. He said that he felt "down." He said that he "would

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

like to take a nap." The veteran had arisen at 4 o'clock or so in the morning to drive to the examination in Denver from Victor.

SUMMARY: This 53-year-old veteran was involved in a motor vehicle accident in January 1991. He apparently did not have a period of unconsciousness, but he has claimed problems with memory since the accident. Neuropsychological testing in December 1994 indicated no evidence of cognitive dysfunction indicative of an organic brain syndrome; however, the veteran's claims of memory problems, fibromyalgia, and some depression, particularly secondary to his pain, have continued. It is apparently new information for the medical record that litigation is still pending in this case. The examiner feels this information is probably significant in light of the persisting complaints of memory problems when these have not been documented. It is felt the veteran's performance on recent memory recall in this examination is equivocal. A diagnosis of dysthymia secondary to the fibromyalgia is made at this time. The GAF is rated at 85 which reflects minimal symptoms which have some bearing on the veteran's social and occupational functioning.

NAME : HOPKINS,MARSHALL H SSN (b) (6)
CASE NO. : 1641 PROCEDURE : SPINE LUMBOSACRAL MIN 2 VIEWS
EXAM DATE: FEB 7,1997 10:45 TECHNOLOGIST: DANIEL,THOMAS P
LOC: C&P-VINSON (Req'g Loc) PHYSICIAN : VINSON,RAPHAEL W

Exam Modifiers : None

Clinical History:
MECHANICAL LOW BACK PAIN

Report: Status: VERIFIED
TWO VIEWS OF LUMBOSACRAL SPINE:

AP and lateral radiographs of the lumbosacral spine demonstrate no fractures or subluxations. The intervertebral disk spaces are of uniform height. The vertebral bodies and posterior elements are well aligned. Several punctate calcifications are seen in the pelvis bilaterally, which are consistent with phleboliths.

Impression:
Normal radiographs of the lumbosacral spine. There is a small Schmorl's node of the inferior end-plate of the L3 vertebral body, but this is essentially a normal variant.

Dear Mr. Hopkins:

We are making arrangements for your physical examination. You will be informed at a later date of the time and place of the examination by the Veterans Affairs Medical Center (VAMC).

Verification of Service

We have requested verification of your military service from the service department. However, it will be 90 to 120 days for a response.

To expedite your claim, you may submit the original copy of your DD Form 214, Certificate of Release of Discharge from Active Duty, which we will return upon request. You may also submit a copy issued by a public custodian of records who ***certifies*** that it is a true and exact copy of the original document. If you prefer, the veterans benefits counselors in our office can certify the document for you. Some military bases also have personnel who are authorized to certify military documents. If the original or certified copy is unavailable, please furnish any available documents or information concerning any periods of service for yourself including dates of service, branch, service number, organization, unit, etc.

Service-Connected Disabilities

If you received recent treatment for your depression, tic doulourex, mechanical low back pain, memory loss, and myofacial pain syndrome at a VA facility or military hospital, please furnish the dates and places. We will obtain the medical treatment records for you.

If you received recent private medical treatment, please submit your treatment reports or a doctor's statement. The doctor's statement should show the dates of examination and/or treatment, findings, and diagnosis.

If you would like us to obtain the treatment records, please complete and return the enclosed VA Form 21-4142, Authorization for Release of Information. Please provide the entire name and address (including zip code).

Hopkins, Marshall H.

If you need additional copies of VA Form 21-4142, you may photocopy the forms we are sending you. If you would like for us to send additional copies, please call our office at 985-0618. If you are located outside of the Denver area, you may call us toll free at 1-800-827-1000.

If You Have Questions

If you have any questions, call us toll-free by dialing 1-800-827-1000. Our TDD number for the hearing impaired is 1-800-829-4833. *If you call, please have this letter with you.*

Sincerely yours,

Raymond B Boor

RADIOLOGIC REPORT

This study was performed in the x-ray department. The KUB is unremarkable. There are phleboliths in the true pelvis. Following the injection of contrast material, prompt bilateral nephrograms are seen. The collecting systems are delicate. There is a smooth curvilinear deformity of the infundibulum to the middle pole on the right. No mass affect is seen. The ureters are normal in course and caliber. The bladder is smooth walled, without filling defect and empties completely.

IMPRESSION: Possible mass affect most likely due to cysts on the right kidney, otherwise normal study. Recommend clinical correlation possible right renal ultrasound.

15 Aug 95

CC: 52 yo w male full time AD AF Reservist E-7 with 25 years creditable service who presents for evaluation of depressive symptoms for MEB as a consult from Peterson AFB.

HOPI: 52 yo w male who presents reporting a 4yr history of complicated symptoms, medical work up and treatments with the eventual diagnosis of Fibromyalgia syndrome. Only later in the interview, with prompting, he discusses his depressive history. He notes that about 3 years ago he had the progressive onset of difficulty with terminal insomnia leaving him only 3-4 hours of sleep per night. He had attributed this to his pains but now reports this occurs nightly with out pain as a factor. His interest has been diminished as he is unable, due to pain, to do most of the activities he used to find pleasurable (horse riding, fishing and his job). He denies significant guilt and reports his energy has been poor due to the insomnia. His concentration has been poor with this. He denies difficulties with appetite or psychomotor retardation, and denies helpless hopeless or worthless feelings. He states he only recently learned that the bad feelings he has been having have been what most others would call depression. His wife divorced him due to mood swings he has had over the last 3 years. He describes these as not only irritability and poor stress tolerance but also periods of 1-2 days of feeling good and being pleasant, alternating with 1-2 days of being irritable and depressed. (This is presented as information given him from others rather than his own subjective sense.) He admits that at it's worst he had some suicidal ideas but this will never be an option and has not been a recent problem. He notes that stress has an effect on his tic symptoms but little effect on the pain or muscle cramps from the fibromyalgia. In addition to his depression he also complains of memory problems over the same 3 year time. He gives examples such as driving on to base and forgetting why he came or wanting to go to one city and finding himself in another. He has difficulty recalling the names of old friends at times. Recently when working on some very familiar circuits was unable to recall important information, making a half day job take 2 days (poor memory and concentration). He has been DNIF on and off for this over these 3 years and finally DNIF in June 94 when profile/board action was started.

Past Psych: In 1972 pt underwent alcohol rehabilitation. Pt saw psychology 3/94 with initial diagnosis of Psychological Factors Affecting Physical Condition. Pt was seen psychiatry Sept 94 with opinion of rule out somatoform disorder or psychological factors affecting physical condition. He was treated with Elavil 10-25 gm qhs with excessive

	sedation. He was tried on Ambien without good results. Zoloft resulted in morning hangover. In all he has had no trial of antidepressant for more than one week. Family Psych: denies Psychosocial: Born first of three brothers to migrant farm workers, he describes his early childhood as very good with no history of abuse and loving parents. He adds that he had no friends because of moving all the time, and left home at age 13 because he didn't want to leave a good job when his parents moved. He adopted a new family where he "finished growing up" and entered the AF. He obtained a GED in the AF and has no further degrees since then. He has been in the regular AF, Guard, and Reserves as a full time member. He has been married 18 years with 5 children and divorce was finalized one month ago. He has been actively trying to build a bed and breakfast business over the last year, but his illness has interfered significantly. PMH: Fibromyalgia syndrome, s/p MVA Jan'91, Tic Doulourеau diagnosed in Jan'91 and treated unsuccessfully with dilantin and tegretol, bronchitis, recurrent knee swelling, GERD. He is on no medications. NKDA. He denies significant use of alcohol, tobacco or drugs. ROS includes headaches, back spasms, indigestion, chronic nausea, numbness and tingling in the extremities, memory problems, decreased sleep and fatigue. MSE: 52 yo w male well groomed in BDU uniform who presents to the examiner with a detailed and well animated history of medical care and complaints, and a lesser emphasized history of depression. He is cooperative with the interview, though somewhat suspicious about getting a full evaluation, "How will they evaluate me if they haven't read my whole record?" Kinetics are normal and speech is normal. Mood is euthymic and affect is restricted, with little evidence of emotion when speaking of his divorce, major changes in his life or his frustration with his illness. Thought processes are logical linear and goal directed. Thought content is without suicidal or homicidal ideas, or psychotic symptoms. Insight is poor ("I have no idea why I'm here to see you.") and judgment seems intact. Memory for long term history is good and recent memory good. He is fully oriented and has no difficulty in the interview with concentration. Beck Depression Inventory - 9 Minimal Labs: 11/94 sleep study - normal 10/94 Neuropsychological testing normal - consider pseudodementia of depression 8/94 PFT's normal 8/94 EEG - excess beta consistent with benzodiazepine or barbiturate use 6/92 MRI head - no clinically significant abnormalities 9/92 MRI c-spine - C5-6 mild narrowing unchanged 9/92 EMG - carpel tunnel syndrome on the right Impression: 52 yo w male who reports no complaints up until an MVA. He then began a history of multiple medical complaints with depressive symptoms that went long unrecognized by himself, and some cognitive difficulties not

PSYCHIATRIC SERVICES CLINIC/PSCCO
59th MEDICAL WING/PSCCO
2200 BERGQUIST DR STE 1
LACKLAND AFB TX 78236-5300

Generally, testing on neuropsychological testing. His depressive symptoms (feeling depressed, decreased interest, poor concentration, terminal insomnia, and fatigue) meet the criteria for Major Depression and his cognitive complaints likely are secondary to that depression. His difficulty in recognizing the mood states resulting from his psychosocial stress contributes to his pain symptoms.

Recommendations:

Axis I: Major Depression, mild, single episode
Psychological Factors Affecting Fibromyalgia

Axis II: deferred

Axis III: Fibromyalgia
Tic Douloureau

Axis IV: psychosocial stressors: divorce, illness, financial difficulties,

Axis V: Global Assessment of Function (past year) 60% moderate symptoms, primarily social. (Does not include impairment from physical limitations.

Profile: S4
Social Industrial Impairment: definite
Military Impairment: moderate
World Wide Qualified: no
Competent for Pay and Records: yes
Premorbid Personality and Predisposition: moderate - his difficulty with recognizing his own emotional states predisposes him to both Axis I conditions above.
External Precipitating Stress: moderate - Fibromyalgia, divorce

Recommendations:
I recommend TDRL as his illness has significantly impaired his ability to serve in his current position. Appropriate labs drawn by neurology and agree with MRI scan. I do not see a need to repeat the neuropsychological testing at this time. Would consider a full trial of antidepressant as this does not seem to have been accomplished yet.

DOCTOR'S INTERPRETATION: **Marshall Hopkins** was evaluated in the sleep laboratory at the Denver VA Medical Center on November 6, 1994. This sleep study was performed to rule out sleep apnea and nocturnal desaturation in a patient with a history of snoring, daytime somnolence, witnessed apneas, and restless sleep. During the study, we monitored sleep stage, respiratory effort, airflow, leg EMG, O_2 saturation, and heartrate.

This study was performed while breathing room air. Throughout the study, Mr. Hopkins was monitored for 404 minutes, during which he demonstrated excellent sleep quality with a brief sleep onset latency of 4 minutes and a sleep efficiency of 93.6%. 18% of total sleep time was spent in slow wave sleep, while 23.3% was spent in REM sleep. During sleep, Mr. Hopkins demonstrated a total of four obstructive hypopneas, giving a combined apnea/hypopnea index that was well within the normal range at .6 events per hour. These events were not associated with significant O_2 desaturation. There was no evidence of periodic leg movement syndome, nothing to suggest narcolepsy, and no evidence of abnormally disrupted sleep.

In summary, this study demonstrates good sleep quality with a brief sleep onset latency that is consistent with hypersomnolence. However, there is no evidence of significant sleep disordered respiration, nocturnal desaturation, periodic leg movement syndrome, or narcolepsy. This study does therefore not desmonstrate a clear cut ideology to this patient's daytime somnolence. However, I would consider the presence of underlying psycho-social issues, as depression is a comon contributor to daytime somnolence. I would also consider the effects of medications, as this patient reports being on therapy with Elavil, a common contributor to somnolence. No other therapeutic interventions are clearly warranted from the results of this study.

Thank you for the referral.

Robert D. Ballard, M.D.

MEMORANDUM THRU C, Dept of Surgery MS

FOR DCCS

SUBJECT: Request for Supplemental Medical Care

1. Request authority to refer the following patient to a civilian medical provider for Supplemental Medical Care:

a. Name of Patient HOPKINS, MARSHALL H. XXXXOUTPT Ward Phone Number _____

b. Type of consultation, examination, diagnosis, or treatment to be performed and justification:

Sleep study (not available at FAMC). All night baseline.

c. Date Referred: 30 Aug 94 Estimated Date of Service _____ Estimated Cost: $650.00

2. The privacy Act Statement DD-2205, that is in your medical records applies to the solicitation of the following information:

(b) (6) [redacted]

c. Name of Sponsor (for dependents): _____

d. Organization: RES USAF I.D. Card Expiration Date: Indef

3. In accordance with Para 15-9 15-12(6), AR 40-3 and Title 10, United States Code, Sec 1079, the personal information on this form is solicited to contact the patient, if necessary and for secondary identification.

4. A Referral for Civilian Medical Care, FAMC Overprint 15-102 is enclosed.

5. The necessary appointment has been made with _____ on _____ 19___

OFFICIAL REPORT

Classification: Excess Beta

-Interpretation: This EEG is abnormal due to excess beta. The only significance of this is the increased incidence of beta in those on barbituates or benzodiazepines.

-Report: This is a 17 channel EEG, with one channel dedicated to EKG. The underlying rhythm is a low voltage symmetrical beta, good alpha is not seen.
-There is no focal slowing.
-There is no epileptiform activity
-Photic stimulation and hyperventilation elicit no further abnormalities

REMARKS

I certify I have been advised of my disqualifying medical condition and of the requirement to provide medical information from my private physician to my supporting reserve medical unit to aid in the evaluation of my medical condition. I understand that HQ AFRES/SGP will make the final determination on my medical qualifications for continued military duty and that if I fail to submit the requested civilian medical documentation to my supporting reserve medical unit within 60 days from the date of initial request, my case may be forwarded to HQ AFRES/SGP without it.

Member has provided all documentation and is under military care for LOD yes injury/illness.

362 TAC HOSPITAL
Peterson AFB, CO 80914-50[illegible]

8. STATEMENT OF EXAMINEE'S PRESENT HEALTH AND MEDICATIONS CURRENTLY USED (Follow by description of past history, if complaint exists)
Not Very Good.

NO medications currently.

9. HAVE YOU EVER (Please check each item)

YES	NO	(Check each item)
	✓	Lived with anyone who had tuberculosis
	✓	Coughed up blood
	✓	Bled excessively after injury or tooth extraction
	✓	Attempted suicide
	✓	Been a sleepwalker

10. DO YOU (Please check each item)

YES	NO	(Check each item)
✓		Wear glasses or contact lenses
✓		Have vision in both eyes
	✓	Wear a hearing aid
	✓	Stutter or stammer habitually
✓		Wear a brace or back support

11. HAVE YOU EVER HAD OR HAVE YOU NOW (Please check at left of each item)

YES	NO	DON'T KNOW	(Check each item)
	✓		Scarlet fever, erysipelas
	✓		Rheumatic fever
✓			Swollen or painful joints
✓			Frequent or severe headache
	✓		Dizziness or fainting spells
✓			Eye trouble
	✓		Ear, nose, or throat trouble
✓			Hearing loss
	✓		Chronic or frequent colds
	✓		Severe tooth or gum trouble
	✓		Sinusitis
	✓		Hay Fever
	✓		Head injury
	✓		Skin diseases
	✓		Thyroid trouble
	✓		Tuberculosis
	✓		Asthma
	✓		Shortness of breath
	✓		Pain or pressure in chest
✓			Chronic cough
	✓		Palpitation or pounding heart
	✓		Heart trouble
	✓		High or low blood pressure

YES	NO	DON'T KNOW	(Check each item)
✓			Cramps in your legs
✓			Frequent indigestion
✓			Stomach, liver, or intestinal trouble
	✓		Gall bladder trouble or gallstones
✓			Jaundice or hepatitis
✓			Adverse reaction to serum, drug, or medicine
✓			Broken bones
	✓		Tumor, growth, cyst, cancer
✓			Rupture/hernia
	✓		Piles or rectal disease
	✓		Frequent or painful urination
	✓		Bed wetting since age 12
✓			Kidney stone or blood in urine
		✓	Sugar or albumin in urine
	✓		VD—Syphilis, gonorrhea, etc.
	✓		Recent gain or loss of weight
	✓		Arthritis, Rheumatism, or Bursitis
	✓		Bone, joint or other deformity
✓			Lameness
	✓		Loss of finger or toe
✓			Painful or "trick" shoulder or elbow
✓			Recurrent back pain

YES	NO	DON'T KNOW	(Check each item)
	✓		"Trick" or locked knee
	✓		Foot trouble
	✓		Neuritis
	✓		Paralysis (include infantile)
	✓		Epilepsy or fits
✓			Car, train, sea or air sickness
✓			Frequent trouble sleeping
	✓		Depression or excessive worry
✓			Loss of memory or amnesia
✓			Nervous trouble of any sort
	✓		Periods of unconsciousness

MEDICAL EXAMINATION—FLYING PERSONNEL

(THIS FORM IS SUBJECT TO THE PRIVACY ACT OF 1974—USE BLANKET PAS-DD Form 2005)

INSTRUCTIONS

Items 1-12. Self explanatory.
Item 13. Flight Duty Performed—Enter rating and type of aircraft, for example, Pilot/KC-135, Radar Navigator/B-52.
Item 14. ASC—Enter current aviation service code from AFM 300-4, Vol 1.
Item 15. Total Flying Hours—Enter total flying hours since entry into aviation service.
Item 16. Total Flying Hours Last Six Months—Enter total flight hours during the last six months prior to this examination.
Item 17. Self-explanatory.
Item 18. Height—Record height to the nearest half inch or the nearest centimeter, with examinee in stocking feet.
Item 19. Weight—Weigh examinee in minimum clothing and record weight to the nearest pound or half of a kilogram.
Item 20. Visual Acuity—Record best uncorrected distant and near vision and best corrected distant and near vision.
Item 21. Auditory Acuity—Record pure bone threshold for each year at frequencies 500, 1000, 2000, 3000, 4000, and 6000 Hz.
Item 22. Type of Instrument Used—Record type of instrument used and its calibration standard.
Item 23. History and Remarks—Enter significant history since last complete medical examination and any other remarks the examining Flight Surgeon feels are pertinent.
Item 24 and 25. Self-explanatory.

REPORT OF MEDICAL HISTORY

(THIS INFORMATION IS FOR OFFICIAL AND MEDICALLY-CONFIDENTIAL USE ONLY AND WILL NOT BE RELEASED TO UNAUTHORIZED PERSONS)

1. LAST NAME—FIRST NAME—MIDDLE NAME: Hopkins Marshall H (b) (6)

(b) (6)

4. POSITION (title, grade, component): 55g

5. PURPOSE OF EXAMINATION: Annual Flying Class III

6. DATE OF EXAMINATION: 840707

7. EXAMINING FACILITY OR EXAMINER, AND ADDRESS (Include ZIP Code): 90T TAC CLINIC Peterson AFB, CO 80914

8. STATEMENT OF EXAMINEE'S PRESENT HEALTH AND MEDICATIONS CURRENTLY USED (Follow by description of past history, if complaint exists)

Good

On Demand - Predisone

9. HAVE YOU EVER (Please check each item)

YES	NO	(Check each item)
	X	Lived with anyone who had tuberculosis
	X	Coughed up blood
	X	Bled excessively after injury or tooth extraction
	X	Attempted suicide
	X	Been a sleepwalker

10. DO YOU (Please check each item)

YES	NO	(Check each item)
	X	Wear glasses or contact lenses
X		Have vision in both eyes
	X	Wear a hearing aid
	X	Stutter or stammer habitually
	X	Wear a brace or back support

11. HAVE YOU EVER HAD OR HAVE YOU NOW (Please check at left of each item)

YES	NO	DON'T KNOW	(Check each item)
	X		Scarlet fever, erysipelas
	X		Rheumatic fever
	X		Swollen or painful joints
	X		Frequent or severe headache
	X		Dizziness or fainting spells
	X		Eye trouble
	X		Ear, nose, or throat trouble
X			Hearing loss
	X		Chronic or frequent colds
	X		Severe tooth or gum trouble
	X		Sinusitis
	X		Hay Fever
	X		Head injury
	X		Skin diseases
	X		Thyroid trouble
	X		Tuberculosis
	X		Asthma
	X		Shortness of breath
	X		Pain or pressure in chest
	X		Chronic cough
	X		Palpitation or pounding heart
	X		Heart trouble
X			High or low blood pressure

YES	NO	DON'T KNOW	(Check each item)
	X		Cramps in your legs
	X		Frequent indigestion
	X		Stomach, liver, or intestinal trouble
	X		Gall bladder trouble or gallstones
X			Jaundice or hepatitis
	X		Adverse reaction to serum, drug, or medicine
X			Broken bones
	X		Tumor, growth, cyst, cancer
X			Rupture/hernia
	X		Piles or rectal disease
	X		Frequent or painful urination
	X		Bed wetting since age 12
	X		Kidney stone or blood in urine
	X		Sugar or albumin in urine
	X		VD—Syphilis, gonorrhea, etc.
	X		Recent gain or loss of weight
	X		Arthritis, Rheumatism, or Bursitis
	X		Bone, joint or other deformity
	X		Lameness
	X		Loss of finger or toe
	X		Painful or "trick" shoulder or elbow
	X		Recurrent back pain

YES	NO	DON'T KNOW	(Check each item)
			"Trick" or locked knee
	X		Foot trouble
	X		Neuritis
	X		Paralysis (include infantile)
	X		Epilepsy or fits
X			Car, train, sea or air sickness
	X		Frequent trouble sleeping
	X		Depression or excessive worry
	X		Loss of memory or amnesia
	X		Nervous trouble of any sort
	X		Periods of unconsciousness

12. FEMALES ONLY: HAVE YOU EVER

			Been treated for a female disorder
			Had a change in menstrual pattern

13. WHAT IS YOUR USUAL OCCUPATION?

Wheeler-Dealer

14. ARE YOU (Check one)

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Instructions for Completion of the Emergency Care and Treatment Form

NOTE: This form will be used to record all care rendered to patients in the Emergency Room and will be used in lieu of *all* locally prepared emergency room forms. This form is not a substitute for line of duty, accident/injury or third party liability forms, but it may be used as a basis for completing those forms.

1. Complete form for each patient entered on Emergency Room Log.
2. Complete all parts of form.
3. Enter patient's log number from Emergency Room Log.
4. Check appropriate condition in "category" block based on following definitions:
   Emergent—A condition which requires immediate medical attention and for which delay is harmful to the patient; such a disorder is acute and potentially threatens life or function.
   Urgent—A condition which requires medical attention within a few hours or danger can ensue; such a disorder is acute but not necessarily severe.
   Non-Urgent—A condition which does not require the immediate resources of an emergency medical services system; such a disorder is minor or non-acute.
5. Use SF 522, Request for Administration of Anesthesia and for Performance of Operations and Other Procedures, to obtain authorization for any necessary procedures.
6. Enter in "condition upon release" block patient's overall condition (i.e., good, fair, stable, seriously ill, very seriously ill), and how patient left Emergency Room (i.e., wheelchair, stretcher, ambulatory).
7. Have patient or person accompanying patient sign form. This signature *only* acknowledges that instructions were given to patient.
8. Give "Patient's Copy", containing instructions, to patient, sponsor (NOK) or person accompanying patient, except when patient is admitted.
9. File original in patient's treatment record (i.e., Military Health Record, Outpatient Treatment Record or Inpatient Record) as applicable.
10. Establish a treatment record for any patient who does not have a record. File and maintain treatment record in accordance with appropriate directives.

34. ADDITIONAL REMARKS *(Show item number to which extended entry applies. Group all continuations of a particular item)*

INSTRUCTIONS FOR ITEM 23: Enter primary cause of admission first, followed by additional diagnoses present in order of importance; then by later diagnoses in chronological order preceded by dates made. Number diagnoses in order. Record fully--including causative agent, how, when, where, doing what, for injuries--in accordance with separate directives. For all diagnoses established by pathological findings, so state. Each chronic condition must be indicated as either "PR" *(previously recorded)* or "Not PR". Similarly, any other condition which has been recorded in a previous admission will be so indicated, showing the previous diagnosis. In all cases designated as previously recorded, show place, date, and register number of previous admission. Every condition that existed prior to service will be indicated as "EPTS." Diagnoses of veneral disease and malaria will be characterized either as "EPTS" or as "Not EPTS." In the case of diagnosis from which recovery occurs prior to disposition of the case, a date will be shown, thus: "Recovered, 11 May 1951." For each diagnosis line of duty status must be shown in accordance with separate directives, thus: "LD, No, EPTS," "LD, No, Misconduct," "LD, Yes, EPTS, Aggravated by Service," etc.

CHIEF COMPLAINT:
This 22 year old Caucasian A2C was admitted to USAH, Wurzburg, on 10 April 1966 with a chief complaint of sore throat.

HISTORY OF PRESENT ILLNESS:
Patient was admitted with a 3 day history of fever, swelling of the glands in the neck and sore throat. In addition patient had a copious yellowish nasal drainage.

This patient was hospitalized at the USAH, Wurzburg, from 28 March 1966 to 4 April 1966 for his first time, because of an upper respiratory infection associated with neck stiffness. At that time he had a spinal tap which was normal, but was followed by a post-spinal headache. At the present time patient has no headache. Because of the tonsillitis and fever patient was admitted to the hospital.

PAST MEDICAL HISTORY AND REVIEW OF SYSTEMS:
Not contributory to the present illness. Patient denies allergies.

PHYSICAL EXAMINATION:
An alert, febrile Caucasian male who appears in some acute distress. Temperature 101 degrees. The neck is supple. There is tender anterocervical adenopathy. A purulent tonsillitis is present. Lungs clear to auscultation and percussion. Heart regular sinus rhythm with no murmurs. The abdomen is soft with no enlargement of the spleen or the liver. There is no rash.

LABORATORY DATA:
White blood cell count 13,200 with 56 % lymphocytes and 5 % atypical lymphocytes. Hematocrit 46 % with a sedimentation rate of 18. Urinalysis was normal. Throat culture revealed normal flora. Serology non-reactive. Heterophile titer 1:896; with absorption by beef cell antigen no titer and after absorption by guinea pig antigen 1:448. Transaminase 31 units with a bilirubin of 0.38 mg%. Repeat CBC on 19 April 1966 was 12,000 with 55 % lymphocytes and a sedimentation rate of 28, hematocrit of 45 %. The blood morphology was normal. Transaminase on 19 April 1966 was 192 units with a bilirubin of 0.38 mg%. Culture of nasal drainage revealed only a few staph epidermidis.
Chest x-ray normal. X-ray of the paranasal sinuses revealed mucosal membrane thickening in the maxillary sinuses bilaterally. The swelling of the mucosa in the right maxillary sinus is cystic.

Electrocardiogram is normal.

34. ADDITIONAL REMARKS *(Show item number to which extended entry applies. Group all continuations of a particular item)*

INSTRUCTIONS FOR ITEM 23: Enter primary cause of admission first, followed by additional diagnoses present in order of importance; then by later diagnoses in chronological order preceded by dates made. Number diagnoses in order. Record fully--including causative agent, how, when, where, doing what, for injuries--in accordance with separate directives. For all diagnoses established by pathological findings, so state. Each chronic condition must be indicated as either "PR" *(previously recorded)* or "Not PR". Similarly, any other condition which has been recorded in a previous admission will be so indicated, showing the previous diagnosis. In all cases designated as previously recorded, show place, date, and register number of previous admission. Every condition that existed prior to service will be indicated as "EPTS." Diagnoses of veneral disease and malaria will be characterized either as "EPTS" or as "Not EPTS." In the case of diagnosis from which recovery occurs prior to disposition of the case, a date will be shown, thus: "Recovered, 11 May 1951." For each diagnosis line of duty status must be shown in accordance with separate directives, thus: "LD, No, EPTS," "LD, No, Misconduct," "LD, Yes, EPTS, Aggravated by Service," etc.

CLINICAL RECORD	NARRATIVE SUMMARY	
DATE OF ADMISSION	DATE OF DISCHARGE	NUMBER OF DAYS HOSPITALIZED
28 March 1966	4 April 1966	7 days

(Sign and date at end of narrative)

CHIEF COMPLAINT:
This 22 year old Caucasian male A2C with 2 yrs 3 mos military service was admitted to the USAH, Wurzburg on 28 March 1966 because of headache of three days duration.

PRESENT ILLNESS:
The patient three days previous to admission had the onset of headache, fever, chills, sore throat and dry cough. On the day of admission, the patient noted that he had some neck stiffness. He denies diarrhea, vomiting, joint pain, rash or earache.

PAST MEDICAL HISTORY:
Repair of tendons and ligaments around the left patella. No allergies.

SYSTEM REVIEW:
Non-contributory to the present illness.

PHYSICAL EXAMINATION:
Temperature 102.6. An alert, Caucasian male who appears to be in some acute distress. There is some stiffness to forward flexion of the neck. There is no cervical adenopathy. Fundoscopic examination is normal. Examination of the ears, nose and throat is negative. The lungs are clear to auscultation and percussion. Heart - regular sinus rhythm with no murmurs; normal heart size. The abdomen is soft with no enlargement of spleen or liver.

LABORATORY DATA:
WBC 8,400 with 72% neutrophils and normal lymphocytes, with hematocrit of 48% and a corrected sedimentation rate of 17 mm/hr. Urinalysis is normal. Throat culture revealed normal flora. Serology was non-reactive.

Spinal fluid revealed the following: Clear, colorless fluid with no cell count, negative culture, negative serology, sugar 76 mg% and total protein 10.2 mg%.

Chest x-ray was normal.

HOSPITAL COURSE:
The patient remained febrile during the first three days of hospitalization. Shortly after admission, a lumbar puncture was performed which revealed a normal spinal fluid with an opening pressure of 170 ml. The patient's malaise, sore throat and neck stiffness gradually disappeared. The clinical course was complicated by a post-spinal headache. He was returned to duty on the eighth hospital

MEDICAL RECORD — CONSULTATION SHEET

REQUEST

TO: Environmental Health Services

FROM: (Requesting physician or activity) Dental Clinic

DATE OF REQUEST 30 Oct 89

REASON FOR REQUEST (Complaints and findings)

This patient reports for routine dental treatment, with history of hepatitis. Please evaluate and advise as to infectious status.

PROVISIONAL DIAGNOSIS

DOCTOR'S SIGNATURE	APPROVED	PLACE OF CONSULTATION	
		☐ BEDSIDE ☐ ON CALL	☐ ROUTINE ☐ TODAY ☐ 72 HOURS ☐ EMERGENCY

CONSULTATION REPORT

DATE

Patient was diagnosed with a blood-borne (or) respiratory communicable disease and is now considered non-infectious.

PRIVACY ACT STATEMENT – HEALTH CARE RECORDS

THIS FORM IS NOT A CONSENT FORM TO RELEASE OR USE HEALTH CARE INFORMATION PERTAINING TO YOU

1. AUTHORITY FOR COLLECTION OF INFORMATION INCLUDING SOCIAL SECURITY NUMBER *(SSN)*

Sections 133, 1071-87, 3012, 5031 and 8012, title 10, United States Code and Executive Order 9397.

2. PRINCIPAL PURPOSES FOR WHICH INFORMATION IS INTENDED TO BE USED

This form provides you the advice required by The Privacy Act of 1974. The personal information will facilitate and document your health care. The Social Security Number (SSN) of member or sponsor is required to identify and retrieve health care records.

3. ROUTINE USES

The primary use of this information is to provide, plan and coordinate health care. As prior to enactment of the Privacy Act, other possible uses are to: Aid in preventive health and communicable disease control programs and report medical conditions required by law to federal, state and local agencies; compile statistical data; conduct research; teach; determine suitability of persons for service or assignments; adjudicate claims and determine benefits; other lawful purposes, including law enforcement and litigation; conduct authorized investigations; evaluate care rendered; determine professional certification and hospital accreditation; provide physical qualifications of patients to agencies of federal, state, or local government upon request in the pursuit of their official duties.

4. WHETHER DISCLOSURE IS MANDATORY OR VOLUNTARY AND EFFECT ON INDIVIDUAL OF NOT PROVIDING INFORMATION

In the case of military personnel, the requested information is mandatory because of the need to document all active duty medical incidents in view of future rights and benefits. In the case of all other personnel/ beneficiaries, the requested information is voluntary. If the requested information is not furnished, comprehensive health care may not be possible, but CARE WILL NOT BE DENIED.

This all inclusive Privacy Act Statement will apply to all requests for personal information made by health care treatment personnel or for medical/dental treatment purposes and will become a permanent part of your health care record.

Your signature merely acknowledges that you have been advised of the foregoing. If requested, a copy of this form will be furnished to you.

I am aware of the restrictions governing the wear of contact type lenses while on flying status and certify that I will not wear contact lenses for the entire duration of the time I am on flying status established by aeronautical orders. I fully realize the hazard to flying and personal safety that may arise should the lens be worn and that use of contact lens is basis for removal from flying status.

Electromyogram Laboratory Report

NAME Hopkins, Marshall EMG# 092-14,190 DATE 9-21-92

AGE 47 SEX Male REFERRING PHYSICIAN: Daniel A. Sollee, D.C.

HOSPITAL

ELECTROMYOGRAPHIC STUDIES:

Right supraspinatus - Normal insertional activity. No abnormal spontaneous activity. Normal motor unit potentials and firing pattern.

Infraspinatus, deltoid, biceps, triceps, brachioradialis, pronator teres, first dorsal interosseous and abductor pollicis brevis - Same as supraspinatus - Normal.

C4-5, C5-6, C6-7 and C7-T1 paraspinals - Normal insertional activity. No abnormal spontaneous activity.

INTERPRETATION:

Right median distal motor latency is prolonged absolutely and relative to the left median and right ulnar values, muscle action potential amplitudes are reduced above the carpal tunnel and normal below indicating some motor conduction block across the carpal tunnel, motor nerve conduction velocity is normal. F-wave latency is prolonged compared to the left median and right ulnar values. Sensory latency is borderline with normal amplitude.

Left median motor and sensory latencies and amplitudes and F-wave latency are normal.

Right ulnar motor latencies and amplitudes, motor nerve conduction velocities across and below the elbow and F-wave latency are normal. Sensory latency is mildly prolonged with normal amplitude.

Left ulnar sensory latency and amplitude are normal.

Right radial sensory latency and amplitude are normal.

Needle exam of selected proximal and distal muscles of the right shoulder and upper extremity and the C5-T1 myotomes, including the corresponding paraspinal segments, is normal.

COMMENT:

There is electrophysiologic evidence of right carpal tunnel syndrome with motor conduction block across the carpal tunnel. There is also mild ulnar sensory neuropathy at the wrist. There is no specific electrophysiologic evidence of cervical radiculopathy.

HOPKINS, MARSHALL (#97[redacted])

OFFICE NOTE

September 21, 1992

I saw Marshall Hopkins again today. Cervical MRI scan showed only some bulging and mild hypertrophic changes in the uncovertebral joints at C5-6 without any significant foraminal stenosis. X-rays showed minimal narrowing of the disc space at C5-6. Thoracic x-rays were normal except for some minimal left-sided curvature of the thoracic spine.

EMG and nerve conduction studies of his neck and upper extremities today showed right carpal tunnel syndrome with some motor conduction block across the carpal tunnel and there is also mild ulnar sensory neuropathy at the wrist. There was no evidence of cervical radiculopathy.

His current chief complaint is the recurrent burning pain in his right mid to lower thoracic paraspinal region, that flares up when he uses his arms elevated and particularly when he uses them overhead. He finds, for instance, driving his large truck with a horizontal steering wheel will within a couple of hours cause a flare-up of the burning pain, as will prolonged walking. There is some tenderness in the right lower mid-thoracic paravertebral region; local therapy to this region with ultrasound, etc., has not been helpful. It sounds as though he may have some intermittent thoracic nerve root irritation related to his myofascial injuries and I think a series of diagnostic and therapeutic nerve blocks in this region would be beneficial for him. He would like to proceed with this so I will set up an appointment for him to see one of the anesthesiologist and he will give me a progress report when the blocks have been accomplished.

William R. Seybold, M.D.

MAGNETIC RESONANCE IMAGING
OF COLORADO

September 11, 1992

NAME: HOPKINS, Marshall
AGE: 48
SS. NO.:
ID. NO: 91-435
REF. M.D.: William R. Seybold, M.D.

EXAM DATE: September 10, 1992

ANATOMICAL AREA: MRI OF THE CERVICAL SPINE

CLINICAL: Neck injury. Pain/paresthesias in neck radiating into the right hand and interscapular area.

TECHNIQUE: MRI evaluation of the cervical spine was performed without contrast (gadolinium-DTPA). Images were generated in the sagittal and axial planes using T2-weighted, T1-weighted and intermediate pulse sequences. 3D images were processed using the ViStar imaging supercomputer. There is motion artifact on the axial T1-weighted images.

FINDINGS: The overall shape and volume of the cervical spinal canal is within normal limits. The spinal cord is well delineated, and there are no signs of spinal cord mass, syrinx or other intrinsic cord abnormality. At C5-6 there is bulging of the anulus fibrosus causing indentation of the ventral margin of the thecal sac. There is minimal hypertrophic change in the uncovertebral joints. There is no significant foraminal stenosis. There is possible mild left-sided facet joint arthritis. The other intervertebral discs appear normal. The lateral recesses and foramina are patent. The craniovertebral junction is normal.

OPINION:

1. There is disc bulging at C5-6 causing indentation of the thecal sac, but there is no evidence of spinal cord or nerve root compression. There is probable mild arthritic change in the uncovertebral joint and in the left facet joint.

John L. Sherman, M. D.
Neuroradiologist

AGE: 49
ID. NO.: 41202
REF. M.D.: William R. Seybold, M.D.
EXAM DATE: 9/8/92

ANATOMICAL AREA: CERVICAL SPINE COMPARISON FILMS

FINDINGS: Comparison of the September 8, 1992 cervical spine study to a previous exam dated January 4, 1991. There is mild disk narrowing at the C5-6 level on the January 1991 study. Allowing for slight technical differences, there has been no interval change in the appearance of the disk narrowing.

EXAM DATE: 9/8/92

ANATOMICAL AREA: THORACIC SPINE

FINDINGS: AP and lateral views of the thoracic spine were obtained. The vertebral bodies, pedicles, and posterior elements are intact. There is minimal curvature of the upper thoracic spine. There is no evidence of abnormal lordotic or kyphotic curvature. There are no signs of compression fracture. The paraspinal soft tissues are normal.

IMPRESSION: Normal, except for minimal left-sided curvature of the upper thoracic spine.

HOPKINS, MARSHALL (#972

OFFICE NOTE September 8, 1992

I saw Marshall Hopkins again today for the first time since April. He say Dr. Jack Klapper in Denver and Dr. Klapper felt that his headaches might have a cervical origin. He thus recommended home traction and the patient says that this has been remarkably effective in controlling and preventing the headaches and face pain and also the facial tic. He is back to see me today for an increasing problem with pain in the lower neck and interscapular region, present since the auto accident, but not as prominent until the past few months. He says that there is a constant burning discomfort in the right thoracic paravertebral level that enlarges with arm activities. Recently, for the first time, an area enlarged enough that it spread up into the neck and he experienced a tingling and loss of sensation in his right hand. This occurred last weekend while he was doing some overhead work at his home and he found that when he tried to hammer to pound a nail that his hand was numb enough that he could not effectively hold the hammer. He rested and relaxed and sensation returned to his hand as the pain in the neck and interscapular region receded back to its baseline level. He says that the cervical traction that he has used to control the headaches has not helped the interscapular pain.

Examination today shows normal strength and sensation in his upper extremities. There is tenderness over the paraspinal muscles at about the T6 level on the right side. There is no tenderness over the thoracic outlet on either side. There is restriction of cervical range of motion and there is particular discomfort on extension and bending to the right, though this does not cause any pain radiating to the right arm. He does have a mildly positive Tinel's sign at both wrists with negative Phalen's.

It sounds as though he has lower cervical or upper thoracic radicular irritation, the symptoms dating back to the cervical whiplash injury in an auto accident in January 1991. This suggests the possibility of a cervical disc herniation wit intermittent nerve root compression and I will investigate this with an MRI scan of the cervical spine. I will also plan a current set of cervical and thoracic spine x-rays, to be compared to the ones done right after the accident in January 1991.

I will see him again when the results are available and plan electrophysiologic studies of his right upper extremity to look for evidence of nerve root injury versus brachial plexopathy as a source for his right arm paresthesias and hand numbness.

William R. Seybold, M.D.

ID. NO.: 41202
REF. M.D.: William R. Seybold, M.D.
EXAM DATE: 9/8/92

ANATOMICAL AREA: CERVICAL SPINE

FINDINGS: There is slight disk narrowing at C5-6, but there is no evidence of osteophyte formation or spondylosis. Oblique views reveal no evidence of foraminal stenosis. The uncovertebral joints are normal. The odontoid process and atlanto-axial relationships are normal.

IMPRESSION: There is minimal narrowing of the C5-6 intervertebral disk. No other abnormalities are demonstrated. This may represent chronic or recent disk disease.

DR. M. V. CHRISTIANSEN

August 12, 1992

AUG 17 1992

TO WHOM IT MAY CONCERN:

I am writing in regards to my treatment of Mr. Marchall Hopkins.

Mr. Hopkins came into my office because of any injury sustained in an auto accident where he suffered upper spinal and neck problems.

We have been treating Mr. Hopkins for the last 8 months because of these problems. We have found that there has been sufficient change in the Cervical spine especially since his receiving a Cervical Traction unit. We have been able to reduce the Muscle Spasm and Neuritis of the upper spine on the right but it only lasts for up to a week and then returns.

I realize that Mr. Hopkins has received 2 other M.R.I.'s. The first was of the head area. The second was also of the head and down to T2 area. Neither of these M.R.I.'s covers the area of my concern.

I am therefore requesting that he get another M.R.I. with the main area of concern between T2 thru T8, especially on the right.

Sincerely,

Dr. Michael V. Christiansen, D.C.

Dr. Michael V. Christiansen D.C.

MAGNETIC RESONANCE IMAGING
OF COLORADO

January 16, 1992

NAME: HOPKINS, Marshall
AGE: 48
(b) (6) [redacted]
(b) (6)
ID. NO: 91-435
REF. M.D.: William R. Seybold, M.D.

EXAM DATE: January 14, 1992

ANATOMICAL AREA: MRI OF THE BRAIN WITH EMPHASIS ON THE POSTERIOR FOSSA WITH AND WITHOUT GADOLINIUM-DTPA (MAGNEVIST).

TECHNIQUE: MRI evaluation of the brain with emphasis on the posterior fossa was performed using T2-weighted, T1-weighted and intermediate pulse sequences. Image section thickness varied from 3.5-6.0 mm.

FINDINGS: T2-weighted images reveal a few nonspecific punctate areas of increased intensity in the cerebral white matter. There is no evidence of abnormal signal intensity in the brain stem or cerebellum. The ventricles are normal in size and shape. The ganglionic segments of the trigeminal nerves were clearly visualized bilaterally, and there is no evidence of abnormal enhancement following contrast administration. The cavernous sinuses are normal. Postcontrast screening images revealed no other evidence of abnormal intra-axial or extra-axial enhancement in the supratentorial or infratentorial compartments.

MR angiography was performed through the posterior fossa but revealed no evidence of aneurysm or vascular malformation.

OPINION:

1. There are a few nonspecific punctate white matter lesions in the brain. These are probably not clinically significant. There is no evidence of brain stem or cerebellar abnormality.

2. Evaluation of the trigeminal nerves reveals no abnormality on pre or postcontrast images.

3. Limited MR angiography through the posterior fossa reveals no evidence of aneurysm or dolichoectasia.

John E. Sherman, M. D.
Neuroradiologist

HOPKINS, MARSHALL (#97239)

OFFICE NOTE January 15, 1992

I saw Marshall Hopkins again today. MRI brain scan appears normal to me; I will await Dr. Sherman's report for a final analysis.

He feels that the physical therapy/traction for his neck has been quite helpful in relieving the tightness and soreness. He will use a home unit and give me a progress report in a few weeks.

William R. Seybold, M.D.

WRS:vsr

OFFICE NOTE April 1, 1992

I saw Marshall Hopkins again today. He has continued to have recurrent headaches, with pain shooting into the right eye as well as right-sided headache. I recommended a trial of Ergostat, but he cannot take this medication without losing his flight status which he needs for his job.

At this point I am not really sure where to turn, since he really cannot take most of the usual migraine medications. I have recommended another consultation with Dr. Jack Klapper, headache specialist in Denver, and Mr. Hopkins would like to pursue this. I will set up an appointment for him to see Dr. Klapper in the near future.

He does tell me today that he had an ophthalmologic examination by Dr. Richard Wetzig because of the eye pain and no abnormalities were found.

William R. Seybold, M.D.

HOPKINS, MARSHALL (#97239)

OFFICE NOTE

January 8, 1992

I saw Marshall Hopkins again today for the first time since last June. He had complete resolution of his right facial muscular tic shortly after I saw him and had no further symptoms until November when he developed recurrent shooting pain into his right cheek and jaw. This was consistently triggered by pressure over his face, such as with shaving or even chewing and he was seen at Peterson Field where a diagnosis of tic douloureux was entertained. A trial of Naprosyn for a couple of weeks did not offer any benefit and it was recommended that he come back for another neurologic look. Since then his symptoms have again subsided; they were prominent for about a month before they resolved over the last couple of weeks. He now has had symptoms of cranial nerve irritation in two different nerve territories, initially the right facial nerve, and now the right trigeminal nerve. In the context of the injury I suspect that there may be some correlation here and he needs another MRI brain scan to look for a symptomatic lesion. This will be done with angiography to see if we can identify a vascular enlargement that might be causing compression of the right trigeminal and (earlier facial).

He still has prominent posterior headaches that are particularly bothersome late in the day with associated neck stiffness. He feels that he can stretch his neck and relieve the pain and this makes me think that a course of physical therapy with setting up a home exercise program might be beneficial.

He switched chiropractic treatments to Dr. Christiansen who is doing only chiropractic adjustment, which he also finds helpful.

I will see him again when we get the MRI brain scan report and he will also give me a progress report about the physical therapy at that time.

If the tic douloureux symptoms recur then I will give him a trial of Tegretol, but at this point he hopefully is in spontaneous remission.

William R. Seybold, M.D.

MEDICAL RECORD

REQUEST FOR ADMINISTRATION OF ANESTHESIA AND FOR PERFORMANCE OF OPERATIONS AND OTHER PROCEDURES

A. IDENTIFICATION

1. OPERATION OR PROCEDURE

IVP (INTRAVENOUS PYELOGRAM)

B. STATEMENT OF REQUEST

1. The nature and purpose of the operation or procedure, possible alternative methods of treatment, the risks involved, and the possibility of complications have been fully explained to me. I acknowledge that no guarantees have been made to me concerning the results of the operation or procedure. I understand the nature of the operation or procedure to be

(Description of operation or procedure in layman's language)

INJECTION OF DYE (RENO-60 OR ISOVUE-300) INTO THE VEINS FOR THE VISUALIZATION OF THE KIDNEYS, URETERS, AND URINARY BLADDER.

which is to be performed by or under the direction of Dr. BEHRMANN PARTINGTON BEETLESTONE McFARLAND

2. I request the performance of the above-named operation or procedure and of such additional operations or procedures as are found to be necessary or desirable, in the judgment of the professional staff of the below-named medical facility, during the course of the above-named operation or procedure.

3. I request the administration of such anesthesia as may be considered necessary or advisable in the judgment of the professional staff of the below-named medical facility.

4. Exceptions to surgery or anesthesia, if any, are: None

(If "none", so state)

5. I request the disposal by authorities of the below-named medical facility of any tissues or parts which it may be necessary to remove.

6. I understand that photographs and movies may be taken of this operation, and that they may be viewed by various personnel undergoing training or indoctrination at this or other facilities. I consent to the taking of such pictures and observation of the operation by authorized personnel, subject to the following conditions:

a. The name of the patient and his/her family is not used to identify said pictures.
b. Said pictures be used only for purposes of medical/dental study or research.

(Cross out any parts above which are not appropriate)

C. SIGNATURES *(Appropriate items in Parts A and B must be completed before signing)*

1. COUNSELING PHYSICIAN/DENTIST: I have counseled this patient as to the nature of the proposed procedure(s), attendant risks involved, and expected results, as described above.

Rudy A. Rosello M.D.
(Signature of Counseling Physician/Dentist)

2. PATIENT: I understand the nature of the proposed procedure(s), attendant risks involved, and expected results, as described above, and hereby request such procedure(s) be performed.

Maria Jandra R.T. — (Signature of Witness, excluding members of operating team)

Marshall H. Hopkins — (Signature of Patient) — 910715 (Date and Time)

3. SPONSOR OR GUARDIAN: (When patient is a minor or unable to give consent) I, _____ sponsor/guardian of _____ understand the nature of the proposed procedure(s), attendant risks involved, and expected results, as described above, and hereby request such procedure(s) be performed.

(Signature of Witness, excluding members of operating team) — (Signature of Sponsor/Legal Guardian) — (Date and Time)

RE: HOPKINS, MARSHALL
CLINIC #97239

Dear Dr. Sollee:

I saw Marshall again today for the first time since April. After I last saw him he elected to put off trying the medication, waiting for spontaneous remission and indeed this occurred after a few weeks. He had no further headaches or facial muscle twitching until about two weeks ago when it recurred for a couple of days, but has again completely resolved.

It does not appear at this point that he is developing any facial spasm syndrome, and I have expressed optimism that these post traumatic symptoms have cleared and will remain in remission.

I plan to see him again on a regular basis, but I have asked him to come back to see me, for another look, if the symptoms recur for more than a couple of days.

Sincerely,

William R. Seybold, M.D.

RE: Hopkins, Marshall

Dear Dr. Sollee,

I saw Marshall Hopkins again today. The MRI brain scan was normal.

He has continued to have the right-sided headaches on a daily basis, as often as three or four times a day and lasting up to an hour each time. He has also had more frequent episodes of twitching of the right eye and today I can actually see some muscle twitching in his lower eyelid. There is no actual movement of the eyeball itself. He had another episode of numbness around the right eye that lasted seven minutes, by his timing.

I think the recurrent right-sided headache and numbness around the right eye is most likely a post traumatic migraine-like syndrome, associated with some muscle tic of his orbicularis oculi or perhaps he also is developing a post traumatic "hemifacial spasm" problem.

To test the migraine possibility, I recommended a trial of migraine prophylaxis with Inderal, 120 mg LA, each day. I gave him samples for a couple of weeks and told him to look out for side effects, such as tiredness and depression. If he doesn't have any side effects he'll give the medication a full month's trial.

He will keep a diary of headache, numbness and eye twitching episodes and I'll see him again, for follow-up, in about a month. I'll send you another note at that time.

Sincerely,

William R. Seybold, M.D.

MAGNETIC RESONANCE IMAGING
OF COLORADO

April 15, 1991

NAME: HOPKINS, Marshall
AGE: 47
SS. NO.:
ID. NO.: 91-435
REF. M.D.: William R. Seybold, M.D.

Dr. Sollee, D.C.

EXAM DATE: 4/12/91

ANATOMICAL AREA: Brain

CLINICAL DATA: This 47-year-old man has had post-traumatic headaches.

TECHNIQUE: The current scan was performed on the 0.5 Tesla MRI scanner. Axial and coronal dual-echo images were obtained with slice thickness of 7 mm and axial and sagittal T1-weighted images were obtained at a slice thickness of 7 and 4 mm respectively.

FINDINGS: The brain parenchyma is normal. Specifically, there is no abnormality of the grey or white matter. The midline is conserved. The ventricular system is of normal size and contour. The brain stem is not displaced. The temporal tips and subfrontal regions are quite unremarkable.

The course and caliber of the major cerebral arteries are normal. The cerebellopontine angles are normal. The craniovertebral junction is normal. The pituitary is normal.

The orbits are quite unremarkable. The paranasal sinuses, however, reveal a retention cyst or a polyp in the floor of the right maxillary sinus. To a lesser extent there is increased T2 signal in the floor of the left maxillary sinus.

IMPRESSION: This MRI scan of the brain is normal. Incidentally noted is bilateral maxillary sinus disease, right greater than left.

Interpreted by: Randall J. Bjork, M.D.

RE: Hopkins, Marshall

Dear Dr. Sollee,

I saw your patient, Marshall Hopkins, for neurologic evaluation today. As you know, he is a 47-year-old man, currently on active duty in the U.S. Air Force Reserve, who was injured in an auto accident on 4 January 1991. He was driving and was stopped at a crosswalk, when he was rear-ended by another vehicle. This produced a strong impact, strong enough to break his seat backwards, and his cap was knocked off, though he was not knocked out. The collision pushed his car 22' feet forward and into a car in front of him and this snapped him back forward again. He, fortunately, was wearing a seat belt and was restrained from hitting the steering wheel or windshield, but says he did feel his neck snap, with immediate pain.

He did not seek medical attention at the time and over that weekend the neck pain persisted and he developed a headache, particularly behind his right eye. He began chiropractic treatments under your care the following week and has continued them to present, with essentially complete resolution of his neck pain and stiffness. He still, however, has a persistent pressure headache behind his right eye and, over the past month, has noted recurrent twitching around and involving his right eye which has been worse over the past couple of weeks. At this point it has actually begun to interfere with his vision and he has some oscillopsia associated with the muscle twitching. The muscle jerking tends to occur when his headache is somewhat worse and lasts a couple of minutes at a time. Last week, for the first and only occasion, he had an approximate 15 minute episode of numbness in his right lateral periorbital region. He has not had any extremity symptoms, any other visual symptoms or problems with cerebral function or speech.

INSTRUCTIONS FOR COMPLETION OF THE EMERGENCY CARE AND TREATMENT FORM

NOTE: This form will be used to record all care rendered to patients in the Emergency Room and will be used in lieu of ***all*** locally prepared emergency room forms. This form is not a substitute for line of duty, accident/injury or third party liability forms, but it may be used as a basis for completing those forms.

1. Complete form for each patient entered on Emergency Room Log.
2. Complete all parts of form.
3. Enter patient's log number from Emergency Room Log.
4. Check appropriate condition in "category" block based on following definitions:
   Emergent—A condition which requires immediate medical attention and for which delay is harmful to the patient; such a disorder is acute and potentially threatens life or function.
   Urgent—A condition which requires medical attention within a few hours or danger can ensue; such a disorder is acute but not necessarily severe.
   Non-Urgent—A condition which does not require the immediate resources of an emergency medical services system; such a disorder is minor or non-acute.
5. Use SF 522, Request for Administration of Anesthesia and for Performance of Operations and Other Procedures, to obtain authorization for any necessary procedures.
6. Orders: Provider enters orders; i.e., CBC, UA, etc. The person completing the action enters the time and his/her initials at the time of completion.
7. Give "Patient's Copy", containing instructions, to patient, sponsor (NOK) or person accompanying patient, except when patient is admitted.
8. File original in patient's treatment record (i.e., Military Health Record, Outpatient Treatment Record or Inpatient Record) as applicable.
9. Establish a treatment record for any patient who does not have a record. File and maintain treatment record in accordance with appropriate directives.

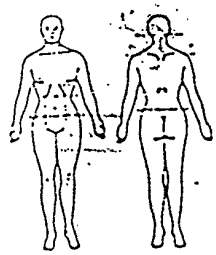
Marshal Hoplins 4/1/91
Patient presents with improved symptomatology overall, however he still has the pain and pressure behind the right eye with the headaches. Patient states that he is somewhat concerned about this and he has not been able to get in for treatments due to his work schedule. I suggested today to send him to a neurologist for a workup and he agrees. He will be seeing Dr. Seybold at Colorado Springs Neurological Associates and will report back to us. Patient does have paraspinal muscle spasms and continues to have pain on flexion and extension and cervical compressions are also positive. He adjusted well, RTC after his evaluation.

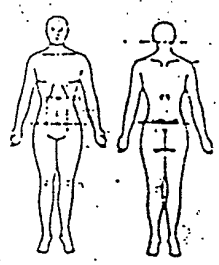
S TUT TEX



MAY 24 1991

Marshal Hopkins 5/24/91
Patient presents to the clinic today with severe headache and pain between the right eye along with some muscle twitching around that area. He also has cervical spine pain and pain in the thoracic spine and both shoulder girdles. Patient states that he has been out of town since his last visit and because of his schedule he has not been able to see us. He also estimates that he may leave for 3 weeks for Japan. Told patient to get in when his schedule allowed him and he agreed. We did receive a note from Dr. Seybold on his condition and he is following up his examination with an MRI. Patient adjusted well. Patient states that he gets much relief from the treatments and is pleased with our care and will return when he can.

S TUT TEX



Note: Dr. Seybold states in his letter that it is his opinion that the recurrent headache and numbness around the right eye are most likely post traumatic migraine like syndrome associated with a muscle tic of the orbicularis oculi or perhaps he is also developing a post traumatic hemifacial spasms problem.

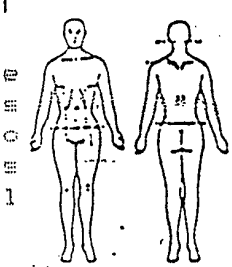
cervical compression. He adjusted well, RTC PRN

DATE AUG 02 1991 EX LAB MAT XRY (SA) (VB) (THP) (TUS) TCP TI TES TUT TEX

Marshal Hopkins 8/2/91
Patient presents to the clinic today stating he continues to have some problems with his headache and they seem to be worse this week than last week. He does think that they are proportional to his work activities which tend to aggravate his condition. He is doing his ROM stretching exercises, he adjusted well, and will continue to be on a PRN basis.



BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

He denies any past history of neck injury or headaches and has never had any ocular symptoms such as the present symptoms before. He says he's always been in good health. He's had intermittent chiropractic treatments off and on over the years for minor low back pain, but says he hasn't had any treatment of any kind in the past couple of years.

On exam he's alert, pleasant and cooperative, with normal speech and mental status. Cranial nerve exam shows normal pupil light and Neer reaction, normal extraocular movements and facial and trigeminal motor function. There is relative hyperesthesia over his right periorbital and temple region. Lower cranial nerves are unremarkable. Motor, sensory, reflex, coordination and gait exams are normal. Neck has normal range of motion, without discomfort. There is no scalp tenderness. Funduscopic exam is normal and visual fields are full to confrontation.

The persistent post traumatic discomfort behind his right eye and recurrent muscle twitching producing some oscillopsia suggests that there may be some sort of retro-orbital lesion made symptomatic by this injury and I'll investigate this with an MRI brain scan. It would appear that his cervical myofascial injuries have essentially fully recovered at this point under your care.

I'll see him again when the MRI results are available and will send you a follow-up note at that time.

Sincerely,

William R. Seybold, M.D.

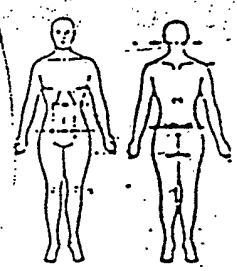
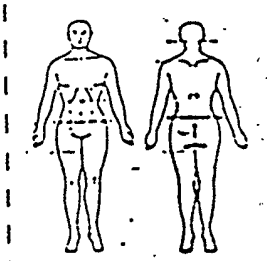
DATE 1/25/91 X-Ray Report EX LAB MAT XRY SA VB THP TUS TCP TI TES TUT TEX



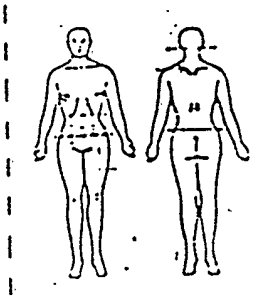
Marshal Hopkins 1/25/91
Patient presents to the clinic today with slightly improves symptomatology. Patient missed his appointment on Wed due to car trouble. Patient states that he has difficulty sleeping due to the pain and has difficulty doing his normal daily activities. Patient is doing ice at home which helps and stated that he was doing better after the first treatment. However the pain is still very intense. He does have active trigger points with an obvious cervical spine sprain and upper dorsal sprain. X-ray report was given to the patient and told the patient, who is concerned about pain and pressure behind the right eye, that if this didn't clear up in the relatively quickly, I would send him to a neurologist for a work up. Patient was given dos and don'ts for his condition. He adjusted well, RTC next week.

TES TUT TEX



Patient feels much relief after the treatments, however he feels the symptoms tend to build up again to the point where he had difficulty doing his daily activities. Patient does have positive Cervical Compression test and does have pain at end points of cervical ROMs. Reflexes are +2 and equal in both the upper and lower extremities. Patient adjusted well, RTC next week.

DATE FEB 4 1991 EX LAB MAT XRY SA VB THP TUS TCP TI TES TUT TEX



Marshall Hopkins 2/4/91
Patient presents to the clinic today with much improvment. however he still wakes at night due to the headaches. Patient states that he still continues to have pressure feeling behind the right eye with cervical spine pain and pain in the upper dorsal area. Patient does have paraspinal muscle spasms with pain at the end movment of all cervical ROMs. Again we talked about home exercises and stretching exercises that he could do to help his condition. Patient adjusted well, RTC on Fri.

CLINIC NOTE

Patient: Marshal Hopkins
Date of Examination: 1/21/91

Patient presents to the clinic today for examination and treatment for injuries he received in a motor vehicle accident on 1/4/91. Patient states that he was the driver of his car and he stopped at a stop sign at an intersection when another vehicle rearened him. It hit him hard enought to push him 22 feet out into the intersection into another car. Patient states that he did not see the car coming and the impact was so hard it caused the back of his seat to fold and break. He was wearing a seat belt and he was wearing a hat that was knocked off. He estimated that the car that rearened him was a large vehicle and traveling approximately 35-40 mph.

CHIEF COMPLAINTS

Patients major complaints are severe headaches with pressure behind the right eye, pain cervical spine bilaterally more intense on the left, pins and needles both hands especially when he wakes in the morning, pain in the mid back and between the shoulder blades. Patient states that his low back is OK and he denies any numbness or pins and needles in the lower extremities. Patient states that he went to Evans Army Hospital at 7:00 pm on the date of the accident. He was checked and released.

EXAMINATION

Neurological, orthopedic and physical examinations reveal the patient to have a blood pressure 129/85 with a pulse rate of 69. Heart and lungs are normal, with heighth of 6'2", weight of 185. General appearnce is good. Cervical ROMs reveal a 50% reduction in all directions with pain at end points in all directions. Reflexes are +2 and equal in both the upper and lower extremities bilaterally. Foramina Compression, Jackson Compression, Maximum Cervical Compression, and Cervical Distraction are postive bilaterally. Dejernes Triad is negative. Wartenberg pinwheel is negative in both the left and right upper extremity. Cranial nerves are also negative. Soto Hall is positive, while Laseques, Braggard, Fabere-Patrick, and Babinski are all negative. Dosolumbar ROMs are within normal limits with no pain at end points. Toe Walk, Heel Walk, and Kneps are also negative. There is pain, tenderness and spasms at the base of the occiput bilaterally all the way to T5 bilaterally. Patient was given some instructions in home care and ice, with ROM stretching exercises and some dos and don'ts for his particular condition. We are useing ice, moist heat and ultrasound on the patient and adjustments. Patient does have paraspinal muscle spasms with active trigger points and adjusted well, RTC for report and treatment in 2 days.

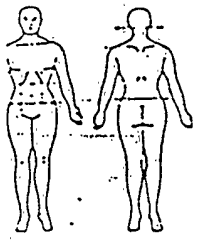
~~SPECIAL INSTRUCTIONS~~

Marshall Hopkins 2/8/91

Patient presents with improved symptomatology. He continues to have the pain behind the right eye, however the frequency and intensity have decreased. Patient is encouraged about this, however I told him I was concerned about this symptom and I thought we should send him to a neurologist for a work up. He agrees with this however, he feels that at this time he does not have time to work it into his schedule. Patient does have paraspinal muscle spasms with spasms at the base of the occiput bilaterally and pain on cervical flexion and extension. Patient adjusted well, RTC next week.

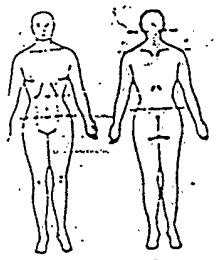
TUT TEX



Marshall Hopkins 2/22/91

Patient presents clinic today with improved symptomatology. Patient states that the reason he has not been in the last couple of weeks is because he has been out of town because he is in the air force reserves and he has been going all over the country. Patient feels he needs the treatments, however it is difficult with his air force schedule to come in when he needs to. Patient is doing his home exercises routine and stretching exercises and using moist heat and ice at home. He does have paraspinal muscle spasms with positive cervical compresssion and refles are +2 and equal in the upper and lower extremities. He adjusted well, RTC next week.

TUT TEX



EX LAB MAT XRY SA VB THP TUS TCP TI TES TUT TEX

Marshal Hopkins 2/27/91

Patient stated that he was supposed to have gotton sent for TDY for approximately 6 months, however they decieded not to do that. He did wake up this morning with a severe headache and it has lasted all day. Patient states that he is feeling much better over all, but he feels the stress of his job tends to aggravate his headaches and his cervical spine pain. Patient is doing his stretching exercises which do give him some relief, however he feels the treatment help also. Patient adjusted well, he is to return on a weekly schedule if his job commitment lets him.

MEDICAL EXAMINATION—FLYING PERSONNEL

(THIS FORM IS SUBJECT TO THE PRIVACY ACT OF 1974—USE BLANKET PAS-DD Form 2005)

INSTRUCTIONS

Items 1-12. Self explanatory.
Item 13. Flight Duty Performed—Enter rating and type of aircraft, for example, Pilot/KC-135, Radar Navigator/B-52.
Item 14. ASC—Enter current aviation service code from AFM 300-4, Vol 1.
Item 15. Total Flying Hours—Enter total flying hours since entry into aviation service.
Item 16. Total Flying Hours Last Six Months—Enter total flight hours during the last six months prior to this examination.
Item 17. Self-explanatory.
Item 18. Height—Record height to the nearest half inch or the nearest centimeter, with examinee in stocking feet.
Item 19. Weight—Weigh examinee in minimum clothing and record weight to the nearest pound or half of a kilogram.
Item 20. Visual Acuity—Record best uncorrected distant and near vision and best corrected distant and near vision.
Item 21. Auditory Acuity—Record pure bone threshold for each year at frequencies 500, 1000, 2000, 3000, 4000, and 6000 Hz.
Item 22. Type of Instrument Used—Record type of instrument used and its calibration standard.
Item 23. History and Remarks—Enter significant history since last complete medical examination and any other remarks the examining Flight Surgeon feels are pertinent.
Item 24 and 25. Self-explanatory.

LINE OF DUTY DETERMINATION (AFR 35-67)

AUTHORITY: 5 U.S.C. 2108, 3309 - 3315 and 8140; 10 U.S.C. 972(5), 1201 - 1221 and 8721 - 8722; 32 U.S.C. 318 - 319; 37 U.S.C. 802; 38 U.S.C. 310, 331, 610 and 612; Executive Order 9397.
PRINCIPAL PURPOSE(S): To determine if member's disease or injury was incurred in line of duty or not in line of duty.
ROUTINE USES: Used by the Air Force to determine eligibility for physical disability retirement or separation; lost time required to be made good; and forfeiture of pay for absence from duty owing to disease caused by intemperate use of alcohol or drugs. Used by the Veteran's Administration to determine eligibility for disability compensation or hospital benefits. Used by the Civil Service Commission to determine eligibility for veteran's preference. Used by the Labor Department to determine eligibility for compensation. Information may be reviewed by the base Ground Safety Office. SSAN is used only for identification purposes.
DISCLOSURE IS VOLUNTARY: Failure to provide information will result in this form being completed using other sources of information.

HEALTH RECORD | **CHRONOLOGICAL RECORD OF MEDICAL CARE**

DATE	SYMPTOMS, DIAGNOSIS, TREATMENT, TREATING ORGANIZATION *(Sign each entry)*
Peterson Clinic Aeromedical Services 12 Nov 85	S: [redacted] 43 yo WM reports 10 yr Hx of herpes simplex ordin. Historically lip lesions have been followed in 2-3 d by lesions beginning around the fingernails and progressing to hands and feet. These lesions begin as an erythematous red papule followed by eruption of a bullous with the center and finally degenerating into target lesions. The lesions are initially pruritic and then become painful. In the past these lesions were called called "Herpes Simplex" and treated c prednisone. Pt has had good response to steroids and on the past few years has been self medicating c a 3d course of steroids (dose?) with the appearance of a lip lesion. He has had no outbreak of the hand lesions since doing this. O: ulcerated lesion upper lip. Skin - clear A: 1) Herpes simplex ordin 2) Erythema multiforme 2° to hypersensitivity reaction to the herpes. Case discussed c Dr. Vandersel a dermatologist at the AFA who has seen several similar cases. It is very rare Pt's may or may not break out c EM c every

outbreak of herpes sx it is unclear whether pt has been aborting attacks by Rx inj expectantly or he is not having any at all.
In any case pt is on flying status and can not be taking steroids PRN. Based on pt's experience I would be inclined to give steroids today. However pt does not want to go DNIF and elects to begin steroids only at the first sign of E-multiforme.

P: Observe
If E-multiforme lesions appear begin prednisone 60 mg qd x 3d and taper off over 7-10d.

CONSULTATION REPORT

(b) (6) Laurence J. Adams, LtC, USAF, MC (b) (6) (R9576) USAFA Hosp

S: Pt's typical intake, food preferences, intolerances were noted.
Significant findings from basic assessment of dietary intake are as follows: Pt stated wants to lose ~ 15 lbs. in 2 months. Pt dose a lot of walking and lives and works on a farm.

O: 6'2" 50 y/o ♂ 200 lbs. IBW Range: 164-210 lbs. Records available. Reviewed food diary. Discussed Healthy Eating, Proper Weight loss, how to ↓ fat, exercise c Dr Approval, food Guide Pyramid Guidelines. Behavior Modification ↑Activity

A: Pt verbalized good understanding of the diet principles, and rationale. Pt demonstrated meal planning correctly. Pt's percent IBW 107 % Pt's diet seems inadequate in VitA, VitC, Grains. 2000 Calories would probably maintain pts current body wt. 1500 - 1800 Calories low fat Needed. c ↑Activity

P: Pt instructed on a Weight Reduction, ↓ fat diet. Principles and rationale of the diet were discussed. Provided the following handouts: AFP 1166-27 Behavior modification related to food, AFP 1166-10 Good Eating A Dieters Guide, Food Guide Pyramid Guidelines.
Recommend Pt decrease fat intake and increase - fruits, vegetables, and Grains. Encourage Pt to increase exercise c Dr Approval, and come to follow-up clinic. Provided Dietitians name and phone number for questions or follow up appointments.

RADIOLOGIC REPORT

20-7575, HOPKINS - UPPER GI SERIES WITH SMALL-BOWEL FOLLOW-THROUGH:

The esophagus has a smooth outline. A Schatzki's ring is demonstrated with a moderate-size, sliding-type hiatus hernia. A moderate degree of gastroesophageal reflux is seen. Stomach outline and contour are normal. Duodenal bulb fills well without evidence of ulceration. Small-bowel follow-through shows normal mucosal pattern and caliber throughout.

INTERPRETATION: Sliding hiatus hernia with moderate degree of gastroesophageal reflux; otherwise, normal upper GI series and small-bowel follow-through.

12. DETAILS OF ACCIDENT OR HISTORY OF DISEASE

MSgt Hopkins had a MVA on 4 Jan 91 while on military status. Since that time he has had chronic and recurring pain and insomnia. On 26 OCT 93, MSgt Hopkins brought in a pamphlet from his private neurologist (Attached) linking these symptoms with a trigger responce to a previous event such as a automobile accident. There is a gap currently in his medical records where no medical problems related to this condition were recorded from 4 Jan 94 to 25 NOV 91. During the 25 NOV 91 examination, Dr. Todaro questioned the cause and effect relationship between history and presentation. (over)

CONSULTATION - Dr Adams

Consult is at the request of Dr Ed Kimble, Flight Surgeon's Office, 302nd Medical Squadron, for Air Medical Evaluation and line of duty purposes.

HISTORY OF PRESENT ILLNESS: This is a 50-year old right handed white male who was well until 3 Jan 91. At that time he was involved in a motor vehicle accident in which his relatively small car was struck from behind and pushed into a car in front. Both the car behind and the car in front were somewhat larger. He suffered no obvious immediate injury, however, about 30 minutes later, he noted difficulty using language and felt somewhat dizzy. He was evaluated at Fort Carson and had a cervical spine x-ray which he was told was normal. He was discharged.

The next morning he was feeling well and did relatively well for about 2 weeks. At that time, he began to develop a headache. This headache was in his occiput, across his shoulder, and up into the back of his head. It remained relatively constant. It was associated with occasional mild nausea. He also at this time developed some low back pain, in the lumbar area, no radiation, no obvious weakness or numbness in his legs. There is no bowel or bladder problems. He did notice that this disappeared with activity.

About one month after the accident, he developed a pressure-like sensation behind his right eye. This would occasionally take on somewhat of a burning aspect and he noticed some photophobia in his right eye as well. Approximately 8 months after the accident, there was a short-lived spell of a tic involving his right eye. Ten months after the accident, he developed some sharp pain in the right side of his face, worse when touching it. This was diagnosed by a dentist as being possible tic douloureux and supposedly confirmed by Dr Seybold, a neurologist. This was not treated.

In Oct 92, he twisted his knee and has noticed some intermittent left knee and leg weakness.

Since Jul 93, he has had daily nausea, although this is not to the point of actual emesis.

He has seen a multitude of practitioners for these problems. He was referred to Dr Seybold, neurologist in Colorado Springs, for his headaches. Dr Seybold ordered multiple MRIs, we do not have the results of these. No diagnosis was made that I am aware of. He was referred to Dr Jack Klapper in Denver. Dr Klapper again did not make a diagnosis I am aware of, but did treat his headaches with home traction which the patient has found has helped quite a bit. He was evaluated by anesthesiology for his back pain. He has received several shots in his "spine", again with some relatively good relief but with the pain always returning. He had an EMG and MCV at one point of his right arm; we do not have the results of these.

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

He was finally evaluated by Dr Kahn, neurologist in Pueblo. Dr Kahn diagnosed him as having fibromyalgia. He was placed on low dose Elavil which he took for 30 days. He had quite good relief with the Elavil.

Throughout the course of this, he has been seen frequently by a chiropractor. He does notice that chiropractic manipulation is quite helpful as far as the pain in his head and neck.

PAST HISTORY: At the present time, he is on no medications. He has no allergies, does not smoke and drinks one glass of wine in the evening. He has had two hernia operations. He is not presently taking any medications.

PHYSICAL EXAMINATION: On exam, his blood pressure is 112/64.

His pupils are equal, round, and reactive to light and extraocular movements are full. Fundi are normal. He complains of some mild photophobia on ophthalmic exam of his right eye. Face is symmetric and moves normally. Palate and tongue are midline and move normally. Sternocleidomastoid and shrug are normal. Sensation is normal to touch bilaterally. I do not incite any pain with this. Corneal reflex is normal bilaterally.

There is no fix or drift. Rapid alternating movements are normal. Tone is normal. Strength is 5/5 in all areas with the exception of 4+/5 in his right gluteus maximus. Finger to nose and heel to shin is normal. Sensation is normal to touch and tuning fork with the exception of some decreased sensation which seems to spell out best to an L5 dermatome in the right foot. Reflexes are 2+ throughout and toes are downward going bilaterally.

He has a marked tender point over his right trapezius and one over his right lumbar paraspinal area.

IMPRESSION:
1. Chronic intermittent headache.
2. Chronic upper shoulder and back pain.
3. Chronic low back pain.
4. History of pain in right face diagnosed in past as tic douloureux.
5. Daily nausea.
6. Left knee and leg pain, probably secondary to twisted knee.
7. History of automobile accident on 3 Jan 91.
8. Subjective mood swings and depression.
9. Exam consistent with mild L5 radiculopathy right, otherwise normal neurologic exam with tender points.

DISCUSSION: Sgt Hopkins has a syndrome which appeared to begin related to a motor vehicle accident which occurred while he was on active duty on 3 Jan 91. A motor vehicle accident can certainly set off fibromyalgia, I believe that Dr Kahn's diagnosis of fibromyalgia is probably an accurate one.

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

I think he as well has a mild L5 radiculopathy. I am uncertain whether or not the MRIs performed by Dr Seybold and elsewhere addressed his lumbar spine.

It is unclear to me exactly what is going on with the tic douloureux, he is certainly asymptomatic at the moment and I am uncertain if this was a true diagnosis or not.

The chronic daily nausea, abnormality of sleeping, and mood swings and depression does lead one to suggest that there may be some psychological factors going on, whether or not this is related to his chronic illness or visaversa is unclear. I do believe that his upper GI tract and liver/gallbladder probably should be worked up as a search for source of chronic nausea. If no source of this is found, an MMPI may be helpful.

All of Sgt Hopkins' problems, including the automobile accident have occurred while he was on active duty. At no point in time did any inciting factor occur while he was off active duty nor did any of them occur while he was inebriated or in the act of committing a felony. Therefore, I believe that his problems are most likely **LINE OF DUTY:** Yes.

RECOMMENDATIONS: Sgt Hopkins seems to be happy with his neurologist, chiropractor, and flight surgery care that he is getting. I believe that the MRIs need to be evaluated by somebody, paying particular attention to his lumbar area in particular if this was done. I think the EMGs and MCVs should be evaluated as well. I think that his GI system should be evaluated as I have noted above, again I think that if nothing is found, an MMPI would be helpful.

I will leave it up to Sgt Hopkins and Dr Kimble in combination to decide whether or not they are happy with the medical care that he is receiving, given these above recommendations, or whether or not they decide to come back here. If they do, I will ask Sgt Hopkins to give me a call and will be happy to set him up as a follow-up appointment and go on from there.

At the present time, I see nothing which should be disqualifying for active flying duty with the exception of the possible right L5 radiculopathy. I think before any flying decisions are made based on this, the MRI of his lumbosacral spine should be evaluated to see if there is a source for an L5 radiculopathy.

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Patient name: Marshall Hopkins
Date: December 21, 1993
Neurology clinic: Pueblo

SUBJECTIVE: Patient returns to the clinic stating that when Ambien was given to him for sleeping, his wife noticed that he was snoring and he would only sleep for about 2-3 hours so he stopped taking the Ambien. He started using a sip of wine at night and with that he noted that he sleeps well and he does not snore.

His back has popped out again as he was sleeping on a hard mattress and he found out if he sleeps on a soft mattress the back doesn't pop.

Patient is needing manipulations again and wants to get a trigger point injection as the manipulations are hurting.

OBJECTIVE: Speech was fluent, patient was alert and oriented. fundi showed sharp discs. Pupils were reactive and full eye movements were seen. Facial movements were symmetrical. Hearing was ok. Tounge and palate were midline.

Strength was 5/5 in all four extremities.With normal muscle tone and bulk. Coordination was normal. Sensation was intact to touch. Gait was normal.

Chest and abdominal exam was unremarkable.

On examination, patient has tenderness in the parapsinal thoracic muscle.

ASSESSMENT: 1)Fibromyalgia

PLANS: 2 trigger point injections were given.

IMRAN U. KHAN, M.D.

Patient has been under chiropractic treatments and these help him but the chiropractic manipulations are extremely painful.

MEDICATIONS: None

ALLERGIES: None

PAST HISTORY: Hernia repair on the right side in 1969 and 1972

FAMILY HISTORY: Unremarkable

REVIEW OF SYSTEMS: Patient complains of insomnia and knee pain.

ON EXAMINATION:

The patient was alert and oriented, speech was fluent without dysartharia. General fund of knowledge was good. Patient had no difficulty with following commands and calculations.

CRANIAL NERVE EXAM:

Fundi showed sharp discs, there was no disc edema. Pupils were round and reactive to light and accommodations. There were full eye movements. Visual fields were full to confrontation. There was no pathological nystagmus.

Facial movements were symmetrical. Hearing was symmetrical. Tongue protruded in midline palate elevated in midline. There were full neck movements. There was no nuchal rigidity.

ON TESTING OF STRENGTH:

Muscle tone and muscle bulk were normal. Strength was 5/5 in all extremities tested. There was full range of motion in all extremities. Deep tendon reflexes were two plus and symmetrical bilaterally.

ON TESTING COORDINATION :

Coordination finger to nose and heel to shin was normal. Rapid alternating movements were well executed. Gait heel, walk to walk and tandem were all normal. Rhomberg test was normal. There was no resting or intention tremor.

ON TESTING OF SENSATION: Sensation was reduced to

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

vibration at the toes.

Examination of chest and abdomen was unremarkable. There were no carotid bruits.

On examination, patient has tenderness in the right shoulder, multiple trigger points in the left paraspinal thoracic muscles and some on the right side.

ASSESSMENT: 1)Fibromyalgia
2)History of Hemifacial spasms
3)Migraine Headaches

PLANS: 2 trigger point injections were given to relieve the pain and patient was given a muscle stimulator to help relieve the pain.

Patient name: Marshall Hopkins
Date: November 10, 1993
Neurology clinic: Pueblo

SUBJECTIVE: Patient returns to the clinic for follow up and he states that nothing has helped him more than the trigger point injections. He states that they have helped him enormously, he is feeling well and now the chiropractic manipulation are done easily after the trigger point injections because he could stand more pain.

OBJECTIVE: Speech was fluent, patient was alert and oriented. fundi showed sharp discs. Pupils were reactive and full eye movements were seen. Facial movements were symmetrical. Hearing was ok. Tounge and palate were midline.

Strength was 5/5 in all four extremities. With normal muscle tone and bulk. Coordination was normal. Sensation was intact to touch. Gait was normal.

Chest and abdominal exam was unremarkable.

On examination, patient has tenderness in the paraspinal thoracic muscle.

ASSESSMENT: 1)Fibromyalgia

PLANS: 2 trigger point injections were given..

October 25, 1993

REFERRING DOCTOR:Self Referred

PATIENT'S NAME: Marshall Hopkins
NEUROLOGY CLINIC:Pueblo

CHIEF COMPLAINT: Patient comes to clinic with chief complaints of pain in the middle and lower back and right shoulder pain.

PRESENT HISTORY:This 49 year old gentleman who works for the US Air Force and is on active duty. Patient was injured in a auto accident which happened in January of 1991. At that time he was rearended by another vehicle. Patients seat broke at the time of the collision and patient was knocked out unconscious. His vehicle was pushed about 20-22 feet. He was wearing a seatbelt.

Since then patient has felt the pain in the neck and back and has felt some stiffness with it. Has also noted some reoccurring twitching around his eyes. He also gets right sided headaches. At times he get sharp pains in the right eye and at time they are pains which last for a longer time. He is also having pains in both knees.

Patient had a complete workup done for the knee pains and it was unremarkable. It was also noted that he does not sleep well and he wakes up in the morning tired and tends to fall asleep when he is driving in the morning. He also has burning in the right shoulder and gets this when waking up. In the night it goes away. His hands can go numb intermittently.

Patient has seen a Neurologist in Colorado Springs and has been worked up with MRI scan and EMG's. We have included MRI scan of the thoracic spine and all workup has been reported normal.

Patient bought all of these records with him at the time of his evaluation.

REFERRING DOCTOR: None.
PATIENT'S NAME: Marshall Hopkins
NEUROLOGY CLINIC: Pueblo
DATE: October 25, 1993

CHIEF COMPLAINT: The patient has a chief complaint of pain in the middle and lower back and right shoulder.

The patient was in an auto accident three years ago. The patient woke up one year ago and had back pain. The patient moved around a lot but nothing helped. The patient went to a hospital and he was thought to have a kidney stone. The workup was normal.

While driving the patient will fall asleep. The patient does not sleep well at night. In the mornings the patient sleeps instantly. He has burning in the right shoulder. He gets this while working above his shoulder. The hand can go numb. The patients left knee will swell up at times. EMG/MRI scan of spine have all been normal.

MEDICATIONS: None.

ALLERGIES: None.

PAST HISTORY: Hernia in 1969.

FAMILY HISTORY: Unremarkable.

REVIEW OF SYSTEMS: The patient has no other complaints.

ON EXAMINATION: The patient was alert and oriented, speech was fluent without dysartharia. General fund of knowledge was good. Patient had no difficulty with following commands and calculations.

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

CRANIAL NERVE EXAM: Fundi showed sharp discs, there was no disc edema. Pupils were round and reactive, to light and accommodation. There were full eye movements. Visual fields were full to confrontation. There was no pathological nystagmus.

Facial movements were symmetrical. Hearing was symmetrical. Tongue protruded in midline palate elevated in midline.

ON TESTING OF STRENGTH: Muscle tone and muscle bulk were normal. Strength was 5/5 in all extremities tested. There was full range of motion in all extremities. Deep tendon reflex's were two plus and symmetrical bilaterally.

ON TESTING COORDINATION :Coordination finger to nose and heel to shin was normal. Rapid alternating movements were well executed. Gait heel walk toe walk and tandem were all normal. Rhomberg test was normal. There was no resting or intention tremor.

ON TESTING OF SENSATION: Sensation was intact to pinprick, joint position and vibration. The patient has a tender lumbar spine and a tender right shoulder.

Examination of chest and abdomen was unremarkable. There were no carotid bruits.

ASSESSMENT: Myofascial pain.

PLANS: Two trigger point injections given and muscle stimulation.

Thank you for your referral.

To Whom It May Concern

RE: Marshall H. Hopkins
(b) (6) [redacted]

SECOND OPINION:

Marshall H. Hopkins was evaluated 2 April 1993, regarding pain in his back and right shoulder girdle. The pain had been present since 3 January 1991, following a motor-vehicle accident. He has had several different evaluations. Among other things he has had 2 MRI studies of his spine. He continues to have pain in his back and this is somewhat of a puzzle to him. At times he has very severe muscle spasm such as if he is lying on a hard surface for 30 minutes he will have extreme difficulty in getting up. He also has headaches, but is learning to control the headaches and is utilizing a home traction apparatus that his helping him relieve his headaches. He recently had an evaluation in which recommendations were made for physical therapy and for medications including Clonidine and Elavil. He is concerned about the medications and their relationship to flying status. He is in the United States Air Force Reserve on flying status.

On physical examination height 6 feet 2 inches, weight 190 pounds, blood pressure 118/90. His gait is normal. Examining his upper extremities no abnormalities are detected. Examining his cervical spine there is slight tightness in the upper trapezius and levator scapulae muscles. Examining the scapular areas there is considerable tenderness over the rhomboids and the serratus muscles, particularly on the right side. There is tightness and tnderness in the lumbosacral spine, forward flexion is limited to 70°, extension is 10°, right lateral bending is 20°, left lateral bending is 20° and rotation is about 25° right and 25° left. The deep tendon reflexes are elicited and are 3+ at the patellae and 1+ at the Achilles. Normal sensation is found.

Review of multiple records was accomplished.

Diagnosis: Fibromyalgia right scapular and lumbosacral spine areas.

Recommendation: Outpatient physical therapy with massage and stretching exercises. In addition I recommend a home program of regular stretching exercises and pendulum type exercises for the right shoulder.

My assessment of the problem is the fibromyalgia elicits tightness and with daily activities pulling against the margin of the tightness continues to aggravate the symptoms and maintain the symptoms.

TL MARSHALL HOPKINS USMC Do you Have?

History of Automobile Accident

During December 1991 I was offered 120 MPA days to work with Space Command for Desert Shield and Desert Storm. On 3 Jan 92 at 1515 hrs I was driving north on Magrath Avenue, Fort Carson, Colorado returning from giving pallet build-up classes to Army soldiers deploying. I was in the right lane when I stopped at a pedestrian crosswalk where some pedestrians were starting to cross. While waiting for the pedestrians to cross my car was hit on the right rear side which caused it to go forward and to the left. My car hit the automobile in the left lane that was ahead of me. The force of the impact simultaneously caused the drivers seat to break at the hinges and my body to fall back into the rear seat. The impact of hitting the car in the left lane caused me to be thrown forward, restrained by the seat belt and steering wheel, and then thrown back into the rear seat again.

At that time I did not feel any real pain only confusion. After the military police responded to the scene of the accident I was instructed to go to the military police station to fill out a accident report. While there I became extremely dizzy and disoriented.

I then went to Evans Hospital at Ft Carson and had a examination and some X-rays done. Nothing obvious showed up so I was put on quarters for 24 hrs and released. I obtained a copy of

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

everything for my flight records. About three days later I started to feel some pain in the neck and back area accompanied by headaches.

I started going to a chiropractor. Two months later I started having a burning sensation in my right shoulder area and I was referred to see a neurologist by Dr. Solle, civilian chiropractor. Some problems started approximately the same time with my right eye. (A severe tic had developed.) Shortly there after while working a JRTC exercise I developed a condition known as a Tic Delarue on the right side of my face. This was diagnosed at the Peterson AFB clinic. The diagnosis was confirmed by Flt Surgeon Tedero. He indicated that since civilian doctors were treating me under auto insurance that I should continue with them. A Dr Siebold, civilian neurologist, ordered a magnetic resonance imagery (MRI) and determined that a nerve had slipped over next to an artery. He prescribed physical therapy which seemed to cure the Tic Delarue. For the headaches he referred me to a headache clinic up in Denver. After an examination I was told that an operation would give me a 50% chance of solving the headache problem. The other 50% is that it could make things worse. A traction devise was then prescribed, which is currently working.

For the burning sensations in my back area I received a series of thorasic spinal blocks, which have not solved the problem. On the night of 3 Nov 92 I was on a RAV exercise at Gulfport Miss. About 0100 I was awakened by a sever pain in what

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

I thought, at the time, was my back. About a half hour later I decided that the pain was internal. I then got up and drove over to Keesler AFB. The initial diagnosis was kidney stones, however; after X-rays and an examination it was determined that I probably had some other problem. I was told that I should come back in two weeks. I told them that in two weeks I would be in San Diego, Ca. I was instructed to go to Balboa Naval Hospital. On 12 Nov 92 I reported to the hospital. Nine hours later I was informed by a urologist that I had a cyst or tumor on my left kidney and that I should be admitted and operated on by Friday. When I questioned if this situation was life threatening I was informed that it was not. I then indicated that I would like to return home and have the surgery. Upon returning I went to the active duty Flt Surgeon, Dr Smith. He obtained an appointment at Ft Carson for a ultra sound. The result was negative. All of this time I had been experiencing pain which started about four hours after I retired for the evening and would go away after I had been up 3 or 4 hours. After the visit to Dr Smith and the last spinal block (which was twice the amount of injection that I had been receiving) the pain went away. I started to feel okay. About the middle of December I was asked by AMC if I would like 90 MPA days to deploy to Saudia Arabia for support of operation Restore Hope. I felt physically capable of performing and accepted. About two weeks after I arrived in Saudi Arabia I started to have the same problem plus I deployed without my traction device. So I developed headaches in addition to the internal pain. However by getting up at 0230 or 0300 I could live with

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

it. I was able to manage until after I was transferred to Cairo, Egypt. On 13-14 Feb 93 I worked two back to back shifts. This resulted in extreme fatigue. As a result when the pain started, I was too tired to respond by getting up until the pain was quite severe. At this time I went to the Flt Surgeon at the deployed TAC hospital at Cairo West.

He diagnosed my problem as internal muscle contractions caused by some problem with my back. Because of the limited facilities he was unable to find out any more. He prescribed a pain killer and took me off flying status. At this point a decision was made for me to return to the states for treatment and relief. I returned to Peterson AFB, CO on 19 Feb 93. After some examinations, X-rays, and MRIs by civilian personnel it was determined that I apparently had a vertebrae out of place in my lower back as a result of the auto accident in January. The vertebrae had rubbed through the nerve covering and made contact with the nerve causing muscle contractions and severe pain. We think that through chiropractic and physical therapy that the vertebrae is now back in place and the nerve is healing. I am still using the traction device for the headaches and a back brace for back support.

OUTPATIENT WORKUP

Name: Marshall Hopkins Date: March 30, 1993

REFERRAL SOURCE: William Seybold, M.D.

CHIEF COMPLAINT: Burning sensation in the right mid back region with overhead motion and low back pain.

IDENTIFYING INFORMATION: 49-year-old man who was involved in a motor vehicle accident on January 3, 1991.

HISTORY OF PRESENT ILLNESS:

The patient is a 49-year-old man who was involved in a motor vehicle accident on January 3, 1991. He was stopped at an intersection when, suddenly, he was hit from behind by another vehicle traveling about 40 miles per hour. His seat broke and he was whipped backwards. He then hit the car in front of him and was whipped forward. He was wearing a seat belt with a chest restrain. He did not hit his head. There was no loss of consciousness. There was no pain initially. About one hour later, he did have some dizziness and disorientation. There was no significant pain initially. He went to a local emergency room where x-rays were obtained and were, apparently, negative. He was sent home with no medications.

The next day he awoke with neck pain, headaches, mid and lower back pain. He went to see a chiropractor named Dr. Solle. About a week later, he started developing a tick in the right eye with quivering of the eyelid and pressure within the eye. He was then referred to Dr. Seybold. Dr. Seybold diagnosed him as having tic douloureux on the right and prescribed both Tegretol and a referral to physical therapy. Physical therapy was done at the Mainstream Clinic and included massage, and traction. There was no active exercise program performed. The patient states that the tic certainly did go away but his headaches persisted. Also, the burning right upper back pain persisted at about the region of the shoulder blade. He was then referred to a headache clinic in Denver and saw a Dr. Klapper. He recommended some neck traction which was very helpful with respect to the headaches. He now only gets the headaches intermittently and they respond nicely to traction.

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

As far as the Elavil and Clonidine it is my opinion that these medications would interfere with flying status duty and result in grounding from flying status.

Very truly yours,

R. J. Black Schultz, M. D.

RJBS:bs

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

He continues to have right upper back pain as well as persistent low back discomfort. He has had numerous tests over the past few years. The most recent test was an MRI of the thoracic spine which was negative. This was on March 3, 1993. He had an MRI of the renal regions on March 3, 1993 which was also negative. In February of 1993, he had x-rays of the lumbar spine which showed a possible mild compression deformity/fracture of T12. There were no other abnormalities seen. MRI of the lumbar spine was also essentially normal. There were minor changes suggestive of slight protrusion of the disc margin at L4-5 and there were small Schmorl's nodes in the inferior endplates of L1, L2 and L3. X-rays of the cervical spine showed mild disc space narrowing at C5-6. MRI of the cervical spine from September of 1992 showed a disc bulge at C5-6 causing indentation of the thecal sac but no evidence of spinal cord or nerve root compression. There were mild arthritic changes in the uncovertebral joints on the left facet joint. X-rays of the thoracic spine were normal except for a left-sided minimal curvature of the upper thoracic spine. The patient also had electrodiagnostic studies of the right upper extremity which showed a right carpal tunnel syndrome and a mild ulnar sensory neuropathy at the wrist. There was no evidence of cervical radiculopathy. The patient had an MRI of the brain with emphasis on the posterior fossa with and without gadolinium. There were a few nonspecific punctate white matter lesions in the brain which were felt not to be clinically significant. There was no evidence of any brainstem or cerebellar abnormality. The trigeminal nerves appeared normal. There was no evidence of aneurysm. Another MRI of the brain from April of 1991 was normal. The patient was found to have bilateral maxillary disease.

Thus far, the patient has had about six weeks of physical therapy. He has his own home traction unit. He is still seeing a chiropractor about one to two times per week. This helps with the neck pain but not the back pain. He was referred here for recommendations concerning his mid and lower back pain and burning. He has never tried a TENS unit. He does not perform a daily stretching exercise program. He did try Motrin which, apparently, made him sick. He has tried two other nonsteroidal anti-inflammatory drugs which were not very helpful. He was also on a short course of steroids in the past which was not that helpful.

The patient states he had a series of nerve blocks which sound like epidural injections. This was done by an anesthesiologist here at Penrose Hospital. It was basically in the area of the thoracic spine where eh has the burning. He states it was helpful for about three to four weeks at a time. Of note, with injections to the mid back region, he also had improvement of his low back symptoms. However, the results were always temporary. The patient states that he would like to find out what the problem is and he would like to try to solve it.

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

PAIN PROFILE:

The patient describes right-sided upper and mid back pain described as a burning sensation. It starts with a nodule about the size of a silver dollar and seems to spread out. At its worst, it had about a four-inch diameter at which time he developed numbness in the right hand and the fingertips. The right-sided upper back pain increases with overhead activities, when he drives a big truck and when he bends over a desk. It decreases when he sits down. Eventually, the pain would dissipate if he would sit.

His low back pain tends to start in the middle of the night at about 2:30 to 3:00 a.m. It awakens him from sleep. The low back pain increases with prolonged laying down. It does not matter what the position is or even if the patient is on his side. The low back pain seems to decrease with physical activity. There is no electrical radiation of the pain into the lower extremities. There is no bowel or bladder symptomatology. He denies any falls. He denies any dizziness. He does state that his memory is not as good but he attributes this to sleep deprivation ever since the motor vehicle accident. He is not allowed to take medications when he is flying. He only flies about one time per month. He states that he has to fly to stay current.

SLEEP PROFILE:

He has been sleeping poorly since the accident. He tosses and turns throughout the night. He awakens frequently about every one hour. He feels tired during the day.

ALLERGIES:

No known allergies.

MEDICATIONS:

None.

PAST MEDICAL HISTORY:

There is no history of diabetes, high blood pressure or heart disease. He has had three hernia repairs in the past.

SOCIAL HISTORY:

The patient is married. He does not smoke or drink. He works for the Air Force. He is not on active duty however.

PHYSICAL EXAMINATION:

The patient was a pleasant, well-developed, well-nourished, middle-aged man in no apparent distress. He ambulated normally into the examination room. He did not demonstrate any chronic pain behaviors such as moaning, groaning, or wincing.

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

On evaluation of the lower extremities, straight leg raising test was negative bilaterally. He was noted to have tight hamstrings however. Knee jerks were 2+ and symmetrical bilaterally. I was unable to obtain ankle jerks bilaterally. Pinprick sensation was intact in all lower extremity dermatomes. There was no evidence of any muscle atrophy.

On evaluation of the upper extremities, reflexes were symmetrical. There was no muscle atrophy. Pinprick sensation was intact in all ten fingers.

Neck range of motion was decreased in most planes. It was fairly good with turning to the right. It was decreased with turning to the left. Trunk range of motion was markedly decreased with forward flexion associated with tight hamstrings. However, extension and side bending was essentially normal.

With the patient supine, straight leg raising test was negative bilaterally. The patient did have tight hamstrings. There was no hip pain elicited with internal or external rotation of either hip. There was no tenderness on palpation of the trochanteric bursas or the tensor fasciae latae muscles.

On palpation of his back, the patient did have a trigger point in the right-sided parathoracic muscles adjacent to the inferior border of the scapula. The patient also had tenderness of the thoracolumbar paraspinal muscles. The lower paraspinal muscles and the cervical and trapezius muscles were relatively nontender. The SI joints were nontender.

DIAGNOSES:

1. Myofascial pain syndrome.
2. Sleep disorder.
3. Tight hamstrings.

DISCUSSION:

I believe that most of his pain is myofascial in nature. The patient did have a trigger point in the right parathoracic musculature. There was also some fairly localized area of spasm and tenderness in the upper paralumbar muscles. In the past, he has had physical therapy but it was mostly passive modalities based on his description. The is patient needs to be involved in an aggressive physical therapy program including stretching and strengthening to the back musculature. Most importantly, he needs to stretch his muscles out on his own on a daily basis. I have given him a referral to physical therapy for hot packs, stretching and massage to the involved muscles, an aggressive stretching program and a home program. They will proceed to a back reconditioning program. With respect to medications, I will start him on some mild medications that may help with both pain and sleep. I have given him clonidine 0.1 mg q.h.s. which may help

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

with pain and sleep. I have also started him on some low-dose Elavil at 10-20 mg q.h.s. I gave him samples of Lodine at 300 mg b.i.d. p.r.n. and Relafen at 500 mg b.i.d. p.r.n. He was instructed to take one drug or the other but not both at the same time. I warned him of potential orthostatic side effects of both the Elavil and the clonidine. I would like to follow up with him in three weeks to see how he is doing with these new medications. He will contact me before that time if he is having any problems.

MAGNETIC RESONANCE IMAGING
OF COLORADO

March 3, 1993

NAME: HOPKINS, Marshall
AGE: 49
SS. NO.:

REF. M.D.: William R. Seybold, M.D.

EXAM DATE: 3-3-93

ANATOMICAL AREA: MRI OF THE RENAL REGIONS

TECHNIQUE: Multiple spin-echo and STIR images were obtained in the coronal plane.

FINDINGS: The kidneys are homogeneously decreased in signal intensity on the short TR/TE images with homogeneous increased signal intensity on the STIR images. These particular signal characteristics suggest the absence of any focal space-occupying masses. There are severe limitations on this particular study for the evaluation of nephrolithiasis or intra-renal calculi. Both kidneys are normal in size, shape, and axis. The perinephric space is normal in appearance. Both adrenal glands are identified and not enlarged.

IMPRESSION:
Negative MRI of the renal regions.

John R. Osborne, M.D.

RADIOLOGIC REPORT

20-7575 - RENAL ULTRASOUND, DATED 7 DECEMBER 1992:

FINDINGS:
A previous IVP is not available for comparison. Multiple real-time images of the kidneys demonstrate normally sized and shaped kidneys. The long axis of the left kidney is approximately 10 cm; the right approximately 11.2 cm. No focal cortical defect is identified on either kidney. Specifically no abnormal mass is seen in the left kidney. No hydronephrosis is present. Views of the bladder are generally unremarkable.

IMPRESSION:
Normal renal ultrasound.

Paulette Ingwersen PLS
Calloway & Turner
118 N Tejon
Suite 304
Colorado Springs, CO 80903

Dear Paulette:

Marshall Hopkins entered this office as a transient patient on August 19, 1991. He stated that he had pain between his shoulders, burning sensation in the right shoulder, right eye tic, and right hand tingles. He related that a MRI was performed on him at Colorado Springs, Colorado in January, 1991.

This patient was treated as a transient patient. No X-rays or examination beyond palpation of the spine was performed. Mr. Hopkins was found to have notable muscle spasm and myofascitis in the right upper thoracic and lower cervical spine area. Based on this information, we administered light mobilization treatment. The patient returned to this office on a subsequent trip on October 31, 1991. He stated that he had obtained some relief from his pain.

It is not practical to try to engage in any long term, comprehensive treatment regimen of a person who is not likely to respond in one or two treatments. We attempted to only make him comfortable enough to complete his trip. This patient was advised to seek examination and treatment in the vicinity of his home in Colorado.

Sincerely,

Conrad Kaelin D.C.

LINE OF DUTY DETERMINATION

AUTHORITY: 5 USC 2108, 3309 - 3315, and 8140; 10 USC 507, 972(5), 1074, 1074a, 1202 - 1221, and 8722; 32 USC 318 and 319; 37 USC 204(j) and 802; 38 USC 310, 331, 610, and 612; and EO 9397.
PRINCIPAL PURPOSE(S): To determine if member's disease or injury was incurred in line of duty or not in line of duty.
ROUTINE USES: Used by the Air Force to determine eligibility for physical disability retirement or separation; lost time required to be made good; and forfeiture of pay for absence from duty owing to disease caused by intemperate use of alcohol or drugs. Used by the Veteran's Administration to determine eligibility for disability compensation or hospital benefits. Used by the Civil Service Commission to determine eligibility for veteran's preference. Used by the Labor Department to determine eligibility for compensation. Information may be reviewed by the base Ground Safety Office. SSN is used only for identification purposes.
DISCLOSURE IS VOLUNTARY: Failure to provide information will result in this form being completed using other sources of information.

MSgt Hopkins had a MVA on 4 Jan 91 while on military status. Since that time he has had chronic and recurring pain and insomnia. On 26 OCT 93, MSgt Hopkins brought in a pamphlet from his private neurologist (Attached) linking these symptoms with a trigger responce to a previous event such as a automobile accident. There is a gap currently in his medical records where no medical problems related to this condition were recorded from 4 Jan 94 to 25 NOV 91. During the 25 NOV 91 examination, Dr. Todaro questioned the cause and effect relationship between history and presentation. (over)

CONSULTATION - Dr Adams

Consult is at the request of Dr Ed Kimble, Flight Surgeon's Office, 302nd Medical Squadron, for Air Medical Evaluation and line of duty purposes.

HISTORY OF PRESENT ILLNESS: This is a 50-year old right handed white male who was well until 3 Jan 91. At that time he was involved in a motor vehicle accident in which his relatively small car was struck from behind and pushed into a car in front. Both the car behind and the car in front were somewhat larger. He suffered no obvious immediate injury, however, about 30 minutes later, he noted difficulty using language and felt somewhat dizzy. He was evaluated at Fort Carson and had a cervical spine x-ray which he was told was normal. He was discharged.

The next morning he was feeling well and did relatively well for about 2 weeks. At that time, he began to develop a headache. This headache was in his occiput, across his shoulder, and up into the back of his head. It remained relatively constant. It was associated with occasional mild nausea. He also at this time developed some low back pain, in the lumbar area, no radiation, no obvious weakness or numbness in his legs. There is no bowel or bladder problems. He did notice that this disappeared with activity.

About one month after the accident, he developed a pressure-like sensation behind his right eye. This would occasionally take on somewhat of a burning aspect and he noticed some photophobia in his right eye as well. Approximately 8 months after the accident, there was a short-lived spell of a tic involving his right eye. Ten months after the accident, he developed some sharp pain in the right side of his face, worse when touching it. This was diagnosed by a dentist as being possible tic douloureux and supposedly confirmed by Dr Seybold, a neurologist. This was not treated.

In Oct 92, he twisted his knee and has noticed some intermittent left knee and leg weakness.

Since Jul 93, he has had daily nausea, although this is not to the point of actual emesis.

He has seen a multitude of practitioners for these problems. He was referred to Dr Seybold, neurologist in Colorado Springs, for his headaches. Dr Seybold ordered multiple MRIs, we do not have the results of these. No diagnosis was made that I am aware of. He was referred to Dr Jack Klapper in Denver. Dr Klapper again did not make a diagnosis I am aware of, but did treat his headaches with home traction which the patient has found has helped quite a bit. He was evaluated by anesthesiology for his back pain. He has received several shots in his "spine", again with some relatively good relief but with the pain always returning. He had an EMG and MCV at one point of his right arm; we do not have the results of these.

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

He was finally evaluated by Dr Kahn, neurologist in Pueblo. Dr Kahn diagnosed him as having fibromyalgia. He was placed on low dose Elavil which he took for 30 days. He had quite good relief with the Elavil.

Throughout the course of this, he has been seen frequently by a chiropractor. He does notice that chiropractic manipulation is quite helpful as far as the pain in his head and neck.

PAST HISTORY: At the present time, he is on no medications. He has no allergies, does not smoke and drinks one glass of wine in the evening. He has had two hernia operations. He is not presently taking any medications.

PHYSICAL EXAMINATION: On exam, his blood pressure is 112/64.

His pupils are equal, round, and reactive to light and extraocular movements are full. Fundi are normal. He complains of some mild photophobia on ophthalmic exam of his right eye. Face is symmetric and moves normally. Palate and tongue are midline and move normally. Sternocleidomastoid and shrug are normal. Sensation is normal to touch bilaterally. I do not incite any pain with this. Corneal reflex is normal bilaterally.

There is no fix or drift. Rapid alternating movements are normal. Tone is normal. Strength is 5/5 in all areas with the exception of 4+/5 in his right gluteus maximus. Finger to nose and heel to shin is normal. Sensation is normal to touch and tuning fork with the exception of some decreased sensation which seems to spell out best to an L5 dermatome in the right foot. Reflexes are 2+ throughout and toes are downward going bilaterally.

He has a marked tender point over his right trapezius and one over his right lumbar paraspinal area.

IMPRESSION:
1. Chronic intermittent headache.
2. Chronic upper shoulder and back pain.
3. Chronic low back pain.
4. History of pain in right face diagnosed in past as tic douloureux.
5. Daily nausea.
6. Left knee and leg pain, probably secondary to twisted knee.
7. History of automobile accident on 3 Jan 91.
8. Subjective mood swings and depression.
9. Exam consistent with mild L5 radiculopathy right, otherwise normal neurologic exam with tender points.

DISCUSSION: Sgt Hopkins has a syndrome which appeared to begin related to a motor vehicle accident which occurred while he was on active duty on 3 Jan 91. A motor vehicle accident can certainly set off fibromyalgia, I believe that Dr Kahn's diagnosis of fibromyalgia is probably an accurate one.

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

I think he as well has a mild L5 radiculopathy. I am uncertain whether or not the MRIs performed by Dr Seybold and elsewhere addressed his lumbar spine.

It is unclear to me exactly what is going on with the tic douloureux, he is certainly asymptomatic at the moment and I am uncertain if this was a true diagnosis or not.

The chronic daily nausea, abnormality of sleeping, and mood swings and depression does lead one to suggest that there may be some psychological factors going on, whether or not this is related to his chronic illness or visaversa is unclear. I do believe that his upper GI tract and liver/gallbladder probably should be worked up as a search for source of chronic nausea. If no source of this is found, an MMPI may be helpful.

All of Sgt Hopkins' problems, including the automobile accident have occurred while he was on active duty. At no point in time did any inciting factor occur while he was off active duty nor did any of them occur while he was inebriated or in the act of committing a felony. Therefore, I believe that his problems are most likely **LINE OF DUTY:** Yes.

RECOMMENDATIONS: Sgt Hopkins seems to be happy with his neurologist, chiropractor, and flight surgery care that he is getting. I believe that the MRIs need to be evaluated by somebody, paying particular attention to his lumbar area in particular if this was done. I think the EMGs and MCVs should be evaluated as well. I think that his GI system should be evaluated as I have noted above, again I think that if nothing is found, an MMPI would be helpful.

I will leave it up to Sgt Hopkins and Dr Kimble in combination to decide whether or not they are happy with the medical care that he is receiving, given these above recommendations, or whether or not they decide to come back here. If they do, I will ask Sgt Hopkins to give me a call and will be happy to set him up as a follow-up appointment and go on from there.

At the present time, I see nothing which should be disqualifying for active flying duty with the exception of the possible right L5 radiculopathy. I think before any flying decisions are made based on this, the MRI of his lumbosacral spine should be evaluated to see if there is a source for an L5 radiculopathy.

MEDICAL EXAMINATION—FLYING PERSONNEL

(THIS FORM IS SUBJECT TO THE PRIVACY ACT OF 1974—USE BLANKET PAS-DD Form 2005)

INSTRUCTIONS

Items 1-12. Self explanatory.
Item 13. Flight Duty Performed—Enter rating and type of aircraft, for example, Pilot/KC-135, Radar Navigator/B-52.
Item 14. ASC—Enter current aviation service code from AFM 300-4, Vol 1.
Item 15. Total Flying Hours—Enter total flying hours since entry into aviation service.
Item 16. Total Flying Hours Last Six Months—Enter total flight hours during the last six months prior to this examination.
Item 17. Self-explanatory.
Item 18. Height—Record height to the nearest half inch or the nearest centimeter, with examinee in stocking feet.
Item 19. Weight—Weigh examinee in minimum clothing and record weight to the nearest pound or half of a kilogram.
Item 20. Visual Acuity—Record best uncorrected distant and near vision and best corrected distant and near vision.
Item 21. Auditory Acuity—Record pure bone threshold for each year at frequencies 500, 1000, 2000, 3000, 4000, and 6000 Hz.
Item 22. Type of Instrument Used—Record type of instrument used and its calibration standard.
Item 23. History and Remarks—Enter significant history since last complete medical examination and any other remarks the examining Flight Surgeon feels are pertinent.
Item 24 and 25. Self-explanatory.

What is FMS?

FMS (fibromyalgia syndrome) is considered to be a widespread musculoskeletal pain and fatigue disorder for which the cause is still unknown. The term fibromyalgia means pain in the muscles, ligament and tendons--in other words, the fibrous tissues in the body. FMS used to be called the fibrositis syndrome, implying that there was inflammation in the muscles, but that has not been born out by research.

Most patients with FMS say that they ache all over. Their muscles may feel like that have been pulled or overworked. Sometimes the muscles twitch and at other times they burn. More women than men are afflicted with FMS, but it shows up in people of all ages.

To help your family and friends relate to your condition, have them think back to the last time they had the bad flu. Every muscle in their body shouted out in pain. In addition, they felt devoid of energy as though someone had unplugged their power supply. While the severity of symptoms fluctuate from person to person, FMS may resemble a post-viral state and this is why several experts in the field of FMS and chronic fatigue syndrome (CFS) believe that these two syndromes are one and the same.

How is FMS diagnosed?

For the most part, routine laboratory testing reveals nothing. However, upon physical examination, the patient will be sensitive to pressure applied in certain areas of the body, called tender points. To meet the diagnostic criteria for FMS, patients must have widespread pain in all four quadrants of their body for a minimum duration of three months and at least 11 of the 18 specified tender points (as indicated on brochure cover). These 18 points used for diagnosis cluster around the neck, shoulder, chest, hip, knee and elbow regions. Roughly 75% of CFS-diagnosed patients will meet the FMS criteria.

While many chronic pain syndromes display some symptoms that overlap with FMS, the 1990 multi-center criteria study (published in the February issue of Arthritis and Rheumatism) evaluated a total of 558 patients, of which 265 were classified as controls. These control individuals weren't your typical healthy "normals." They were age and sex matched patients with neck pain syndrome, low back pain, local (regional) tendonitis, trauma-related pain syndromes, rheumatoid arthritis, lupus, osteoarthritis of the knee or hand, and other painful disorders. These patients all had some symptoms

that mimic FMS, but the trained examiners were not foiled--they hand-picked the FMS patients out of the "chronically ill" melting pot with an accuracy of 88%. FMS is not a wastebasket diagnosis!

Symptoms and associated syndromes of FMS

PAIN - The pain of FMS has no boundaries. People describe the pain as deep muscular aching, burning, throbbing, shooting and stabbing. Quite often, the pain and stiffness are worse in the morning and you may hurt more in muscle groups that are used repetitively.

FATIGUE - This symptom can be mild in some patients and yet incapacitating in others. The fatigue has been described as "brain fatigue" in which patients feel totally drained of energy. Many patients depict this situation by saying that they feel as though their arms and legs are tied to concrete blocks.

SLEEP DISORDER - Most FMS patients have an associated sleep disorder called the alpha-EEG anomaly. This condition was uncovered in a sleep lab with the aid of a machine which recorded the brain waves of patients during sleep. Researchers found that FMS patients could fall asleep without much trouble, but their deep level--or stage 4--sleep was constantly interrupted by bursts of awake-like brain activity. Patients appeared to spend the night with one foot in sleep and the other one out of it.

In most cases, a physician doesn't have to order

expensive sleep lab tests to determine if you have disturbed sleep. If you wake up feeling as though you have just been run over by a Mack truck--what doctors refer to as unrefreshed sleep--it is reasonable for your physician to assume that you have a sleep disorder. It should be noted that most patients diagnosed with CFS have the same alpha-EEG sleep pattern and some FMS-diagnosed patients have been found to have other sleep disorders, such as sleep apnea, sleep myoclonus (nighttime jerking of the arms and legs), restless leg syndrome and bruxism (teeth grinding) The sleep pattern for clinically depressed patients is distinctly different from that found in FMS or CFS.

IRRITABLE BOWEL SYNDROME - Constipation, diarrhea, frequent abdominal pain, abdominal gas and nausea represent a constellation of symptoms frequently found in roughly 40 to 70% of FMS patients.

CHRONIC HEADACHES - Recurrent migraine or tension-type headaches are seen in about 50% of FMS patients and can pose as a major problem in coping for this patient group.

TEMPOROMANDIBULAR JOINT DYSFUNCTION SYNDROME - This syndrome, sometimes referred to as simply TMJ, causes tremendous face and head pain in one quarter of FMS patients. Most of the problems associated with this condition are thought to be related to the muscles and ligaments surrounding the joint and not necessarily the joint itself.

OTHER COMMON SYMPTOMS - Premenstrual syndrome and painful periods, chest pain, morning stiffness, cognitive or memory impairment, numbness and tingling sensations, muscle twitching, irritable bladder, the feeling of swollen extremities, skin sensitivities, dry eyes and mouth, frequent changes in eye prescription, dizziness, and impaired coordination can occur with FMS.

AGGRAVATING FACTORS - Changes in weather, cold or drafty environments, hormonal fluctuations (premenstrual and menopausal states), stress, depression, anxiety and physical over-exertion can all contribute to symptom flare-ups.

What causes FMS?

The cause of FMS remains elusive, but there are many triggering events thought to precipitate its onset.

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

A few examples would be an infection (viral or bacterial), an automobile accident or the development of another disorder, such as rheumatoid arthritis, lupus, or hypothyroidism. These triggering events probably don't cause FMS, but rather, they may awaken an underlying physiological abnormality that's already present in patients.

What could this physiological abnormality be? Theories pertaining to alterations in neurotransmitter regulation (particularly serotonin), immune system function, sleep physiology and hormonal control are under investigation. In addition, modern brain imaging techniques are being used to explore various aspects of brain function, while sophisticated virological methods being employed to determine if viruses might somehow be involved in both FMS and CFS. The actual cause of FMS is by no means a closed book, and the mystery behind this syndrome is beginning to unfold!

How is FMS treated?

Traditional treatments are geared towards improving the quality of sleep, as well as reducing pain. Because deep level (stage 4) sleep is so crucial for many body functions, such as tissue repair, antibody production, and perhaps even the regulation of various neurotransmitters, hormones and immune system chemicals, the sleep disorders that frequently occur in FMS patients are thought to be a major contributing factor to the symptoms of this condition. Medicines that boost your body's level of serotonin--a neurotransmitter that modulates sleep, pain and immune system function--are commonly prescribed. Examples of drugs in this category would include Elavil, Flexeril, Sinequan, Prozac, Xanax and Klonopin. A low dose of one of these medications may be of help. In addition, nonsteroidal, anti-inflammatory drugs (NSAIDS) like ibuprofen may also be beneficial. Most patients, however, will probably need to use other treatment methods as well, such as tender or trigger point injections with lidocaine, physical therapy, acupuncture, acupressure, relaxation techniques, osteopathic manipulation or a gentle exercise program.

What is the prognosis?

Long term follow-up studies on FMS have shown that it is chronic, but the symptoms may wax and wane. The impact that FMS can have on daily living activities, including the ability to work a full-time job, differs among patients. Overall, studies have shown that FMS can be equally as disabling as rheumatoid arthritis.

Self-help strategies

Lifestyle modifications may help you conserve your energy and minimize your pain. Learn what factors aggravate your symptoms and avoid them if possible. Join your local support group and become informed about your condition by subscribing to FIBROMYALGIA NETWORK Newsletter (see page 2). In this newsletter you will read about research findings, new treatment options and tips on coping with FMS and CFS. You may also contact FIBROMYALGIA NETWORK for a listing of patient contacts and physician referrals.

NEWSLETTER FOR
FIBROMYALGIA/FIBROSITIS/CFS SUPPORT GROUPS

23RD EDITION *OCTOBER 1993*

It's Always Something!

The symptoms of fibromyalgia syndrome (FMS) and chronic fatigue syndrome (CFS) can be so unpredictable. You never know which of the associated problems will strike you next, such as jaw pain, chest pain, breathing difficulties, pelvic discomfort, sleep disruption, or an upset stomach or bowel. Can you chalk all these symptoms up to FMS/CFS? Better yet, would you seek medical attention for these problems if you didn't have the FMS or CFS diagnosis? Of course you would!

Ah...but you probably already saw so many doctors just to find out that you suffered from FMS/CFS. You are concerned that your treating physician may think you are a hypochondriac if you told him or her about each new symptom, and the thought of going to an "outside" specialist has you filled with hesitation. A cardio-pulmonary specialist, a gynecologist, a sleep physiologist, a neurologist or a gastroenterologist will probably know little or nothing about FMS/CFS. They may put you through a battery of tests and run up your medical bills--only to say that there is nothing wrong with you. How humiliating.

Ideally, patients need a whole team of experts who are knowledgeable about their chronic illness and a generalist (or primary care physician) who can oversee everything. The "full-spectrum" treatment program described below has been implemented in Seattle, WA, to help meet the diverse needs of FMS/CFS patients. While this program concept is relatively new and may not be available in your city, don't get discouraged. View the following article as a guideline for the type of "whole-body" treatment plan that you and your fellow support group members should be striving to obtain!

A Full-Spectrum Treatment Program

By Donald Uslan, MA, MBA, CRC, of Seattle, WA

Patients with CFS and FMS are usually faced with the complex issues of adequate treatment and care while trying to maximize their limited dollars. Here are some suggestions based on the experience of the staff at the CFS and FMS Project in Seattle on how to make sure your treatment is as well-rounded as possible:

1. You need to be the center of the treatment program and learn to manage it. Although it may seem easier to delegate this to your doctor, you are the one who must cope with your condition each day. If prescribed treatments are not working to your satisfaction, or if a new symptom crops up that has you concerned, it is up to you to signal your doctor for help.

2. The principal team member, at least in the early stages, needs to be a primary care physician who is skillful with medications, reasonably familiar with chronic health conditions, and has some appreciation for the pain and fatigue components of CFS and FMS. He or she should also know how to manage a team of professionals, especially other physician specialists, and make sure that evaluations, work-ups, and diagnostic procedures are integrated into your treatment plan. Medications prescribed by more than one physician should be closely and carefully coordinated.

3. Educate yourself. Attend support group meetings, read literature handouts, and talk to other patients.

4. Social isolation tends to be a major problem with CFS and FMS, as well as with many other chronic conditions. Develop or renew a support system for yourself with people who are compassionate and understanding about the daily adjustments you need to make to better cope with your condition. Also try to get involved in your community. Pace your activities within your limitations and routinely take a break to reassess your priorities--for each day and for your life in general. Be patient. Your family and significant other may require time to adapt to your new lifestyle.

5. A "talking" relationship with a professional is helpful. Carefully consider a counselor, social worker, psychologist or psychiatrist. Make sure they do not have a narrow view of your health problem, but are willing to be flexible and supportive, as well as directly confrontive of you.

6. We have found acupuncture to be beneficial in reducing pain (see October '91 issue).

7. Many patients have found considerable relief in the use of a physical therapist familiar with "manual techniques," such as myofascial release (see October '92 issue). Their guidance in the development of an exercise program realistically tailored to you is invaluable.

8. Developing specific strategies for assisting you in managing your sleep disorder can be beneficial, however, keep in mind that not all health care professionals are skilled in this area. For some people, medications (such as Elavil, Flexeril, Xanax, Klonopin, or Sinequan) may be sufficient, but don't hesitate to consider using self-help measures as well. To pick up a few good ideas in this area, you might want to read: Getting to Sleep by Ellen Mohr Catalano (New Harbinger Publications, Oakland, CA, 1990).

9. Specific skill training in the area of stress reduction is essential (stress can aggravate your symptoms). There are a variety of approaches available, including biofeedback, yoga, guided imagery, and breathing exercises, to name a few. These may be available through professionals, but short courses may also be offered through your community hospitals and other organizations such as the YMCA. Stress reduction doesn't have to be limited to strict "mind control" techniques. Be innovative! You can take your mind off of your symptoms and reduce your stress level by getting involved in hobbies and activities that are both relaxing and soothing.

10. Make substantial changes in your work life. Vocational rehabilitation assistance may be available through private practitioners, or the state social and health services department. They can also assist you in making "reasonable accommodations" in your work station, communicating with your supervisor or employer, and educating your employer about local and federal guidelines for persons with health or physical restrictions. A "rehabilitation plan" for your occupational health should be integrated into the "treatment plan" for your medical health.

11. You may need to call upon other talented professionals to assist you in your treatment program. These other professionals may be a massage therapist, chiropractor, nutritionist, or gynecologist. They will need to work with you as the manager of the treatment team, and should be willing to cooperate with the other professionals you have hired.

Several studies comparing FMS and CFS have failed to demonstrate any major differences. Therefore, these syndromes are treated in this newsletter as being one and the same.

Some Practical Pointers

CFS and FMS patients often feel unheard or not included in their own care. Here are some suggestions to help you get the most out of your professional care:

1. Make sure your primary health care provider can accept other providers of your choice in your care. They don't have to agree with each other, but they need to at least share written communication and not undermine each others' work.

2. Avoid relationships with practitioners and physicians who cause you to doubt yourself.

3. Insist on copies of evaluations, reports, correspondences or notes, and share these with your other providers. Keep detailed records for your personal file as well.

4. Be reasonable in your demands, especially of outcomes and time. A good and conscientious provider is often busy. Be prepared at appointments--have a few specific questions in writing. However, make sure you feel that you have received sufficient time to address your concerns and understand the direction of care.

5. You are a consumer and purchaser of health care. Feel free to give "performance reviews" to any of your health care practitioners. If things don't work out, fire them and hire someone else more suited to your needs.

6. Make sure that you clearly understand the training, qualifications, charges, philosophy of treatment of your health care practitioner, and general duration of care needed.

7. Be cautious of costly "evaluations" or "procedures."

8. Find out what other patients think of a practitioner as part of your consideration in hiring any health care provider.

9. No one practitioner has "the answer" or "the cure" or "the right way."

10. Help your practitioner help you.

THE TEAM APPROACH TO STUDYING FMS

based on an interview with

Daniel Clauw, M.D.

Rheumatology Researcher at Georgetown University, Washington, DC

Dr. Clauw

Dr. Clauw is well-known for his work in the field of eosinophilia-myalgia syndrome (EMS)--a rare condition whose prevalence escalated when patients ingested a contaminated batch of essential amino acid, L-tryptophan. "Although EMS is a toxin-induced disorder initially characterized by inflammation, and FMS is a more common disorder not associated with inflammation," Clauw explains, "as EMS progresses, their similar symptoms can make them indistinguishable." But Dr. Clauw's involvement in FMS isn't solely because it is another muscle-pain syndrome. When he arrived at Georgetown University a few years ago, the local medical community began to send him patients diagnosed with low back pain syndrome. However, the majority of these people didn't just have an achy back, they had the characteristic widespread pain of FMS!

Views on FMS

Before delving into a discussion of Dr. Clauw's "team research" approach to investigating FMS, it's important to lay the ground-work on his views about this very perplexing syndrome.

Possible Causes

"All of our current theories being proposed for FMS are likely to be somewhat flawed," said Clauw. "This syndrome is probably not caused by any single biochemical problem, such as serotonin, substance P, or growth hormone. Instead, I suspect that FMS will turn out to involve multiple abnormalities in the central nervous system, and perhaps, in the peripheral tissues as well."

When Symptoms Erupt

Most research projects on FMS only include patients in the 18 to 70 year age range, but this doesn't mean that people younger or older can't get FMS. "I think that FMS is very common in the elderly population," said Clauw. Then he added, "It's just more likely to be mislabeled in the elderly as something related to the aging process, such as arthritis." And when it comes to children, it's hard to convince an institution's medical review board to conduct studies on children until similar and thorough investigations have already been done on the adult population.

Speaking of those young at heart, Dr. Clauw stated: "I feel that many people with FMS start experiencing symptoms in their teens. It may begin with headaches, irritable bowel, numbness/tingling sensations in their extremities, a sleep problem, chest pain or episodes of other types of symptoms commonly seen in the adult FMS population...I don't see many patients with this syndrome who didn't have a high level of activity prior to the full onset of their symptoms. They somehow figured out that regular exercise helped, but not uncommonly, something triggers a decrease in their activity or worsening of their sleep. During that same time frame, their FMS surfaces as a full-blown syndrome." Dr. Clauw routinely asks his patients during the first visit: "How many of these problems have you had over the course of your life?" In response, he says "patients get an awareness in their eyes, an overwhelming sense of relief that all of these seemingly different problems may somehow be tied together."

Whole-Body Research ...a team approach

Under Dr. Clauw's direction, 20 patients with FMS will be evaluated during a three-day hospital stay at Georgetown University Clinical Research Center. (All study participants have been enrolled and the project is already underway.) A multitude of tests will be conducted by a team of experts, including those in the field of pharmacology, neuropsychology, pulmonary medicine (a lung specialist), psychiatry, gastroenterology, endocrinology, mineral biology, temporomandibular joint dysfunction, and gynecology. Commenting on his project that began earlier this year, "We plan to extensively study a number of objective and subjective parameters in a group of FMS patients at a single point in time. The advantage of this approach is that more meaningful information can be obtained than in a project that looks at one variable." By looking at the whole-body, and not just a single neurotransmitter or hormone system, it may be possible to determine the interrelationships between the abundance of abnormalities that have recently been published on FMS.

For example, do people with a greater degree of sleep disruption have more cognitive problems, more pain (or other symptoms), greater alterations

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

in neurotransmitters and immune system chemicals, or increased muscle tone? Th again, sleep disturbance may not correlate well with these variables; it might occur secondary to some other biochemical mal-function. The problem is, no one really knows how all of these systems are inter-related, and in a way, Dr. Clauw's study represents an attempt to connect-the-dots to a mysterious picture whose caption reads: The Fibromyalgia Syndrome.

The different systems that will be studied are described below.

The Lungs

Routine pulmonary function tests that are ordinarily ordered to rule out lung diseases typically produce normal results in FMS. Yet, a study published by Dr. Caidahl's team in Sweden indicated that roughly 84% of FMS patients battle a condition called dyspnea. In layman terms, dyspnea may be described as "air hunger" or an uncontrollable out of breath feeling. A significant portion of Dr. Clauw's FMS patients complain of this symptom as well. And for the record, patients with EMS (another muscle-skeletal pain disorder) have this problem too.

Could it be that patients just become out of breath because they are physically out of shape? Although deconditioning frequently occurs in FMS due to the painful/fatiguing symptoms, Dr. Clauw said, "It could account for some of the difficulties, but not all of them." The central nervous system has control over the opening of the airways and Dr. Clauw will be testing patients to see if there is a heightened reactivity within their central nervous system that restricts their airways--such a problem could disrupt normal breathing patterns.

Brain Function

Every region of the brain has a different function. "When we analyze the cerebrospinal fluid it is difficult to know what is going on in all of the centers of the brain," said Clauw. "It's just not that simple since there are marked regional differences in the concentration of chemicals in the brain." That's why he will be employing the aid of a functional MRI machine which will measure the activity levels in the numerous centers of the brain while patients are asked to perform various tasks (using light and sound stimulus, and concentration functions). It is hoped that this test might identify which areas in the brain are slow or abnormal in function...although routine MRI scans designed to pick up structural problems usually turn out normal.

The 20 FMS patients in this study will also undergo a 12-hour battery of neurocognitive testing to determine if the common complaints of memory and concentration problems can be validated on testing. The testing program to be used is the same as the one used to pick up attention deficits in pilots. From a research standpoint, Clauw said it would be better to find objective abnormalities which are now sorely lacking in FMS. However, he cautioned that the outcome of his testing could disappoint patients. Taking EMS as an example, he said, "There is a disparity between a patient's perception of cognitive problems and the data obtained on form esting." The reality is, these tests may not be capable of picking up subtle but significant changes in thought processes.

Sleep

While sleeping one evening during their hospital stay, patients will be hooked up to small EEG (electroencephalogram) electrodes, which are wires pasted to the scalp that record and measure brain waves. This procedure measures the electrical signals produced by the various areas of the brain but it does not send any electrical signals into the brain, i.e., it is non-invasive.

"The degree of sleep disturbance," said Clauw, "doesn't always correlate with symptoms. Yet, when patients have a lot of sleep loss, we know this tends to aggravate their symptoms. Also, many people have sleep disorders but they don't have FMS."

Just what is the role of sleep in FMS? We know that most patients have difficulty sleeping, but is it the cause of their symptoms, the result of other ongoing biochemical changes, an epiphenomenon, or some combination of all of these possibilities? Dr. Clauw's pilot study, which he candidly referred to as "data dredging". (i.e., finding out which symptoms might correlate with which variables), will attempt to answer these questions.

The Jaw Muscles

Symptom surveys reveal that there is a much higher prevalence of temporomandibular joint dysfunction (TMD) in fibromyalgia syndrome patients than what one would find in an otherwise healthy population. Few good research studies have been done on TMD, but many of them indicate that this jaw pain and dysfunction may be rooted in the muscles, especially the masseter muscle that stretches from the top cheek bone to the bottom jaw bone. Is the masseter muscle in a

spasm or hypersensitive to stimulus? Investigators working with Dr. Clauw will be placing surface EMG (electromyogram) probes on the masseter muscles of FMS patients to see if they can uncover anything out of the ordinary.

Gynecology-Related Problems

Pelvic pain is a common complaint of female FMS patients. Dr. Clauw recommends that FMS patients tread cautiously when a doctor suggests that they have a hysterectomy to alleviate the pain in their pelvic region. This symptom may have more to do with the body-wide FMS than an isolated gynecological problem, and if so, radical surgeries can prove disappointing. Vulvar vestibulitis and vulvodynia are diagnoses referred to in the gynecological literature to describe conditions of increased pain during sex, heightened pain sensitivity in the vulvar region (often worsened by stress) and a number of unexplained symptoms. Female patients in Dr. Clauw's study will undergo a full gynecological check-up to determine the prevalence of these ill-defined syndromes in FMS. When the study is completed, he is hoping to be able to answer the question: Are these conditions a result of the increased pain sensitivity that FMS patients experience in other body regions?

If you are a female FMS patient experiencing pelvic pain, mention it to your gynecologist. Dr. Clauw recommends that you inquire about whether your symptoms could be due to vulvar vestibulitis or vulvodynia. A gynecologist should be familiar with the two disorders, and he or she should understand that they are best treated by non-surgical interventions. In fact, the medications described in the literature to treat these conditions are quite similar to the drugs used for FMS.

Biochemical Changes

Serotonin and other major chemical transmitters in the body will be studied along with the concentration levels of the enzymes that metabolize them (particularly the liver enzymes responsible for breaking them down into various by-products for excretion). The enzyme system for metabolizing tryptophan will also be investigated. Tryptophan is the amino acid that is converted in the brain to serotonin and a contaminated batch of this compound is linked to the high incidence of EMS that occurred in 1989. The mechanism by which the contaminated tryptophan caused EMS is still unclear, but given that the symptoms of EMS and FMS are so similar, additional investigation into how this amino acid is metabolized in FMS patients may uncover an enzyme abnormality.

FMS: A Wide Open Frontier!

Although this pilot study will consume a lot of volunteer time on the part of the investigators (funding is scarce), the rewards could be significant. "Many diseases already have fairly effective treatments," claimed Dr. Clauw, "and finding one more abnormality probably wouldn't drastically alter the way patients with these well-researched diseases are treated. Uncovering two or three new revelations about FMS could make a substantial difference in the direction of research. There are few other medical conditions to research that could have such a significant impact on the treatment of a syndrome and the quality of life of those who suffer with it."

The EMS Story

Eosinophilia-myalgia syndrome (EMS) occurred in epidemic proportions in the summer and fall of 1989. A contaminated batch of L-tryptophan has been linked in the research studies to most of the cases of this condition, which produces incapacitating muscle pain (100%), skin problems often resembling the skin thickening of scleroderma (35%), fatigue (40-90%), dyspnea (30-80%), and elevated blood counts of eosinophil cells in a majority of the people afflicted with the syndrome. The Center for Disease Control surveyed 1500 cases of EMS during the epidemic and they were able to confirm that at least 2.5% resulted in EMS-related deaths. The potential contamination of any nutritive supplement should never be taken lightly.

Patients diagnosed as having EMS were usually hospitalized in the early stages of their disease due to the inflammation and other serious conditions this syndrome inflicted upon its victims. Years later (for those who survived), patients still have a significant amount of pain and debilitating symptoms. According to Dr. Clauw, many of them have the tender points of FMS and he uses the same treatments commonly prescribed for FMS.

The tryptophan-related EMS epidemic is a tragic story but there are lessons to be learned. Although you may think it is safer and healthier to take dietary supplements in place of prescription medicines, this is not necessarily the case. Most nutritive supplements are often mass-marked as "natural" when they are, in fact, the result of large-scale bacterial fermentation, and have undergone chemical and engineering processes in their production. "There is a good reason why the FDA took L-tryptophan off the market," said Dr. Clauw. "Unless there is a strong basis for why you must take nutritive supplements, don't take them!"

INSTRUCTIONS

(Refer to DOD Component Instructions for Additional Guidance)

PURPOSE: This form is used to record initial audiometric test results with which later audiometric test results can be compared (See DD Form 2216 on Hearing Conservation Data to record periodic test results).

GENERAL: Print all information in ink (DO NOT TYPE). Press firmly to ensure readable copies. If a mistake is made, do not attempt to erase or block out error. Start a new form.

1. Zip Code/APO - Enter five digit zip code/APO of installation where audiometric test is conducted.

2. DOD Component - Enter letter in box of major organizational subdivision of DOD to which military or civilian individual is assigned. Enter "1" if DOD component is not listed.

3. Service Component - Enter letter in box corresponding to primary subdivision of separate military service to which military is assigned (e.g., Regular (R) - standing military component of armed forces in peace and war; Reserve (V) - component of ready trained personnel for military service when needed, etc.) Enter "1" for all others including civilians.

4. Personal Data (of individual being tested).

a. SSN - Enter nine digit social security number. If foreign national, enter "FN" in middle two blocks.

b. Last Name, First Name, Middle Initial - Enter surname, given name and middle initial.

c. Sex - Enter "M" if male, "F" if female.

d. Pay Grade, Uniformed Services - For military personnel only, enter military personnel class and pay level serial number as follows:

011 - General of the Army/General of the Air Force/Fleet Admiral
010 - General/Admiral
009 - Lieutenant General/Vice Admiral
008 - Major General/Rear Admiral (Upper Half)
007 - Brigadier General/Rear Admiral (Lower Half)/Commodore
006 - Colonel/Captain (N)
005 - Lieutenant Colonel/Commander
004 - Major/Lieutenant Commander
003 - Captain (A,F,M)/Lieutenant (N)
002 - First Lieutenant/Lieutenant Junior Grade
001 - Second Lieutenant/Ensign

W04 - Chief Warrant Officer, W-4
W03 - Chief Warrant Officer, W-3
W02 - Chief Warrant Officer, W-2
W01 - Warrant Officer, W-1
C00 - Cadet/Midshipman

E09 - Sergeant Major/Chief Master Sergeant/Master Chief Petty Officer
E08 - Master Sergeant (A,M)/Senior Chief Petty Officer/Senior Master Sergeant/First Sergeant (A)
E07 - Sergeant First Class/Gunnery Sergeant/Chief Petty Officer/Master Sergeant (F) Platoon Sergeant (A) Specialist—7
E06 - Staff Sergeant/Technical Sergeant/Petty Officer First Class/Specialist—6
E05 - Sergeant (A,M)/Staff Sergeant/Petty Officer Second Class/Specialist—5
E04 - Corporal/Sergeant (F)/Petty Officer Third Class/Specialist—4
E03 - Private First Class (A)/Airman First Class/Lance Corporal/Seaman
E02 - Private (PV1)/Airman/Private First Class (M)/Seaman Apprentice
E01 - Private (PV2)/Private (M)/Airman Basic/Seaman Recruit

e. Grade, Civilian - Enter two letters and two numbers of Federal civilian employee rank (e.g., WG05, GS11, etc). Letter entries will be WG, WL, WS, WN, WD or GS. Number entries will be 01 to 18. Enter '1111' if other (e.g., foreign national, contractor, etc).

f. Service Duty Occupation Code - Enter code to which military member's duty occupation is assigned (e.g., MOS, SSI, NEC/Rating, NOBC or AFSC in which individual is actually working). Enter number code of civilian job series in which civilian member is actually working (e.g., for a carpenter enter "4607").

g. Mailing Address of Assignment - Enter unit, office symbol, and zip code/APO of individual's current duty assignment.

h. Location - Place of Work - Enter installation name, and specific location where individual is routinely exposed to hazardous noise including building number (e.g., Corpus Christi, NAS, Building 1571, Carpenter Shop).

i. Major Command - Enter authorized abbreviation of military major command to which individual is assigned.

j. Duty Phone - Enter individual's duty phone number.

5. Audiometry.

a. Enter number in box for reason to complete reference audiogram.

1 - individual has not yet worked in hazardous noise duty areas and no reference audiogram has been accomplished.

2 - individual has worked in hazardous noise duty areas but reference audiogram has been lost or was never accomplished.

3 - individual has worked in hazardous noise duty areas and requires revised reference audiogram following completion of hearing conservation followup program.

b. Hearing Threshold Levels of Test Frequencies - Enter threshold levels determined for this individual at six frequencies in each ear. Results are entered in 5dB increments (e.g., 0,5,10,15, etc). If responses exceed maximum limits of audiometer, enter that limit with plus sign (e.g., 110+).

c. Date of Audiogram - Enter year, month & day the audiometric test is given. If Jan 14, 1979, enter 79/01/14.

d. Day of Week - Enter number for day of the week test is given, (e.g., enter "2" for Monday, etc).

e. MIL-TIME-DAY - Enter four digits for hour of day (24-hour clock) this audiogram is completed (e.g., "0830", "1400", etc).

f. Hours Since Last Noise Exposure - Enter approximate number of hours prior to this audiogram that individual was last exposed to hazardous noise (e.g., steady noise 85 dBA or greater and/or impulse noise above 140 dBP).

g. ENT Problem at Time of Test - Enter "1" (no) if individual has no ear, nose or throat problems at time of test that could be causing a temporary (conductive) hearing loss (e.g., ear canal blocked with wax, ear infection, head cold, etc). Enter "2" (yes) if problem is present and "3" (unknown) if no way to determine presence of problem.

6. Examiner

a. Last Name, First Name, Middle Initial - Enter surname, given name and middle initial of individual operating audiometer.

b. Training Certification No. - Enter audiometric technician training certification number, if available.

c. SSN - Enter nine digit social security number.

d. Service Duty Occupation Code - Enter examiner's service duty occupation code (see item 4f).

e. Office Symbol - Enter complete office symbol where examiner is performing the test.

7. Audiometer

a. Type - Enter number for type of audiometer used (e.g., "1" for manual type).

b. Model - Enter manufacturer's designation.

c. Manufacturer - Enter name of company that produced audiometer.

d. Serial Number - Enter manufacturer's serial number.

e. Last Electroacoustic Calib Date - Enter year, month & day (see item 5c) of last electroacoustic determination of this audiometer's performance specifications.

8. Personal Hearing Protection

a. Type Used - Enter number for type of hearing protector that is routinely used by individual (e.g., "2" for triple flange, etc; if "6-other" explain under Remarks).

b. Earplugs Issued - Enter "1" if earplugs not issued at time of test and explain why not in remarks section. Enter "2" if earplugs issued and "3" if individual already has properly fitting earplugs in their possession at time of test.

c. Size Earplugs - Enter number for size of earplugs (single or triple flange) used for each ear (e.g., "4" for large in right ear (R) and "3" for medium or regular in the left ear (L)).

d. Double Protection Used - Enter "1" in box if earplugs are not routinely worn in combination with noise muffs or a noise-attenuating helmet. Enter "2" if they are routinely worn together.

e. Glasses Worn - Enter "1" in box if eye glasses or goggles are not routinely worn with noise (ear) muffs or noise attenuating helmet. Enter "2" if they are.

f. Frequency Glasses Worn - Indicate frequency of use in second box. Enter "3" (N/A) if "1" was entered in first box.

9. Remarks - Print explanations for any above items marked "other" and any information considered pertinent.

10. Contents Reviewed and Validated by:

a. Name of Reviewer - Enter name of individual reviewing audiogram (usually local surgeon or designated representative). Indorse with signature after ensuring that all items on original and duplicates are filled out legibly, correctly and completely.

b. Service Duty Occupation Code - See item 4f.

c. Autovon - Enter AUTOVON number of reviewer.

d. SSN - See item 4a.

e. Office Symbol - Enter reviewer's complete office symbol.

STATEMENT OF PHYSICAL CONDITIONING *(Members age 35 and older)*

(THIS FORM IS SUBJECT TO THE PRIVACY ACT OF 1974)

AUTHORITY: 10 USC 8012 and EO 9397
PRINCIPAL PURPOSES: To standardize the recording of information in support of the USAF Physical Fitness and Weight Control Program.
ROUTINE USES: A source of information and data on individual physical conditioning habits and preferences for use in the evaluation and studies of physical fitness criteria and requirements.
DISCLOSURE IS MANDATORY: Failure to provide the requested information could result in disciplinary action. Disclosure of the Social Security Number is necessary to make positive identification of you and your records.

NAME *(Last, First, Middle Initial)*	(b) (6)
Hopkins Marshall H	
GRADE: Sgt	UNIT OF ASSIGNMENT: 731 TAS

Above member reported for annual physical fitness testing on this date. Prior to testing, member stated the following:

a. I [X] have [ ] have not been participating in a regular physical conditioning program.

b. Self-conditioning program consists of (i.e., jogging, swimming, handball, cycling, etc.) Shovelling Coal

HIV ANTIBODY TESTING ACKNOWLEDGEMENT

I acknowledge that I have been informed by verbal briefing and by the contents of this document of the following:

a. My medical examination includes a blood test for the presence of antibodies to the Human Immunodeficiency Virus, also called HIV.

b. HIV is believed to be the cause of the Acquired Immune Deficiency Syndrome, also called AIDS.

c. The HIV antibody test is not a test for AIDS. A positive test does not mean that a person has AIDS. A positive test only means that an individual has had contact with the HIV and has built antibodies to the virus in his or her blood.

d. Positive tests will be repeated and also rechecked by a separate and different laboratory test which will confirm the positive result.

e. A negative test means that the individual has no detectable antibodies to the HIV. It is not a guarantee against the possibility of having a positive test at some later date.

f. Under Department of Defense policy, Air Force Reserve members with a positive HIV test will be subject to assignment to the standby reserve if they cannot be utilized in the selected reserve. Each case will be individually reviewed by the commander before a decision is made to transfer the member to the standby reserve.

g. Members with a positive HIV antibody test with evidence of clinical illness or other in indication of immunologic or neurologic impairment may not be retained in the selected reserve.

h. Results of the test, either positive or negative, will be recorded in my medical record. In the event of a positive test, a reserve member will have the option of requesting that a second sample be taken to confirm the results of the first test.

i. In the event of a positive test, the CBPO will be notified of any duty restrictions and the unit commander will be notified of a positive test result to include any information regarding risk factors of the member concerned.

j. Information obtained from a service member during a medical interview or assessment may not be used as a basis for disciplinary action against an individual. The limitations on the use of information obtained from a member do not apply to the introduction of evidence for impeachment or rebuttal purposes in any proceeding in which the evidence of drug abuse or relevant sexual activity (or lack thereof) has been first introduced by the service member or of disciplinary or other action based on independently derived evidence; or, nonadverse personnel actions such as reassignment, disqualification (temporary or permanent) from a personnel reliability program, denial, suspension, or revocation of a security clearance, suspension of termination of access to classified information, and, removal (temporary or permanent) from flight status or other duties requiring a high degree of stability or alertness such as explosive ordnance disposal or deep-sea diving.

SG FL-22
Sep 1986

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

k. If my HIV antibody test is positive, I may, if I wish, apply for separation through my commander under AFR 35-41, Vol III, Chapter 5, para 5-25(f). Officers may apply under AFR 35-41, Vol III, Chapter 4, Section B, para 4-9(f).

l. If my HIV antibody test demonstrates the presence of the HIV antibody in my blood, I will be informed by registered mail with a request for return to the clinic to discuss previous laboratory test results. If there is no response to the first letter, a second letter will be forwarded via registered mail informing me of the test results and requesting that I report to the medical facility to discuss the results of the HIV antibody test.

m. Failure or refusal to comply with the HIV antibody test requirement will render me disqualified for worldwide duty and I will be processed for discharge in accordance with current directives.

I have read and acknowledge the contents of the testing acknowledgement.

HTLV-III ANTIBODY TESTING ACKNOWLEDGEMENT

I acknowledge that I have been informed by verbal briefing and by the contents of this document of the following:

a. My medical examination includes a blood test for the presence of antibodies to the Human T-Cell Lymphotropic Virus, Type III, also called HTLV-III.

b. HTLV-III virus is believed to be the cause of the acquired immune deficiency syndrome, also called AIDS.

c. The HTLV-III antibody test is not a test for AIDS. A positive test does not mean that a person has AIDS. A positive test only means that an individual has had contact with the HTLV-III virus and has built antibodies to the virus in his or her blood.

d. Positive tests will be repeated and also rechecked by a separate and different laboratory test which will confirm the positive result.

e. A negative test means that the individual has no detectable antibodies to the HTLV-III virus. It is not a guarantee against the possibility of having a positive test at some later date.

f. Current Air Force policy precludes discharge based solely on the results of a positive test unless there is evidence of deteriorating clinical illness or immunologic deficiency. Discovery of deteriorating clinical illness or immunologic deficiency will render a member subject to discharge from the USAFR.

g. If my HTLV-III antibody test is positive, I understand that I will be restricted from reserve participation until a determination of my fitness to remain in the USAFR can be made by Air Force medical authorities.

h. Members (officers and airmen) may also be subject to administrative discharge under honorable conditions, if during my part of the epidemiological assessment, they have admitted to illegal drug use or to consensual sexual misconduct, or they fail to comply with preventive medicine counselling. This policy will not preclude disciplinary or other administrative action based upon evidence derived independently of the HTLV-III epidemiological assessment process or upon evidence, however derived, of non consensual sexual misconduct.

i. Current Air Force policy precludes deployment to an overseas location of individuals with a positive HTLV-III antibody test even though they may be found to be clinically well and found fit for retention in the Air Force Reserve.

34

j. If my HTLV-III antibody test is positive and I am found to be clinically well and found physically fit for retention in the Air Force Reserve, I may, if I wish, apply for separation through my commander under AFR 35-41, Volume III, Chapter 5, Paragraph 5-25(f).

k. Results of the test, either positive or negative, will be recorded in my medical record. In the event of a positive test, CBPO will be notified of any duty restructions and the unit commander will also be notified of the results. The unit commander will be notified of a positive test result to include any information requiring further administrative action such as admission of illegal drug use, consensual sexual misconduct or failure to comply with preventive medicine counselling.

l. If my HTLV-III antibody test demonstrates the presence of the HTLV-III antibody in my blood, I will be informed by registered mail with a request for return to the clinic to discuss previous laboratory test results. If there is no response to the first letter, a second letter will be forwarded via registered mail informing me of the test results and requesting that I report to the medical facility to discuss the results of the HTLV-III antibody test.

m. Failure or refusal to comply with the HTLV-III test requirement will render me disqualified for worldwide duty and I will be processed for discharge in accordance with AFR 160-43. The statement below indicates my willingness to take the test or my refusal to comply with the test requirement. I've indicated my compliance or refusal by checking the appropriate box and placing my signature below.

☒ I have read and acknowledge the contents of the testing acknowledgement and I agree to undergo HTLV-III antibody testing.

HTLV-III ANTIBODY TESTING ACKNOWLEDGEMENT

I acknowledge that I have been informed by verbal briefing and by the contents of this document of the following:

a. My medical examination includes a blood test for the presence of antibodies to the Human T-Cell Lymphotropic Virus, Type III, also called HTLV-III.

b. HTLV-III virus is believed to be the cause of the acquired immune deficiency syndrome, also called AIDS.

c. The HTLV-III antibody test is not a test for AIDS. A positive test does not mean that a person has AIDS. A positive test only means that an individual has had contact with the HTLV-III virus and has built antibodies to the virus in his or her blood.

d. Positive tests will be repeated and also rechecked by a separate and different laboratory test which will confirm the positive result.

e. A negative test means that the individual has no detectable antibodies to the HTLV-III virus. It is not a guarantee against the possibility of having a positive test at some later date.

f. Current Air Force policy precludes discharge based solely on the results of a positive test unless there is evidence of deteriorating clinical illness or immunologic deficiency. Discovery of deteriorating clinical illness or immunologic deficiency will render a member subject to discharge from the USAFR.

g. If my HTLV-III antibody test is positive, I understand that I will be restricted from reserve participation until a determination of my fitness to remain in the USAFR can be made by Air Force medical authorities.

h. Members (officers and airmen) may also be subject to administrative discharge under honorable conditions, if during my part of the epidemiological assessment, they have admitted to illegal drug use or to consensual sexual misconduct, or they fail to comply with preventive medicine counselling. This policy will not preclude disciplinary or other administrative action based upon evidence derived independently of the HTLV-III epidemiological assessment process or upon evidence, however derived, of non consensual sexual misconduct.

i. Current Air Force policy precludes deployment to an overseas location of individuals with a positive HTLV-III antibody test even though they may be found to be clinically well and found fit for retention in the Air Force Reserve.

SG FL-22
Sep 1986

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

j. If my HTLV-III antibody test is positive and I am found to be clinically well and found physically fit for retention in the Air Force Reserve, I may, if I wish, apply for separation through my commander under AFR 35-41, Volume III, Chapter 5, Paragraph 5-25(f).

k. Results of the test, either positive or negative, will be recorded in my medical record. In the event of a positive test, CBPO will be notified of any duty restructions and the unit commander will also be notified of the results. The unit commander will be notified of a positive test result to include any information requiring further administrative action such as admission of illegal drug use, consensual sexual misconduct or failure to comply with preventive medicine counselling.

l. If my HTLV-III antibody test demonstrates the presence of the HTLV-III antibody in my blood, I will be informed by registered mail with a request for return to the clinic to discuss previous laboratory test results. If there is no response to the first letter, a second letter will be forwarded via registered mail informing me of the test results and requesting that I report to the medical facility to discuss the results of the HTLV-III antibody test.

m. Failure or refusal to comply with the HTLV-III test requirement will render me disqualified for worldwide duty and I will be processed for discharge in accordance with AFR 160-43. The statement below indicates my willingness to take the test or my refusal to comply with the test requirement. I've indicated my compliance or refusal by checking the appropriate box and placing my signature below.

☒ I have read and acknowledge the contents of the testing acknowledgement and I agree to undergo HTLV-III antibody testing.

PRIVACY ACT STATEMENT – HEALTH CARE RECORDS

1. AUTHORITY FOR COLLECTION OF INFORMATION INCLUDING SOCIAL SECURITY NUMBER (SSN)

Sections 133, 1071-87, 3012, 5031 and 8012, title 10, United States Code and Executive Order 9397.

2. PRINCIPAL PURPOSES FOR WHICH INFORMATION IS INTENDED TO BE USED

The purpose for requesting personal information is to assist medical personnel in developing records to facilitate and document your health condition in order to provide you health care treatment and to provide a complete account of such care rendered, including diagnosis, treatment, and end result. The Social Security Number (SSN) is necessary to identify the person and records.

3. ROUTINE USES

This information may be used to plan and coordinate health care. It may be used to provide medical treatment; conduct research; teach; compile statistical data; determine suitability of persons for service or assignments; implement preventive health and communicative disease control programs; adjudicate claims and determine benefits; evaluate care rendered; determine professional certification and hospital accreditation; conduct authorized investigations; provide physical qualifications of patients to other Federal, State and local agencies upon request in the pursuit of their official duties; and report medical conditions required by law to Federal, State and local agencies. It may be used for other lawful purposes including law enforcement and litigation.

4. WHETHER DISCLOSURE IS MANDATORY OR VOLUNTARY AND EFFECT ON INDIVIDUAL OF NOT PROVIDING INFORMATION

In the case of active duty military personnel, disclosure of requested information is mandatory. In the case of all other personnel/beneficiaries, disclosure of requested information is voluntary. If the information is not furnished, optimum medical care may not be possible.

I understand that the foregoing one time Privacy Act Statement will apply to all requests for personal information made by medical treatment personnel or for medical treatment purposes. I further understand that a copy of this form which I have signed will be placed in my health care records as evidence of this notification. I have received a copy of this statement which I can retain, and I understand that I can receive additional copies of this statement from any medical treatment facility upon request.

RADIOLOGIC REPORT

This study was performed in the x-ray department. The KUB is unremarkable. There are phleboliths in the true pelvis. Following the injection of contrast material, prompt bilateral nephrograms are seen. The collecting systems are delicate. There is a smooth curvilinear deformity of the infundibulum to the middle pole on the right. No mass affect is seen. The ureters are normal in course and caliber. The bladder is smooth walled, without filling defect and empties completely.

IMPRESSION: Possible mass affect most likely due to cysts on the right kidney, otherwise normal study. Recommend clinical correlation possible right renal ultrasound.

BRIEF STATEMENT OF INFORMATION REQUESTED AND GIVEN

Initial contact was made on 9-23-96 with this customer. This customer was informed average processing time is approximately 2-3 months for claims to be completed.

~~_____~~ This customer was not available to contact and give the above and below information. The following attempts were made to contact the customer:

Vet is in Utah until 10-1-96.
801-864-6324.
Vet will send in a cert'd copy of his DD214.

The customer was also given the information of how to contact the team directly and given my name as a contact point. The customer was also informed that they need to inform me as a team representative of their address change and new phone number should they move. The customer was also informed that if we need additional information for their claim they will be contacted by phone or letter.

MEMORANDUM FOR 302 MSS/DPMAE

FROM: 302 ASTS/SGA

SUBJECT: Pending Medical Evaluation Board

1. MSgt Marshall H. Hopkins, (b) (6) received an "LOD, Yes" injury on 4 January 1991. MSgt Hopkins has reached the maximum benefit of medical treatment but because of his ongoing medical condition he must meet a Medical Evaluation Board (MEB). Due to the excessive time MSgt Hopkins has been in a P-4-T status, the 21 MDG has accelerated the MEB process and this letter is needed as soon as possible.

2. HQ AFRES/SG requires that a letter from the 302d Airlift Wing Commander must be included in this MEB package. The following questions must be addressed and this letter must be signed by Brig Gen Hatcher:

a. Is this individual an Air Reserve Technician?

b. Are there any available unit vacancies into which this member may be crossed trained:

2. If any assistance is needed, I can be contacted at extension 6-1130.

PATRICIA M. KENAN, SMSgt, USAFR (ART)

AIR FORCE RESERVE

May 18, 1995

MEMORANDUM FOR 21 MDG MEDICAL EVALUATION BOARD MEMBERS

FROM: 302 AIRLIFT CONTROL FLIGHT COMMANDER

SUBJECT: MSgt Hopkins' Medical Evaluation Board

1. MSgt Marshall H. Hopkins, (b) (6) [redacted], is scheduled to meet an MEB due to an LOD injury received on 4 January 1991. He is currently on P-4 status and is unavailable to perform any duties.

2. MSgt Hopkins duties in this unit are as a loadmaster (MST). This means he is expected to maintain flying status. Even more important, he must be able to maintain world-wide mobility status. If he is not able to maintain flying status or world-wide mobility, he is unable to perform his duties in this unit. If he can fill a mobility position but not a flying one then I do have a mobility position for him. However, I have no positions in my unit that do not require world-wide mobility. I cannot, however, speak to whether the 302 AW have such positions, or whether it would be possible to cross-train him to such positions.

3. I am unable to utilize MSgt Hopkins if he is not returned to mobility status. I do not want MSgt Hopkins returned to mobility status in his current condition, as I would be very uncomfortable deploying him on ALCF missions. Therefore, unless his current medical condition can be cured or he can operate safely without drugs, I do not want him returned to my unit.

4. If you have any questions, please call me at 6-7780.

I. Allen Moore, Jr.

I. ALLEN MOORE, JR., Major, USAFR
Commander

LINE OF DUTY DETERMINATION

AUTHORITY: 5 USC 2108, 3309 - 3315, and 8140; 10 USC 507, 972(5), 1074, 1074a, 1202 - 1221, and 8722; 32 USC 318 and 319; 37 USC 204(j) and 802; 38 USC 310, 331, 610, and 612; and EO 9397.
PRINCIPAL PURPOSE(S): To determine if member's disease or injury was incurred in line of duty or not in line of duty.
ROUTINE USES: Used by the Air Force to determine eligibility for physical disability retirement or separation; lost time required to be made good; and forfeiture of pay for absence from duty owing to disease caused by intemperate use of alcohol or drugs. Used by the Veteran's Administration to determine eligibility for disability compensation or hospital benefits. Used by the Civil Service Commission to determine eligibility for veteran's preference. Used by the Labor Department to determine eligibility for compensation. Information may be reviewed by the base Ground Safety Office. SSN is used only for identification purposes.
DISCLOSURE IS VOLUNTARY: Failure to provide information will result in this form being completed using other sources of information.

B. ANY OTHER TESTS AND RESULTS *(Specify)* _____.

12. DETAILS OF ACCIDENT OR HISTORY OF DISEASE

MSgt Hopkins had a MVA on 4 Jan 91 while on military status. Since that time he has had chronic and recurring pain and insomnia. On 26 OCT 93, MSgt Hopkins brought in a pamphlet from his private neurologist (Attached) linking these symptoms with a trigger-responce to a previous event such as a automobile accident. There is a gap currently in his medical records where no medical problems related to this condition were recorded from 4 Jan 94 to 25 NOV 91. During the 25 NOV 91 examination, Dr. Todaro questioned the cause and effect relationship between history and presentation. (over)

MEDICAL EVALUATION BOARDS

RE: Marshall H. Hopkins, MSGT USAFR
(b)(6) [redacted]

To Whom It May Concern;

Since 1983 I have worked exclusively for the USAFR. I know that the Reserves say that they can not provide full time employment outside of the ART program but that is not entirely true. There are over a thousand of us from SRA to O6s that make our living as "Professional Reservists," "Trough-fers," or "Bums."

While working in this category, I have managed to support a family of seven, buy and pay off a home, and stay pretty much out of debt without my wife working. We have never had any type of medical insurance, but by pulling extended periods of duty, I could get limited health and dental care for myself and my family.

Now I have lost that benefit. I was briefed that I can receive no health care except as related to the accident. I have lost flight pay, use of the commissary except once a month. My wife now has to work. My pay is never certain. At the present I have not been paid since December. Our savings are just about depleted. Further, I can not get any type of job because of the extreme health complications that have occurred due to the accident.

At the present time I am experiencing the following health problems: headaches which responde to chiropractic treatment; Tic DouLoureux which responds to medication; persistant backpains which that are bearable most of the time and do respond to chiropractic treatment when they become unbearable; and a constant feeling of extreme fatigue or drowsiness.

The real problem right now and for the past couple of months is the burning sensation in the back that comes and goes. The following activities initiate and aggravate this problem:

1. Standing stiff for 10 - 15 minutes;
2. Standing and bending over a table;
3. Looking up for 3-4 minutes;
4. Washing dishes at a kitchen sink;
5. Writing for an extended time;
6. Driving a large truck or piece of heavy equipment;
7. Working with my arms raised overhead; and
8. Walking 2-3 blocks or more.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

This problem continues to be the largest hinderance to me because it limits the things that I do or can accomplish.

I am losing my family, I have lost an occupation that I loved and enjoyed very much. Now I have no idea what I can do for a living. No one seems to be interested in hiring me with these problems.

There is no way the accident could have been avoided and yet I feel that I have taken full impact of the results. The military needs to take responsibility and make life better for myself and my family. This accident has changed my life in some very significant ways.

What I am asking is that I receive medical benefits for the family, commissary benefits and the same status as I would have jad if I would have had a green card.

When I responded to the active duty call, i was a first-class citizen. Now I feel that I am being treated as a second class citizen. My injuries did not occur overseas; however they are just as serious. I feel I am in danger of losing all that I have worked for all these years. As a reservist that responded to a call to active duty, I should not have to feel this way.

My question to you is how can you help me get the benefits that I should be entitled to and assure that those of the military that happen to be in similar circumstances receive better care than I have received.

Sincerely,

Marshall Hopkins, MSGT USAFR

TO: MEDICAL EVALUATION BOARD

SUBJECT: MARSHALL HOPKINS

The impact of this accident on my husband and family has been substantial. Since 1991, I have seen my husband go from a mentally and physically well man to become pain-filled and mentally ill. He is not the man I married nor the father to his children he was prior to the accident.
He has been treated poorly due to lack of early and continued care to address his medical needs. As a result, he has long-term and pernament damage. Worst of all, his mental condition has brought about a deterioration in our marital relationship. I have filed for divorce as I can no longer live with him.
He will not seek help and his medical team say he is doing fine. They don't know nor have they visited with his wife and children. He is depressed, moody, often suscidal and distant. Other times he is warm and loving and appears educated, alert and normal.
I have been on an emotional roller-coaster during this time and I have had to seek help myself. Marshall sees himself as well mentally and feels he can live with the continual pain. He no longer sleeps through the night or does he have any time without pain. Much of his pain could have been avoided by early care and attention to his emotional needs.
When he was put on inactive status, no preparation was given for this transition. In two days he was dismissed from a job he loved and found fufilling for a long number of years. To complicate matters, his military pay has been uncertain and held up for over five months. No one seems to care as efforts to find answers met with little or no response. Most Americans with a family of seven could not survive for 5 months with no income. This has been unnecessary. I have had to go to work full-time and had numerous problems with my older children getting into trouble with the law. If you are looking for a way to deterioate the family, this is a classic example.
I know Marshall can't hold down a job. He needs continual medical care to relelve his pain physically. His mental condition I find unstable and feel he would have problems on a job. He is a person who endures pain but over time the sustained long-term pain and sleep deprivation have affected his mental health.
For a simple accident that normally would be easily taken care of, this has been a nightmare of the worst kind. The destruction of a family unit and deterioration of the breadwinners self-esteem and positive attitude has been the result.
Lack of an early LOD status which should have happened and no one to monitor his progress ought to send a clear message

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

that the individaul is important and not just a number. He matters and his life has changed forever.
In short, this is some of my feeling about how this accident has affected my husband of 19 years and the loss of him in my life since this accident.

Sincerely,

Karol A Hopkins

Karol Hopkins

MEDICAL EVALUATION BOARD

HISTORY OF PRESENT ILLNESS: This is a 51-year old right handed white male Reserve TSgt whom I have been following since Jan 94. His problems began in 1991. At that time he was struck in a motor vehicle accident when his relatively small car was hit from behind and pushed into the car in front of him. There was no obvious immediate injury; however, about 30 minutes later he noted difficulty with his language and felt somewhat dizzy. He was evaluated at Fort Carson, had a cervical spine x-ray, and was discharged. About two weeks later he developed headaches which were occipital, across the shoulder, and the up back of his neck. He has been treated with chiropractic manipulation with relatively good relief. He also developed low back pain in the lumbar area without radiation, again, responding relatively well to chiropractic type manipulation.

He has also developed pain in his face which has been diagnosed as having tic douloureux. This is behind his right eye and has a burning aspect to it. He has been seeing Dr. Cohen, neurologist in Pueblo, who has him on a combination of Dilantin and Tegretol with good relief.

He has had some difficulty with cognitive problems. His neurologic exam has been consistently normal. We have obtained neuropsychological testing. This was performed in Dec 94 by Dr. Mark Wexler. Dr. Wexler found that Mr. Hopkin's neuropsychological assessment is that his memory is in the superior range with normal attention concentration. His general intellectual function is above average with a verbal IQ of 114 and a performance IQ of 94 and a full scale IQ of 106. Dr. Wexler suggests that his complaints of memory and the neuropsychological findings suggests the possibility of psychiatric rather than neurologic diagnosis and the patient has been followed up by Dr. Ingram, psychiatrist at Fort Carson.

His neurologic exam remains normal.

My diagnosis is:

1. Myofascial pain
2. Mechanical low back syndrome
3. tic douloureux
4. Decline in cognitive function secondary to depression
5. Depression, mild

At this point in time he has been on Dilantin because of the tic douloureux. In the active force I believe that his problems would not warrant medical evaluation board, however, in the Reserve force the use of Dilantin precludes him from military duty. Therefore, I would recommend that he be placed on the temporary duty retired list.

SUBJECT: MSgt Marshall Hopkins

1. I would just like to update you on the neurologic progress of MSgt Marshall Hopkins. As you are aware, Marshall Hopkins is a 51-year old right handed white male who I have been seeing since Jan 94.

2. His problems began in 1991. At that time he was struck in a motor vehicle accident when his relatively small car was hit from behind and pushed into the car in front of him. There was no obvious immediate injury, however, about 30 minutes later, he noted difficulty with language and felt somewhat dizzy. He was evaluated at Fort Carson, and had a cervical spine x-ray and was discharged. About two weeks later, he developed headaches which were occipital, across the shoulder, and up into the back of his head. These have been treated with chiropractic manipulation with relatively good relief. He also developed a low back pain in the lumbar area without radiation, again, responding relatively well to chiropractic type manipulation.

3. He developed pain in his face which was diagnosed as having tic douloureux. This was behind his right eye and had a burning aspect to it. He was seeing Dr Cohn, neurologist in Pueblo, who has him on a combination of Dilantin and Tegretol with good relief of this.

4. He has had some difficulty with cognitive problems. His neurologic exam has been consistently normal and we have obtained neuro-psych testing. This was performed in Dec 94 by Dr Mark Wexler. Dr Wexler found that Mr. Hopkins' neuropsychological assessment is that his memory is in the superior range. Attention and concentration are normal. General intellectual function is somewhat above average with a verbal IQ of 114, a performance IQ of 94 (low average range), and a full scale IQ of 106 which is in the average range. Dr Wexler's suggestion was that his complaints of memory and the neuropsychological findings suggest possibility of psychiatric rather than neurologic diagnosis and the patient has been followed by Dr Ingram, Psychiatrist.

5. My diagnosis is myofascial pain, mechanical low back syndrome, tic douloureux, decline in lapse of judgment probably secondary to depression.

6. At this point in time, he is only on Dilantin and Tegretol. His pain is gone. His neuropsychological testing as objectively measured seems to be relatively normal. There are no overt signs of gross depression.

7. Because of the above, I do not feel that a medical evaluation board is indicated. Because of the tic douloureux and the medications he is on, I believe that an aeromedical summary should be performed and he should be removed from flying. He is worldwide duty qualified with the exception to the fact that he requires medication management.

39B. DATE FINAL PAY WAS RECEIVED	

NOTE: Items 41A through 41G should be completed only if you are applying for nonservice-connected pension.

INFORMATION CONCERNING MEDICAL, LEGAL OR OTHER EXPENSES

NOTE: Family medical expenses actually paid by you may be deductible from your income. Show the amount of unreimbursed medical expenses you paid for yourself or relatives you are under an obligation to support. Also, show medical, legal or other expenses you paid because of a disability for which civilian disability benefits have been awarded. When determining your income, we may be able to deduct them from the disability benefits for the year in which the expenses are paid. Do not include any expenses for which you were reimbursed. Show the Medicare deduction in line 1.

41A. AMOUNT PAID BY YOU	41B. DATE PAID	41C. PURPOSE *(Doctor's fees, hospital charges, Attorney fees, etc.)*	41D. PAID TO *(Name of doctor, hospital, pharmacy, Attorney, etc.)*	41E. DISABILITY OR RELATIONSHIP OF PERSON FOR WHOM EXPENSES PAID
		Medicare (Part B)	SOCIAL SECURITY ADMINISTRATION	

41F. ARE YOU NOW A PATIENT IN A NURSING HOME?	41G. DOES MEDICAID COVER ALL OR PART OF YOUR NURSING HOME COSTS?
☐ YES ☒ NO *(If "Yes," please complete Item 41G)*	☐ YES ☐ NO *(If "Yes," give the name and address of the nursing home in Item 40, "Remarks")*

NOTE: Filing of this application constitutes a waiver of military retired pay in the amount of any VA compensation to which you may be entitled. See instructions for Items 14A thru 14D inclusive, Retired Pay.

CERTIFICATION AND AUTHORIZATION FOR RELEASE OF INFORMATION - I CERTIFY THAT the foregoing statements are true and complete to the best of my knowledge and belief. I CONSENT THAT any physician, surgeon, dentist, or hospital that has treated or examined me for any purpose, or that I have consulted professionally, may furnish to the Department of Veterans Affairs any information about myself, and I waive any privilege which renders such information confidential. DO YOU WANT TO HAVE MEDICAL AND OTHER INFORMATION ABOUT YOU INCLUDED IN THE "PERSIAN GULF WAR VETERANS HEALTH REGISTRY?" (See "GENERAL INSTRUCTIONS," paragraph K.) ☐ YES ☐ NO

42. SIGNATURE OF CLAIMANT	43. DATE SIGNED
SIGN HERE ▶ [signature]	9 5 96

WITNESSES TO SIGNATURE OF CLAIMANT IF MADE BY "X" MARK

NOTE: A signature by mark must be witnessed by two persons to whom the person making the statement is personally known. The witnesses must sign their names in Items 44A and 45A and type or print their names and addresses in Items 44B and 45B.

44A. SIGNATURE OF WITNESS	45A. SIGNATURE OF WITNESS

LINE OF DUTY DETERMINATION

AUTHORITY: 5 USC 2108, 3309 - 3315, and 8140; 10 USC 507, 972(5), 1074, 1074a, 1202, 1221, and 8722; 32 USC 318 and 319; 37 USC 204(j) and 802; 38 USC 310, 331, 610, and 612; and EO 9397.
PRINCIPAL PURPOSE(S): To determine if member's disease or injury was incurred in line of duty or not in line of duty.
ROUTINE USES: Used by the Air Force to determine eligibility for physical disability retirement or separation; lost time required to be made good; and forfeiture of pay for absence from duty owing to disease caused by intemperate use of alcohol or drugs. Used by the Veteran's Administration to determine eligibility for disability compensation or hospital benefits. Used by the Civil Service Commission to determine eligibility for veteran's preference. Used by the Labor Department to determine eligibility for compensation. Information may be reviewed by the base Ground Safety Office. SSN is used only for identification purposes.
DISCLOSURE IS VOLUNTARY: Failure to provide information will result in this form being completed using other sources of information.

12. DETAILS OF ACCIDENT OR HISTORY OF DISEASE

MSgt Hopkins had a MVA on 4 Jan 91 while on military status. Since that time he has had chronic and recurring pain and insomnia. On 26 OCT 93, MSgt Hopkins brought in a pamphlet from his private neurologist (Attached) linking these symptoms with a trigger responce to a previous event such as a automobile accident. There is a gap currently in his medical records where no medical problems related to this condition were recorded from 4 Jan 94 to 25 NOV 91. During the 25 NOV 91 examination, Dr. Todaro questioned the cause and effect relationship between history and presentation. (over)

Re: Client/Patient: Marshall Hopkins
Policy Number: 116352637716

Dear Mr. Callaway:

I am writing you regarding your client and my patient, Mr. Marshall Hopkins concerning his personal injury case. Mr. Hopkins continues to suffer and complain of his injury, signs and symptoms associated with his automobile accident of January 3, 1991.

He has indicated to the insurance company the need for continued care but the insurance company has discontinued his care allegedly due to his reaching maximum medical improvement. He continues to improve with manipulation and therapy with corrective, stabilizing, and palliative relief of his neuromusculoskeletal injuries and multiple compensatory stress points due to recruitment. He continues to improve and has not reached maximum medical improvement. Other health care providers have made numerous evaluations and referred him for continued chiropractic manipulations. Dr. Imran U. Kahn, M.D., neurologist, has administered several novocaine injections and directed him to have continued manipulative therapy with numerous written referrals.

Mr. Hopkins did not suffer from any of the current subjective complaints prior to his automobile accident. He was able to do his normal job related physical activities and requirements of extended travel. He is currently considering retirement due to his inability to perform his military occupational specialty.

Although Mr. Hopkins realizes he needs continued care he has missed appointments and numerous treatments. He requests spinal manipulations only with recent office visits and no adjunctive therapies due to his concern regarding his medical bills. He is concerned that the only therapy that gives him any symptomatic relief is being denied.

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

His bills have reached $1,839.41 and although I want to continue his care, the bills are getting exceedingly higher. This has resulted in lapses of care, incomplete therapeutic treatments, and prolonged aggravations. Mr. Hopkins case is not close to being closed and further diagnostic tests should be performed, e.g. functional capacity evaluation, disability rating. He also faces the strong possibility of early premature retirement due to the injuries sustained in his automobile accident.

I am concerned that Mr. Hopkins' condition will regress if he does not continue a regularly scheduled regime of manipulative therapy. However, I cannot continue to treat Mr. Hopkins without receiving payment from his insurance company which is wholly responsible for his medical bills. Mr. Hopkins has informed me that he is suing his insurance company to receive compensation for his injuries and medical bills as he will be held responsible for them if they are not paid. Please keep me advised of the situation with Mr. Hopkins' case as he is considering taking his case before the Colorado Insurance Commissioner due to U.S.A.A.'s nonpayment of bills in a timely manner, not only for his case but also for a separate case involving his wife and son.

If you have any questions regarding this case, please feel free to contact me. Thank you for your cooperation and consideration of this matter.

Sincerely,

Dr. Lawrence D. Sutton

Lawrence D. Sutton, D.C.

STASSEN CHIROPRACTIC CENTER

March 29, 1995

USAA
Attention: Gwin Hooper
1855 Telstar Dr
Colorado Springs CO 80920

Regarding: Marshall H Hopkins
Accident Date: 01-03-91
Insured's Name: Marshall H Hopkins, (b) (6)
Claim Number: 6-0706

The patient was examined in our office on March 27, 1995, for a determination of his present status. The following is a report of his subjective complaints and our objective findings and current recommendations.

HISTORY

Prior to treatment in this office for injuries sustained in the above automobile accident, Marshall H Hopkins was treated by many doctors including several neurologists, a general practitioner and several chiropractors. He stated the treatments did help but that the pains persisted and that he decided to look elsewhere for more relief. The patient reports no significant history of the above type of injuries. Previous employment has included safety inspector for the government.

COMPLAINTS

Neck pain, headaches, low back pain/4 yrs

EXAMINATION

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

The patient is athletic and trim.
The patient's attitude is calm.
The patient's height is 6'3".
The patient's weight is 180 lbs.
The patient walks without assistance.The patient is in obvious pain.
Positive cervical compression test.
Pain on traction of brachial plexus.
No pain when asked to cough.
Normal pinwheel sensitivity on upper extremities
Cervical flexion causes moderate pain.
Cervical extension causes pain.
Cervical lateral flexion causes slight pain.
Cervical rotation causes moderate pain.
Lumbar flexion causes moderate pain.
Lumbar extension causes no pain.
Lumbar lateral flexion causes moderate pain.
Lumbar rotation causes burning pain.
Positive Soto Hall test.
Local tenderness of C4,C5
Muscle spasm noted of entire cervical area.

RADIOLOGICAL FINDINGS

AP View Cervical View: No significant findings.
Lateral Cervical View: Slight loss of disc space posteriorly between C4-C5, and C5-C6.
AP Lumbar View: Slightly dropped sacrum on right. Rotatory subluxation of L4.
Lateral Lumbar View: Flattened lateral lumbar curvature.

DIAGNOSIS

847.0 Cervical whiplash injury
839.01 1st Cervical subluxation
839.05 5th Cervical subluxation
847.1 Thoracic sprain/strain

TREATMENT

All treatment to date has consisted of spinal adjustments and hydro massage therapy.

PROGNOSIS

BEST COPY COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Unknown at this time.

ADDITIONAL TREATMENT

Treatment is indicated for an estimated twelve weeks at three times per week.

If there is a sudden change in the patient's condition, we will notify you immediately. If you need additional information, please call our office.

Sincerely,

Patrick C. Stassen,D.C.

COPY MADE BY VBA FROM A RECORD IN VA'S POSSESSION

Patient Name: Marshall Hopkins
Date: March 23, 1995
Neurology Clinic:Pueblo
(b) (6) [redacted]

SUBJECTIVE: Patient returns to the clinic regarding his trigeminal neuralgia. He reports that he is taking Dilantin two tablets a day, but the pains are very severe and are nearly killing him. He cannot function. He is retired from the military.

He reports that he has never tried Tegretol for it, never used Baclofen and he does not like taking too many medications. He would rather use Dilantin.

The pains are like sharp electric jolts which go to his face and up into the head. Sometimes the pain is constant in the eye region. He cannot touch his face.

OBJECTIVE: Speech was fluent, patient was alert and oriented. Fundi showed sharp discs. Pupils were reactive and full eye movements were seen. Facial movements were symmetrical. Hearing was ok. Tongue and palate were midline. Neck movements were full.

Strength was 5/5 in all extremities tested with normal muscle tone and bulk. Coordination was normal. Gait was normal. Deep tendon reflexes were two plus and symmetric. Sensation is intact to touch.

Chest and abdominal exam was unremarkable.

Patient is tender to touch over the face and the paraspinal lumbar muscles.

ASSESSMENT: 1)Fibromyalgia
2)Trigeminal neuralgia in the right side

PLANS: Patient has been told to increase the Dilantin to three tablets a day. He can take them all at night and if that does not help him, we will consider using Baclofen or Tegretol. He has been told the side effects.

IMRAN U. KHAN, M.D.

AUTHORIZATION FOR ACCESS TO RECORDS OR INFORMATION PROTECTED BY 38 U.S.C. 7332

Unless specifically prohibited by me by checking the box below, I hereby authorize access to information or records relating to the diagnosis, treatment, or other therapy for the condition(s) of drug abuse, alcohol abuse, infection with the Human Immunodeficiency Virus (HIV), or Sickle Cell Anemia, that may be contained or maintained in VA claimant records pertaining to me, to the representative named on this appointment form. Redisclosure of the aforementioned information or records by my representative other than to VA, the service organization involved, or the Court of Veterans Appeals, is not authorized without my further written consent. This authorization will remain in effect until specifically revoked by me by filing a written revocation or by appointing a successor power of attorney.

☐ I DO NOT authorize the above-named representative to have access to information in my records relating to drug abuse, alcohol abuse, infection with the Human Immunodeficiency Virus (HIV), or Sickle Cell Anemia.

It is understood that no fee or compensation of whatsoever nature will be charged me for service rendered pursuant to this power of attorney and that this power of attorney may be canceled by me, or by the service organization named, on written notice to the Department of Veterans Affairs.

13. SIGNATURE OF CLAIMANT

Marshall D. Hopkins

PRIVACY ACT INFORMATION: The information on this form is requested under Section 5902 of Title 38 U.S.C. which provides for the recognization of representatives of certain organizations in the preparation, presentation and prosecution of claims under laws administered by the Department of Veterans Affairs; such representatives, upon appointment of claimant, may act for him or her and become entitled to information under provisions of 38 U.S.C. 5701(b). The information will be used to identify your records. Responses may be disclosed outside the Department of Veterans Affairs only if the disclosure is authorized under the Privacy Act, including the routine uses identified in VA system of records, 58VA21/22/28, Compensation, Pension, Education and Rehabilitation Records-VA, published in the Federal Register. Disclosure of requested information is voluntary; however, failure to furnish the information would impose administrative difficulties which may result in a delay in identifying your records and/or in a delay in the appointment of the named organization as your representative.

RESPONDENT BURDEN: Public reporting burden for this collection of information is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the VA Clearance Officer (723), 810 Vermont Ave., NW, Washington, DC 20420; and to the Office of Management and Budget, Paperwork Reduction Project (2900-0321), Washington, DC 20503. Do NOT send requests for benefits to these addresses.

NOTE: As long as this appointment is in effect the organization named herein will be recognized as the sole agent for presentation of your claim before the Department of Veterans Affairs in connection with your claim or any portion thereof.
